Denver, 14: Omaha, 6. Kansas City, 2; Sioux City, 1.

ESTERDAY'S game wound up the season on the home grounds and it was a befitting close, the Omahas being de-

feated by a score of 14 to 6. This morning the team goes to Sioux City for a series of three games, thence

to Kansas City, if Kansas City will guarantee their expense, and after four games there the Omaha club will at least disband, which will virtually enp the Western association.

His Head Blown to Atoms by Charges of Buckshot-A Boy's Bravery. JACKSONVILLE, Fla., Sept. 4 .- Harmon Murray, the notorious colored outlaw, who has defied the authorities for nearly a year and terrorized a wide section of country, was killed about daylight this morning by Hardy

Early, a colored lad of 17. The killing occurred in a swamp near Archer, Fla. Murray called on Early about 4 o'clock and ordered him to go with him to Archer, where he said he was going to "kill some crackers" and then leave Alachua county. Early did not want to go, and said he had no gun, but Murray took Early to the latter's brother's house and made him produce a double-barrelled shotgan. Both barrels were loaded with buckshot and Early put fifteen more in a barrel. The two then started toward Archer, having to pass

through a swamp on the way.

When they got into the swamp Early pretended he did not know the trait and asked Murray to lead. Murray took the lead, and immediately Early poured the contents of both barrels into the back of Murray's head, killing him instantly. Early then notified the people at Archer and a crowd went to the spot, brought the corpse to town and after-ward sent it to Gainesville.

The excitement there was intense as several lynchings of Murray's confederates have occurred in that vicinity. Early was the hero of the hour and was mounted on a box from which he made a speech, describing the affair. He will get \$1,500 in rewards. Mur ray had killed seven men within the past few thirsty.

Thus ended the most successful racing meeting ever held in this county, and it is but just to give credit to the gentlemen who have worked so hard for its success, and to give the public good racing for their money. Secretary Baumer, Treasurer Bolla and Su-perintendent of Speed Mount worked hard to nake it a success, and the successful management of the grounds and track has been largely in the bands of Messrs' Ambler, Root and Troitschke. PASSING THE DARDANELLES. England Will Ask Turkey Why She Gave

Free Passage to a Russian Fleet. IT HAS THREATENED EUROPE'S PEACE.

Turkey Demands That England Shall Leave Egypt-France Will Probably Support the Porte-General Foreign News.

Copyright 1891 by the Western Associated Press.

London, Sept. 4 .- The semi-official state-

nent which the porte issued yesterday in

regard to the agreement with Russia touching the passing of the Russian volunteer fleet through the Dardanelles, is quickening the British foreign office in its efforts to obtain concerted action on the part of the treaty powers in demanding a full explanation from the porte. Within two days Lord Salisbury's attitude appears to have changed from one of intended indifference into one of keen diplomatic activity. From Chateau Cecil, where he still abides, he has woke up the officials of the Foreign department here, through whom, night and day, cipher dispatches pass in a stream to and from the European capitals. A high official of the department, who was recently of the opinion that the Moscowa incident would not effect the existing relations between Great Britain and Turkey, now takes a view that the Russo-Turkish agreement will make necessary an early demonstration on the part of Great Britain, even if she has to act alone. The porte's statement is evidently in-tended to cover Turkey's responsibility in the event of the expected remonstrances of the powers. Lord Salisbury's position, as to the powers, is that the Russo-Turkish agreement is an invasion of the treaty of Paris. Turkey could not assent to an open and flagrant violatice of the treaty by giving Russia the right to send war ships through the straits, but she makes concessions, tantamount to the same privilege, in permitting the passage through the Dardanelles of a volunteer fleet, equipped with guns and filled with soldiers. Be the developments of diplomacy in the case swift or slow, British intervention ultimately

appears to be inevitable. The Paris Temps distinctly indicates that the French government intends to support the sultan's right to enter into a special con tract with Russia outside of the articles of the treaty.

With the straits trouble is directly in oived the question of Egypt. Monkitar asha, the porte's commissioner in Cairo, has enewed his demand through the khedive for the evacuation of Egypt by the British. Cairo advices state if this demand is refused Moukitar Pasha will ask the sultan to recall him, and to leave the post vacant as a protest against the khedive's contumacy toward the suzerata. The British ambassador at Constantinople,

Sir William W. The agent of the Chilian junta sent to the foreign office a note in reference to the silver carried from Chili by the British warsnip Espiegle. its arrival in England and will be re tained pending a legal decision on the junta's rights to it. Diplo-matic relations between Great Britain and Chili are in a chaotic state. Balmaceda's last envoy, Senor Vacuna, never presented his credentials here and is now in Paris awaiting developments. The junta's agent, who has long been secretly holding friendly

communications with the government, will obtain every assistance in capturing the silver. The theosophy fad is infecting society throughout. Spiritualism, long dormant, is experiencing an energetic revival. The announcement that the prince of Wales will revisit Tranby Croft this autumn evokes loud outcry from the religious press. AS A MATTER OF NEWS. Fifth Warders Suggest What The

Bee H is Already Done. Municipal economy was the first subject proached last night by the Fifth Ward Kickers' club, and it was introduced by Mr. Schnake in a resolution which declared that it was the sense of the gentlemen assembled that the city council should not expend any money for the purpose of having the new Australian election law published in the

newspapers. Mr. Schnake held that a carefully prepared epitome of the law filling about one column of an ordinary newspaper would be sufficient and that the newspapers ought to print that much as a matter of news and for the benefit of their subscribers, without asking pay for it. The resolution was adopted.

Mr. Schnake then introduced a resolution favoring the nomination of Judge Wakeley for the district bench. The club was divided upon this question and the resolution was defeated. The city council and the county authorities were given a rap over the head for their re-missness in failing to enforce the law with

reference to suburban saloons within the two-mile limit.
A motion to request the city council to submit a bond proposition for \$150,000 for the public library building and grounds created lively discussion and was finally carried.

The club then discussed the street railway problem as touching the transfer question and franchise for the Metropolitan company, the final conclusion being that if the new com-pany would bring legitimate competition the franchise ought to be grunted and all the street car lines should transfer presengers from one line to another across the city for

General Financial Statement of the Government Issued.

ENCOURAGING CONDITION OF AFFAIRS.

Calamity Howlers to Be Defeated by the Measure-First Documents of the Kind Prepared in Many Years.

WASHINGTON BUREAU OF THE BEE, 1513 FOURTEENTH STREET, WASHINGTON, D. C., Sept. 4.

For the first time in a great many years a general financial statement of the government is to figure prominently in a political campaign. There have been so many misstatements in the press and on the stump during the pending campaign in Ohio respect ing the conditions of the finances at present as compared with those at various other periods during the past quarter of a century and so many times has Secretary Foster been requested to furnish information on the subject, that he has ordered 5,000 copies of a statement which covers twelve pages of closely printed matter under the title of "The Volume of Money in Circuiation." Secretary Foster said before going away on a fishing trip yesterday that for four weeks he had averaged fifty letters a day from Onio, written by men of all political faith and inclination, asking him about the per capita circulation and the volume of sur plus of the available assets of the government at this time and at various other periods since the beginning of the late war. The statement which is being printed will

be sent free to every one who applies and

cannot therefore no considered a partisan document as it contains no comment whatever. There is simply a plain exposition of resources of the government at the beginning of each fiscal year since and including 1560. The misleading statements of Peffer, Simpson and other infiationists who have been on the stump and subjected themselves to newspaper interviews, have very much perplexed the officials in the treasury department who are familiar with the figures and facts and it is to negative these as well as to generally educate the public that this statement is especially pre-pared. Major McKinley has repeatedly applied for some kind of a general statement on the subject of finance, that all questions of doubt might be officially determined. The effect of the figures will be a great deal of om-barrassment in the democratic camp and it is not likely that many democratic orators will ask for the document. The gist of the matter contained in this statement which is to be sent to Ohio was published in the regular press dispatches some days ago and showed, among other things, that the country has a much larger per capita circulation at present than at any other time in the history of the govornment. During the war the circulation was but a few cents above \$10, while at present it is \$23.45 per soul. The amount of money in circulation in 1862 was \$334,000,000, and at present it is over \$1,500,000,000.

CONGRATULATING THE PRESIDENT. Telegrams are pouring in from the west congratulating the administration of President Harrison on having secured the admis-sion into Germany of American pork. Sec-retary Rusk says it will give the farmers

such a lift as they never had before, taken with the abundant crops.

The president is greatly pleased over the success of the negotiations. It is regarded as especially important, in view of the fact that under President Cleveland no attention was paid to the appeals of the farmer for an enlargement of their market abroad, and it was predicted by the democrats in the last congress that America's foreign markets would be restricted by the McKinley bill. Now both France and Germany take America's hog products, thanks to republican laws

and diplomacy.

GOLD IN RESERVE. Secretary Foster of the Treasury

Makes a Statement. WASHINGTON, D. C., Sep. 4 .- The amount of 41 per cent bonds presented for redemption yesterday was \$2,199,800. This makes the total presented for redemption to date, \$8,687,500. The amount of 414 per cents continued at 2 per cent yesterday is \$152,250, making the total continued to date \$23,706,250. A statement prepared by the treasury department shows that there was a net increase

of \$6,168,321 in the circulation during the

monah of August, and a net increase of \$13,000,604 in money and bullion in the treasary during the same period. Secretary Foster made the following statement in regard to the condition of the treasary: "The irresponsible statements pubished to the effect that the treasury will be practically exhausted by the payment of about \$20,000,000 of 44, per cent bonds is est answered by the fact that we had in the treasury yesterday in excess of the \$100,000,000 gold reserve. \$117,500,000 of money, with a contingent liability of \$47,000,000, leaving the net cash more than \$60,000,000. As to the \$47,000,000 of cash, reserved to cover the contingent liability, if held by a bank \$40,00,000 of it could be louncd with accolute safety. The best asswer to these critics is that the bonds will be paid tomorrow if presented,

and the strain on the treasury will not be felt.
"I am entirely satisfied with the result. More than \$25,000,000 of money, for which there is no use in the treasury, will be put into circulation, thereby aiding the business

interests of the country, and practically assuring a comfortable money market."

Breaking Up the Lottery. WASHINGTON, D. C., Sept. 4.—Postoffice Inspector Maynard of the New Orleans district, eporting on the lottery cases, says he thinks the power of the Louisiana company is broken and business is reduced to such a point that although the company advertises a capital prize of \$800,000, yet it does not now all more than half of any ticket, so it is impossible for the full capital prize to be drawn.
