Nebraska's Veterans Again Assemble in Annual Fraternal Reunion.

MET UNDER CLOUDLESS SKIES.

GLIMPSES OF PRETTY CAMP SHERMAN.

How the Hosts Are Arriving-In a Eusy Man's Tent-On the Grounds-A Millitiaman.

GRAND ISLAND, Neb., Aug. 31.-|Special Telegram to THE BEE. ]-The thirteenth grand reunion of the Grand Army of the Republic of the Department of Nebraska opened today. The temperature averaged about 70 degrees. There was not a cloud to be seen. The elements smiled upon the undertaking. The soldiers were happy. The committee of arrangements was happy. The citizens were happy, and everybody seemed to feel that the promise of success for the great rounion was surely to be realized.

Grand Island stands as the premiere in the matter of manipulating soldlers. She has had more reunions than has had any other city of the state. She, too, enjoys the distinction of housing the indigent veterans whom fate has left friends. It may, therewithout fore, be believed that she well knows how to care for these gallant remnauts of an unconquerable host. In the present instance, profiting by past experience, there is little doubt that she has left anything to make the reunion the greatest success of the kind ever held in Nebraska.

Early this morning the first veterans arrived. Some of them stopped at Quarterpaster Harrisons and were assigned to tents. thers straightway trudged to their , hvas homes without the formality of inquiry. They had taken the precaution to make application in writing for quarters and had been mailed cards showing the street and avenue and number of the tents allotted to them. These tents they experienced no difficulty in finding, and thus saved the valuable time of the quartermaster, who, on occasions like the present, is supposed to be as many-tongued as a railway ticket agent.

Mr. Harrison is assisted by Mr. George Ryan, a veteran, whose knowledge of camp life was gleaned in the face of the enemy.

#### Coming of the Hosts.

All day the road between the city and camp has been alive with wagons, carryalls, hacks and street cars, conveying hundreds of veterans to the grounds. It has also been dotted with pedestrians who scorn the idea of riding to a reunion when the distance may be covered without inconvenience on foot. These veterans come laden with trunks, blankets, gripsacks and packs of all shapes and sizes. Women, too, lend willing hands and it is not an uncommon sight to witness a weary solan uncommon sign to witness a weary sol-dier trudging after a younger wife and a buxom daughter, both of whom carry all the equipage which is to render their sojourn one of ease and comfort. Without the camp and to the west side of the entrance there stands the old familiar

bagzage room of the Union Pocific which has already done service on several fields. In it are deposited almost countless parcels and packages and trunks, but they remain there only a short time when they are whisked off

There are candy shops, groceries, museums, merry-go-rounds on which young infantrymen madly charge with rocking horses to the great delight of rustic inamoratas; the petrified woman with a leeturer on physiology and antiquity, cane, and ring fakirs and restaurants waited on by big, husky hustlers from the country, big, husky hustlers from thurch young and again by meek and modest church young Indies of several religious denominations. The viands of the latter places are warmly commended, but they pale in attractiveness when compared with those who serve them. To the northward for half a mile stretches

Rioting and Tyranny. Comparative order has at last been restored

in this city. It took strong measures to do it. Rioters who were caught in the work were summarily dealt with and many of them were shot out of hand. But rioting was not

stopped until property estimated to be worth \$1,800,000 had been destroyed. Many acts of tyranny have been perpetrated here by government officials since last January, and every war shin in the bay has its quota of refugees. This gave rise to much dissatisfaction on the part of the con-gressional leaders. The feeling was particu-larly bitter against the Americaus, for Admiral Brown had given assistance to many unpepular officials on board the San Fran-cisco and Baltimore. Admiral Brown this afternoon had a long consultation with the leaders of the junta, and his explanations have had the effect of putting an end to 'the irritation against the Americans. The junta are exceedingly anxious to secure recogni-tion from the United States government and are now hopeful that it will be accorded

Government Officials Arrested. Numerous arrests of government officials have been made. The insurgents show a moderate disposition, however, and the lead-ers say that every man against who'n charges are made will have a full and fair hearing before the proper civil authorities when order is fully restored.

company with United States Consul Mc-Creary this afternoon. Montt and Canto say that there will be no election nor will any move be taken relative to the formation of a new government until the arrival here from Iquique of all the members of the junta. It is hardly probable, however, that an elec-tion will be held for some time, and in the

In all the campaign, from the landing of the congressional forces at Quintero bay August 20, until the capture of Valparaiso August 25, there was only one battle worthy of any name, and that was at Curico, when the congressionalists forced the passage. The ambulance service here has simply been disgraceful. Hundreds of wounded men were left on the pattlefield to die who might have been saved if prompt measures of re-lief had been taken. The surgeons of the foreign warships have done most valuable service in caring for the wounded, and had it not been for their hard, effective work, the sufferings of the wounded soldiers would have been much greater. Especial credit is due to the medical staff of the United States ships San Francisco and Baltimore. It has been ascertained that 800,000 pesos in silver was shipped on the British sloop of

#### this reason Leo XIII demands union, pendent action and the revive pendent action and the rev the ancient national councils, revival which after the fashion of that at Baltimore, shall give to Catholicism independence, renewed youth and mex-haustible vitality. Considerable interest is felt in diplomatic and ecclesiastical circles in the approaching election in September of a general of the Dominicans. At the vatican, and especially on the part of Pope Leo, it is

earnestly desired that the choice may fall upon a foreigner, and if possible a French man. The provincial of Lyons is prominently mentioned in this connection. Ever since the pope's accession to power he has thrown his influence in favor of placing foreigners a the head of the religious orders. He has ha two reasons for this course: 'He has desired to mark in an emphatic manner the internationa character of Catholic institutions and to pre pare the way gradually for a foreign pope, and he has also desired to give renewed vital-ity to the religious orders in Italy where they are less well organized than in other cour tries. In pursuance of this policy he secured the election of Father d'Andermatt

Swiss, to be general o Capichins, and of another Swiss of th pries to be general of the Redemptorists. If now the Dominicans choose a Frenchman, this will be another step in advance as the choice will fall, not upon a man from a neutral country, but upon a subject of one of the great political powers. It is for this reason that more than usual interest attaches to the approaching elections.

#### FOUR AND A HALF PER CENTS.

Over \$23,000,000 Worth of Then Continued-Extending the Time. WASHINGTON, D. C., Aug. 31 .- The amount of 4% per cent bonds continued at 2 per cent today was \$181,850, making a total to date of \$23,221,650. This leaves about \$27,000,000 415 per cents outstanding. It is impossible at present, however, to make any definite estimate as to the amount of these that will be presented for redemption, especially as the time within which they may be continued at 2 per cent is to be extended beyond September 2 for a period not yet fixed. Secretary Foster said this afternoon that he thought that between \$20,000,000 and \$25,000,000 for per cents will be presented for redemption. This will be be presented for redemption. This will be entirely satisfactory to the department, the secretary said, as it would force that much money into circulation at a time when there

is great need of it in moving the crops. The disbursement of this sum of money, the sec-retary said, will not embarrass the Treasury department, as this leaves \$106,000,000 available including disbursing officers' balances, and exclusive of the \$100,060,060 gold reserve. He said that a circular will be issued Sep tember 2, extending the time for continuing the bonds.

Murder the Recompense a Connecticut Tramp Gives for Hospitality. HARTFORD, Coun., Aug. 31.-A murder, more fiendish than any in the annals of crime in Hartford county, was committed in the town of Bloomfield at an early hour yesterday morning. At that time Henry Frederick Bushenhagen, aged 69 years, and his wife Emily, aged 71, were killed by a tramp to whom they had given shelter. Not content with simply killing them he had frightfully mutilated their bodies and then thrown the bleeding corpses into an old well. When the fearful crime was made known the excitement in Bloomfield was intense. Men, worked into a passion of wrath, hunted through the ad-

acent woods, intent on apprehending the as-sassin, but without avail. The murder was sassin, but without avail. The murder was suspected last night but not until this more or were the bodies found, Neighbors who came for the purpose of in
