QUESTIONING THE MAYOR'S POLICY.

Recent Murder Case Provokes Nebraska Citizens' Wrath-Public Sentiment sustains the Official in His Present Course.

FAIRBURY, Neb., Oct. 20 .- [Special Telegram to THE BEE. ]-The case involving the authority of the city's mayor in prosecuting dissolute characters is exciting much interest. The mayor had appointed several special policemen, and under the guidance of the city marshal they entered a supposed disorderly house and arrested the female inmates.

They were placed in jail and afterwards released on a writ of habeas corpus and then rearrested on the authority of the mayor. The women brought suit against the city for false imprisonment.

The trial has been in progress all day, and there has been a nost of witnesses, many of whom gave the principal part of their testimony in the words, "I refuse to answer." Public sympathy is entirely with the mayor in his attempt to rid the city of a certain class of people who are not an ornament to society or a useful tactor. The evidence is all in. The arguments have been postponed

Shot Trough the Hand. Parillion, Neb., Oct. 20.- [Special to The Bur, !- William Grimm, a farmer living near this city, shot himself this afternoon, the ball passing through his left hand, inflicting a painful though not dangerous wound. He stated that it was an accident, but the general belief prevails that the shooting was with suicidal intent and that the ball went wide of its mark. Early this morning be came to town and purchased the revolver with which the shooting was done.

At the court house early in the morning he told several of the officials that he would kill himself. For some time the man has been very despondent, his troubles having beer chused by financial embarrassment. A few weeks ago proceedings were instituted to forcelose a \$4,500 mortgage on Grimm's home. He made an attempt to borrow the money to pay off the debt, but as he was un property was sold at sheriff's sale yesterday afternoon.

Advertising Train Causes Indian-

The people of this little city have taken complete possession of the cars containing the exhibit, and during the stop of little more than an hour fully 1,000 people have filed through the train. It would be almost impossible to give too high a coloring to the statement of their surprise and enthusiasm or to overestimate the bene-tits probably resulting to Nebraska from the trip through this portion of Indiana. The train has been well advertised in advance and the people over the entire route have appareutly heard of Nebraska's claims to great-ness. Many come to the train doubtful and incredulous, but go away convinced that Ne-

braska is fully able to sustain in every par-ticular the claim she has made.

Colonel William M. Shaw of Cincinnati, the traveling passenger agent of the Burling-ton road, joined the party last night at Ply-

An encouraging feature of the work through Indiana is that many of the visitors are home seekers of the better class. This country and those surrouding it have already contributed very largely to the population of Nebraska, and it is very evident from the deep interest taken in the exhibit here, and from remarks heard from those who have inspected it that this flow of emigration will be augmented rather than diminished as a result of this trip, and this in spite of the fact that this, itself, is a rich agricultural country. More than 2,000 people have passed through the train here and still all could not see who desired. The heavy weather of yesterday and this morning has cleared a good deal and promises to be favorable for the afternoon. The advance press notices have fully apprised the people of the nature of the exhibit and of the purpose for which it is run and there is little distrust that it is designed to fester a real estate boom or for speculative purposes. The ex-hibit is taken at its real worth. The printed matter in the possession of the delegates is sought for eagerly at every stop, and none is being wasted.

CHICAGO, Ill., Oct. 20.-At the coming election in November a superintendent of schools is to be chosen, and today was the day of registration for that event.

The applications for registration by women were very numerous, and especially in fashouable districts, and they came well posted on the law and the methods of procedure in registration under the statute, claimed to be in their favor, passed by the last legislature in some places the boards of registration delined to receive their names. In others their names were put upon the registry books with all of the blanks filled except that stating as to whether or not the person named is a qualitled voter. This leaves the ladies a fighting chance at the polls—a chance which they say they propose to take the fullest possible ad-vantage of. END OF A PLEASANT MEETING.

Last Day's Proceedings of the Ceneral Methodist Conference.

SERVICES OF THE PRESS APPRECIATED.

Christian Missionaries Meet at Pittsburg-Evangelical Doings and Other Religious Happenings of Yesterday.

Washington, D. C., Oct. 20 .- The twelth and last day's session of theecumenical Methodist council opened this morning with Rev. Dr. Allen of Wesieyan Methodist church, England, in the chair.

After the adoption of a resolution for the appointment of a deputation, representative of the conference, to visit the pan-American council at Toronto next year, and amendments to the resolution presented yesterday relative to the creation of an exclusive commission to make arrangements for the next ecumenical conference, the topic of the day, "The Outlook," was taken up. The first essay of the session was on the subject, 'Christian Resources of the Old World," by S. Simon of the Wesleyan Methodist courch,

Will Hail a United Methodism. Kev. Dr. Watts of London made the first

address. He said: address. He said:

Our financial resources are augmenting greatly. Yet a Christian millionaire should be an impossibility. Our intellectual resources are multiplying marvelloasly. Old barriers are being broken down. Commerce and science are commingling the people. The lands of the Greek and Latin churches are profoundly stirred by our modern thought and life and the old superstitions are passing away. Finally, we are gaining power by our growing unity. What then may we not accomplish with our ever accumulating resources?

sources?

If the men of this generation are true to God then the next generation will hall a united Methodism. Chancellor Edward Mays, of the Methodist

Episcopal church, south of Oxford, Miss., spoke of the "Christian Resources of the New World," he said: Let agnostics and athelats sneer as they would; let pessimism wear its gloomy front as it would, yet the glorious fact remained and the hard cold locic of statistics demonstrated it to be a fact, that "God's truth is marching

Rev. J. M. Chapman of the Methodist Episcopal church of Philadelphia, said: The public school was the bulwark of our liberties and free institutions—a most important agency of narmonizing and unifying and welding together the divers elements of our population. (Applause.)

Bishop Keene of the Methodist Episcopal church south had, he said, been much dis-turbed at the spirit of higher criticism hown, and particularly by the British Wes-yans. The bishop adjured the brethren to evans. take the problem of evolution home with them; get down and look at it. There was nothing in the Darwinian theory if you take the time out of it. The greatest thing about Mr. Wesley was that he snew what to get rid of. He admired greatly his English friends now in the conference, but he had a word of advice for them: "Go home; get rid of this doctrine that puts a bomb at the bottom of the Pentateuch and Moses that will blow you up if you don't get rid of it. If you can't get rid of the doctrine get rid of the men and the institutions that teach it, no matter how dear they are to you. They will blow you up if you do not. I must confess this is the first great fissure in the Methodist faith. There have been schisms, but this is the first fissure. This is not speculation. Knock the time out of Darwinism and there is nothing

A recess was then taken. Bishop John B. Hurst of Washington called the council to order this afternoon for the last time of the twenty-seven sessions i has beied during the past two weeks.

Through Secretary King the business com mittee presented the following resolution

which was adopted: Resolution Adopted.

Resolution Adopted.

That the confere ce views with deep concern the subtle and persistent efforts of the Roman hiertrehy to make its power felt outside its own proper sphere in many lands to the detriment and danger of the civil and religious libertles of the people. This conference recognizes with satisfaction the fact that the Roman Catholic laity have, in notable instances, had the courage and the wisdom to withstand the unwarrantable pretensions of their ecclesiastical superiors, and the conference further disclaims any intentions to seek for itself or the churches it represents a single privilege which it would not readily concede to all others; but it feels bound to remind the members of these churches of the sacred rights and privileges they enloy, won for them by the sacrifice and fidelity of their forefathers, and to call on them to unite with the members of other Protestant churches in maintaining their great inheritance of freedom and handling down the same intact to the succeeding generations. ucceeding generations.

The topic of the day, "The Outlook," was then again taken up. The last essay of the conference was read by Rev. D. J. M. Buck ley, editor of the New York Christian Advo cate. His special subject was "The Church of the Future." He said in part:

of the Future." He said in part:

Turning to the ultimate future of the church, we may at once dismiss all fear. The ultimate church will enforce no theory of inspiration; the church will then have a simple yet comprehensive creed, revealing the essentials of salvation. The rules of the ultimate church will be few. The mania for making new laws for God's people upon points' upon which inspiration has not spoken, will give place to the Christian liberty exhibited by St. James and endorsed and illustrated by St. Paul. Cant will disappear, Christian living will be midway between asceticism and inxury. Stragens and appeals to carnal motives to raise money will oe no longer needed. Knowledge will not be found without zeal, or zeal without knowledge; discipline will be heipful to the penifent but not tolerant to the incorrigible; science and religion will walk incorrigible: science and religion will walk hand in hand: though till the last there may be irreligious scientists and some Christians so ignorant or timid as to fear that the in-crease of knowledge in the sphere of nature necessarily implies the destruction of faith in the realm of knowledge. W. J. Dawson of the Wesleyas

Methodist Episcopal church, England, folowed. He said: Too long the church had been keeping its eye on heaven and failing to see the injustice of earth |cries of Oh, no, | depend upon it, if the people within the walls did not believe that a vast multitude outside did so. De nocracy in the state meant democracy in the church and most democratic churches would win. Autocracy in the church was goomed No church ministering to the intellectual aristocracy would be the church of the twentieth century. The trend of politic

twentieth century. The trend of politics was towards social reconstruction. The toilers were justly disconcerted. Christians were followers of a divine socialist. If men - could get the socialism of Jesus they would get the socialism of the devil. The church should not ignore evolution. Any church willfully blind could not be the church of the future. How little was the decree of seneration be. How little was the degree of separation be-tween the Protestant churches and how much better would it be for all to unite in one fold [applause], and with Dr. Buckley he differed on one point. How much was there in common between the Protestant and Catholic church. The Roman Catholic was nearer to the Methodist than was the Unitarian. Was it was too wild a dream that the Church of Rome might yet be purified

from corruption ! from corruption!

W. F. Bourne of the Bible Christian church, London, said: "Forms are effor-vescent, principles only immutable, and, therefore, every development of the church in the present day should approximate to-

wards the church of apostolic times Thanks to the Press.

At the conclusion of this, the last address, Dr. Stephenson, by request of the business committee, voiced the thanks of the conferce to the churches of America, the Chris tian citizens of Washington and to the fol lowing gentlemen: Bishop Hurst, Dr. Correy, Dr. Bakeman and Thomas Snape and Dr. Bakeman and Dr. Hamilton. The resolution of thanks said the conference was

especially grateful for the services rendered by the representatives of the press and par-ticularly for the Associated press of America' and the Washington daily newspapers. In moving the resolution Dr. Stephenson said he preferred to tesat it in the old-fashioned way of considering it by sections, and he so treated it.

and he so treated it.

He referred to the president's visit to the congress and said that he done honor to the conference and had set a noble example to the heads of every great community in the world. He was very grateful to the Associ-ated press, which had done for this confe-ence yesterday what had never been done for a Mathodist conference before—in sending last night to \$0,000 newspapers the full text of the admiable address issued yesterday. That was a feat in the journalism of the religious community to which there has been no parallel. [Applause.]

Dr. Stephenson then drew a touching picture of the meeting in this country 100 years

ago of Coke and Asbury; marking the first formal communication after the war of inde-pendence and scaling the lasting kinship between the Methodism of the new world and the old, and also sealing the perpetuity of the peace and good will between England and America. [Applause.] Rev. George C. Carmen of the Methodist church in Canada, in a short but earnest address, seconded the motion for the adop-tion of the resolutions. The resolutions were unanimously adopted by the entire audience

rising and applauding.
Bishop Hurst of Washington briefly responded and the second ecumenical council, after a half hour spent in prayer, adjourned

CHRISTIAN MISSIONARY SOCIETY.

It Makes a Most-Excellent Showing for a New Organization.

PITTSBURG, Pa., Oct. 20.—The Foreign Christian Missionary society began its annual session here today with 500 delegates present. Almost the entire session was taken up with reading reports. In the afternoon the first session of the

general Christian missionary convention was held. D. R. Ewing of Des Moines, Ia., president of the society, presided. His address was the feature of the session. He gave an interesting and exhaustive review

of the work of the society. Rev. R. Moffatt of Cleveland, O., corres-ponding secretary of the general Christian missionary convention, presented the report of the board of managers as follows:

I shall vote for Judge Post." Representative Frank E. White said: "Edgerton is incompetent for the position, and I cannot support him; neither can I vote for Judge Post, as I think the action of the

republicans in the last legislature forfeited all democratic support." Ex-Councilman Charles Hempel said: "I cannot support Edgerton for so important and honorable a position, as I consider him entirely unit and incompetent. My own opinion was that the necessary inference from the facts stated by me amounted to a decial suite as emphatics of essary inference from the facts stated by me amounted to a denial quite as emphatic as if I had said so in express terms. I wish now to say in the most emphatic terms that I was not guilty of the charge. I was never expelled from the Masonic lodge in Leon or elsewhere, and could never have been reinstated had I been expelled, for the reason stated by your correspondent. I believe I enjoy the respect of the people of Leon, where I lived for so many years, and where I frequently go to visit relatives, I am absolutely certain the charge of twenty years ago would never have been revived had I continued to reside in Leon, where I have been known since my boyhood. I trust you will give this denial equal

prominence with the accusation. Respectfully yours, A. M. Post.

In Judge Post's Favor. BEATH, Neb., Oct. 20.—[Special to THE BEE.]—The general feeling among the democrats seems to be in favor of Post for supreme judge. THE BEE's correspondent has talked with several prominent democrats and has falled to find any that are for Edgerton. One leader remarked that he did not propose to vote for an ignoramus for such a position. Post he regarded as a good man and every sensible man would vote for him.

The Blair Courier, the only democratic organ in the county, is favoring Post and de-clares that it would be a calamity to elect Edgerton.

Judge Wheeler was present and gave his usual alliance lecture. Many of the citizens and business men did not know of it until

the speaking had begun.

Senor Ordonez, the Spanish minister, has been and is now, acting in accord with Minister Egan, who has laid material and pointed evidence before the provisional minister of foreign affairs, referring to his rights in the premises. Mr. Egan's argument is so forcible and conclusive that it is strongly probable that a safe conduct will be granted the political refugees in the American legation after the elections determine who is to be Balmaceda's successor

as president of Chili. In regard to the row between the Chilian and American sailors the criminal judge has assured Consul McCreery that he will hold a full investigation into the affair, and that he will punish those found to have been the aggressors. The wounded American saliors are improving, and it is believed that all are

low out of danger. It looks as if the li eral party had made considerable gain in the election at Santiago last Saturday. The conservatives appear to have gained in this city. This is, however, non-official. Reports from the provinces insure liberal gains.
