THE SPECULATIVE MARKETS

Wheat Found Fair Support Though Below Saturday's Closing.

PUBLIC AND PRIVATE CABLES WEAK.

Reports from the Northwest Conflicting—Many Distinguished Bad Weather While Others Declared to the Contrary.

CHICAGO, Ill., Oct. 5.—Wheat was rather steady today. Its tendency during most of the session was downward, but on most of the decline it found pretty good support, and though below Saturday's close most of the time, it did not become demoralized at any time, closing easy at a reduction of from ⅝c to ⅞c for active futures. The bulk of the news in circulation was bearish. Cables were quoted weak both through public and private channels. The receipts in the northwest were very large, 1,762 cars. Good gains were reported in the winter wheat region where the drouth has been severe, while from the northwest the reports were conflicting, some dispatches saying that it was clear, while others noted that the rain had again commenced and the outlook was serious.

New York and other domestic markets opened easier and the market here followed. December started at 98¼c, sold at 98¼c, then broke to 97¾c, but reacted to 98⅝c, again off to from 97⅝c to 97⅜c and up to 98⅝c before noon. Around 98c the market got considerable support. Logan, Mitchell and Kennett-Hopkins were good buyers much of the time. William Dunn had a cable which reported that the wheat shipments from Russia last week were 5,960,000 bushels, from India 1,136,000 bushels, or from both 7,096,000 bushels, against 2,228,000 bushels shipped the previous week. The same dispatch reported the total exports of wheat from Russia since January 1,188,000 bushels. A cable reported that France would soon suspend all duties on wheat. During the last hour the market was rather easy. December sold off to and closed easy at 97¾c. Hutchinson's brokers sold freely above 98¼c, but were generally buyers under 98c, apparently doing a scalping business.

Corn was unsettled but inclined to weakness, with only a moderate business during most of the session. At the start there was a firm tone manifested, the small receipts and the liberal withdrawals from store, together with the frosts in Iowa, Illinois and Nebraska having a tendency to make shorts cover. The demand was soon satisfied, and offerings becoming more liberal, the market weakened and sold off. October opened at 54c, against 53⅝c at the close on Saturday, broke to 53⅛c, reacted to 54c, dropped to 53⅝c, steadied some but became very weak during the last hour; it broke to 53⅛c, advanced to 53¾c, and then near the close dropped to and closed easy at 53⅜c.

Oats were easy on account of the heavy receipts and the weakness in corn and closed with a loss of from ¼c to ⅜c. Hog products were quiet and easy in sympathy with corn. Pork shows a net loss for the day of 10c on the near futures, January remaining unchanged; lard is from 2½c to 5c higher, while ribs lost from 2½c to 5c.

The visible supply of grain as reported for the Board of Trade is as follows: Wheat, 27,885,000; increase, 1,034,000; corn, 7,546,000; decrease, 1,341,000; oats, 5,850,000; decrease, 260,000; rye, 2,168,000; ucerease, 370,000; barley, 1,250,000; decrease, 500.

The leading futures ranged as follows:

Elgin Butter Market.

ELGIN, Ill., Oct. 5.—BUTTER—Active; sales, 5,340 pounds at 26½c, 7,580 pounds at 27c.

British Grain Trade Review.

LONDON, Oct. 5.—The Mark Lane Express, in its weekly review of the British grain trade says: The past week has seen a rapid clearing of the fields, but the harvesting has been protracted and expensive, without an abundany yield to compensate for the loss thus incured. Forced sales in certain districts tended to depress prices. In London the average price is 36s 9d. Foreign wheats are irregular. American red winter on the spot declined 3d and November and December deliv ery declined 6d. California is 3d lower the prices in Indian, Russian and Australian are well sustained. Oats are 6d higher. Malting barley is firm. Corn and grinding barley is each 6d lower. American oats will be a feature of the winter's trade, their present value is from 17s 6d to 18s 6d. Rye has declined 6d in Germany but is unchanged here. Beans and linseed meet with better sale. At today's market the price of the English wheat averaged 37s. Heavy importations of American and Russian offered caused a rise in foreign wheat. Flour firm. Corn firmer. Beans and peas were unchanged.

Minneapolis Wheat Stock.

MINNEAPOLIS, Minn., Oct. 5.—Figures compiled by the Northwestern Miller show the stock of wheat in private elevators at Minneapolis to be 1,628, bu, an increase for the week of 429,000 bu. The total stocks at Minneapolis and Duluth is 5,968,453 bu, or 88,603 bu more than last Monday.

The Market Record reports the stock of wheat in country elevators at Minneapolis and the two Dakotas at 2,152,300 bu, 174,200 bu less than last week. This makes the aggregate stock in the northwest 8,120,753 bu, an increase of 811,453 bu for the week. A year ago the northwestern wheat stock was 8,498,800 bu.

STOCKS AND BONDS.

NEW YORK, Oct. 5.—The stock market today exhibited a heavy tone under the persistent hammering to which it was subjected by the room traders who seem to think that because of the decided chanze which has taken place between Friday and this morning there should be a chance to reap some immediate profits by a turn in prices. The confidence in the future of the market, however, proved to be such that new buyers came in at every decline and the downward movement which prevailed during most of the afternoon was slow and the net losses are in almost all cases insignificant. The decided strength shown by the Vanderbilt properties is looked upon as a sure indication that powerful interests has returned to street and is working for a better market. The day was one of little or no excitement and no news of a character to cause any movement either way was developed. There was only one conspicuous point in the list—Union Pacific—and the loss for the day was a fraction only, while Rock Island and several of the industries were very strong, especially during the forenoon. Lake Shore, Wheeling & Lake Erie, both common preferred, and Chicago, Burlington & Quincy showed marked strength throughout the greater portion of the day.

The demand for stocks was very heavy at the opening and the pressure to sell from both short sellers, and realizations met with a resistance which resulted in the advancing of quotations during the first hour of from one-half per cent to 1¾ per cent. Missouri Pacific and Lake Shore among the active stocks, and Tennessee Coal among the low priced shares, leading in the movement, which however, came to an end when the early demand was satisfied and a reaction was followed by a reaction in the upward direction. Rock Island, Atchison and the Villards being most prominent for strength but the trading then lost all character and during the afternoon, prices slowly settled down, without special movement in anything outside of Union Pacific and no special feature marked the dealings for the remainder of the day. Rock Island continued to lead the list in strength but it too gave away finally and lost most of its improvement. The traders did most of their selling, however, and kept the market unsettled throughout the afternoon. The market finally closed only fairly active and heavy to weak generally at about the lowest prices. The final changes, however, are almost all for small fractions and show great irregularity while an advance of 1⅜ per cent in Tennessee Coal is more than offset by losses of 2¾ per cent in Union Pacific and 1 per cent in Northern Pacific preferred.

Government bonds have been dull and steady. State bonds have been dull and steady.

Financial Review.

NEW YORK, Oct. 5.—The Post says: The great elements favoring a rise in values from the level of the recent adventitious reaction are plain and their force would seem to be less obstructed than at any previous time this year. Except in the case of Missouri Pacific the buying of active stocks on Saturday was undoubtedly largely on commissions for a long pull and not the operations of room traders or margin speculators. In Missouri Pacific the buying was still largely by shorts.

A little analysis of the basis of the buying in the other most prominent stocks will confirmed the opinion expressed in its character. The stocks which exhibited the greatest strength all have made good showings of recent earnings on the general basis of Saturday's active demand and may be attributed to the strong London buying which may be taken as significant of the readiness of British investors to come into the market as soon as accomplished facts seem to justify it.

New York Money Market.

Con. Cala. & Va	535	Plymouth	200
Deadwood	185	Union Con	215
Gould & Curry	160		

St. Louis Mining Quotations.

ST. LOUIS, Mo., Oct. 5.—There was little trading on the Mining exchange this morning, but prices as a rule were firm.

American	42⅛	Silver Age	9
Elizabeth	175	Yuma	32½
M. Breen	42½		

Coffee Market.

RIO DE JANEIRO, Oct. 5.—COFFEE—Regular first, 7,500 reis per ten kilos. Good second, 750 reis; receipts during the week, 12,000 bags. Purchases for the United States, 61,000; shipments to the United States, 70,000 stocks, 948,000 bags.

Havana Markets.

HAVANA, Oct. 5.—SPANISH GOLD—@2.33¼@2.34¼.

EXCHANGE—Quiet.

SUGAR—Quiet; 90 degrees polarization, was sold at $2.55, gold, per quintal.

New York Dry Goods Market.

NEW YORK, Oct. 5.—Business in dry goods at wholesale was of an unchanged character. The demand, however, continued moderate with the hot weather again checking the retail trade.

Santos Market.

SANTOS, Oct. 5.—COFFEE—Good average 7,500 reis; receipts during the week, 18,000 bags; purchases for the United States 22,000; shipto the United States, 27,000; stock, 43,000 bags

Foreign Oil Market.

ANTWERP, Oct. 5.—PETROLEUM—15¾f paid and sellers.

Traders' Talk.

CHICAGO, Ill., Oct. 5.—Swartz, Dupee & McCormick to F. C. Swartz & Co.: Cables give no encouragement for the buying of wheat today. Russian and Indian shipments showed an enormous increase over the week before. There was an increase in visible of 1,035,000. Minneapolis and Duluth had 1,762 cars of spring wheat. Yet prices suffered a very slight decline. It was still raining in the northwest. There was still reason for complaint of dry weather in the winter wheat belt. From these two latter circumstances came all the support. There was buying by the northwest and apparently some buying by Wall street. Professionals here and he grain professionals at New York were apparently in a bearish mood. The local stock of all grades, wheat, 3,249,000 bu, was small enough also to suggest some covering. The trade was not large. Kansas and St. Louis wired that new corn had been received there in good order. The announcement outweighted every other, outweighted even very small receipts and a considerable decrease in the visible. The far-off deliveries were weak. All those with facilities for knowing declare that new corn will be in this market before the week is ended. The local stock here showed a decrease of 16,000,000 bu, leaving 2,760,000 of all grades in store. Provisions were exceedingly dull, so dull as to be practically devoid of feature. The spread between December and January andened and is likely to go under still futher. Such support as prices had came from the light hog movement. At the yards there were only 18,000, prices were 10c higher. Final figures were practically unchanged for the January deliveries, somewhat lower for the near by deliveries of ribs and pork. Packers continue to predict lower prices.

CHICAGO, Ill., Oct. 5.—Kennett, Hopkins & Co. to S. A. McWhorter: Cables were not as strong as expected and receipts exceeded expectations. The weather outlook for the northwest was also more favorable for threshing. Drawing encouragement from these conditions Chicago operators were free sellers. New Yorkers, headed by Hutchinson, being chief buyers. The visible increased only about 1,000,000, where twice that had been looked for, but closing cables with exception of Liverpool, came easier and neutralized the effect of this. Our correspondent at Duluth reports continued rains today in the north west, and if these should become general in that section there would be an active renewal of damage reports. It is alleged the French government was about to remove the duty on wheat, but this was not generally credited. In short the crowd were in a selling mood and not inclined to take stock in anything of a bullish nature. We learn that reports from the Pacific coast from points covered by what is known as the Bradstreet's visible show stocks in store were to be over 11,000,000, or about 4,000,000 larger than estimated by Bradstreet's. This information was not known on change, but it will probably be made public this afternoon. The weakness in other products doubtless contributed to the final weakness in wheat, the closing being heavy at the bottom. The Russian exports are reported to have largely increased of late. It was supposed the light receipts of corn would be likely to hold that cereal, but offerings were nearly all day resulting in a weak market, in which oats sympathized. One or two well informed receiving houses insist there are still considerable stocks of old corn in sight yet of contract grade. It is very doubtful if old options can be kept above 50c. A few car loads of new No. 2 would possibly cause a sharp break in October and November, but it is admitted that the situation is too critical with regard to crops to make short selling for the near months advisable. To new options they look like a good sale on all rallies. The quality of hogs coming to the market is so poor that the current manufacture of lard is falling below expectations. There is very little prospect of improvement in this regard for some weeks, and the consumption of lard meanwhile promises to largely exceed the manufacture. Considerably higher prices are looked for. Stocks of ribs are also so light that there would seem to be little risk in buying them. Pork is depressed by large stocks but as it was estimated that the number of hogs to be marketed during the coming winter will fall it per cent below last season's supply, stocks should soon be reduced to moderate limits.

CHICAGO, Ill. Oct. 5.—Counselman & Day to Cockrell Brothers: Wheat, after a weak opening, was well supported by large buying for eastern accounts and reports that France would remove its duties on grain. New York sent a fresh rumor of war in Europe, and a smaller increase in visible than expected, were all used by bulls to support the market. Towards the close offerings of long wheat were large and the market closed heavy at the lowest figures. There was a little spurt in corn at the opening, but it was only temporarily and bulls who have been holding the stuff for several months are beginning to unload, as lower prices seem probable in the near future. The provision market opened at about Saturday's closing prices and sold off some on persistant hammering by local shorts. The closing prices were but a trifle lower than Saturday. With this weather packers keep selling a little more freely every day, and we look for slightly lower prices tomorrow and we advise a purchase for a scalp.

OMAHA LIVE STOCK MARKETS.

OMAHA, Oct. 5.

The week opened as usual with a heavy run of cattle and light receipts of hogs. There was little change worthy of note in the cattle market, the best grades both beef steers and butcher stock selling at steady to strong prices with inferior grades slow. Desirable feeders sold stronger, others steady. The hog market was active and stronger. All sold, tops $4.90, bulk of sales $4.75@4.75, average cost $4.74. Sheep market 10c higher.

Receipts of hogs were light, in fact below the average Monday, and hardly enough to make a market. Quality of the few loads offered fair, but only a shade better than Saturday.

All buyers were on the market and the twelve loads offered did not last long. Sellers quoted a strong market with one or two sales a shade better than Saturday. The top hogs were about like those of Saturday.

CATTLE—Official receipts of cattle, 3,800 as compared with 845 Saturday and 4,080 Monday of last week. Market unchanged, best steers firm, others slow. Butchers' stuff dull and weak. Feeders steady.

HOGS—Official receipts of hogs, 860 as compared with 2,100 Saturday and 1,001 Monday of last week. Market active and prices steady to strong. Light, $4.65@4.70; heavy, $4.75@4.90; mixed, $4.70@4.75.

SHEEP—Official receipts of sheep, 302 as compared with 52 Saturday and none Monday of last week. Market active at fully steady prices.

Receipts and Disposition of Stock.

Official receipts and disposition of stock as shown by the books of the Union Stock Yards company for the twenty-four hours, ending at 5 o'clock, p. m., October 5, 1891:
