THE SPECULATIVE MARKETS.

Collapse of the European War Scare Lowered Wheat Early,

VERY FREE SELLING AT THE OUTSET.

Shorts Took Their Profits Freely and Their Buying Soon Put the Price Up-Activity In Stocks and Bonds.

CHICAGO, Ill., Sept. 16.-Wheat opened deeldedly lower this morning on weaker cables and the collapse of the European war scare. There was free selling at the outset, December going at from whice to 96%c, but the shorts, who have profited by recent experiences in which they have been badly squeezed because they waited too long, began to take their profits freely, and their buying soon put the price up to 97%c. Then came the reports of yesterday's clearances at the Atlantic seaboard, showing an aggregate of over 1,000,100 bushels which added strength to the market and caused a sport of buying which put

bushels which added strength to the market and caused a spurt of buying which put December up to 97%. The price hung around that figure for some time.

Later it was reported that Bradstreet's made an increase of over \$6,000,000 bushels in the available supply east of the Rockies during the last week and weakness was developed, December selling backto00%. There was a recovery during the last nour, as Bradstreet's report when posted showed that the increase was not as large as at first reported, being 4,200,000 bushels for both coasts. A report from Duluth that 200,000 bushels had been taken for export assisted the advance. December sold up to 97%, acain broke to 66% on weak closing cables, improved some and closed steady at 9°c, a loss of five-cights of a cent, compared with the closing figures of yesterday. Logan, white, kennett-Hopkins and Lamson Bros, were good buyers early, but on the advance some of them sold freely. There was a little flurry early on an unfathered rumor that Italy had ordered the completion of ironelads now under construction with all possible dispatch and had directed that the reserves be got in readiness for duty at once, but it quickly died out. Hutchinson is said to have telegraphed here from New York that wheat is a saic for 90c and corn for 50c. Another telegraphed here from New York said that Russia will have to supply thirty provinces of the empire with food. Pardridge sold wheat at 97% and Hutchinson was supposed to have sold freely through brokers. Lamson Broth-

Russia will have to supply thirty provinces of the empire with food. Pardridge sold wheat at 975c and Hutchinson was supposed to have gold freely through brokers. Lamson Brothers' correspondent at New York telegraphed that there was good evidence that foreigners were buying wheat in that market.

Corn opened easy on account of the fine, warm, maturing weather in the corn belt and in sympathy with the lower prices for wheat. October started at from 53½ to 54c, against 544c at the close yesterday, advanced with wheat to 54½c, broke to 53½c, recovered some, but weakened again selling off to 53c and closing easy at 53c. The market was very weak during most of the session, due chiefly to the fine weather. Some of the old time buils were free sellers and the liquidation of long corn was free. There was a rumor in circulation that the clique was selling a good deal. Oats were quiet and easy in sympathy with corn. The provision market was heavy from start to finish, and the lowest prices of the session were current as the market closed. The decline since yesterday amounts to 25c per barrel in pork, ice per 105 pounds in ribs. There was a fair speculative business, the sellers, for the most part being tired longs and the packers.

New York, Sept. 16 .- The stock market today displayed more activity than for a long time, but at the same time it was irregular in its movements, the bear and bull forces distributing their strength unequally over the list, and while some stocks were materially higher others are lower and the majority is with the latter. The great feature of the early trading was the heavy and apparently enthusiastic buying for foreign account, but advantage was taken of the demand by many holders to realize on their stocks and a feverish and generally strong market was succeeded by a slow but steady depression in the

deterboon.

Union Pacific was the special point of attack for the bears, the only reason given for the selling being rumors of a forthcoming unfavorable statement, but qualities of other leading stocks, including some of the Vanderbilts, were thrown upon the market, and hence most of the active stocks are slightly lower, as the result of the day's business. The effect of the stories in regard to the securing control of the Ontario & Western by the New York Central was again seen in the former stocks, but realization prevented any material advance in it. Kansas & Texas preferred was another specially strong point in the list, both the common and preferred were unusually active for them. Late in the day, however, Reading became the chief built card, the expectation being that upon the dissolution of the pooled stock, it will be in demand and dealings in it will be more widespread and its value in the markets enhanced. After Union Pacific, which was strong in the early dealings, the grangers were pressed for sale most urgently and many of them show large fractional losses for the day.

The market finally closed active and heavy afternoon.

of them show large fractional losses for the day.

The market finally closed active and heavy to week at small fractional losses from first prices as a rule. The final changes of note include advance of 2½ per cent in Kansas & Texas preferred. 1% per cent in Reading, 1½ per cent in Ontario & Western and 1% per cent in Cordage, while Burlington scored a loss of 1 per cent.

Government bonds have been dull and steady. State bonds neglected.

Financial Review.

Financial Review.

New York, Sept. 16.—The Post says: Silver bullion is declining again according to the usual programme for the last half of the month. Today the full government quota of 400,000 ounces for September was completed. The great London bullion brokers have long since discovered that the proper card for them to play is to withhold all orders for American silver until our government is out of the market for a month. A way of engineering the London silver market, which they control, is to depress the commercial prices so holders here are anxious to avoid accumulating a large stock and toward the end of the month the Londoners buy at large concessions in price such silver as they need for India and the continent. This happens with every successive month and is likely to continue so long as the abnormal government demand continues to create temporarily an artificial market for the metal.

CHICAGO, Ill., Sept. 16.—F. G. Lozan & Co. to Bryan Commission company: Wheat opened panicky on lower cables and advices of better weather for the securing of crops. The exports from the Atlantic ports continue heavy. There is now considerable inquiry for our new spring wheat. So far there is no accumulation here and until there is the shipping demand must be limited. We look on wheat as safe at about present prices and a purchase on all weak markets. The position of corn is unchanged, receipts continue good. The crop reports are of the most favorable character. We think October at 55 as much too high. Oats in sympathy with corn close lower. October closed 27% The trading in hoz products mostly local, close is duil at the lowest point of the day.

Chicago, Ill., Sept. 16.—Swartz, Dupee & Triders' Talk.

ucts mostly local, close is dull at the lowest point of the day.

Chicago, Ill., Sept. 16.—Swartz, Dupee & McCormick to F. C. Swartz & Co.: Wheat opened at a decline of over a cent from yesterday's close, caused by lower markets abroad. There was a small rally, after which the market was steady within a narrow range during the balance of the session. Trade was duiler than for some time past. Bradstreet reported an increase east and west of the rockles-of 4.25,000 bushels; clearances from seaboard were over 1,00,000 bushels. This brought a few buying orders from New York. Weather over the corn belt was fine; it was clear everywhere, with no indications of any lower mercury. This unquestionably was the chief factor in the market. Almost every day receipts are over expectations; today they were 60; there was freer opening of September. Oats declined about five-eights of a cent, closing almost at the bottom price of the day. Provisions were dull. Statement of exports for August showed 3,-600,000 pounds less baron and 25,000,000 pounds less baron and 25,000,000 pounds less baron and 25,000,000 pounds less baron and rips of 12½e from Tuesday might.

Chicago, Ill., Sept. 16.—Kennett, Hopkins & Co. to S. A. McWhorter: Easler cables and

of last year. At the close pork showed a decline of about 25c, iard and ribs of 12½c from Tuesday night.

Chicago, Ill., Sept. 16.—Kennett, Hopkins & Co. to S. A. McWhorter: Easier cables and an official denial of the warifike rumors that disturbed the market yesterday occasioned a weak opening on which shorts overed freely, causing a moderate rally. Quite a number of castern buying orders were filed, and it is assumed that the New York crowd who nave successfully "milked": this market recently were at their old game. Scalpers were afraid to sell and kept close to shore all day. Clearances were again large, over 1,200,000 from New Orleans and the Atlantic coast. New export business at the scaboard was quite small though some good buying in the northwest on export account was reported. English private advices are to the effect that holders are overstocked—and anxiously seeking buyers. In spite of our large exports the visible supply increases rapidly. Bradstreets' figures show an increase last week of between 4,000,000 and 5,00,000. If the artificial support by eastern speculators were withdrawn prices would doubtless go lower. The tendency is downward and it seems probable exporters will hold off awhile. Receipts continue large on sharp breaks. Wheat seems to be a purchase for a turn, but for a long pull we would sell it on the bulge. Hutchinson is said to have predicted 90c for December. Corn and oats have shown increased heaviness, the fine, warm weather, large receipts and increasing stocks making it extremely hard to sustain prices of corn. It is of course possible to bid up the market, but hard to sell much long stuff without causing a sharp decline. Conditions seem to be steadily working in favor of the bears and it looks as if the clique would finally have to accept a serious loss on their operations. In provisions there was more disposition to sell, the bears drawing encouragement from the weakness in corn. That the comparatively small receipts of hogs are not due to lack of cars is shown by the fact th

and believe consumption is steadily reducing the stock of provisions.

Chicago, Iti., Sept. 16.—Counselman & Day to Cockrell Brothers: Wheat opened at an average of about 1c decline in various futures and under the influence of very weak foreign advices and liberal receipts. The market would have had a wood break except for strong buying under 97c for December by the New York buil houses, who seem to act in perfect concert. They made soveral attempts to raily Pacific on large clearances and some receipts of war from Itily and starvation from Russia. but nothing advanced to raise the high point today above the low point of yesterday. The peg at the 97c hammer held the market from stopping below that point at the close. Our private foreign advices are much more bearish than public cables and we look for a sharp break in wheat tomorrow if bulls attempt to unload. Corn was simply tired by heavy receipts and trade duil. There are indications that the various cliques have at last disposed of their holdings and that the tailers are left to get out the best way they can. The market is becoming smoother with large receipts, while demand of vessels and higher rates of freight are hindering shipments. Cables reduced bids, already too low, to prevent exports. Provisions were weak from scarcity of both cash and speculative buying and packers were pressing the market with offerings of January product. The outlook is for a further decline.

F. C. Swartz—I saw in Kansas City yesterday the lifst car of new corn and it would be

F. C. Swartz—I saw in Kansas City yester-day the first car of new corn and it would be

bard to beat in quality. Two cars more were said to be on the sead. OMAHA LIFE STOCK MARKETS.

PIGS AND BOUGH 6.....91 1.....120 91.....135

Chicago Live Stock Market. CHICAGO, III., Sept. 16.—[Special Telegram o THE BEE.]—There was no improvement in CHICAGO, Ill., Sept. 16.—[Special Telegram to The Bee.]—There was no improvement in the situation in cattle nor was any anticipated. Heavy receipts were looked for and expectation in that regard was not disappointed, about 20,000 head arriving. The arriving for the first half of this week reach 60,500 head, or 11,500 more than for the same time last week and 20,000 more than for the corresponding time last year. There were between 20,000 and 20,000 cattle in the yards, and as one-half that number would have met all legitimate demands, sellers were again at the mercy of the buyers. However, prices were not forced down more than 10c on any class of cattle. Some grades, notably the better sorts of native shipping steers, were saleable at Tuesday's prices, but the general market was off from 5c to 10c which makes an aggregate decline since Friday of from 15c to 30c. There was active trading at the decline, but after all wants had been met there still remained in the yards enough cattle to preclude the probability that tomorrow will see any improvement in prices. Shipping steers were quoted at from \$3.00 to \$6.25; cows, bulls and helfers at from \$1.25 to \$1.75, and stockers and feeders at \$1.75 to \$1.55. Of the last named there was an over supply and prices were lower than at the beginning of the week. The sales of at from \$1.00 to \$0.25; cows, bulls and helfers at from \$1.25 to \$1.25. Of the last named there was an over supply and prices were lower than at the beginning of the week. The sales of westerns were largely at \$1.50 and from \$2.00 to \$2.00 took the bulk of the Texans.

There was a brisk hog market today and a firm one. The fact that not as many hogs arrived as the majority of operators had anticipated and that the total for the first half of this week is some \$0.00 head less than for the corresponding three days of last week, had a reassuring effect. Buyers got to work early and by the middle of the forenoon most of the hogs had been pushed over the scales. Heavy and medium weights advanced from \$1.75 to \$5.55, while light grades were saleable at from \$4.00 to \$5.35. The quality of the offerings, though not up to yesterdays average, was fair for the supply changed hands at from \$4.05 to \$5.35 for light prices ranging downward from \$4.05 to \$5.35 for light prices ranging downward from \$4.05 to \$5.35 for light prices ranging downward from \$4.05 bought common grassers, little pigs and culis. The average, advance was between 5c to 19c per 100 ths.

Manchester Trade Review. Manchester Trade Review.

Manchester R. Sept. 16.—The Guardian, in its commercial article, says: With the easing in cotton values the market has become quieter. Business is very limited. The transactions are mostly insmall lots. Yarns are affected more than cloth. The sales yesterday were much below the average. Spinners are firm. The advances in the prices of cloth have checked the India and China demand. Manufacturers are too well engaged to listen to offers at a lower range of prices, and they compel full rates. The makers of good shirtings are thus able to establish a fair advance. Mulles, jacconets and other Indian staples and printing and bleaching cloths are very quiet. are very quiet.

WESTERN PACKING INTERESTS.

Last Week's Output Exactly the Same as the Week Before.

CINCINNATI, O., Sept. 16.—[Special Telegram to The Bee.]—Tomorrow's Price Current will say: The total western packing the past week has been 140,000, the same as the preceding week. For the corresponding period last year it was 210,000. From March 1 the total is 5,230, 000, against 7,600,0.0 a year ago. Leading places
