Federal Offenders Required to Pay the Penalty of Their Crimes.

JUDGE MACY CLEARING HIS DOCKET.

Streets Damaged by the Recent Rains -Dull Times Cause a Grocery Failure-September Deaths -Minor Mention.

Yesterday was sentence day in federal court and most of Judge Wooison's time was occupied in giving the violators of the internal revenues their dues. In the cases against Bell Sparks, Zack Carter, James Ciark, John Elwell, Charles Partridge, El Lyman, Otto Martin, Ad Mitcham and Ed Carter the appearance bonds, which had been put up, were declared forfeited, as the defendants had not shown up and bench warrants were issued to have them brought in.

George W. Burley, J. L. Aulgg, Ralph Helfin and Frank Persing were tried and found guilty.

The following sentences were imposed Samuel King, fine of \$125 and imprisonment of thirty days; William McKenzie, fine of \$100 and imprisonment thirty days; J. M. Koons, Charles Koon and Melt Pierson, each a fine of \$100 and imprisonment thirty days; E. D. Wilson, \$150 and thirty days; Andrew Aller, \$120 and thirty days; Charles Dominasse, \$125 and thirty days. The above sentences were all suspended pending good behavior. Joe Peirson was given a sentence of \$100 and forty-five days, and C. W. How

ard \$100 and thirty days.

H. D. Marker was given a trial on the charge of violating the internal revenue laws. When his case was before the grand jury half a dozen fellows of Riverton, Fremont county, were subpoensed, and they all said they had bought liquors of him at various times. When they were brought up it court to testify it was evident the fixer had got in his work, for they all with one accord swore that they did not know whether they had bought liquor of Marker or not, and about the only thing they were sure of was that Marker had been in Riverton one time when they bought some drinks. There being no witnesses left on the side of the govern ment, Marker had to be acquitted, as United States Attorney Miles was not allowed to introduce any evidence to show that his wit-

The district attorney then asked that the witnesses who had thus sworn to two differ-ent statements be held to the grand jury on the charge of perjury. Judge Woolson did not order them so held, but stated that he not order them so held, but stated that he would give all the assistance in his power to secure the punishment of witnesses who should be found to have perjured themselves in this way. He accordingly directed that an investigation be made in order to find out the exact story which the witnesses told when they were before the grand jury, and if it shall develop that there was perjury, the cases will probably be taken under considera-tion by the grand jury tomorrow. The names of the suspected parties are Thomas Max-well, Thomas Manrose, Eugene Beam and

Sherman Straight. Owing to the extraordinary size of the criminal docket at this term, the work of the court will not be completed so early as was expected. There have already been more indictments returned than at any term of cour for several years, and the grand jury is still grinding away with the prospect of keeping at it the greater part of this week. It is not the term will close until next Friday or Saturday.

Washed Out by the Storm. The storm of Friday night did considerable damage, in a mild sort of way, among the glens and unpaved streets of the city. Almost every paved street in the eastern part of the city suffered to a greater or less extent. The water poured down from all the glens in torrents, and the results could be seen in the piles of earth, several inches deep, which lay along Broadway and Washington avenue, where it had been left by the floor. Graham avenue was one of the worst streets in the city yesterday. A large hole was washed in the sidewalk on South First street in front of the residence of A. C. Graham, and a large culvert was washed completely out on upper Pierce street. Similar results of the storm could be seen all over the city. Yesterday morning, after the rain had been falling steadily all night, the streets were almost blockaded with standing water, and in some instances motormen had to get off their trains and fish around in the water for their switches, instead of bandling them from their platform, as usual.

Clearing the Calendar. Judge Macy spont a part of the day in the district court yesterday in calling up some of the cases that have been encumbering the docket for a long time past, and which have been allowed to drag along, year after year, without coming to trial, on account of the faiture of the attorneys to prepare. This work was commenced by Judge Deemer last term, and was carried out by Judge Macy at the opening of the present term. Yesterday he reduced the calendar by about twenty-five or thirty more cases, saying as he did so that he hoped the attorneys would learn soon that they must get ready for trial or else let their cases go by the board. One difficulty a sweeping the cases thus bodily from the calendar is in relation to the question As the cases never come to trial, the officers of court have to lose their fees for services performed. This prospect is not very gratifying to the officers, but no way out of it has yet been discovered.

CONDITION TOF RAILROADS.

Annual Report of Commissioner Tay lor to the Secretary of the Interior.

ENDORSES THE UNION PACIFIC'S POLICY.

Some Interesting Figures from the Report Showing the Net Earnings of the Roads of the Country.

WASHINGTON, D. C., Oct. 3 .- The annual report of Commissioner Taylor was handed to the secretary of the Interior today. The report says of the railroad situation, that for the past year there has been an increase in the gross receipts, but a falling off in net earnings, owing to increased competition. The net earnings of the roads indebted to the government show a slight decrease over last year, the roads paying into the treasury each year ail that the laws require them to

pay. Full and detailed statements are given, showing the financial condition of companies, gross and net earnings, requirements, amounts paid in and total amounts of the government debt. Statements show the total gross receipts of conded roads, for the year with settlements made, were \$28. 045,000, net earnings, \$6,059,000; government requirement, \$1,740,000; paid in, \$1,616,000. Total debt of bonded roads, up to December 31, 1890, amount to \$112,513,000.

The commissioner recommends the appointment of a commission, of not over three members, to consider the advisability of bonded roads eventually meeting all their obligations to the government, confer with railroads and report their conclusion to con

The commissioner endorses the policy of the Union Pacific in aiding the construction of branch lines tributary to the main line. He says: "It would be almost impossible to He says: emphasize too strongly the value to the Union Pacific of branch lines. It is alone through them that operations on the main line, on whit the govern-ment holds a lien, have been made profitable. Some of the branch lines may ot be profitable in themselves, but as feeders to the main line they have a value which does not appear on their own balance sheets. The transcontinental business, which was large and lucrative a few years ago, is now divided among many competitors it is almost insignificant as to the amount and profit. It is loca business alone, most of which is con tributed by branch lines, that brings profit to the main line. Were it not for these feeders, the Union Pacific would yield no net earnings whatever, and the pro-perty would not be worth the amount of its first mortgage bonds.

The commissioner urged very strongly, and at considerable length, the great necessity of some action being taken, looking to the settlement between the bonded roads and the government. He has little doubt of the ability of the principle bonded roads to eventually meet all obligations to the government, but the sum of these debts is apparently beyond the possibility of payment in money at their maturity. Some plan of re-f unding must be devised.

RAILROADERS IN SESSION.

Meeting of the National Brotherhood

of Railway Trainmen. Galesbung, Ill., Oct. 3. -The first surprise of the delegates assembled to attend the na tional convention of the Brotherhood of Rainway Transmen was sprang tonight and is the answer of the defendants, J. D. Cuthridge, J. B. Gibbons and S. C. Young of the new new board of trustees, to the injunction bill filed two weeks ago by the old board. This answer bolds that the old board had a remedy in an appeal to the convention; that the old members were legally deposed for sufficient cause and the new ones legally chosen and entitled to the office until the convention acts. The defendants deny that hey intended any injury but aver that is assuming the duties of the office they we only seeking to forward the prosperity of the brotherhood. They deny that they are in collusion with Sheehan or Wilkinson. They aver that by the injunction bill they have been wrongfully drawn into the controversy between the complainants and Wilkinson, a controversy in which, prior to the suit, they had taken no part, and that their appoint ment was without their knowledge or seeking The answer charges that the complainants die ot seriously strike for relief in the injunction case filed prior to the June term of court, but allowed it to go over in order to vent their personal hostility toward certain of the grand lodge officers at the expense of the protherhood, and that their bill filed was also not for vindication, but to in ture the brotherhood by this attempted exag reration of their personal controversy with the grand master. TOO SPORTY FOR THE CHURCH.

An Iowa Pastor Dropped from Conference for Trotting Horses. DAVENPORT, Is., Oct. 3. - The upper Iowa conference of the Methodist Episcopal church, in session here with 210 delegates present, has taken important action on a number of matters. As usual at such meetings the fast horse question bobbed into prominence, Rev. W. F. Bacon of Sabula being dropped from the conference at his own request. He was given his choice between quietly retiring in this manner, or relinquishing his present profitable occupation of training speed herses.

It seems that shortly after accepting the Sabula charge Mr. Bacon purchased a horse at about \$150, which, with judiclous training, soon enabled him to disnose of it for \$1,500. So he brught another likely bit of horseflesh with part of the proceeds of the sale, and put the second horse into the hands of pro-fessional trainers and it now shows a clip of 2:37. When it is good for 2:30 Mr. Bacon proposes to convert it into cash. A third horse is reported to be undergoing a similar animals have figured in some of the county fair races this fail Mr. Bacon was given his choice between going out of the business or the ministry, and

he stuck to his horses.

PARNELL FINDS FAULT.

Gladstone's Latest Speech does not Please Him.

DURLIN, Oct. 3 - The United Ireland today publishes an interview with Mr. Parnell in which he contended that Mr. Gladstone in devoting three-fifths of his speech to other subjects, although he formally declared he must leave everything but the question of home rule to younger men, proved that he followed the "swing round" of the liberal party. It was true that he claimed Ireland should control the police force in that coun try, but that did not mean that the constabu-lary, which he desired, should be disbanded Therefore on that subject he was in the same position as in 1886—in the county council and police side by side, while the imperial government continued the constabulary. This ernment continued the constabulary. This Mr. Paraell declared would be a severe disappointment for the seceders.

Restored. "With the hope of benefitting others affering as I have, I wish to relate my experience," said Mrs. Jane Barrett, of 519 Wash street, St. Louis, in conversa-

tion with the writer. "For over two years I have suffered almost constantly with terrible aches and pains all through my head and face. My head and nose were stopped up, Ronring, buzzing noises in my ears affected my hearing.

"My throat was so raw, and most of the time I could hardly swallow. I could cat no solid food on account of it. The mucus would drop from my head back into my throat, and keep me hawking and raising all the time.

MRS. JANE BARRETT, 519 WASH STREET, 57, LOUIS, MO.

"Sharp shooting pains would take me in the breast and around the heart. A dry, hacking couch set in, which alarmed me very much.

"My appetite was very poor. I could not eat my solid food because I could not waitlow, but what I did eat would lie on my stomach like lead, causing me great distress.

"I LOST FIRSH rapidly. I went from 105 to 10 pounds in a short time. My heart would beat rapidly, then slowly.

"My sleep was restless and broken, and did me no good. I would get up in the morning actually more thred than when I went to bed. "In my anxiety to get well I tried everything that was recommended to me. I treated with some of the best doctors in the country. One doctor charged me \$51 for one treatment, and I never saw him afterwards.

"I seemed to grow worse all the time. I was so weak and worn out. I could hardly stand, and the constant pain in my head and face and throughout my body almost drove me frantic.

"In this condition I began reading accounts."

and the constant pain in my hoad and face and throughout my lody almost drove mo frantic.

"In this condition I began reading accounts in the newspapers of the success of Dr. Copeland and associates, and, with the interest that hope inspires. I read one case after another, but, being skeptical as a result of my unsatisfactory experience with other physicians. I besitated to go to them.

"At last, fully convinced by the strong endorsements of "MISPONSIBLE PEOPLE" of the remarkable skill of these physicians. I went to see them, and I am very glad indeed that I did so, for to-day I am in a better condition than I have leen for years. I cat well, see powell, and am entirely relieved fromall the sypmions of my former trouble. I have done more were in the past week than I have before in two years. I am satisfied Dr. Copeland and associates can cure any case of eaterth, no matter of how long standing."
