Post Still in the Lead by a Good Round Majority. OFFICIAL VOTE OF 63 COUNTIES. It Shows a Surprising Decrease of the Independent Strength. THOUSANDS FAILED TO VOTE ON JUDGE. About Thirty Per Cent Falling Off as Compared with Last Year. CLOSE ESTIMATE ON THE OUTCOME. It Gives the state to Post by Between Five and Six Thousand Over Edgerton-The Figures for It. Official returns have been received from sixty-three counties, exclusive of Douglas, out of the ninety counties in the state. They show a total vote for Post of 49,781 and for Edgerton of 50,329. These same counties last year gave Richards 51,735, Boyd 37,857, Powers 53,043, indicating a failing off in the total vote of 42,525. Douglas county, with one precinct in the city of Omaha missing, gives Post a majority over Edgerton of 6,351. Careful estimates of the counties not heard from officially, based on the partial returns. give Post a plurality of 4,741. This will probably be increased by the official count, and it is safe to say that Edgerton is defeated by between 5,000 and 6,000. In the following table the counties estinated are marked with stars, and where no

cago Girl.

Cincago, Ill., Nov. 5 .- A mysterious tragedy, which is exciting much interest, incited a most unsatisfactory verdict from the coro-

per's jury here today. The victim was a well dressed but unidentified girl of 18 or 20, who must have been singularly beautiful in life. Her mangled body was found in a lone some railroad yard near Aartesian avenue and Kinzle streets-a maze of tracks and standing freight cars. The theory has been advanced that the young woman was mur-dered and her body thrown on the track in order to make it appear that she met her death accidentally.

The unfortunate was a blonde with perfect features and curly hair that fell nearly to ber shoulders. She word considerable jewelry and several bangles, which bore the inscrip-tions "Effic," "Elly," "Will," "Frankie," "J. R.," etc. At the inquest a switchman gave ovidence

confirming the murder theory. He found the body and he said that when he discovered it the corpse was cold and the blood coagulated as if death had occurred some hours before. Ho passed the place on the track where the body lay at about 12 o'clock and the corpse body lay at about 12 o'clock and the corpse was not there then. Between that hour and 1 o'clock two switch engines ran over the same track but no passenger train. From the fact that no blood or flesh could be found on the tracks and from the appearance of the corpse, he did not think the girl was killed on the track.

on the track. Notwithstanding this teatmony, the jury rendered a verdict of accidental death, caused by being run over by an engine. The conclusion was based on the fact that the heavy underclothing might have absorbed all the blood, that the body was horribly man-rled by railroad wheels and that no knife or bullet marks could be discovered. It is ad-mitted there is a possibility that the sup-posed murderer craftily placed the corpse on the track in a position to insure the oblitera-tion of the read death wounds.

tion of the real death wounds. The remains were identified tonight as those of Fannie Cartwright, an actress who lived with her mother in this city. In order to reach the latter's house by the shortest cut it is thought by the police she might have attempted crossing the railroad yard and been run down in the dark. The dead girl bore an excellent repatation.

Dps Morxes, Ia., Nov. 5.- Special Telegram to THE BEE. |- The result of Tuesday's election is practically settled on the head of the ticket. Governor Boies' plurality will not vary 500 either way from 9,000. He carried forty counties with pluralities aggregating 32,762; Wheeler carried fifty-nine counties, giving 23,880 in pluralities, giving Boies 8,882 in the lead. These returns are based on dispatches from ninety-eight county auditors of the state and are as nearly reliable as anything unofficial can be. Two years ago Governor Boles had 6,564 plurality and the entire republican state ticket was elected except governor.

It is barely possible that one or two republicans may have pulled through by a scratch, but the probability is that Bestow is elected lieutenant governor; L. G. Kinn, supreme judge; Peter A. Dev, railroad commissioner, and J. B. Knoepfler, superintendent.

The senate stands twenty-four republicans. one prohibition-people's party man, one independent and twenty-four democrats. The use consists of fifty-three republicans, forty-six democrats and one people's party man, Daniel Campbell. The republicans elected to the nouse are all piodged in the most positive way to the maintenance and

enfercement of prohibition and have prohibi-tion constituencies back of them. DES MOINES, In., Nov. 5.—Returns on state officers below governor are beginning to come in. The republicans are now claiming that following the probability of the probability of the state of the stat that Sabin, for superintendent, is probably elected by a small plurality. In the counties heard from he runs ahead nearly 100 each. At that rate he will overcome the democratic plurality in ahead of the ticket of about 8,000, the latest estimate on Boies. The legislature is not changed by the later returns and Sabin's gain is the only new

feature developed. LEMARS, Ia., Nov. 5.-[Special Telegram to THE BEE.]-The election Tuesday was a to The Bre. - The election Thesday was a surprise to democrats as well as republicans in this locality, on account of the large gains by republicans. Boles' majority in this county two years ago was 1,044, which is cut down to 755. While democrat in the vote is down to 755. This decrease in the vote is not an index to the popular feeling on the prohibitory question, but is due to the hard and continued work on the part of the demo-crats. By the results of the elections in this county the past few years it is evident that the majority of the people are tired of probi-pition and desire a change. A few years ago Plymouth county was a republican county.

LATEST FROM NEW YORK.

Its Legislature, and What Its Complexion Will Be.

NEW YORK, Nov. 5 .- The Associated press press returns on the legislature give the following results: To the senate the republicans have elected seventeen of their candidates and the democrats fourteen, and in the Thirty-second district Dr. James T. Edwards, an independent republican, nominated by republicans, is opposed to Senator Vedder, and endorsed by the democrats, is elected: to the assembly sixty-five demo-crats, sixty-one republicans and two inde-pendent democrats are elected, the latter eing county democrats who had deen endorsed by the republicans in the Twenty second and Twenty-fourth New York City district respectively. A number of telegrams were received today

among which were the following:

Bostov, Mass., Nov. 5.—To the Governor:--Please accept my heartlest congratulations and best wishes on your splendid victory. WHLIAM E. RUSSELL ALBANY, N. Y., NOV. 5. – YOUR FC- election is a flattering tribute to your popularity and suc-cessful administration. I congratulate you and the democracy of your state upon your victory. David B. Hill.

OHIO RETURNS.

How the Legislature Will Stand Me-Kinley's Plur lity.

COLUMBUS, O., Nov. 5 .- Latest figures, with nine countles estimated, and a few others unofficial, made by the republican state executive committee, place McKinley's plurality at 20,486. Republicans now claim from 48 to 50 majority on joint ballot in the egislature. HAMILTON, O., Nov. 5.—The county election board this afternoon finished the official count of the election roturns in this, Camp-pell's, county and the figures given out are a great disappointment to Governor Campbell's supporters. The official count gave him a majority of 3,266, as against 3,575 two years ago. This shrinkage was contrary to the best information of those supposed to be posted, and was even less that republicans conceded.

ANOTHER BIG WEEK.

Minneapolis Millers Outdoing Themselves-Flour Output,

MINNEAPOLIS, Minn., Nov. 5.- The Northwestern Miller says: The flour output of the Minneapolis mills was again last week the heaviest ever made, the daily grind practically averaging 35,000 barrels per day. The aggregate manufacture for the week ending Saturday was 208,930 barrels, against 205,720 barrels the week before, and 180,000 barrels for the corresponding time in 1890. Twentyone mills are still running, getting out 35,000

barrels or over per twenty-four hours. For the week ending Wednesday, local millers sold about all the flour that they cared to and the current output was probably easily disposed of. Most of the firms report domestic trade as rather inactive and that the major portion of the business is from abroad. With bakers selling so near in price abroad. to patents as has lately been the case, for eigners have rather turned their attention to the latter grade and have been heavy buyers of it. In fact, this kind of trade seems to be limited only by the disinclination of the millers to sell in the face of rising freight rates. Some local firms have not disposed of their output-in fresh sales, solely

for the reason that they are already sold as far ahead as they care to be. There has been a good foreign demand for bakers as well as patents, and while low grades are in fair request the call for them s less active than the other two grades Prices are domestically unchanged, through pretty firm, with the range of quotations narrowed to a smaller limit than formerly. The direct exports last week were among the heaviest ever made, being 90,700 barrels,

against 86,590 barrels the preceding week. CHINESE DEPORTATION.

Ruling by a Michigan Judge on the Question.

DETROIT, Mich., Nov. 5 .- Judge Swan today handed down an optnion on the subject of Chinese deportation, which is perhaps the first complete ruliag on the vexatious question. The case was that of "Chong Sam," whose arrest was effected at Port Huron on July 9 for having been unlawfully in the country under the Chinese expulsion and prohibition act.

sion and prohibition act. The Chinaman was examined by a com-missioner, and be was found in possession of a certificate issued by the customs officer at Vancouver, B. C., dated May 21, 1891, permitting him to return to Canada. It was also shown that he had been before arrested at Detroit, on June 29, 1991 and returned to Carada he customs 23, 1891, and returned to Canada by order of Commissioner Graves. Upon the second appearance of the Chinaman he was ordered sent back to China under a ruling of the State department, to which was referred the onstruction of the law. In a very lengthy decision Judge Swar reonstru

views all the legislation upon the subject, and a brief resume of his decision is to the effect tiat, "The order of the commissioner direct-ing the deportation of Chong Sam to China is reversed, and the United States marshal is instructed to cause him to be removed to Canada.

the American people, among the period of the party. He is today a million votes stronger than his party." Interviewed on Ohio politics, Colonel Con-ger said: "McKinley has won a magnificent victory in our state and the policy of protection and reciprocity will win a battle for the republicans in 1892. We have carried the egislature and we shall put the congressiona districts back where they belong, giving the republicans just and fair representation. Yes, there will be a friendly contest between Version and Sharman for the senator bin oraker and Sherman for the senatorship Foraker is especially popular with the younger element of the party in our state, and they will make a strong fight for him. It is too early to state whether or not there wil be a contest over the seat now proposed to be occupied by Colonel Brice."

Further Developments in South Dakota's Divorce Colony.

SIOUX FALLS, S. D., Nov. 5. - Special Tele gram to THE BEE. |-Baron Alphonso Eugene Lambert Desticers, the Belgian minister at Paris, this afternoon filed the defendant's answer in the now famous divorce case. He denied that the plaintiff is a bona fide resident of South Dakota, alleging that sue came here for a divorce and that she will immedi ately leave when it is secured. He denies all the charges of cruelty and unkindness and denies specificially that he over made an ef-fort to have her incarcerated in an insane asylum. He charges that the plaintiff pos-sessed an uneven temper which results from a disease of the nervous system. He makes the important charge that the plaintiff made a proposition to the defendant agreeing to settle a large sum of money on the minor children if the defendant would not contest the divorce, a proposition which he "absolutely and peremptorily refused to listen to." He asks that the complaint be set aside at the plaintiff's cost, and that he may have the custody of the minor children. It is likely that the defendant, who is now at The Hague, will be here in person.
