THE SPECULATIVE MARKETS.

Traders in Wheat Treated to a Very General Surprise.

OPENED WEAK AND THEN BOUNDED UP.

Numerous Denials That the "Hold Your Wheat" Circular Was an Official Document Had Its Effect.

CHICAGO, Ill., Sept. 15.-There was a surprise In store for traders in wheat this morning. On the curb before the opening the market was weak and a reaction from the advance of yesterday was looked for. The trade was into discredit the reports of a crisis on the Bosporus, notwithstanding the circum stantial accounts published of the landing of British blue jackets on the Island of Mitylene. This opinion was strengthened by the fact that English consols were a point higher this morning and that the Liverpool market while firm did not give any indication of a tendency toward war prices. Then the denial that the "Hold your wheat" circular was an official utterance of the farmers' alliance was a bearish factor. The opening price reflected these conditions being at from 9714c to 9714c against 974c at the close yesterday.

There was quite a trade done at the slight

reduction named, there appearing to have been a great number of selling orders at that limit, based presumably on the expectation that the firmness of the English securities would counteract the war scare. Then came the surprise. The circumstances connected with the Mitviene incident were given with so much detail in the news paragraphs that it took very little in addition to renew the war alarm, and consequently the early circulation of further dispatches, tending to confirm the fact caused the immediate withdrawal of seiling orders, and within ten minutes of the opening the price was up to \$1.00. Many of the commission men lina seiling orders from New York at the opening, but more had orders to buy, and the shorts at once took it as their cue to cover. The rise to 9sc brought out a good deal of wheat, but from the latter price and up to 90½c it was impossible for a broker to fin more than two buying orders. During the following ten almutes there was a quick reaction to 98½c, which was succeeded by a long duil spell, during which the price did not go higher than 90¼c, nor lower than 98½c. it took very little in addition to renew the

a quick reaction to 18%c, which was succeeded by a long duil spell, during which the price did not go higher than 20%c, nor lower than 9%c.

The cause of the sudden reversal of feeling was the circulation of a cablegram denying that there was any truth in the warlike rumors. In addition to this foreign houses turned sellers and the sales of William Dunn. Hately Bross, A. Geddes and Kernwood were very heavy. The late news tended to weakness. There was another advance in consois, the Liverpool market kept steady and numerous private cables denied all knowledge of the war scare in England. Foreign houses kept on selling and the shorts got covered so that the demand fell off materially. Near the close there was a quick break from 29e to 07%c; the weakness continued, but the close was steady at 27%c. Clearances of over 1,000,000 bu, from the seaboard probably prevented a more severe break.

Corn opened 1%c lower than yesterday's close at 55c, though September and the distant futures were practically unchanged. The early weakness in the ruling option was attributed to the fine, warm, maturing weather all over the corn belt, rapidly diminishing the chances of frost doing any danage, but the scared feeling in wheat and some liberal buying by parties supposed to be acting for the cloue started shorts to covering on a liberal 8cale and there was a sharp advance to 56%, the other futures responding nobly. When the alarm went out of wheat, the earlier influences, including the fact that the receipts were largely in excess, came in play and prices receded, dropping during the last hour to 54%c which was the closing price. Oats followed corn, but the fluctuations were confined to a range of three-quarters of 1 cent.

closing price. Outs followed corn, but the fluctuations were confined to a range of quarters of 1 cent. The provision market was rather tame and The provision market was rather tame and inclined to weakness on its own account, but was controlled in some measure by the fluctuations in corn. There were no features, with the exception of the selling by the packers on the advance, which followed the early buige in the wheat and corn market, the closing prices do not differ materially from those of yesterday.

The leading futures ranged as follows:

STOCKS AND BONDS.

New York, Sept. 15.-The aspect of affairs abroad which was disturbed by the Mitylene affair were looking better this morning, and London, which yesterday was a seller of all kinds of securities, became a buyer today and to that extent improved the feeling here with the temper of the stock market. The feeling in the street was of a more prononunced bullish character than for some time, opening prices this morning were all from one-eighth of 1 per cent to five-eighths of 1 per cent bet-ter in the active stocks than they closed last evening. The bears and those who have been working for a reaction, in order to pick up cheap stocks, made a final assult upon values in the early trading which has of late brought them some success and Union Pacific was kicked down seven-eighths of 1 per cent. but the rest of the list lost only about their opening gains. On the other hand Distillers continued its advance and other specialties showed a tendency to rise in the face of the general depression which lasted only a short

The new buying was very apparent and purchases for the long account became more numerous as the morning wore away, which started the shorts in to cover before prices had got very far away from them. The result was that an upward movement began which nasted with but few and unimportant interruptions throughout the day. There was a moderate setback toward 2 p. m. but the interruption was of short duration and the upward march was quickly resumed and the highest prices of the day were generally reached in the last half hour. The declaration of a dividend of one-half of 1 per cent on Rock Island caused the selling out of the holdings of a few disappointed speculators but while the stock fluctuated over a range of 1½ per cent, its final rally was over 1 per cent from its lowest figures. The market finally closed active and strong at the highest prices of the day and with a confident feeling that the upward movement has only begun again. The advances of note comprise Atchison and Eric each 1½ per cent; Lackawanna, Buffalo, Rochester and Pittsburg and Missouri Pacific cach 1½ per cent; Louisville & Nashville, 1½ per cent; Chicago Gas and Northern Pacific preferred each 1 per cent, and Wabash preferred 1½ per cent. erate setback toward 2 p. m. but the interruppreferred 12 per cent.
Government bonds have been dull and heavy. State bonds dull and featurless.

Financial Review.

New York, Sept. 15.—The Post says: To-day's lower rates for sterling exchange has practically touched the good importing point and it will not be surprising if a very large amount of gold comes this way at once from the continent. The struggle of the Bank of England to retain its gold through the interposition of artificial obstacles has not yet begun, it is safe to say that the best informed bankers, both here and in London expect that in the end Great Britain will have to join to a considerable extent in the shipment of gold to the United States. Banker's correspondents in London are eagerly watching for a chance to get gold on profitable terms, but thus far the bank has been able to checkmate them by the high price fixed by it for gold bars. A further drop in sterling rates, however, will easily justify the importation of sovereigns.

Traders' Talk.

Chicago, Ill., Sept. 15.—Kennett, Hopkins & Co. to S. A. McWhorter: Wheat cables responded but slightly to the strength and brought the discouraging news that the amount on the ocean increased 24,000,000 bushels, thouch our own exports had been less than the week previous. Curb prices were weaker, in consequence of which the opening was also easy with indications of a substantial decline. To the general surprise there was one of those phenominal upturns for which no one can account. Possibly country buying orders were sent in owing to the war like headlines in the morning papers, but the advance was so quick that but little business was done under 20½c. The bulk of trade for the session was between 38½c and 50½c, shorts being the buyers and longs the seliers. The market having evened up there was a quick break of ic near the close which was a fraction below that of last night. Very little export business was reported but clearances were large aggregating 1,100,000 bushels from the Atlantic and something over 209,000 loading at New Orleans not yet officially reported. Receipts show no sign of falling off. Foreign markets respond slowly to our bulges and on the whole we would prefer to wait for good breaks before taking the long side of wheat. Other exporting countries did a big exporting business last week. This accounts for the large increase on ocean passage. Corn and oats were weak at the outset, but railted in sympathy with wheat, corn showing some strength at one time, due to manipulation, for the market broke heavily in the last hour and looks like going lower. Another rather inactive day, exhibiting no features of interest. Product apparently finds friends on all the little breaks. The buying seemed to be good and the outlook is encouraging for better prices.

Chicago, Ill., Sept. 15.—Swartz, Dupee & McCormick to F. C. Swartz & Co.: December Traders' Talk.

. 150 280 2 50 600 — 2 75 . 230 — 3 75 Chicago Live Stock Markets. Chicago, Ill., Sept. 15.—[Special Telegran o The Ber.]—Prices on cattle were not sub Chicago, Ill., Soft is.—[special Telegram to The Bre.]—Prices on cattle were not subjected to any further important change. The tone of the market was rather weak, except for prime shipping steers, but no class sold appreciably lower than at the close of yesterday's trading. For a Tuesday the number of cattle in the yards were exceptionally large. In addition to the fresh arrivals, there were fully 5,000 stale cattle, swelling the total number on sale to 16,000. Under a good demand from the several classes of buyers, almost the entire supply was closed out the sales making on a basis of from \$1,25 to \$2.75 for inferior to extra cows, helfers and bulls, \$1.70 to \$1.25 for shipping steers, \$2.00 to \$1.75 for westerns and \$1.40 to \$1.25 for Texans.

Of today's receipts considerably more than one-half came from the ranges, but a large proportion of them were good enough for the dressed beef men and for shippinent east on the boof, so the market for common stock was not greatly overloaded after all. There were few sales of natives at better than \$5.50; the bulk of

PIGS AND ROUGH.

the rangers sold below \$4.50. Stockers met with a good demand and sold rather stronger than last week, while calves were retive and higher, selling at from \$2.205,25.

The hog market was without any important change so far as prices were concerned. With from 4,000 to 5,000 decrease in the arrivals, holders managed to prevent any further depreciation in values, though for common grades the tone of the market was quite weak. Good to choice, heavy and medium weights were fully steady. The range of sales was from \$2.50 to \$3.45, culls, little pigs and common grassers selling at from \$2.50 to \$4.50; poor to prime, heavy and medium weights at \$4.65 to \$3.45, and poor to choice light weights at \$4.65 to \$3.45, and poor to choice light weights at \$1.65 to \$3.45, and poor to choice light weights at \$1.60 to \$4.50; to \$5.75. Most of the day's sales were at from \$5.00 to \$5.25, the quality being better than for Monday.

The Evening Journal reports: Cattle-Receipts, 11,000; shipments, 4.400. Market slow, steady; good to choice natives, \$5.4025.90; no prime or extras on sale; others, \$1.5025.90; no prime or extras on sale; others, \$1.5025.50; rangers, \$1.6025.90; good cows and helfers, \$2.256 2.80.

Currents of Commerce. Charles R. Lee, who has been doing a hard wood lumber business in this city for several years, is branching out in the wholesale direction and will extend his business into western Iowa, Nebraska and the states west

The Latest Conundrum. Way is Haller's Sarsaparilla and Burdock like the most popular soap of the day.

Because they both cleanse the skin and leave it both soft and velvety.

POLITICAL PLOWING MATCH.

Maryland's Farmer Candidates for Governor will Exhibit Their Skill. BALTIMORE, Md., Sept. 15 .- Frank Brown,

accept the challenge of Colonel Van Nort, the republican candidate, to a plowing match. Mr. Brown says:

"O, yes, I am ready to meet my republican opponent in a plowing contest, but he must hurry up with his challenge and fix the date, as it will soon be too late to use the ground plowed by us for seeding purposes, If I go into this contest, I want some results to follow, and I will not plow with him unless the land prepared is also seeded with grain for next year's crop. More than this, I am will-ing to wager one farm against the other that my farm shows better results of careful and thorough management than that of my eastern shore opponent. I have never seen Mr. Nan Nort's farm, but I am satisfied my farm is worked systematically to the best advantage and cannot be excelled in the state. I have not plowed for ten years and have no desire to go back into the harness again, but I do not think I have forgotten how to do

Information Free. Do you know that any old sore or cut can be absolutely cured by the intelligent use of Haller's Barbed Wire Liniment. Be merciful to your horse and try it.
