Kansas City, Mo., Sept. 13.-Kunsas City and Omalia played two games today, Kansas City winning both. The Omahas seemed to be demoralized and played with but little spirit. In the fifth inning of the second game there were three men on bases, when Gunson knocked the ball for a base hit over the bag at third base. McGlone wanted it called foul, but Umpire Wilson would not have it that way. McGione in his rage threw the ball over the grand stand, allowing three men to score. That was the only feature of the game, if the terrific slugging by both teams be excepted. The scores:

They'll Never Make Up. Louisville, Ky., Sept. 13.-President Phelps of the American association wrote to President Young of the league today proposing a series of games to decide the relative strength of the two organizations. He proposes three, five or seven games between any number of association or league clubs, some to be played on association and some on league grounds. The deciding game if necessary to be played on neutral grounds. As to the national agreement, he says it can't affect the case, as the league is now the only party to the agreement. Phelps says he s the proposition without consultation with the people he represents.

ROBBED BY A FRIEND.

Sensation Among the New York Swell

Gambling Circles. New Your, Sept. 13, -The biggest kind of sensation is on in sporting circles. But few know it, and outside the secret company which are on intimate terms with the swell gambling house owners in this city, it will be a cenuine surprise to the rank and file who

rend it. A defalcation, the largest in years, has occurred, and the victim is John Daly, the king of gambling house keepers and one of those who control many of the games of this city. The amount is placed at between \$40-000 and \$50,000 and all of this has been pock-

eted by a business friend of Daly's. Some two weeks ago all the games in the city, or least those of any magnitude, were closed. No one knew the reason why, and e proprietors claimed that they simply con luded to stop for awaile, as they had re-

It was about this time, so the story goes, that the money was taken by Daly's friend, and now it is said that the fact that the story of the defalcation might leak out and the attention of the public be attracted to gambling houses, and the business which they must have been doing when one lost such a big sum, was the cause of the closing. So far as can be learned the money was taken out of a safe which is in Mr. Daly's private headquarters in west Twenty-mult street. To this the business friend, it is said, had access at all times and while Daly was at Long Branch this summer be t it. The loss was not discovered until Daly returned. Then he and his manager, W. Busteed, made an examination and the startling discovery was made that the money was gone. Then it was that all of Daly's houses were closed up and the others fol-

The friend, who is a well-known and very The friend, who is a well-known and very popular sporting man is said to be very weathly. He lives in Harlem and is said to be quite a good fellow. The man in question has also a book at the races and has been very successful this season both at the Brighton, Saratoga and Sheepshead Bay races. He also owns a string of race horses and is well known on all the race tracks and in all sporting resorts in the big cities. Heretefore not a breath of the big cities. Heretofore not a breath of suspicion has ever been heard against him or his transactions, and he has been looked upon as a square man. During the past two weeks he has disappeared from his usual haunts, and it is said that he now is out of town try-ing to patch up the trouble with Daiy. It is known that Mr. Daiy has been in communication with him through a mutual friend and that on last Wednesday the intermediary turned over to Mr. Daly \$20,000 of the money

that disappeared from the safe.
Why the man took the money is a mystery which is puzzling to his friends. They assert that he was in need of no money, and that if was he could easily have raised an amount he required among friends. A rumor was current last night that his relatives had made arrangements to settle the matter with Daly, and that negotiations with that end in

view were in progress.

A reporter secured the town in search of Mr. Daly last night but could find him no place. Several up-town places were also visited but admittance was refused the reporter and the attendants said the bosses were not in.

They are having carnest discussions on the extension of work in South Dakota. A new committee has been appointed on penal and charitable institutions. So far the churches have taken but little interest in the work in these institutions. A very lively discussion arose in regard to the report of Yankton and Redfield colleges. Yankton college was the creation of the general association of the Congregational churches of South Dakota. Congregational churches of South Dakota, Redfield college was organized by a local association and asked the endorsement of the general association. The full, unqualified endorsement of the association was never given. A year ago the Reaffield college brought enough delegates from the association which founded the college to carry any resolution they desired before the General association. But the resolution of a year ago is now unsatisfactory to Redfield and so the discussion is renewed. discussion is renowed.

The meeting is held in the association which founded the college and is fully represented by delogates, while few churches in the southern part could afford to send delo-gates. The result was that the Redfield ollege people carried the day by a strictly istrict vote, having a clear majority vote in he meeting.
