SOMETHING ABOUT BURT COUNTY.

No Crop Failure in That Locality During the Past Thirty-five Years-State News Notes of Interest.

TERAMAN, Nep., Sept. 27 .- |Special to THE BEE. |-Burt county with a population of 11,060, is located in the northeastern part of the state, bordering on the Missourl river. The soil is a black loam from two to five feet deep, is very productive and has never failed to raise a crop in thirty-five years. There are about 300,000 acres under cultivation and the farmers are generally prosperous.

The Chicago, St. Paul, Minneapolls & Omaha railroad runs through the centre of the county, and upon it are located four thriving towns, Lyons, Oakland, Craig and Tekamah. The latter place is the county Seat, distance about forty-nine miles from Omaha and eighty miles from Sloux City. There is also a strong prospect that during the present year the Illinois Central, now completed to Onaw, Ia., will extend its line across the Missouri river at Decatur, Neb., passing through Burt county with Omaha as its objective point, thus affording two com-peting lines for Chicago and Omaha busi-

#### IN "DARKEST RUSSIA."

Reported Condition of the Hebrew Subjects of the Czar. Loxnov, Sept. 27 .- "In Darkest Russia" points out that if Baron Hirches' scheme is

successful, it will provide for about 3 per cent of the Russia Jews. A letter which first appeared in the Anti-Jacobin and which was signed "An Israelite Wanderer," has been republished in the afternoon papers,

and is attracting cansiderable attention. It strongly defends. Russia and declares that laws relating to Jews are by no means so inequitable as they are thought to be. Referring to the domicilo law, the letter says it has been never altered, but it has operated with so little vigor that one-third of the Jews reside today in government from which they were excluded a century ago. This he says, is a sign of gradual improvement, which is the best to be expected from a semi-civilized country like Russia.

Continuing, the writer of the letter mentioned says that 20,000 Jews reside in St. Petersburg, and that a similar number reside in Moscow. "Expulsions," he adds, are entirely due to Jewish violations of law. Ever since Russia opened her cities to Jewish traders, they have been recognized by the guilds of professional men and merchants. It has been the aim of the Hebrews, who are excluded from that privilege, to obtain a setlement in the central provinces. The Guild of Mechanics' certificates have been forged. fraudulert police permits have bees printed, and a regular trade in them has been prosecuted for years. Certificates have also been used long after the original grantee was dead and thus, thousands of Jews, without means or a trade have settled in Russia, where they have no more right to be than a pauper has and to be the regulation of the second secon

"Between 150,000 and 200,000 Jews now eside in Russia in open violation of the law, owing to fraudulent permits or by bribing officials. Being undisturbed they soon be-come more confident and have invested money in houses which is against the law, and then, when orders are received to en-force the domicile law, the outside world hears of wholesale expulsions accom-panied with brutality. But every Jew so expelled courted his own fate. They all know what they are doing when they pass the pale of their domicile. Poor Jews suffer the most from the rigor of the law, being, as peddlers, porters, and such like, at the mercy of every petty official, by whom they are bounded from pillar to post. "If Baron Hirsch's scheme includes these noor Jews it takes up the most unpromising

material it is possible to deal with. They have neither the physique for hard work no resource of any kind. They and their families must be supported by money after they leave Russia until an indefinite date, when they can maintain themselves. The government would not allow the capable and sturdy better class, who are all military reservists, to leave the country.

LOVE IS A STRANGE THING.

PICTURES OF AFFECTION BRIGHT AND SAD Devotion Rewarded by the Wealth of

Woman's Love-The Fabrics of Love's Young Dream Shattered and Broken.

NEW YORK, Sept. 27 .- A romantic courtship, which began at the Austrian spa just two years ago, will end in a wedding in this city early in December. The pride-elect is Miss Cora Cahn, daughter of Mr. Henry Cann the millionaire importer of 171 East Sixty-third street, New York, and the bridegroom is Herr Oscar Von Caim of the Ninth Hussars, aide-de-camp of Heridetary Duke Ferdinand Este, who will succeed the presest emporer, Franz Joseph, on the throne of Austria. What will surprise Miss Cahn's friends and co-religionists is the fact that she will renounce her faith and become a communicant of the Catholic church, to

which her intended husband belongs. Love at First Sight. The history of the courtship teems with omance. It was a case of love at first

sight. Miss Cahn and Lieutenant Von Calm met at Baden, a fashionable watering place near Vienna, a year ago last summer. She and her parents had spent the season abroad and after doing Europe settled down in a villa not far from the springs. Herr Von Calm first saw Miss Calm on the promenade, again at an afternoon concert, and, so, for two months, the couple were thrown into each other's society without being formally introduced. The kind offices of a mutual friend brought them together and from that time they were devoted lovers. Miss Cahn treasured her affection for the young lieutenant as a secret. She confided in no one, not even her parents.

The lieutenant did likewise. And so it happened their meetings through the season caused no comment. Miss Cann is a strikingly handsome girl,

10 years old, tall and distinguished, with a well rounded tigure. Her hair is glossy black and her face a rich tint, suggesting her oriental origin.

The season over Miss Cahn accompanied her parents back to America and Von Caim re-joined his regiment. Before parting, Von Calm confessed his love, which was reciprocated. He promised to marry Miss Cahn, provided the gulf which divided them could be bridged over. This seemed to be an almost hopelest task, in view of the many obstacles themselves. Miss Cahn is a jewess and Austrian etiquette does not tolerate her race in court society.

Herr Von Cahn belongs to the most exclusive of Austrian families. His father is a rich retired banker, and his brother is premier

In keeping with this claim a number of foreigners have already been placed under arrest. Among them are three Americans who were engaged in business here. The matter went so far that every person having occasion to visit the legation was ordered to obtain a permit from the intendente before he was allowed to go into the place. #### Ambrose Parr Hangs Himself BecauseHe Was Called a Scab.

MILLVILLE, N. J., Sept. 27 .- This morning Ambrose Parr went up into the garret at his home, No. 40 Garneld street, tied a rope to the railing over the stairs, stuck his head through a slip knot, and then swung loose. He was found dead by a younger brother two hours later. The boy's mother said that Ambrose was employed at Whitall, Tatum & Co.'s South Millville glass works, and during the resent of the tending boys at the works against the employment of Hebrews, he re-fused to go on a strike with them, but remained at work. Since then the strikers several times called him a scab, and this, it is thought, unsettled his mind and drove him to
