

CHAMPION CONFIDENCE MEN.

That's What Kansas City Says of the Sioux City Base Ball Magnates.

CHARGED WITH BUNKING DENVER.

Latest Story Concerning the Middle in the Western Association—Uncle Anse Lost Another—Other Scores.

KANSAS CITY, Mo., Sept. 18.—The Western association is in a fine mood, and all on account of a bunco game played by the Sioux City management. The middle arose from the following complication of circumstances: When the Milwaukee club deserted the Western for the American association, which resulted in reducing the membership of the former association to four clubs, a new schedule of forty games was arranged, the championship to be decided upon the basis of that schedule. Last Sunday Omaha disbanded, and it was thought all around that meant the dissolution of the association. In the meantime Sioux City claimed to be playing under the old schedule, and claims that the last game with Denver and Omaha were so played, under a verbal agreement with those clubs. Under the old schedule Sioux City last Sunday led in the race for the pennant. Under the new schedule Denver was ahead by a good margin.

Then, Sioux City began its bunco game. Denver was played for an easy sucker. Sioux City telegraphed Denver that it wanted the season to be declared closed last Sunday. Denver replied that that was all right, but did not notice that the Corn Husker's manager failed to state under which schedule the season was to be declared closed. Denver evidently thought it would be under the new schedule, and being the leaders by that schedule they were only too willing to snatch the pennant so easily.

At the meeting yesterday Messrs. Buckenberger and Mulachy, representing Sioux City, claimed Denver's proxy by reason of the telegram that had passed between them and the Denver management. They really did have the Omaha proxy, so they had easy control of the meeting. They voted that the games played after the association was reduced to four clubs were played under the old schedule and that Sioux City had therefore won the pennant. The Kansas City management had no objection to the validity of Sioux City's claims to having Denver's proxy, and all that it could do was to cast its one vote in the negative on all the questions which arose against the three votes of the Sioux City people.

As affairs now stand there are three claimants of the championship—Denver, Sioux City and Kansas City. Sioux City claims it by virtue of yesterday's award by the president of the Western association. Kansas City claims the pennant on the ground of having won more games than any other club under the old schedule. Denver bases its claim upon an alleged agreement that in this last schedule of forty games the team winning the most games was to take the pennant. As a matter of fact, if the season was validly declared closed last Sunday, Denver has the championship. There is no doubt that there was an agreement (supplemental to a substituted one) to play out to play out its scheduled games. If Denver maintains its organization and appears on the field each day a game is scheduled it will be in it and the same may be said of Sioux City. In the meantime Kansas City has appealed to the National Board of Control and has protested against Sioux City's action. Its protest is identical with that of the Denver management except that it maintains that the old schedule was never superseded by the new.

National League Says Return and No Questions Will Be Asked. New York, Sept. 18.—The magnates of the National League continued their session today to consider the report of the committee appointed to confer with the association on means of concluding a treaty of peace between the two associations. When the meeting adjourned it was stated that the conference committee had been charged from further duty and the chairman of the league committee instructed to notify the association. The chairman of the committee is supposed to be the end of all harmony between the two associations. The following resolutions were adopted: Resolved, That the National League reaffirms its oft-repeated declaration that all base ball leagues and associations should be parties, or subject to a national agreement, in order to protect territorial and contractual rights. Resolved, That the league expresses its regret that the American association on February 18, 1891, withdrew from the national agreement, which it had but a few weeks previously assisted in creating and promulgating. Resolved, That the league would be glad to welcome the return of the American association as a party to the national agreement in the same manner as it withdrew therefrom, namely, by notice to the national board. Resolved, That should the American association become a party to the national agreement that all proposed amendments thereto be considered upon their merits by the parties to the agreement.

DUN'S REVIEW OF THE WEEK.

Last Week's Warm Weather Worth Millions of Dollars to the Country.

TRADE IN ALL LINES STEADILY GROWING.

Business Generally Throughout the Country of a Healthier Tone and Increasing in Volume—Business Failures.

New York, Sept. 18.—R. G. Dun & Co.'s Weekly Review of Trade says: The hot weather at the west is worth to the country many millions every day. With money coming for stocks and bonds, as well as for wheat and corn, and with liquidation of farming indebtedness, the prospects for business this fall are unusually bright. Actual improvement is seen in nearly all the cities from which reports are received this week. At Boston trade is enlarging. At Philadelphia business is more active, and the iron markets stronger. At Cleveland trade is nearly all increasing, and at Cincinnati the shoe business is especially active, but the carriage trade quiet. At Chicago some decrease in receipts of lard, butter and wool compared with last year is reported for the week, but increase in flour, barley, dried meats, cheese, hides and gain of a quarter in oats, while receipts of rye and wheat are six times those of last year. At Minneapolis trade is active in lumber and flour, shipments of flour being more than double those of last year. At St. Paul trade is greatly exceeding expectations, and at Omaha the country banks are drawing on the western trade in fair crops, but money is going south for cotton, and at Kansas City trade is satisfactory and money easier. At Nashville improvement in an iron industry is not so close as heretofore; at Memphis the gain is slow, but while money is not abundant the market is better. At Savannah trade is fair, but the money market is still tight, and at New Orleans improvement is seen in groceries, rice is moving freely and money, though in good demand, is in sufficient supply for all legitimate needs. It is especially noteworthy that collections are improving at most points and that money markets are on the whole, comparatively easy, although the crops to be moved are enormous and the actual movement unprecedented.

Wheat receipts at west for three days of this week have averaged more than 1,500,000 bushels daily, and although exports are still about half as large, the foreign demand sufficiently offsets the decrease, which has risen 2 cents in the past week on sales of only about 30,000,000 bushels here. Corn has declined rapidly, as the fear of harm from frost vanishes, and is 3/4 cent lower than a week ago, while oats are 3/4 cent lower. Lard and hogs have declined with corn, but more slowly, as the market is not so close as heretofore. Cotton has also declined three-sixteenths of a cent, for while reports indicate that the yield will be much above the average of last year, foreign buying is much diminished and the stocks on hand and abroad are large. Coffee has declined three-quarters of a cent, while sugar is 1/2 cent lower. It is a surprising fact, notwithstanding the output of pig iron is almost equal to the largest ever, that the price of iron is not as high as it is. It is a decidedly better tone is observed in all the important markets.

An awakening is seen in the boot and shoe business, although shipments are not as plentiful as to those of last year, but the manufacturers have more satisfactory orders and the feeling is more confident. The wool market is better, and some remarkably well in some branches, particularly in worsteds and dress goods, and the demand for dress goods has increased. The business failures occurring throughout the country during the past seven days number 239, as compared with a total of 214 last week, and every one of the corresponding week of last year the figures were 190.

Small in size, great in result, DeWitt's Little Early Risers. Best pill for constipation, best for sick headache, best for sour stomach.

Old Princeton Boys. A good supper, interesting speeches, sparkling reminiscences of college days, and pleasant memories recalled of Old Nassau hall marked the meeting of the Omaha Alumni of Princeton which was held last evening at the Omaha club.

Dr. Joseph Duryea, of the class of '59, president, with L. P. Funkhouser, '78, as secretary.

After the banquet Mr. Funkhouser, Dr. Harsna, Dr. Duryea, Mr. N. E. Annin and H. M. Rogers made short speeches in which they praised Princeton from top to bottom.

Amid much enthusiasm the alumni determined to offer
