SWORN STATEMENT OF CIRCULATION. For the week ending October 17, 1891, was as follows: Sunday Oct. 12, 1891, 25,820

FOR THE CAMPAIGN. In order to give every voter in this state an opportunity to keep posted on the progress of the campaign in both these states we have decided to offer THE WEEKLY BEE for the balance of this year for TWENTY CENTS.

GEORGE P. BEMIS will not be endorsed by the city contractors. His democratic opponent enjoys their confidence.

GOVERNOR HILL has a rather hazy notion of a newspaper in spite of the general excellence of his Atlanta address.

GOVERNOR BOIES has been stopping Iowa for more than three months, but so far has not found it convenient to say one good word for the noble state which honored him with an election as its governor.

CONGRESSMAN MCKEIGHAN'S B. & M. pass is given as No. 963, good on all lines west of Chicago.

THE running expenses of the city of Omaha approximate \$300,000 per annum. The receipts from general taxes will reach \$900,000.

OPEN LETTER HINMAN of North Platte, the well known railroad anti-monopolist, endorses the policy of a half-baked editor in these parts who is devoting himself to the effort of securing an ignominy upon the supreme bench.

AN ENCOURAGING OUTLOOK. Trustworthy advice from Iowa speak most encouragingly of the republican prospects. Within the past week the campaign on the part of the republicans has become more aggressive.

NO MAN who has been involved in the council furniture deal whereby home bidders were shut out entirely and the contract was awarded to an outside need expect election to any city office.

OMAHA used \$58,739 for ordinary expenses, including \$1,463 for the city hall in 1888. Including \$139,375 for the city hall she expended \$819,035 in 1890.

NEBRASKA'S TRIUMPHAL TRAIN.

The train freighted with the products of Nebraska's soil is speeding eastward, and its progress from point to point along the route is marked by a steadily increasing popular interest.

The wisdom of sending out this train of Nebraska's products has already been amply justified, and yet it has gone over only a small part of the projected journey.

Under the Australian ballot law the city of Omaha has been platted into eighty-eight voting precincts. Each of these polling places is to have seven judges and clerks of election, making in all 624 election officials.

Will any election officer have the audacity to claim eighteen dollars for a day's service? We venture to say that three thousand competent men are willing to serve for six dollars a day if they could only get the ear of the city council and commissioners.

It is entirely natural that as intelligent and discriminating citizens they should do so. The democratic party promises no benefits or advantages that would warrant them in transferring their support to it.

such burdens exist, and in face of the fact that nearly all the necessities affected by the tariff are cheaper now than they were a year ago. It is pledged to the free and unlimited coinage of silver, which would speedily reduce the currency of the country to the single silver standard.

There are twenty-seven gentlemen in the field for councilman-at-large; fifteen for justices of the peace, and fifteen for members of the Board of Education. These gentlemen appeal to the city at large for votes.

At the polls, however, the people may be governed by the spirit of the law, and they should absolutely refuse to consider ward boundaries. A bad man should be defeated no matter what ward he comes from.

GOVERNOR BOIES himself has not shown during his administration that he is made of the sort of fiber necessary to stand up against any proposed reascaling of his party.

OMAHA used \$58,739 for ordinary expenses, including \$1,463 for the city hall in 1888. Including \$139,375 for the city hall she expended \$819,035 in 1890.

the city. The necessity for honest, efficient and careful management of city affairs can hardly be presented in a stronger light than is exhibited by these tremendous figures.

CANDIDATE OSTHOFF has taken off his silk hat in deference to a public sentiment which insisted upon asking, "Where did you get that hat?"

THE hoodlums must go. They cannot escape public condemnation by appearing in the role of candidates for higher offices. The people have every hoodlum spotted.

MR. ARTHUR WAKELEY is a scholarly lawyer, but when it comes to politics he is decidedly theoretical. His eulogy of Osthoff shows that he puts an awfully low estimate upon the intelligence of the community.

MR. E. K. LONG was for years a very efficient member of the school board. He is a man of more than ordinary ability and will, if elected make an excellent justice of the peace.

Omaha is highly commended for the vigor and promptness with which it pursues one of the participants in the teaching of the negro. It is a case like that reported by Colonel McClure in his last Lincoln article.

THE announcement that the Italian government has decided to abolish the discrimination against American ports will be hailed with genuine satisfaction by all patriotic citizens of both countries.

THE fact that the attendance at the western congress in Omaha amounts to only about 100 delegates suggests that the semi-annual sessions of this congress are not admirable. The subjects to be considered are, it is true, very important, but it is not likely that they will develop any new features.

GOVERNOR BOIES has thought best to deny that he knows anything about an intention of the democratic party to "Michiganize" that state if it gains control of the legislature at the next meeting.

THE doctor dresses for fees and favors, and the lawyer pleads his client's claims and claims his client's dime.

THE banker "banks" on 10 per cent because he can't get more. The merchant sells his goods "at cost" to make a profit.

THE preacher preaches for sinners' souls to save them from the burning hell. The teachers train the juvenile brain to learn in lots of learning.
