An All-Around Crook. Captain Llewellyn of Sloux City was in the Bluffs yesterday to take charge of Ernest Fielding, the young man who joined the Salvation army the other night and confessed to having burglarized a clergyman in Sioux City. He went to Omaha, in accordance with the young man's directions, to find the stolen typewriter and mandolin. He found them, as he had been told he would, at a pawnshop on Farnam street, and prought pawnshop on Farnam street, and brought them back with him. He will leave for home this morning, taking his prisoner with him for a trial on the charge of burglary. Fielding is only 23 years of age and does not look much like a professional crook. He

Annual Winter Meeting of the State Firemen's Association Commenced.

ENTERTAINMENT FOR THE VSITORS.

Local Department Called Out Unexpectedly by the Chief-Excellent Showing Made by the Men on the Run.

The winter meeting of the Iowa State Firemen's association opened yesterday in he League club rooms in the Woodbury block. Owing to the lateness of some of the trains several of the delegates did not arrive until several hours after the hour set for the opening exercises and no business of any particular importance was transacted. The early part of the afternoon was spent mostly in shaking hands and renewing old acquaintances, and these were done in a way that firemen only can appreciate. The following is a partial list of those who are in attendance: A. R. West, George A. Liucoln, L. M. Ayres, George W. Nobie, J. D. Blaine and J. J. Snouffer, Cedar Rapius; F. Cain, Atlantic; Marion Johnson, Audubon; H. S. Snyder, Vinten; C. L. Root, Lyons; M. A. Camery, Traor; F. M. Narum and E. E. Ellsworth, Eldora, and A. S. Tiffany, Marshalltown. The local association is repre-sented by M. F. Rohrer, John L. Templeton, Thomas Bowman, Charles Nicholson, Frank

Levin, C. D. Walters and F. H. Guanella. At 4 o'clock Chief Levin of the local fire lepartment gave the visitors a chance to see what the Council Bluffs fire fighters could do when they wanted to. He escorted the visitors to the corner of Main street and Fifth avenue, where he turned in an alarm. The men had not been notified that he would call on them for an exhibition, but they showed that they had not been napping by any means. The hose cart from No. 1, on South Main street, appeared almost before the alarm had finished sounding, and pulled up in front of the Keil hotel one minute and ten seconds after the alarm was first turned in. No. 3, corner of Main street and Washington avenue, appeared at almost the same instant in the other direction, and was one minute and forty-five sec-Broadway, had considerably farther to go, but it was on the spot at the end of two minutes and twenty seconds. The patrol wagon arrived about the same time, with Captain Martin, who looked in vain for anything that required his services. He finally loaded up a lot of the visitors and took them for a ride to the police station, where they were re leased. The big book and ladder truck, bet ter known as the "Elephant," reached the hotel in three minutes and five seconds, and was then driven to the north side of the Merriam block, where an exhibition of climbing was given. The big ladders were horsted to the top of the building and half a dozen firemen ran to the top, doing their duty much

more gracefully than on a similar occasion In the meantime a large crowd gathered or the street, and the report was circulated that the Merriam block was on fire. This report caused a great flurry in the offices, and many of the occupants locked their valuable papers in their safes, seized their lady stenographers in their arms and prepared to save their lives. It soon became known, however, what was the cause of the flurry, and the excitement subsided. The visitors expressed themselves as much pleased with the work of the firemen.

Last evening the visitors were taken to see The Old Homestead? in the opera house, and the regular business of the association will be taken up this morning.

Success Phenomenal.

The great sale of winter goods which the Boston Store, Council Biuffs, started Saturday last, has been a phenomenal success. FIVE CENT FARE.

New Scheme to Secure the Great Object of Much Fruitless Effort. There are quiet whisperings about the probable building of another motor line to Omana to meet the public demand for a 5-

"I am not in it," remarked a citizen whose name had been rather freely used as the possible father of the scheme, "and I know really nothing about it, but the fact that those who are concerned seem to be acting so quietly ds me to think there may be mething to it. I take no stock in railways built in the newspapers, and as this scheine seems to have been kept out of print it may possibly ripen into something that is really worth printing."

Worth printing."

Every time a move of this kind has been discussed it has been conceded, apparently without any question of the correctness of the statement, that the existing motor and bridge company would not, of course, allow any other company to real. other company to roll cars across its bridge.
Where can any new company get across?
That has been the puzzler. Every time such a scheme has been talked of the alternative seemed conceded of choosing between the wagon bridge attachment of the Union Pa-

c bridge or eise the building of a new The location of the Union Pacific bridge is not desirable to secure rapid and convenient transit for motor traffic. The building of a new bridge involved such large expenditures that it

seemed impractical in view of the existence one, which would prove a lively competi-

It seems passing strange that the public mind is in ignorance of the fact that a new company can be organized and can run its cars right across the Burlington bridge, the same as the present motor cars cross. The char ter granted by congress has not been paraded before the public, and one clause will be to many as newsy a bit of information as has been had for many a day. The charter pro-

And congress reserves the right at any time to regulate, by appropriate legislation, the charges for freight and passengers over said bridge; all railroad companies desiring the use of said bridge shall have and be entitled to equal rights and privileges relative to the passage of railway trains or cars over the same, and over the approaches thereto upon payment of a reasonable compensation for such use; and in case the owner or owners of said bridge and the several railroad companies, or any one of them, desiring such use shall fall to agree unon the sum to be paid, and upon rules and upon conditions to which each shall conform in using said bridge all matters at issue between them, including the thing of compensation for the use of the bridge shall be decided by the secretary of war upon a hearing of the allegations and proofs of the parties. And congress reserves the right at any time

It seems, therefore, that a new company will not have to build a bridge, but can run its cars over the present one, on such terms as are fair and equitable. The present company has already established a low fare for passengers crossing the bridge. fifty tickets for half a dollar or 1 cent a trip. It surely could not charge another compan more than a cent a passenger for the privi-lege of crossing the bridge, and perhaps a much less rate could be established. But whatever the rate, it is evident that any new company could cross the bridge by paying the fair price, decided by agreement or arbi-

tration. This condition is cited as showing the possibility of the establishment of a with a 5-cent fare between Council Bluff's

Another feature of the scheme as now talked is the possibility of the new line running along West Brondway. It has been demonstrated that the electric car system will not prove objectionable to adjacent property, but will being build it up, as it has on Avenue A. It is pre dicted that many owners of vacant lots Broadway will favor the running of an electric line along that thoroughfare, provided a 5-cent fare can be secured, so that there will be an inducement for tenants and home-builders to rush in and occupy the land.

Asked to Be Released. John Huntington, sr., commenced a suit yesterday in the district court against the Souhegan National bank and A. F. Clatterbuck, in which he asks for an injunction to prevent the defendants from stepping in and claiming a judgment against his property by reason of notes he signed as surely, some years ago. The two notes which have caused the trouble, are for the aggregate sum of \$4,850. He alleges that the notes were signed by J. F. Hunting ton and were secured by chattel mortgages on his property. Afterwards, he claims, the notes were partially paid off without his knowledge or consent, and new notes given for the balance, the time for payment at the same time being extended. He now cialms that the notes upon which he went security have been fully paid off, and that he cannot be legally held responsibie for those given later. He states that the defendants have seized his property under the mortgage, and will inflict irreparable injury upon him unless restrained by court. He asks that the foreclosure suit court. He asks that the foreclosure suit be transferred to the district court of this county, that the mortgage be cancelled and that an injunction be issued restraining the defendants from in any way disposing of the property they have seized.

Boston, Mass., Nov. 18.-The morning session of the last day of the dual convention of the World and the National Women's Christian Temperance union was opened this morning with the usual devotional exercises. The work of the morning was rapidly taken

up. First came that of social department, under the charge of Mrs. Anna M. Hammer of Pennsylvania, the topic being "What Are the Departments of Parlor Meetings, Flower Missions, State and County Fairs and Unfermented Wine Doing for the Prevention of Intemperance PT The report of the flower mission, under the

superintendence of Miss Jennie Cassady, was presented by Mrs. Hammer.

Mrs. Nichols of the state and county fair department said that If you want to reach people for the temperance cause go to the fairs. In speaking of the Paris exposition, she said that President Carnot expressed great delight in the corner devoted to the work and the nature of the Women's Christian Temperance union of the United States After much trouble it is quite pronable that the World's Women's Christian Temperance union will have a separate building at the Columbian exhibition. A plan of the building was exhibited.

"Unfermented Wine" had its testimony at the hands of Mrs. R. A. Esmond. The use of unfermented wine was urged upon all congregations for communion. The pible wines, she said, were unfermented, and modern church wine should be the same.

The resolutions pledge members of the union to renewed efforts in the cause of total abstinence and prohibition; recommend the prosecution of department work; empha-size total abstinence for the individual, and legal prohibition for the state; rejoic that "capitalists are perceiving the financial benefits of prohibition by the many towns being established with a prohibitory clause in their charter and deed:" urge women to use every means practicable to secure equal governmental rights in state and church; endorse that party which embodies in its platform the enfranchisement of women, the prohibition of the liquor traffic and the preservation of the Sabbath; condemn the action of the State department in issuing a circular letter to the United States consuls in South and Spanish America instructing them to gather all the information possible regarding the near trade in those countries, with a view of extending this business; condemn the use of women's forms and faces in pictorial advertising.

The resolutions also contain a memorial to congress asking that body to ratify the Brusselz treaty relative to the liquor and slave trade in Africa.
Following the reading of the reports and the adoption of resolutions, addresses were made by Mrs. Bokarat, Maria Bella Angeliano of Italy and Miss Catharine Guerney of

Washington, D. C., Nov. 18.-Rev. Reese F. Alsop, D.D., of Brooklyr, N. Y., opened the second day's proceedings of the Protest ant Episcopal church congress this morning with an address on socialism. Quoting the fable of the man who killed the goose that laid the golden egg, he urged adhesion to the present system of social economies, and held that if labor forced a change it might kill the goose and lose the golden eggs. He did not believe that the present conditions were so

Those who kno w something of thesematters,
say that this extraordinary prevalence of
colds is the forerunner of another visitation
of the Grib. Whether it may turn outso or
not, a thing everyone should do is to get rid of
a cold as soon as possible on account of the
danger to which a person with a "little cold"
is exposed. Pneumenta nobody wishes to face,
and it is no exageration to state that eighty

Ry far the best method of ridding oneself of a cold is to take a little pure stimulant in water and keen warm after having done so. The greatest care and prompt occurs should be taken at the slightest sign of the approach of pneumonia. If you have a ticking in the throat, tightness of the chest, pain in the head, a chilly feeling or pains throughout the body, immediately use some pure stimulant to promote the circulation and avert the catastrophe. It should be particularly borne in mind that to be of the required value, the stimulant (whiskey preferable) must be pure, and Duffy's Pure Malt Whiskey, which can be obtained of your druggist or grover, meets the requirements. It is standard and and reliable and the fact that it has received the endersements of the leading scientists and physicians of the present day is the best guarantee of its usefulness as a med cine. Insist upon having it and do not allow the salesman to sell you a substitute which he may recommend as 'just as good.' may be seen all this week at our store. It can be best seen from third floor, where the extent, variety, make, style and finish of our Overcoats eclipse anything of the kind ever seen in this city. It needs no powerful telescope or achromatic lens of any kind to see the superiority of the gar-

ments. It is Visible to the Naked Eye

of the observer of ordinary intelligence.

If we were to state the number of Overcoats sold last Saturday it would surprise those who have not seen the goods, and as we do not wish to tax the credulity of such persons too far until a visit to our store prepares them to believe all we say without hesitation, we will not state the

number. The prices sell the Overcoats. If you put on one of our
