CHICAGO REFUSE MAY BUILD AN ISLAND.

Plan to Make the Garden City the Greatest Summer Resort by Filling Up a Part of the Lake.

CHICAGO BUREAU OF THE BES, CHICAGO, III., Sept. 18. Little can be learned in Chicago concerning the deal between the Atchison, Topeka & Santa Fe and Denver & Rio Grande. At the offices of the Rock Island and Burlington no definite information as to the status of affairs had been received, although both of these roads take keen interest in the matter because the Rio Grande is their principal connection west of Denver, Colorado Springs and Pueblo. It is freely predicted that the acquisition of the Rio Grande by the Atchison, or the formation of a close traffic contract between the two roads, would force the Burlington to cross the Rocky mountains. It is suggested by some that Gould is in the deal. It has been known for some time that Gould and his friends are large holders of Atchison. Gould is also a large holder of Denver & Rio Grande. How much he has nobody knows exactly, but it is a good-sized stice.

A CHICAGO CONEY ISLAND. The subject is being discussed of building a big island in the lake for a sanitarium and pleasure resort. There are lying off Jackson park some two or three rocks under water on which the United States government is now keeping buoys. Some of them have but eight to ten feet of water over them, and it is argued that if they were used, properly directed, as dumping places for dredgings and othor solid matter which is now annually going to wasto or even occasioning exposure Chicago would soon have all the islands of the kind described she would need. The rapid growth of the city will force the municipal authorities to think of some other way than the ones now in vogue for disposing of excavated son and other refuse. The city is now pretty nearly raised to grade, and the matter of ashes alone is of sufficient magnitude to soon bother the officials vogue for disposing of excavated soil and ude to soon bother the officials what to do with. Between 4,000,000 and 5,000,000 tons of soil are annually burned in this town, giving ashes to the amount of 1,000,000 cubic yards. This alone would do to raise an island of twenty-five acres with every year. Such an island would make Chicago the greatest summer resort in the world. If possible, it would be the Coney island of Chicago, only freed from its objectionable features, and much more conveniently located, so as to allow anbody to flee from the city on a hot night and drink in the cool preezes of the lake that he would be sure to find there at any time. A company was incorporated in 1884 for the purpose of car-rying out this idea, but the scheme finally

This region covered an area of something like from 160 to 180 miles in length and it was de clared that that territory would never con-tribute any traffic worth speaking of to the Burlington company. How Russian Prisoners are Treated by Some of Their Keepers. St. Petersburg, Sept. 18.-Horrible dis losures were made at a recent trial in Kiuff. arising from the death of a prisoner named Anal Drijuankoff in jail. The post-morten examination of the body showed that the man had been horribly bruised, twelve of his ribs being broken. At the trial the wardens confessed that by order of Inspector Morozoff they had beaten the deceased with sticks and stones wrapped in rags, and declared that such castigation was common. The evidence given was in fact of a nature to make one's hair stand on end. Six wardens were sentenced to hard labor, while Inspector Morozoff was sentenced to exile in Siberia and the loss of his civil rights. Morozoff, however, has eluded the police and fied to America.

I interviewed Archbishop Casanova today relative to his clergy's attitude towards the government in the past and also his present views. He was quite willing to give Cath-olics his ideas. "I made efforts on many occasions," he said, "to establish peace, partly because it was one of duties of my position as archbishop and also because it corresponded with my desires. Last year at the first signs of trouble I begged Balmadeda to accept my advice. He did so and called the Prat ministry, which was received favorably by the country. Again in June last he, when Mr. Egan's efforts to secure a compromise had failed, I tried once the effect of my persuasion but failed in my aspirations to end the struggle. I wish to tell to world that I believe that Chili's republican institutions are now firmly secured for the future. The different political parties are now working in accord to repair the past damages that the country has undergone in the effort to give Chili a staple constitutional government. One of the principal causes that led to the revolution-the determination to secure freedom of ballot electoral liberty. which was much desired by all-is now as sured.

"We of the church also hope that extended liberty will be given to it and also to clerical institutions. All the past governments have abused the constitution because they believed revolution impossible. The bounds were reached and then Chili's brave sons would bear the burden no longer. With a good government, such as we hope for, we can resume the care of beneficial enterprises, acting only when necessary for the administration and the fostering of the grand ideas. The republic will soon regain all she lost and the revolution will be the means of bringing happiness to Chili."

Springer at Spencer. SPENCER, Ia., Sept. 18 .- The largest democratic demonstration in the history of northwestern Iowa was presented in the meeting here this afternoon that was addressed by Congressman William M. Springer of Illinois. The counties of this region, thirteen in number, composing the Eleventh Congress ional district have, with one or two exceptions, heretofore given heavy republican ma-jorities, constituting the republican strong-hold of lowa. Spencer is in the heart of this region, and until the visit of Mr. Spencer, no democratic man of national prominence had addressed the people of this locality. The heat was intense, but, despite the discomfort, Mr. Springer held the close and

carnest attention of his audience for an hour and a half while he discussed the issues of national politics.

THEY GOT EIGHT DOLLARS.

Result of Three Holes Drilled in a Schlitz Brewing Company's Safe.

SYSTEMATIC WORK OF BURGLARS.

They Didn't Make a Very Rich Haul But They Got Away-Story of the Little Affair.

About 1:30 o'clock this morning the safe in the office of the Schlitz Brewing company's agency at 719 South Ninth street, was blown open and robbed.

There is a watchman in the building, and he tells the following story.

"During these warm nights I sleep on the hay in the rear room. I was up nearly all day and so laid down shortly after midnight. I was awakened by an explosion. As I attempted to arise a tall man with a black mask over his face covered me with a revolver and with an oath ordered me to lie still.

"When I asked what was wanted he drew another gun and leveled it at my head. While I was held prisoner two others dressed in dark clothes and black masks ran out. Ordering me to lay still my guard ran too. I jumped up and hurried to the street, blowing a police whistle on the way. Not until the officer came did I examine the

Officer Cliff Rouser telephoned the case to police headquarters and Captain Mostyn, accompanied by Sergeant Graves, at once started for the store in a buggy. Investigation showed that the gates fronting on the Union Pacific tracks and leading to the storehouse had been broken. The rear door, which opened into the room where the watchman slept, was unlocked. Entrance into the office was effected by raising a glass partition window.

Three attempts to drill holes in the safe door had been made. Finally a hole was bored near the combination and the explosive introduced. The hole was plugged with a bolt and the fuse lighted. The safe door was not damaged very much, but the cash drawer was broken out and emptied of its contents. Manager John Marhover was sent for. He said that there was only \$7 or \$8 in cash in

the drawer, but that fully \$6,000 in notes had been carried away. A pretty fair description of the burglars was given to the police and Captain Mostvn started his men out at once to find them, They are supposed to be people well ac-

quainted with the premises. NELSON'S GREAT FEAT.

He Lowers His Own Record and That

of the World. GRAND RAPIDS, Mich., Sept. 18,-In the presence of 10,000 people at the West Michigan fair today Nelson lowered his record to 2:10 in the second attempt. He was in the pink of condition, and the new track, just completed on the plan of the Cleveland track, was at its heat and the fastest over trotted on. It is four feet and four inches over a

The first quarter of the first heat was made in 32½, the second quarter in 31½; the third pole was reached in 1:30, at a 2:00% clip. At this point the runner crowded the trotter into the fence, where he broke, finishing in 2:14 flat. Mr. Nelson, the owner, stated that his horse would make a second trial in thirty minutes and the crowd applauded. forty-five minutes the stallion appeared and

the running mate changed. Without scoring the horses got away and the trotter kept up his unprecedented pace to the trotter kept up his unprecedence pace to the finish without a skip. Each quarter was trotted in 32½, the mile in 2:10 flat. The exhitbition closed amid a scene of wild enthusiasm. The grand stand emptied into the quarter stretch stand emptied into the quarter stretch and the track and surrounding the judges stand, the horse and driver, in the presence of 8,000 people. Starting Judge Leathers then presented Mr. Nelson with a fine silver water set in behalf of the society, and Mr Nelson promised to come again next year.

The timers caught the time in 2:10, the judges from their position caught it in 2:0994, and a dozen watches in the crowd caught is

at 2:09%. Nelson caught the time at 2:09%. PROCLAMATION ISSUED.

o'clock noon, central standard time. Gurnnie, Okl., Sept. 18.—A deputy sheriff has just arrived from the line of the eastern Indian lands, bringing news of a race war in progress there, just on the line of the Iowa reservation. The town of Langston was founded soveral months ago and is inhabited solely by negroes. There are several thousand of them. These and more are arriving daily on the line of the new lands. The daily on the line of the new ands. The negroes contemplate settling in a body in the Cimarron valley as soon as the lands are opened. A gang of cowboys from the Chero-kee strip also have their eyes on the locality

and say that any negro who attempts to settle there will be killed. Yesterday the cowboys visited Langston, got into a row, and attempted to shoot Eg-gleston, editor of the Herald. Last night they returned, all drunk, and fired a score of shots into a crowd of negroes on the streets. Several received slight wounds. The cowboys left, swearing they would return today and wipe out the town. The negroes have all armed themselves, and if they do return nany will likely be killed. A force of officers

has left for the scene.
