END OF THE BELMONT STUD SALE,

Handsome Fortune Realized from the Augtion - Trouble on the Point Breeze Track-Some General Sporting News.

New YORK, Oct. 17. - Tattersalis presented a scene tonight that rarely was equalled in its history. It was a brilliant assemblage. There was scarcely a prominent turfman, stud owner or lover of horses in America but who was to be seen at some time during the evening. The feature of the evening was the sale of the celebrated stallion St. Blaise, the greatest winning sire of the Nursery farm. By 8 o'clock the place was packed. Every one was discussing the merits of the great Belmont stallion until the business of the evening began, Mr. William

laston was in his best form. "St. Blaize is a horse of magnificent breed," he said. "Among the many race horses he sired, may be mentioned Triston, Shotover, Peter, The Bais, etc., while Ferace, St. Biaize's dam was a good race mare of magnificent breeding. When St. Blaize entered the ring the auctioneer took off his hat, saluting him as king

of the earth, "Gentlemen, what am I bid?"

Some one cried \$50,000,
"I am bid \$100,000," was the triumphant cry. Mr. C. H. Reed of Fairview Farm, near Gallatin, Tenn., was the bidder.
"It is the most sporting bid the world has ever known. It has stopped you all," cried Mr Easton There was dead silence in the vast assemblage. The bids were stopped and the king of stallions was knocked down to The event of the evening was over. Some

Point Breeze Race Meeting Panned

Out Little but Trouble. PHILADELPHIA, Pa., Oct. 17.-The Philadelphia Driving Park association's meeting, which closed today, has not been a glittering success from any standpoint, although some of the races were well contested. James Carpenter, driver of Archie B, and A. J. Libbey, driver of Stanley, were each fined \$100 and suspended until the figure was paid for crooked driving. Both settled before leaving the track. The mystery surrounding the identity of Brown Frank and Fred John-son, the men with the whiskers, is still unsolved. This telegram was received by the secretary of the track today from John Mitchell of Chicago:

I see from the papers that you claim Prince Hal is at your track "ringing." I am one of his owners. The horse is here. Please correct the mistake at once. Barlow of Bloomington is not an eastern man, and the one of whom you speak I know nothing of. Today's summaries:

French Horse Sales.

tCopyright 1891 by James Gordon Bennett. | PARIS, Oct. 17,-|New York Herald Cable-Special to THE BEL! - At the Cheris' auction mart today the celebrated stallion, Le Destrier, sire of Stuart, winner of the grand prix, was offered. Bidding was brisk up to 97,000 francs, when the hammer fell, M. Dousdebes, a young and coming owner, being the buyer. There was no foreign competition. Many say the horse was bought in. The auctioneers, however, maintain that the stallion was sold. The principal feature of the sale was the offering at auction of M. Lupen's racing stable. Lupin being the father of the French turf, his colors having been seen here since 1835, there was naturally a grand attendance on the sale. No sensational prices were reached, for the owner bought in the best ots, but the sale of thirty-one youngsters totalled 34,000 francs. Another Last of the Season. The Nonpareils and All-Omahas will try conclusions again this afternoon at the Fifteenth and Vinton street park. The same teams collided on Sunday last, the All-Omahas winning after a stubborn contest of ten innings, but the Nonpareils swear they will get even today. Baker and Traffley and Jel-len and Lacey will be the batteries, and a rattling good game can be depended on. With good weather, and there is every prospect of it, a big crowd should turn out and encourage the boys. Following are the positions and batting order:

Wrestling in Colorado. TELLURIDE, Colo., Oct. 17 .- A special train, carrying about 250 men from Teliuride ran to Trout lake today to attend the wrestling match between the two Cornishmen, Sam Gripble of Rico and Bob Gilbert of Telluride. The match came off at 3 o'clock this afternoon and was for \$1,000 a side. Several thousand dollars were bet on the side. The men were pretty evenly matched as to weight, but it was evident from the first that Gil bert was the better man. The match was declared a draw, much to the disgust of the Telluride men, who declare that the referee was bought by Rico. All side bets were withdrawn. The forfeit money remains up and the Telluride men say they will match Gilbert against Gribble for \$3,000 a side,

GETTING ANXIOUS. Canadian Provinces Anxiously Desire Annexation. OTTAWA, Ont., Oct. 17 .- Premier Abbott is said to be greatly concerned over the unmistakable sentiment rapidly developing in every quarter of the dominion in favor of political union with the United States. Several of the most ardent supporters of the late Sir John Mcdonald have become the foremost promoters of the movement. A leader in the tory ranks said so a reporter tonight that, as much as he disliked to make the admission, there was no disput-ing the fact that the only recourse to save Canada from bankruptcy and ruin ap-peared to be political union with the republic to the south. He pointed out the failure of the dominion government to negotiate trade elations with foreign countries their mis sions to South America, Spain, Australia and the West Indies having proved signal fail ares, while the restrictions imposed by the United States upon Canadian exports promise soon to exclude Canada from those markets in which, up to now, 45 per cent of all the dominion had to sell had been disposed of. Organizations in this section of of. Organizations in this section of the country are being completed to lay the case of "bankruptey or annexation" squarely before the people. Dr. Brien, one of the leaders in favor of political union, said, when a member of the dominion parliament just before the election, that he was an out and out annexationist and would leave parliament to announce his platform. As a iperal he did not desire to take the initiative of parliament so that his action could not be

attached to them. There are more than 100 seats in parliament protested and within six months there will be from fifty to seventy-five elections, in which the question of political union with the United States will be an important issue.

W. C. T. U. Delegates at Bradford Recovering from Their Illness. BRADFORD, Pa., Oct. 17.-Though the excitement following the poisoning of fully eighty lady delegates to the state convention

of the Woman's Christian Temperance union has somewhat died out, the mysterious affair is still the topic here, and will be for some time. Some of the delegates were taken down immediately after dinner, not until 4 o'clock were full effects of the poison manifest. Physicians say the symptoms were all those peculiar to poisoning. There was no forerunner of the sickness, but a sudden and terrible gnawing at the vitals, accompanied by uncontrollable vomiting. It certain more evere cases the pulses of the patient lowered ntil almost imperceptible, followed by

eathly pallor and complete prostration.

The absurd theory of the most severely ricken that food had been poisoned or the air of the church impregnated with gas by some liquor dealers or other opponents of the temperance cause, was completely ex-ploded today. Physicians were of the opinion that they had been poisoned by some deadly stuff or powder sprinkled on the grapes but this theory was also incorrect when investigation today showed that the people had been poisoned by food improperly cooked in copper kettles. Of the eighty taken ill, thirty were at first supposed to be ad hope, and the consequent distress and the consternation among citizens may be imagined. All those dangerously ill are now out of danger, and it is safe to say that all

pressed Polanders. DUBLIN, Oct. 17 .- Delegate Ziminski arrived here today from Warsaw, bringing with him a handsome wreath to be placed on the grave of Parnell. Zimiuski says it was intended that he should be present as the representative of the nationals of Poland at the funeral of the Irish leader, but the Russian government did not allow the date of the funeral to be published in the Polish news-

Papers.

The wreath is composed of laurel leaves entwined with the Polish colors and with broad silk bands bearing inscriptions expressive of sympathy with the deceased and the cause for which he fought. The Poles who sent this testimonial of their regard and appreciation of the work of Parnell were bliged to smuggle it across the frontier, as the Russian authorities would undoubtedly have confiscated the offering, even if no harsher methods were adopted.

REPORT OF GENERAL MILES.

Some Reasons Why the Indians Went on the Warpath Last Year.

LEGAL STATUS OF THE NATION'S WARDS.

President Harrison Advised by Promment Lawyers-An Office Holder Resigns-Interesting Washington Gossip.

WASHINGTON, D. C., Oct. 17 .- The annual report of Major General Nelson A. Miles, commanding the Department of the Missouri is mainly an historical review of the Sloux war of last winter, its causes and results. Among the causes that resulted in the Sloux outbreak he mentions the gradually increasing poverty of the Chevennes and the Sioux, the insufficiency of their rations issued by the government and the failure of the crops in 1889 and 1896 and the inability of the indians to immigrate to other parts of the country. He quotes at some length from reports made by General Ruger, then commanding the Department of Dakota, to show that the disaffection of the Indians at Standing Rock was to be attributed to several failures of the government. Of the Indians at Pine Ridge much of the same thing was said by General Brooke in a report dated November 30, 1890. Very nearly a similar showing is made in the report in regard to the causes of dissatisfac ion among the Indians at the Rosebud and Cheyenne agencies and among the Yanktons, the general tenor of their complaints being that the government had failed to provide sufficient rations. General Miles writes thus about the Messiah craze: "The fanaticisms and superstitions of these people were taken advantage of by their disaffected and designing leaders, who encouraged them to assume hostilities toward the government and white

The record of the outbreak at Pine Ridge follows in an interesting narrative. General Miles commends the administra-tion of Captain Penny as acting Indian agent at Pine Ridge, and says: "Through additional appropriations the Indians now receive nearly one-half as much more than they did a year ago."
In concluding his report on the campaign, ho says:

Notwithstanding the fact that the volcano has cooled down, the fires of discord still remain. Even while the hostages were at Fort Sheridan they received communications from their friends in the Sioux camps, stating that they had not given up the conspiracy of a grand uprising of the Indians and that the Utes were ready to join the Sioux whenever they were ready to resume hostilities. Communications have been discovered going on between the different camps, inciting Indians to hostilities, and even now (the report is dated September 14) there is a delegation from the Indian territory, absent ostensibly to visit relatives at the Arapahoe and Shoshone reservations in Wyoming. They have, in fact, gone across the mountains and are now in the abodes of the supporters of the Messiah delusion near Pyramid lake in Nevada. During the months following the serious disturbance of the near at the confidence of all has been Notwithstanding the fact that the volcane the months following the serious disturbance of the peace the confidence of all has been restored. Many of the settlers have gone back to their abandoned homes and ranches and the Indians have resumed their accustomed avo-

cations.

Affairs are graduatly adjusting themselves after being in a state of transition for a long time. The days of large holdings of land by the indians in common will eventually cease, and the Indians will take up the land in severally. and the Indians will take up the land in severalty.

As we approach nearer the time of the World's Columbian exposition, the most important affair of the kind that has ever been held in the world twould seem desirable to take advantage of the occasion to mobilize, or assemble, what is known as the national guard or state militia. The constitution had very judicleusly and wisely reserved the control of these forces to the various state governments, but, as a means to promote the efficiency of the various organizations, it would be well to assemble them under congressional enactment, with the approval and authority of the various state governments. In one national encampment at leastlonee in a generation. As there has been no gathering of that magnitude since the armies were dispersed in 1855, I would respectfully recommend that the militia be brought together at this peace jubilee.

As the general government makes yearly

Jubilee. As the general government makes yearly appropriations for the equipment of the militia. I see no reason why it should not provide transportation for assembling it in the encampment above pronosed. The reasonable reduction of rates in other countries for such movement of troops, and frequently given to this country, would reduce the aggregate cost any for 90 000 state troops and 10 201 federal say for 90,000 state troops and 10,00 roops, to \$850,000 approximately. For purpose I would respectfully recommend that congress be asked to make the necessary appropriations and to provide the requissite au

thority for such a movement. LEGAL STATUS OF THE INDIAN.

Prominent Lawvers Bring Facts to the President's Attention. Washington, D. C., Oct. 17.-The president received this morning by appointment a committee of the American Bar association. appointed at its meeting in Boston in August, consisting of Hon. Henry Hitchcock of St. Louis, who was president of the association last year. Prof. J. R. Thayer of the Harvard law school, and William Hornblower, a prominent member of the New York bar. This committee was delegated to bring to the attention of the president and congress a resolution which was unanimously adopted by the association after a debate, in which a number of prominent lawyers took part, in reference to the legal status of Indians on reservations. The subject was introduced by an able paper read by Mr. Hornblower in which, among other results of the anomalous existing conditions, was mentioned the acquittal of the Indian who treacherously killed Lieutenant Casey of the army during the Sioux troubles last winter, when indicted and tried for murder, on the ground that a state of war existed between the United States and the Sioux. In the fulfillment of their duty the members of the committee placed in the hands of the president a copy of the resolution which declared it to be the use of the association that the government should provide at the earliest possible moment for courts and a system of law for the Indian reservations. They also briefly stated to him the consideration on which it was based, referring to repeated recommen dations by successive Indian commissioners the report of General Miles and others in 1883 as commissioners in reference to the Ponca Indians and the testimony of Bisnop Hare, all to a like effect.

The president listened with attention to the statement of the committee and repiled that the matter should receive the consideration which the importance and the gravity of the subject deserved. The interview was the subject deserved. necessarily brief, as the president was about to pay his promised visit to the Methodist ecumenical conference. Later in the day the ommittee had an interview on the same subject with the secretary of the interior also with the commissioner of Indian affairs, with each of whom the matter was very fully and satisfactorily discussed.

LONG MAY SHE WAVE.

Spangled Banner Will Fly Star Higher Than Any Flag. CHICAGO, Ill., Oct. 17.-The stars and stripes, it has been decided, are to wave ,120 feet above the ground-higher than ever the flag has waved before. It is to be done during the World's fair from an American tour that will out-Eiffel Paris. The builder is to be Andrew Carnegie of

Pittsburg.
Over twenty-five thousand people will be accommodated in the tower at one time and two of the many elevators are to start from he ground and run more than one thousand feet up without change or stop, directly to the lookout landing. The width of the tower at the foundation level is 440 feet in each direction. After long continued negotiations the Keystone Bridge company of Pittsburg, one of Andrew Carnegie's concerns, has made offers in writing that are satisfactory to the promotors. A conference was held at the Union League club today with Mr. A. I. Griffin, president of this company, and Mr. Edward P. Cragin, representing the promotors and several capitalists. As a result the Keystone company has agreed in writing to construct the metal portion of the tower and have it completed February 1, 1893. The company will have to pay beavy forfeits per day for any delay over that time. President Griffin expects that the tower, however, will be built by October 12, 1892, less than one year from date. In that case a bonus is exacted for the time saved. Options have been secured on ground immediately adjoining the World's fair site and arrangements made with the World's fair officials, if desired, so that the towergrounds will be included under their jurisdiction. After long and careful their invisite designs have been completed by Engineer George S. Morrison of this city. He estimates that the earning capacity will e nearly four times that of the Eiffel tower. The actual cost will be about \$1,500,000. cost of the Eiffel tower was a little less than \$1,700 000. The difference is in the greater simplicity of design of the American tower and the use of standard and merchantable

sizes of steel. Doubts as to the completion of the tower n time are largely discounted by that the Carnegie concerns have a capital of petween \$40,000,000 and \$59,000,000, and en ploy 23,000 men. The Keystone company, the concern with which the contract is made. uilt the first St. Louis bridge, the bridges at Keckuk, Dubuque, Kansas City and other

Subscriptions and pledges have been re-ceived from Chicago, St. Louis, Cincinnati, Pittsburg and elsewhere.
The three landings will be circular plat forms, the first 250 feet in diameter and 200 feet from the ground. The second will be 150 feet in diameter and 450 feet from the ground. and the upper landing, more properly called the "lantern," will be sixty feet in diameter and 1,000 feet above the ground. At the first landing there will be a grand colonade around the outside fifteen feet wide and 738 feet mean circumference. On this colonade four

or five thousand people can be accommodated at one time.
Inside of this colonade will be space in addition to the space required for elevators and machinery sufficient to build four hotels or restaurants. In addition to the restaurants there will be provided numerous kiesks or booths, constructed in accordance with the architecture, styles and customs of various countries, which will be used for the sale of curios, ornaments, fabrics and other articles reduced and manufactured in all lands.

Within the restaurants 6,000 or 8,000 guests may be comfortably seated and served at one time. Within and about the booths and sur-rounding platforms 3,000 more people will have room to move about, make purchases,

The second landing is designed as a grand promenade and picule quarters in the day-time and as a dancing hall in the evening. It will accommodate at one time 5,000 or 6,000. The upper landing is to be finished as the grand lookout, will be two or three stories nigh and accommodate at one time 1,200 to 1,500. Above this will be four offices for signal service and scientific investigation. About this will be the circular electric railway, carrying electric lights at night and

signals by day.

Above this is the lighthouse, to be provided with the most powerful revolving lights ever constructed, surmounted by the flagstaff and the stars and stripes.

SAN FRANCISCO'S GRAND JURY.

California's Supreme Court Decides it

Was a Legal Hody. San Francisco, Cal., Oct. 17 .- When the case of Stephen Gage, director of the Southern Pacific company, cited to show cause why he should not be punished for contempt in not appearing before the grand jury when summoned, was called in the superior court yesterday, Gage and his coun-Creed Haymond, failed to put in an appearance and Judge Wallace ordered Gage's bond of \$1,000 forfeited and ordered that a bench warrant be issued for his arrest. Before the warrant was made out Gage and his counsel appeared in court, and Haymend, after explaining that the delay was unavoidable, announced that Gage would purge himself of contempt, and in recognition of the decision of the supreme court both he and Richard Chute, who had been convicted of contempt for refusing to comply with the subpoens would appear before the grand jury and testify. Haymond contended that the superior court in its decision at Los Angeles yesterday did not settle the question of the grand jury's legality and he would endeavor to initiate some means for testing that question as speedily as possible. Judge Waliaco then announced that he would continue the case against Gage, to be called up at one time on one' day's notice from the district attorney The order declaring his ball forfeited was then vacated. In the case of Edgar P. Hay who also announced his willingness to go be-fore the grand jury, now that the supreme court had decided that witnesses must obey the summons of that body, Judge Wallace ordered a stay of execution of sentence.

TOOK TERRIBLE VENGEANCE.

Fearful Fate Visited By a Mother on Her Daughter's Lover.

HIS EYES BURNED OUT BY VITRIAL.

Mrs. Overton of Gallatin, Tenn., Avenged Her Daughter's Wrongs in a Most Awful Manner-The Story.

Gallatin, Tenn., Oct. 17.-Gallatin is in the throes of excitement over the tragically sensational denouncement of a scandal of last year, publication of which was suppressed at that time on account of the social prominence and connections of the parties involved.

in April of 1890, Miss Minnie Overton of this vicinity gave birth to a child at Bowling Green, Ky., the acconchement taking place in a negro hovel in the edge of town.

When the fact was known it came like a thundercrap and many refused to give cradence to the story. The child lived but a few weeks. Miss Overton claimed that sho had been seduced by Samuel R. Elliott, a popular young man of the county, whose father was Attorney General L. R. Elliott, the cloquent lawyer and preacher. She said that be had accomplished her ruin six years ago and had several times saved her from disgrace by means of medicines. Finding she was about to become a mother she left home, estensibly on a visit to friends in Columbia, Tenn., but went to Bowling Green, where the child was born and where Elliott followed her. Elliott, while admitting his relations with her, denied that he was her seducer, and claimed that other men had been intimate with her. He refused to marry her and would not leave the country when threatened with death by her father and two brothers and for months every one feared a personal encounter, but nothing came of it, and the matter quieted down. In the meanwhile Miss Overton left here and is now thought to be living in Texas. This afternoon at 5 o'clock, after eighteen months had clapsed the scandal was revived

in a most sensational and dramatic manner. Elliott was in the store of W. Wither-spoon, when Mrs. Archie W. Overton, mother of the girl entered and walking up to filliott without a word dashed the contents of a large bottle of vitrioi, or sulphuric acid into his face. It struck him square octween the eyes and spread all over his face. In ten minutes his left eye was entirely de-stroyed and it is thought his other eye will be lost. His face was horribly burned. He did not fall and only spoke for some oil. Doctors were summoned and he was removed to the residence of his sister, Mrs. May Knight, where he now lies in great suffering.

Mrs. Overton at once left the store. The vertons are wellknown throughout the state. Miss Minnie Overton is a decidedly hand-ome and well educated brunette about 25 years of age. She was very popular in so ciety and her downfall was a source of ser-row to many warm friends. Sheriff Mills has just left for the handsome Overton place with a warrant for Mrs. Overton's arrest, accompanied by a brother

Battle Between Negroes and a Sheriff's Posse in Virginia.

CLIFTON FORGE, Va., Oct. 17.-A savage fight occurred between five negroes and the Clifton Forge officers in the mountain pass, one and a half miles from here, near the Iron Gate this afternoon, resulting in the death of a white man and a negro. The negroes came to Clifton Forge this morning from the Big Hills mines, eight miles from here, with the avowed purpose of creating a disturbance. Aided by whisky they became boisterious and defied arrest, leaving in the same direction they came, followed by the town officers. They were called to a

halt at the above point, where a fight ensued, in which P. A. Bowling of the posse was killed, and Fred Wikinson was shot in the abdomen and knee. Wilkinson will probably recover. Both were brakemen of the Chesapeake & Ohio railroad and were summoned by the officials, the former from Albemarle county and the latter from Bedford county. The former was married and lived here. The news of the shooting spread rapidly with great excitement, and in a short rapidly with great excitement, and in a short time fifty men were scouring the mountains where the negroes took refuge, hunting them down. All of them were captured after sev-eral hours search and a second battle in the mountains between the policemen and the negroes. The other four are in jull here. Turce of them have been shot before they were captured. At this writing the indica-tions are that a lynching beeveil take place tions are that a lynching bee will take place at 10:30 tonight though the mayor is determined to defend them.

Three of the negroes were lynched touight at Clifton Forge by a mob of 300 men. refused to make a confession, claiming to be innocort.

HANGING TOO GOOD FOR HIM. Horrible Cr. me of a Terryville, Conn., Man.

TERRYVILLE, Conn., Oct. 17 .- A brutal erime was perpetrated by Engineer James A. Bradshaw of the Eagle Lock company, late Thursday afternoon. As he was going through the shop be approached W. A. Hough, aged 17 years, who was at work cleaning locks at his bench, and ordered him to go to another part of the shop. Bradshaw had no authority over the men in the factory and the boy acting on the affrice of the men in the room refused to obey. On a second refusal he picked the boy up in his arms and carried to a vat of vitroil in the room dipoed him in head first several times before the other employes of the room, too terrified to stir could interfere. The boys screams were agonizing. His hair was all burned off, his scalp was raw, his face and neck were horribly burned and both his eyes were burned out and his recovery is doubtful. Bradshaw returned to the engine room and was at once discharged. He room and was at once discharged. He walked out of the shop unmolested and disappeared. He has not yet been arrested. The employes of the shop, among whom Hough was a general favorite, threaten to lynch the brate it they find him. Bradshaw s married and is 35 years old.
