THE SPECULATIVE MARKETS.

News from New York Houses Put the Price of Wheat Up.

HAND OF THE CLIQUE AGAIN NOTICED.

Shrewd Eastern Dealers Believed to Have Reen Responsible for the Recent Uncasiness in

the Cereals.

CHICAGO, III., Sept. 18 .- The securing of the immense wheat crops without damage has become assured and since the scare over the farmers' alliance "Hold your wheat" cir cular died out, this market has had to look to the east for news calculated to affect pricesand New York, as the intrepot for about all of the foreign intelligence, has naturally been the point from which nearly all of this class of news has come. Houses with foreign con-nections in New York say traders here have not been slow to take advantage of the fact and have managed to secure early advices of happenings in Europe calculated to affect prices, and holding this intelligence until they have placed their orders with their commission men in Chicago, have been in a secure position before the news became known to the trade in general. Aside from this it is charged by local traders here that there are more than grounds for the suspicion that the news was invented or doctored for the Chicago market in the interest of outside speculators. In evidence they point to the numerous war scares and the like, which have turned out to be of little or no consequence, and the very contradictory market reports received. Sometimes Liverpool would be quoted lower to the private wire houses when, the public cable to the board quoted it higher, and vice

Whether these charges are true or not, the market has for some time been kept in a nervous state, and dealers have been more influenced by the character of the current rumors, whether houses with New York connections were buying or selling, than by the conditions legitimately affecting values.

The result of it all has been that New York has had the best of it m the violent fluctuations which have characterized the market, and have succeeded in guaging the movement of prices with much accuracy, selling at the top and buying at the bottom, and making about all of the money made on the turn, except that made by St. Louis dealers, who have followed the lead of New York pretty closely and have realized handsome results. The accuracy with which the New York speculators guage the influence of news on this market was well illustrated today. The early cables were builtsh and were accompanied with buying orders, and as a result the shorts got scarce and tried to cover, but finding no wheat for sale they began to bid for it, putting up prices sharply. Finally, after they had put the price high enough to give the early purchasers handsome profits, the New Yorkers tegan selling and rounded up a good day's business at prices about where they left off last night and in good shape for another buil campaign tomorrow morning if conditions are favorable.

Wheat ruled strong almost from the start and sold up half a cent and had the advanersa. Whether these charges are true or not, the

prices about where they left off last night and in good shape for another bull campaign to-morrow morning if conditions are favorable.

Wheat ruled strong almost from the start and sold up half a cent and had the advantage with a good deal of stubbornness. There was sensational news in the market but cable advices reported a very strong feeling in the United kingdom, though the private advices from the continent indicated some weakness here. New York seemed to take the lead in strength and had good buying orders on the floor most of the session. Foreigners were said to be picking up wheat there very liberally and the houses here with foreign connections were generally good buyers. The demand, the strong undertone and the buil dispatches made shorts very nervous. Every attempt to cover a line put prices up instantly.

The rumor that Russia had prohibited the exportation of wheat, which was circulated yesterday afternoon, was denied this morning. Later a private cable from St. Petersburg said that a general prohibition was improbable, though the export of Persian wheat had been forbidden. Later in the day a telegram from New York said that Russia had prohibited the exportation of "Persian wheat," which is said to be a grade of Russian wheat, which is said to be a grade of Russian wheat embracing about one-third of the crop. Decomber opened at from 984c to 99c, against 985c at the close yesterday, sold off to 684c, reacted then after a season of quiet, forged to \$1.004c, broke to 994c soon after the noon hour on sales for New York account; later there was a reaction and it closed a 984c. Late cables to the Board of Trade quoted Paris 19c to 16c higher and Eerlin excited and 5m to 54m higher.

Corn opened considerably lower on account of the continued fine weather in the north-

to be higher and Ferlin excited and om to bim higher.

Corn opened considerably lower on account of the continued fine weather in the northwest, but the strength displayed by wheat caused the market to assume a strong tone. October opened at 52%, touched 51%, advanced to 53%, broke to 52% and closed at 52% against 52% eyesterday. September was weaker, losing 14c. Oats were steady to firm with fluctuations of a quarter of a cent. Hog products ruled strong and higher on a good demand, and the firmness in grain during the forenoon, but weakened with them in the afternoon. The leading futures ranged as follows:

STOCKS AND BONDS.

NEW YORK, Sept. 18.—The stock market today was the most active of any day for years, not excepting the days of the November panic, and there was a great deal of excitement attending the trading at all times during the day. There was a continuation of the buying for the long account by outside speculators, both foreign and domestic, and the covering of large lines of short contracts he ped along the upward movement while they swelled the volume of business to unusual proportions. Another element in the day's operations, however, was the enormous realizations on the profits secured during the last few days, and these operations during the forenoon were the most influential factor in making the temper of the market.

of the market.

The opening was made at higher prices than those of last evening, but while Reading was up seven-eights of 1 per cent. Louisville & Nashville was down five-eights of 1 per cent, Reading was still the center of speculation in the forenoon, but the crowd of brokers in the spaces allotted to the different stocks were unusually large and while Reading and Atchison still maintained the premier position in point of activity, other stocks soon came to the front with more substantial advances. The heavy buying and the heavy realizations of the forenoon kept the market in an extremely feverish state, the transactions footing up to coormous figures for the first hour, the excitement being correspondingly intense. Toward noon, however, the realizations slacked away under the stubborn resistance of the market to the pressure and the shorts came in to cover. In the buying movement the grangers were most conspleuous and Rock Island, Burlington and St. Paul took the place of Reading and Atchison as leaders of the market. The advance in those shares was very sharp, and as compared with their lowest figures flock Island rose 4½ per cent, Burlington 2% per cent and St. Paul 2% per cent, Burlington 2% per cent and St. Paul 2% per cent, Murlington 2% per cent, Murlington 2% per cent, Burlington 2% per cent and St. Paul 2% per cent, Burlington 2% per cent and St. Paul 2% per cent, Burlington 2% per cent and St. Paul 2% per cent. The lowest figures were reached toward 2p. m. and after that time the traders who had started in to take the market away from shorts began to realize their profits and a material reaction occurred in the last hour, Rock Island going back 5½ per cent and the rest of the list from one-eighth of 1 per cent to 1½ per cent. Some of the more sluggish shares of the forenoon were even carried down below the level of the opening prices, and Ontario & Western lost a good silce of its late rise, dropping from 23½ to 22½. The decline lasted until the sound of the gavel and the market closed rather heavy The opening was made at higher prices than per cent.
Government bonds have been dull and steady. State bonds have been quiet and firm The following are the closing quotations for the leading stocks on the New York stock ex-

New York, Sept. 18.—The Post says: The markets of yesterday and today show conclusively enough that buying for the rise by speculative outsiders has become a factor of prime importance. No other interpretation could be put upon the transactions of 550,990 shares yesterday and this with the larger business of today, in the majority of these securities is believed to have been made with the aid of stimulative pools. The belief, in confirmation of which there are many current indications, that one of the most important interests in the speculative market has stubbornly resisted the advance, makes this outside movement particularly interesting. It is to a very large extent a market without leaders. Reading's movement yesterday illustrates the value in a speculative way of a distinct and favorable change in the outlook of any single important stock. There may possibly be more sensations of the kind in store. Union Pacific and Richmond Terminal on the other hand remain drags upon the general advance.

The problem to be solved, therefore, is Financial Review. vance.

The problem to be solved, therefore, is whether these unlucky properties can be absolutely ignored, or whether they alone have suffered severely from the recent prolonged boycott of the bond market by investors? The next few days will go far to give the answer.

New York Money Market, New York, Sept. 18.—Money on Call.—Easy, ranging from 3 per cent to 4 per cent; last loan, 3½ per cent; closed offered at 3½ per PHIME MERCANTILE PAPER—514@7 per cent.
STEILING EXCHANGE—Weak at \$4.80\(\frac{1}{2}\) for demand.

Traders' Talk.

Chicago, Ill., Sept. 18.—Kennett, Hopkins & Co. to S. A. McWhorter: An exciting day on change during which frightened shorts bid prices up sharply on themselves closes with the market about where it closed vesterday and pretty well evened up. The alleged prohibition of wheat exports by Russia did duty in many forms. As finally reported the prohibition applies only to wheat exported across the Persian frontier as Persia is herself an exported. This sounds much like forbidding shipping of coals to Newcastle. The only possible explanation of such a step seems to be a fear that Persia might become a route of transportation for itussing grain and as Russia owns the railways it would naturally seek to stop Russian products from being carried to market over any other line of transportation than its own. It is a matter apparently of no consequence, but it served to drive in some big shorts (among them Pardridge) and relieved the market of the tension caused by their short sales. The advance is due to speculation, legitimate demand cutting little figure. It is doubtful if these buiges can be sustained though the clearances thus far this week have been unusually large aggregating over 600,000 in wheat and flour from New Orleans and the Atlantic coast, but receipts at primary markets are so greatly in excess of shipments and the Visible is increasing so fast that considerably lower prices in the near future seem almost assured. No new export business at the seaboard was reported up to the close of change. The long futures of Traders' Talk.

corn showed considerable strength. This was probably due to long getting out of the near options and into later months. The decline in September and October continues and if warm weather instafew days longer long futures are likely to be sold. It is believed that May corn will be freely bought for investment at 40042c. Provisions recovered yesterday's decline. There is every encouragement to buy them on the little breaks and we don't believe it good policy to sell them at all except to take profits.

CHICAGO. III., Sept. 18.—Swartz, Dupec & McCormick to F. Ochwartz & Co.: December wheat opened this morning at 90c, sold back to 884c, up to \$1.00\forall and closed at 984c. The advance was caused by stronger foreign advices and reported removal of the agitation of export duty on wheat from Russia. The latter started a buying movement for both long and short account, a big short line being covered at the top. The weakness at the close was the result of an effort to get out by local traders who had bought on the advance. Cables were conflicting but generally stronger. Minneapolis and Duluth had \$44 cars. Export clearances about half a million bushels, not including flour. Corn opened weak on continued fine weather and liberal selling of September for New York account but railled late on the advance in wheat.

Provisions firmer, and they advanced a littic and the close was the result of the provision of the provisions.

Chicago, Ili., Sept. 18.—Counselman & Day to simate for Saturday only 2,000. We feel bearish on provisions.
Chicago, Ili., Sept. 18.—Counselman & Day to
Cockrell Brothers; Wheat opened active and
about ige higher. Cables were just enough
firmer to induce the so-called Hutchinson
crowd and their following to keep their wheat
off the market and watch for seme item of
news strong enough to make it tolerably safe
to go gunning for the short speculators. This
finally came in the receipts of 6,230, 00 bushels
of wheat and flour clearances from five ports.
So fir this week exporters are doing an active
business in Duluth and a fair market at seaports and an opportune private cable quoting of wheat and flour clearances from five ports. So far this week exporters are doing an active business in Duluth and a fair market at seapports and an opportune private cable quoting Antwerp excited on account of the fear that Russia would prohibit the export of wheat. A leading short was worried into covering 1,000,000 to 1,500,000 and the market thereafter relapsed in the face of higher closing cables and the whole advance of the day was lost. We still advise keeping to the short side, believing the present exports are principally to fill sales from thirty to sixty days ago and that the accounts will tire out holders before sales at present prices can be made in any considerable amounts. Corn advanced 2c on heavy buying by the fornier clique houses apparently on graded orders which hammer was suspended when wheat became too heavy. We prefer awaiting a bulge before advising short sales. Provisions started off with a show of strength in sympathy with grain. There was not enough business to sustain it, and when scalpers attempted to realize the market declined and closed only a shade above vesterday and rather slumpy in tone. CHICAGO, Ill., Sept 18.—. *GC. Lozan & Co. to Bryan Commission company: Wheat opened quist, December selling at 50c, sold of to 38% Cables give higher prices in the United Kingdom and on the continent iower. As we look at the position and values, American wheats are low compared with all other exporting countries and believe in buying in this market on breaks. It may be only a scalping market for a short time; ultimately we look for higher prices. In corn the liquidation has been heavy in September and October. We look for lower prices for both options. The trading in May is on the increase and popular sentinent is that May is selling at about its value. Little doing in oats, with only fractional fluctuations. A fair business doing in provisions. The packing interest is more disposed to buy than to sell.

OMAHA LIVE STOCK MARKETS.

OMAHA, Sept. 18.

CATTLE—Official receipts of cattle, 3,961, as compared with 3,338 yesterday and 2,986 Friday of last week. Market slow and dull. Butcher stuff in heavy supply and boor demand. Market weak, 5@10c lower. Good 1,000 to 1,200 pound native feeders active and steady Common light stockers a drug on the market. Hogs—Official receipts of Hogs, 2,761, as compared with 2,111 yesterday, and 2.88 Friday of last week. Heavy hogs active a shade stronger. Light and mixed about stendy. Market closed firm and everything sold. Light, \$4,90@5.05; heavy, \$4,95@5.75; mixed, \$5,00@5.05.

Sheep—Official receipts of sheep 3, as compared with none yesterday, and none Friday of last week. Market unusually steady.

steady.

CHICAGO, Illa, Sept. 18.—[Special Telegram to THE BEE.]—The most hopeful thing to be said of today's cattle market is that in a gen-oral way it was in po worse condition than on said of tousy's cattle market is that in a general way it was in no worse condition than on the preceding two or three days. A drop in receipts from 20,000 to 11,000 had no other effect than to arrest the downward course of prices, which at the close of yesterday's trading had reached a point from 15c to 40c per 100 pounds below the prices ruling one week ago. The wants of the trade were less than on preceding days of the week. as the majority of buyers had already secured their full complement of stock. Lessened competition made it difficult for sellers to unload even at the low prices of the day he fore. In fact a good many cattle remained on their hands at the close. The receipts were about 5,500 natives and an equal number of rangors. The former soid on a basis of from \$1.00 to \$2.75 for inferior to choice cows, \$1.75 to \$3.25 for shipping steers, while rangers were quoted at from \$1.00 to \$1.75 for westerns and at \$1.40 to \$5.25. Prices for hogs ranged about the same as on Thursday, light weights selling at from \$4.50 to \$3.25 and poor to choice medium and heavy at from \$4.50 to \$5.55. To bring outside quotations a strictly first class article was required and there was only here and there a load that "filled the 10iii." From \$4.75 to \$3.55 for heavy and medium, were the prices at which most hozs were weighed. The hot weather operated as a check upon the shipping demand, but there was very free buying by local packers and salesmen did not find it necessary to carry over any considerable number. The close was steady.

over any considerable number. The close was steady.

The Evening Journal reports: CATTLE--Receipts, 11,000; shipments, 4,500. Market giutted and prices demoralized: prime natives, \$5.50,5.80; no natives sold; good to choice, \$1.502,5.90; no natives sold; good to choice, \$1.502,5.90; nangers, \$1.402,4.00; good cows and heifers, \$2.002,2.6).

Hogs-Receipts, 17,000; shipments, 9.500.
