#### FLANAGAN WILL BE FIRED.

Cmaha's Big First Baseman Acted Very Ugly at Sioux City Yesterday.

HE WAS FINED ONE HUNDRED DOLLARS.

Two Games That Were Travesties On Baseball-Billy Traffley in the Muss-Other Sporting Information.

Sloux City, 18-15; Omaha, 4-0,

Denver, 8; Kunsas City, 2.

Sioux City, Ia., Sept. 6 .- | Special Telegram to THEBEE. |-A crowd of about 5,000 witnessed two games between the Sioux City and Omaha teams. The visitors simply were not in it. They were totally disorganized. Flanagan and Traffley have been trying to break up the Omaha team and they redoubted their efforts today. Flanagan has always been a disorganizer and made much trouble in the Des Moines club. Yesterday he was foul-mouthed on the grounds to an extent which disgusted his associates and he was duly roasted in the pajers. This morning Bob Leadley started to give him his release, but later took him back; but Flanagan bad hardly took his stand on first bag when it became apparent that he had deliberately resolved to make trouble. He allowed ball after ball to go by him when he could obviously have stopped them easily

Manager Leadly fined him \$100 before the game was half played out. This seemed to cool him down somewhat. Traffley was in the plot with the obstrep-

crous first baseman and co-operated with Both conspirators will be released probably. Big Morrissey, who has played first base for the Corn Huskers, will supply Flanagan's place, at least temporarily.
Under the circumstances it was utterly impossible for the visitors to play good ball.

The remainder of the team worked like Tro-jans, and at times played well, but they were thoroughty disorganized. In the second game Rasty Wright had to be put into the box, and his delivery was merely pudding for the Corn Huskers, who were never in better trim for triumphant ball than today. It would only be a weariness to the fiesh to enter into the details of the game. A glance at the score is sufficient.

Western Association Standing.

AMONG THE AMATEURS.

Omaha Sunday Games. Out at the association grounds yesterday the Commercial Avenues and the Falconers played a rather warm game. The feature of 

The Blues and the Hospes played a very one-sided game, as this score attests; Blues 6 2 4 3 7 1 2 3 1—20 Hospes 1 0 1 0 0 0 1 1 0—4 Batteries: Biues, Shepherd and Wassher; Hospes, Johnson, Oswaid and Cole.

The Florentines took one from the Collins Gua company with ease, the score being:

Batteries: Florence, Baldwin and Beil; Col-lins, Baker and Wilhelmy.

The Stars from Eighteenth street twinkled one run more than the Stars from Williams street. Score by innings:

Eighteenth street. 0 0 0 0 4 3 3 1 1-12 Williams street. 2 0 0 0 5 1 1 0 2-11 Batteries: Eighteenth street, Creley and Graham; Williams street, W. Buser and Kreba. The Blues would like a game for next Sunday afternoon with the Torments. Address Fred H. Rembe, manager Blues, 712 South Thirtrenth street.

Columbus Won. CHUNDUS, Nob., Sept. 6.—[Special Tele-ream to THE BER.[—Platte Center and

Columbus put up a good game of ball today at the fair grounds with a score of 11 to 10 in favor of Columbus. Three hundred people

witnessed the game. Won by Batting. PATTSMOUTH, Neb., Sept. 6.—[Special Tele-gram to THE BEE.] -The Plattsmouth team today administered bad drubbing to the Cranes of Omaha. The game put up by the home team was very strong and the visitors stood no show whatever. The Cranes played

batted strongly and made every hit count. Score:

Cranes ... 0 2 0 0 0 0 0 0 3 - 5
Plattsmooth ... 1 3 0 0 0 3 2 1 \* 19
Errors: Cranes, 6; Plattsmouth, 6. Hits:
Cranes, 2; Plattsmouth, 9. Batteries: Carrigan and Swartz. Miller and Maupin. Struck out: By Carrigan, 3; by Miler, 10. Base on halls: Off Carrigan, 4. Two base hits: Tom Patterson. Schulhoff and Charles Miller. Double plays: Evenre to Nelson to Bowman. 3; Miller to Gadke and Lincoln to Gadke to Sam Patterson. Left on bases: Cranes, 4; Plattsmouth, 6. Umpire: Chet Smith.

their best and made three spiended double plays, but to no purpose, as Plattsmouth

Won by the Monitors. Bellevue, Neb., Sept. 6 .- | Special Telegram to THE BEE. |- Today's ball game between the Monitors of Omaha and the Bellevue nine resulted in a score of 17 to 5 in favor of the Monitors.

#### SPEED RING.

the opening day of the fail meeting:

The Oriental handleap for 3-year-olds and upward; \$100 each, or \$25 if declared by 4 p. m. on the day preceding the race; with \$5,000 added of which \$1,000 to second and \$5,00 to third; one mile and quarter. Kingston, 128; Fon, 124; Riley, 122; Loantaka, Judge Morrow and Racelland, 120 each; Prince Royal and Los Angeles, 116 each; Demuth, Tea Tray, Ban Chief and Santiago, 115 each; Diable and Burlington, 114 each; Banquet, Clarendon, Strathmeath and Rey Del Rey, 112 each; Reclare, San Juan and Sr John, 110 each; Cracksman, 108; Cassius, 107; Abi and Long-Dance, 108 each; Port Chester, Castaway II and Peter, 105 each; Masterlode, 104; Unogrande, 102; English Lady and W G Morris, 100 tach; Folsom, 95; Charlie Post, 92; Sir George and Kirkover, 90 each. the opening day of the fail meeting:

Sea and Sound Entries. NEW YORK, Sept. 6 .- Entries for the Sea and Sound stakes, the first part of which will be run at Sheepshend bay on Thursday next

are as follows: The Sea and Sound stakes, the winner to The Sea and Sound stakes, the winner to receive two-thirds of the stakes paid for starting \$2,000 futurity course: Lavish, Tringle, Marmont, Caliph, Benvollo, Fair Piay, Shell Bark, Lottery, Coxswain, Othmar, Strath Clyde, Julio, Pokena, St. Florian, Mars, Anna B. Barefoot, Fauvette, Pearl Rivers, Ozric, Entre, Actor. Lamplighter, Marilia, Alonzo, Alcona colt, Candelbra, Bordeaux, Kahilula colt, Wightman, Ludwig, Heligate, Yorkville Belle, Fred Let, Renie, Beau Brummel, Vestibule, Kirsh, Julian, Dagonet, Aquilla and Notus.

Tips for . oday. These horses have been picked as very likely chances for first and second places in the respective races today

SHEEPSHEAD BAY. 1. Lew Weir; Guilinda.
2. Contribution; Belleva.
3. Tenny; La Tosca.
4. Firenzi; Demuth.
5. Willie L; Kempland.

 Loantaka; Cassius.
 Watterson; Pagan. 1. Drift: Abliene.
2. Pomfret: Brutus.
3. J T; First Lap.
4. Pailsade; Dr. Nave.
5. Grandma; John Winkle.

GARFIELD (CHICAGO). 1. Gaylord; Conundrum.
2. Osborne; Hagen.
3. Aloha; Michael.
4. Ernest Race: Brandolette.
5. Unudilla; First Day.
6. Red Leo; Message.

Amateur Athletes at St. Louis. Sr. Louis, Mo., Sept. 6.-A crowd of 20,-000 assembled at Sportsman'a park this afternoon to witness the field sports of the Western Association of Amateur Athletes, Representatives from the Missouri Bicycle and Athletic club, Olympic Amateur Athletic club, Shamrock Football and Athletic club, Missouri Gymnasium and Athletic club of St. Louis, Gaelic Athletic club and Wanderers Cricket and Athletic club of Chicago, and the Belleville Athletic

Gaelic Athletic club of Chicago captured six prizes, the Missouri Bicycle and Athletic club five, and the Olympic of St.

H. A. Wiencke of the Missouri Bicycle and Athletic club distinguished himself by winning three of the events credited to his club, while J. E. Ryan won three, and Michael Kennedy won two of the six events of the Gaelies of Chicago. Ryan also broke the record for throwing the fifty-six pound weight. He threw the weight twenty-seven feet seven and one-half inches, while the record is twenty-seven feet four inches. Kennedy won the one mile and three mile runs with ridiculous ease. The other events

#### GROUND TO DEATH.

Fate of Switchman David McKey in the St. Paul Yards. Yesterday morning at 9 o'clock another

switchman in the employ of the Chicago, St. Paul, Minneapolis & Omaha railway lost his life, making the second man killed in that company's yards within one week. The unfortunate of vesterday was David

McKey, who lived with his wife and two children on North Sixteenth street, near the fair grounds. McKey was uncoupling a box car from

switch engine No. 213. In some way his leg dropped from the brake rod on the car and his foot caught in a frog. With a cry for help the man was drawn under the wheels and his right leg ground to pieces. In addi-tion he received a number of severe cuts and bruises. Death was almost instantaneous. Coroner Harrigan was sent for and viewed the remains which were removed to Heafey & Heyfey's undertaking rooms. An in quest will be held at 10 a. m. today.

W. L. Shackley was the engineer and I. B. Cogley was foreman of the switching crew. Neither of the men saw the accident, but heard the cry for help and stopped the train as soon as possible. The only eye witness was an employee named Dowdell and his story is the same as given above.

Professor Davenport, of Michigan, Offered a Splendid Place by Brazil. LANSING, Mich., Sept. 6.-Eugene Davenport, professor of agriculture at the Michigan college, today received a telegram offering him the presidency of the college, which it is proposed to establish in Brazil, at an annual salary of \$6,000, together with a house and living expenses. So desirons are the Brazilians of securing Professor Davenport's services that they offer to pay his expenses both ways if, at the end of a year's expiration, he does not desire to re-main at the head of the institution. The honor done Michigan by this selection is all the greater when it is considered that Prof. Davenport graduated from the Agricultural college in 1878, and has since been connected with that institution. Prof. Davenport will thoroughly consider the offer before arriving

Ohio's Labor Day Celebration. CINCINNATTI, Sept. 6. -Quite a number of people from the surrounding country, far and near, are coming in here tonight to attend the great celebration of Labor day tomorrow The celebration will be a great mass picnic at Woodsdale, on the Cincinnatti, Hamilton & Dayton railroad, thirty miles north of Cincinnatti. The principal speaker will be Hon, William McKinley, the republican candidate for governor. Governor Campbell, who was expected to be there, will not be present. Several labor orators will make speeches. McKinley will arrive here early in the morning. It is expected that over 10,000 people

Believe They Have Them. GOSHEN, Cal., Sept. 6.—Officers passed through here late this evening with two men believed to be Sierres train robbers.

Railroad Extension. INDIANAPOLIS, Ind., Sept. 6 .- It is stated on good authority that the Ohio Southern will shortly build an extension fron Spring-

field to Lima, a distance of seventy miles. The proposed road will traverse a strip fifty miles wide, with no north and south roads, and tap a very tertile and wealthy country. Subsidies, amounting to \$50,000 are practic ally ensured and an equal sum can be secured from the owners of the land along the line. Officers of the road will go over the proposed route this week and a survey will be made in

#### LAST WEEK'S CLEARINGS.

\*Not included in totals.

The clearings last week in New York and Boston were for six days, which compares with a five-day week last year. This accounts for the large increase for those two cities, and also in the total. Thirty-two cities increased and twenty-eight decreased, as compared with last year.

In comparison with the previous week, the total exchanges increased \$239.161,261, or 28.3 per cent, and outside New York the exchanges increased \$66,040.165, or 19.3 per cent. \*Not included in totals.

#### HE IS IN JAIL NOW.

End of a Young Man's Efforts to Discomfit a Rival.

Fred Haller was a surprised young man last night when Detective Ellis tapped him on the shouldernt the Union depot and quietly remarked that he was a prisoner. Haller thought different and struck out for freedom on a dead run with the sprinter of the dectective force after him. Ellis caught up to his man after running a half dozen blocks and gave him a free ride to the city jail. There There is something of a romance connected

with the arrest. For a year and a half Hal-ler has been boarding with Mrs. Gertie Reed at 1617 Chicago street. He fell in love with his fair landlady and was exceedingly jealous. With all his attentions a man named Berger seemed to have the inside track, and so young Haller evolved a scheme to get his hated rival out of the way. He waylaid a couple of letters and learned the address and ings of Berger's family at Mouiton, About 2 a. m. Saturday a telegram for Berger was brought to the house saving that Berger's father had met with an accident and was badly hurt.

Upon receipt of the message Berger left at once for home and Haller improved his opportunity by gathering up \$30 worth of Mrs. Reed's jewelry and getting away. Berger came back about the time the loss of the jewelry was discovered. He and Mrs. Reed mourned their loss for awhile and then reported the matter to the police with the

above result.

Haller will have to answer to the double

charge of larceny and forgery today,

FOR MAKING FALSE ENTRIES.

#### Iwo Ex-Clerks of the Defunct Key-

stone Bank Arrested. PHILADELPHIA, Pa., Sept. 6.-Chas. R. Ege

and E. L. Maguire formerly individual ledger clerks at the broken Keystone bank, were arrested last night charged with making false entries in their ledgers and with making such statements as would lead to deceive the bank examiner. It is expected that another arrest upon the same charge will be made tomorrow. The arrest of Maguire and Ege were made upon affidavits sworn out by the government accountants who have been examining the books of the bank. Late tonight Maguire and Ege were brought before United States Commisstoner Craig and released in \$1,000 bail for a hearing on Tuesday. The method allered to have been pursued by Maguire and Ege in their faisifications of their ledgers was to lecrease the balances of depositors. vesterday morning when he was dismissed Ege has been helping Receiver Yardley to straighten out the books of the bank.

#### FRYE AND PROBIBITION

Maine's Senator Says it is the Only

Cure for Intemper nee. LEWISTON, Me., Sept. 6. Senator Frye delivered an address at a temperance meeting here this afternoon to an immense crowd. He asserted that the prohibitory law was the only remedy for the evil of intemperance. He also denied that the habits of Europeans tended to temperance, saying France was deteriorating by abscinthe drinking, Italy by cheap and strong liquors, Germany by brandy, and held that the German emperor was alarmed by the increase of intemperance, and was issuing edicts tending toward a reduction in the growing consumption of spirits. In closing Frye cailed on the mayor and county executive officers to enfore the law, and ended with powerful exhortation to the people to stand by the laws.

#### CALIFORNIA'S CONFICTS.

Daring Plan to Escape from Prison Frustrated.

San Francisco, Cal., Sept. 6.-A daring plot to break from the state prison at San Quentin has been discovered, and seven leaders, whe were the most desperate among the 1,300 convicts, have been placed in solitary cells. It was the intention to fell the guard with a slung shot as he paised the cell of one of the leaders. With his keys, all other convicts would be released, the guards in the yard overpowered and escape made. The plot was detected by a guard overhearing certain words that roused his suspicion. The men were watched and gradually the names of the leaders learned. When the crisis was thought to be at band the leaders were quietly arrested and lodged in solitary cells, where they are being closely

Sinking of a French War Ship. SAN PHANCISCO, Cal., Sept. 6.—Private advices from Faboti bring news of the sinking of the French war steamer Volago. July 19. No lives were lost, but the vessel is a total wreck. A schooler has been sent to bring back the crew.

### THE WORLD'S FAIR WONDERS,

Rare and Costly Things to Be on Exhibition at Columbia's Fair.

THE WORLD WILL CONTRIBUTE TREASURES.

Every State in the Union and All the Nations of the Earth Will Aid in blaking it Attractive.

CHICAGO, Ill., Sept. 6.-A magnificent microscope has just been completed by the Munich Poeller Physical and Optican institute for the great Chicago exposition, at a cost of \$8,750. It possesses a magnifying power of 11,000 diameters. As might be expected, electricity plays an important part in the workings of this gigantic instrument. which, after inspection by American citizens, is expected to give an impetus to the Munich mart for scientific apparatus. The electricity furnishes and regulates the source of light, which placed in the focus of a parabolic aluminum reflector reaches an intensity of 11,000 candle power. The electricity also provides the means of an ingenious auto matic mechanism for the centering of the quadruple condensers and illuminating the lenses. There is an arrangement for the exact control of the distance of the carbon point. The most important novel feature is the cooling machine, which is indispensable on ac count of the extreme beat, 1-43 calories per second, generated by the intense illuminating arrangement. A machine regulated by a Helmnotz electric centrifugal regulator provides the several microscopic and polariscopic systems of the apparatus with a fine spray of fluid carbonic acid, which immediately after its release from the copper vessel, in which it is held under a pressure of twenty-three atmospheres, becomes converted into gaseous matter, so intensely cold that only .00007 gramme of carbonic acid per second is required to give the result. The magnifying power of the apparatus with ordinary objectives, as has been stated, is about 11,000 diameters. but with the oil immersion it can be increased Mrs. Potter Palmer has called upon

women sculptors to send designs in the form of miniature models of the sculpture work for the women's building. The designs must be delivered to Mr. Palmer's office before November 15 next. One is a group of figures in high reliei to fill the pediment over the main entrance, forty-five feet long at the base line and seven feet in the center. The second design of groups of statuary stands free above the attic cornice, resting on the base, five feet long, three feet deep and two feet high, sixty feet from the ground. These groups consist of a cen-tral winged figure, standing about ten feet high to the tip of, the wings, and supported by smaller sitting figures. The compositions should be typical of woman and woman's work in history. Each design submitted must be accomplished by an estimate of cost, with full-sized plaster models, delivered at

Jackson park, and the authoress of the design accepted will receive the contract for the execution of these full-sized models. The preparation of Colorado's exhibit is progressing energetically. Besides the min-eral, agricultural and educational exhibits, the flora and faunt of the state will be shown in great completeness. Already more than 1,000 specimans of plants have been pressed; nearly 200 varieties of fruit have been duplicated perfectly in wax, and more than 2,000 species of insects have been mounted.

The Texas World's Fair Exhibit associa-

tion is pushing, with great energy, the work of collecting funds for the states's represen-tation at Chicago. The sum desired is \$300,-000, and this has been assessed among the 245 counties as nearly as possible, according to population, on a basis of 15 cents per capita. The association has headquarters at Fort Worth and his distributed a great deal of persuasive literature with excellent results. In one of its circular letters appears the following: "Texas must not fail to participate in an exhibition cost-ing nearly \$50,000,000; one in which every nation and commonwealth in the world will be represented and where she can show her vast resources to 50,000,000 of visitors, which peans in five years 1,000,000 new people and \$500,000,000 more money to circulate in our

An impostor, calling himself "W. Stiassny, of 19 Rue Louis-le-Grand, Paris," has been engaged in selling, in Europe, agencies for the exposition. He sold the agencies for Nor-way and Sweden to a Stockholm man for \$2,000. The exposition authorities have taken steps to put a stop to his operations. No one is authorized to sell agencies for the ex-

It has been decided to have the machinery solated structure as at first planned. annex will adjoin machinery ball on the west. The entire structure will thus measure 500 by 400 feet and be second in size only to the 1,400 feet, and be second in size only to the manufactures' building, the dimensions of which are 788 by 1,688 feet. With its gal-leries the latter building will have forty acres of floor space.

Among the exhibits from Southern Cali-

fornia will be a model constructed to illus-trate irrigation. A committee has already been chasen to prepare it.

A genius at Muhlenberg, Pa., has completed a marvelous clock for exhibition at the fair. Around the dial is a railway track, on which a miniature locomotive makes the round every five minutes. It requires a magnifying glass to see the delicate machinery. The oil cups at the journals are so The oil cups at the journals are so small that nothing larger than a hair can be insected. There is a headlight and bell, flag-holders on the pilot, whistle, and everything

connected with a locomotive. It has a link

connected with a locomotive. It has a link motion under the engine to reverse it. The weight of the locomotive is 1½ pounds, and it has been named "The Gem."

More than \$150,000 was paid into the exposition treasury, on stock subscriptions, on August 31, and for a week or more previous the receipts ran from \$50,000 to \$75,000 daily.

The exposition directors some time ago. The exposition directors, some time ago ffered one ticket for each share paid up before September 1, and many have accepted the proffer. Another 20 per cent of stock subscriptions, making 60 per cent in all, was due September 1.

The first cotton gin, made by Eli Whitney, will be exhibited at the exposition by the will be exhibited at the exposition by the New Orleans Machinery company, which will also make an extensive exhibit of cotton gins, sugar mills and other machinery.

CHICAGO, Ill., Sept. 6.—By special invitation Prof. A. B. DeGuerville delivered an illustrated lecture at Central music hall last night before the World's fair board of lady managers and the members of the national commission, drawing a contrast between the commission, drawing a contrast between the Paris exposition and the coming fair in Chi-cago. In an extremely interesting manner he gave a thorough idea of the progress that has been made at Jackson park and led up to the concusion that Chicago would far outdo Paris. Prof. DeGuerville was introduced by President Palmer of the

National commission. The lecture met with the warm approval of the audience.

At a meeting of the board of lady managers, Mrs. Lucius of Pennsylvania again urged the adoption of her resolution, which was first presented at the meeting last vember, declaring in favor of closing the November, declaring in favor of closing the World's fair on Spardays.

Arguments in favor of Sunday closing were made by Bishon Fowler and Miss Frances E. Willard. Stirring addresses on the opposite side of the question were made by Mrs. Bagley of Michigan, Mrs. Isabelia Beecher Hooker and Mrs. Trantman of New York, who contended that the fair should be York, who contended that the fair should be open Sundays for the benefit of the poor, who could not go at other times.

The result of the vote on the resolution was: 1cas, 56; nays, 36.

Erminie. Grand opera house tonight.

Labor Day in St. Louis. St. Louis, Mo., Sept. 6.-Elaborate preparations have been made by the labor-union of this city for the celebration of Labor day tomorrow. The chief feature of the day will be a parade, which will start at 10 o'clock a. m. with 20,000 men in line and seventy-five brass bands sandwiched in. After the

parade speeches by prominent labor leaders will be made at Lindell park and a picnic and general jollification will be had.

ITALIANS GETTING EVEN. They Import an Irritating, Contagious

Skin Di case. Norristows, Pa., Sept. 6 .- People here are alarmed at the rapid spread of a contagious skin disease, called "Italian itch," or sobars, known by the presence of a minute parasite, transferrable from one person to another. The disorder here is affecting all classes alike and the best and most refined people are among the suffer-It is traced to the imported Italian laborers, who have recently been employed in this neighborhood, and has spread both up and down the line of the Pailadelphia & Reading railroad and along the line of the new Trenton cut-off from Morrisville to Glenloch. Wherever these Italians have been they have left this trail of annoyance and suffering behind them. Notes and coin are said to be the most frequent medium for its transmission, first from the Italians to the shopkeepers and then to the people gen-erally. The soft parts of the skin between the fingers and about the wrists and elbows are most frequently affected. The disease commonly attacks both sides of the body simultaneously, and in adults it is never found on the face or hands, but any other portion of the body may be affected.

TRAIN ROBBERS SURROUNDED.

Mexican Troops and Texas Rangers Have the Bandits Hemmed In. SAN ANTONIO, Tex., Sept. 6.—Superintend ent Imes of the Southern Pacific road has returned from the scene of the train rob bery at Samuels Sidings and reports that five robbers have been hemmed in by rangers and Mexican troops in the Texas peninsula and cannot escape. After the robbery they rode leisurely to the Rio Grande, having a pack mule loaded with the mail sacks and boxes of cigars and stolen fruit.

There they opened the sacks, rifled the mail, ate the fruit and smoked cigars. The sheriff's posse reached there about two hours after their departure, but nesitated about crossing into Mexico until the arrival of the rangers, six hours later. Had they continued they would have cap-tured the robbers. The rangers followed the trail. The robbers made for the peninsula, following the Rio Grande and crossing twice into Texas. They are now in Presidio county pursued by rangers, Mexicans and Indian scouts. It is learned that they secured the most money from the big iron safe in the which had not been locked, as it should have been done, with the time lock by Messenger Smith.

#### ROUGH WEATHER.

Perilous Trip of the Steamer La Touraine.

NEW YORK, Sept. 6.-General E. Burd Grubb, United States minister to Spain, arrived from Havre today on the French liner La Touraine. The minister was in excellent health and spirits.

The La Touraine experienced a violent hurricane lasting forty-eight hours. During the gale the sea stove in the lookout on the nast, which was forty-five feet from the water's edge, and also broke a number of stanchions.

Officers of the steamer say it was one of the heaviest storms they had experienced in seven years on this line. The capstan, too, weighing over 400 pounds, was hurled to the port side of the steamer, a distance of several

ALL RECORDS BROKEN.

Medical Profession Surprised With a

Most Remarkable Case. MONTICELLO, Ill., Sept. 6 .- | Special Telegram to Tue Bee. |-The most remarkable case on record is that of I. Meredith, aged 78. vears, of Monticello, Ill. He has been tapped for the dropsy 278 times with an average of thirteen pounds of water removed each time, making 3,614 pounds of water which have been removed from his body. His case beats all past records and is the most interesting in the history of the disease. He is now con his bed and is gradually growing weaker and cannot live long.

Will Adopt a New System.

Washington, D. C., Sept. 6.—The internal revenue bureau has been considering for some time the advisability and practicability of adopting what is known as the weighing system for the official determination of the quantity of spirits placed in casks and packages. The spirits absorbed into the wood would add to the weight of the packages, so the commissioner has requested distillers throughout the country to assist his office in arriving at some conclusion as to the average amount of spirits that will be absorbed, and it is probable that a deduction will be made from the gross weight of packages on this account. It is necessary to know the strength of the spirits as well as their weight, so that it will be impracticable to ascertain the quantity of spirits in a package by this method where any considerable quantity of saccharine material has been added, for the reason that the strength of the spirits cannot be determined after such addition, and the old method must then be used. The pres system is regarded as undesirable for the reason that it only approaches accuracy when the casks are made in a regular form and the inside surfaces completely smooth.

CUT HIS THROAT.

Desperate Act of a Drunken Indiana Rowdy.

Evansville, Ind., Sept. 6. - Yesterday afternoon a cutting aftray occurred about midway between this city and Mt. Vernon, between John Carter, lately moved in Posey county from Kentucky, and George Borroughs. Early in the summer Carter and Borrough had a dispute while working with a thresher. Yesterday they came to Evansville from the country with a friend named Chisser and all drank quite freely. Waile returning home Carter renewed the dispute, but Burroughs refused to discuss the matter and asked that Certer desist and that they remain friends, as their difference of opinion was over a trivial matter. Carter, who is rated as a desperate man in his neighborhood, having falled to imbroil Burroughs, grew desperate and reaching up caught him by the hair of his head, threw him back and cut a great gash in his neck with a large pocket knife. When the enormity of his crime dawned upon him Carter leaped from the wagon and disappeared in the woods and a searching party discovered him at West Franklin, a river landing, ready to escape to the Kentucky sbore. He was sailed at Mt. Vernon. Burroughs was taken to the nearest physician and given immediate ttention. He was very weak from loss of blood and at last accounts was reported

SOUTHERN COTTON PICKERS.

Plans I aid for a Big Strike to Be In augurated September 12.

Houston, Tex., Sept. 6 .- The headquarters of the Colored National alliance of the United States is in this city. Colonel R. M. Humphrey, the general superintendent of the Colored Farmers' Alliance and Cotton Pickers' league, has been actively at work in organizing the colored men for a general strike all over the south. Today a copy of a secret circular which Humphrey is having distributed by thousands all through the otton states was obtained. The following is

the main feature of it:

Whereas, The planters and speculators above mentioned are firm in their demand that you pick at starvation wages, as offered by them, and leave your families to suffer the fearful consequences, placing to your account the present low prices of their cotton; and.

Whereas, Above 605,000 pickers already have bound themselves together in a sacred covenant topick cotton for no one, except their own, before about November 1 at less than one dollar per 100 pounds with board and.

Whereas, Your success depends upon your united action; now

Therefore, I, R, G, Humphrey, by virtue of authority in me vested, do issue this, my solemn proclamation; fixing the twelfth day of September, 1891, it being Saturday, as the day upon which all our people shall cease from and absolutely stop picking cotton, except their own, and shall pick no more before about November 1 unless their just demand for wages shall be sooner acceded to by planters and others invested. the main feature of it:

#### KILLED BY A BULL.

Colonel Wilson of Elizabethtown, Ky., Killed by a Maddened Bull.

Louisville, Ky., Sept. 6. -Colonel William Wilson died yesterday at Elizabethtown from injuries inflicted by a maddened bull. Wilson went into the pasture to have the buil, a fine Jersey, haltered for exhibition at the fair. When he went into the pasture he was in the habit of carrying a shotgun, loaded either with blank cartridges or small shot, with which he intimidated and controlled the beast. On this occasion he had the gun, and as the bull started toward him he fired one barrel. This had no effect, and be tried the second parrel, but for some reason the cartridge did not go off. Before he could get out of the way the bull was on him, and running rapidly him ten feet in the air. He was picked up and carried to the house. Two rips were broken and he was badly bruised about the

LINCOLN'S ASSASSINATION.

History of That Deplorable Event by a Member of the Court Martial.

PARKERSBURG, W. V., Sept. 6 .- General T. M. Harris of Ritchie county, a member of the court martial which investigated the death of Lincoln and condemned Mrs. Surrat, has just finished a history of the assassination of President Liucoln. The history was compiled from the stenographer's notes are in General Harris' possession. book General Harris boldiv asserts that Jefferson Davis and certain members of his cabinet were interested in and encouraged the assassination of Lincoln. He fortifies the statement by a large amount of docu-mentary evidence. His book will create a

Rigid Rules Broken. FORT DODGE, In., Sept. 6,- Special Telegram to THE BEE. |- For the first time in the history of the old Quaker church at Iowa Falls the Sunday services today were enivened by the sweet strains of a musical instrument. After long and prayerful con-sideration the congregation decided to purchase an organ, and notwithstanding the strenuous objections of some of the older members, one was placed in the church and will probably remain there. This is the first instance in which the Quakers have ever been known to depart from their rigid rules against the use of musical instruments.

Missouri Pacific Officials Promulgate a Strange Order.

LITTLE ROCK, Ark., Sept. 6.-The mauagement of the Missouri Pacific railroad system in this state and Louisiana has virtually abolished smoking on all of its passenger trains. When the law went into effect the colored coach was pieced next to the baggage car, a "divided" car was placed next, then the first white coach was behind. The divided car was used as a smoker, the members of each race using their respective portion of the car. The law, however, provides for separate coaches. Yesterday an order was issued, to take effect immediately, instructing all conductors not to permit any smoking on any train in Arkansas and Louisiana, except in the smoking room of sleepers and chair cars. It is regarded as one of the means adopted to make the people sick of the separate coach law, for every body knows the average citizen loves his smoke, but in order to have separate coaches he must give up his cigar. If the conductors undertake to eject any passengers for indulging in the weed some lively lawsuits will nost likely be the result.

DEATH OF A DISTINGUISHED JURIST.

Hon. Benjamin Hall, After a Lingering Illness, Succumbs to the Inevitable, AUBURN, N. Y., Sept. 6 .- Hon. Benjamin Hall died here this morning after a lingering iliness. He was born in Whitehall, July 23, 1814. In 1850, by the appointment of President Fillmore, he made a compilation and revision of the accumulated official decisions of the attorney general of the United States. In April, 1861, President Lin-coln appointed him chief justice of Colorado, a position of great peril in the days of the breaking out of the rebellion. A con-spiracy was formed to kill him and other federal officers and secure the territory for the secessionists. The scheme failed and nothing went further to defeat the plans of the rebeis than a ruling of Judge Hall, originating with him, to the effect that in cases of armed rebellion against the govern ent the courts could suspend the writ of habeas corpus.

Westerners in New York. NEW YORK, Sept. 6 .- [Special to THE BEE.] -Mr. J. P. Dudley, Cedar Rapids, Ia., is at the Earles.
