CHICAGO BUREAU OF THE BEE. CHICAGO, Ill., Sept. 4. As an outcome of the assault upon J. B. Ruskland of the Stock Yards market by Ed Morris, an account of which was published in The Bee during the quarrel over rebates...

and others who have joined hands with me," said Mr. Ruskland, "but who don't want to disclose their names because they are at the mercy of the combination at present, are in possession of documentary and other evidence to prove that a combination exists among the following packers: The Fairbank Canning company, Swift & Co., Nelson Morris, the Cudahy Packing company, Armour & Co., Libby, Mitchell & Libby, and the Calumet Canning company.

"Aside from this part of the combination trust, which is against the federal and state laws, Chicago and the western states are discriminated against in the matter of prices. Different schedules are issued for the eastern and western states and the large cities. Chicago and western butchers are compelled to pay from 1 to 3 cents a pound more for meat than they must pay from the combination than butchers in New York, Philadelphia and other eastern cities do after paying the freight charges.

In almost every community there are one or more persons who are subjected to periodic attacks of bilious colic. In most cases for a day or two at least two hours before the attack, it can be felt coming on. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear the attack may be warded off. In such cases the Remedy should be followed by a dose of St. Patrick's Pills at bed time.

German prohibition of American pork imports promises a largely increased demand for important products and a possible addition to merchandise exports for the year. Exports from New York in five months exceed last year's nearly 31 per cent, and, with imports also increased largely, the balance of trade turns decidedly in favor of the United States.

At Chicago wheat receipts are four times last year's, rye nine times, corn and dressed beef double, and oats show an increase.

At Kansas City, the trade in specialty of worsted and fair trade in tobacco and chemicals, but collections are generally dull. Manufacturing is active at Baltimore and jobbing trade is healthy.

At all southern points higher cotton stimulates trade and collections are somewhat better, and at New Orleans there is a fair demand for sugar. At most southern points money is also easier and at New Orleans in ample supply for legitimate needs.

IN FOUR PATTERNS, FROCKS AS WELL AS SACKS, THE MOST DURABLE AND DESIRABLE SUITS, EVER OFFERED TO THE PUBLIC.

To those who last year bought our celebrated natural wool shirts and drawers at \$1.00 a garment. Be it known that we have secured the sale of the same garment this year, and expect to sell thousands of suits.

There may be garments with a venerated face, made to look well, that can be sold for less, but there is no garment in the country sold for \$1 that has more wool in it, or will stand the desired wear and tear, better than this one.

This is our opening speech; our intentions are to shove prices in so thick and fast as the season progresses, that if by the end the laurels don't fall to us, it will be through no fault of ours.
