Mr. Hanson pointedly states how he was re-lieved of an acgravated case of catarrh by Drs. Conslaid and Mansfleid. "I have had a severe catarrhol trouble for three or four years," said Mr. John Hanson, who resides at 455 Charles street. 'I had dull beavy pains in my head, particularly over the eyes. My eyes were weak and very

My great trouble was the continual dripping in the back part of my throat. I would have to hawk and spit to get rid of it. This would heave my throat raw and sore. I had a bad cough at times especially in the morning, and I would have severe pains in my chest, My trouble extended until my stomach became affected. I treated for my trouble time after time, but could not secure any relief until I began treatment with Drs. Cepeland and Mansfield. They had been treating several friends of mine with such marked success that I deter-mined to give them a triat. I did so with the result that I am feeling spendid again. I don't have the duil, heavy pains in my head not over my eves; my eyes are strong and do not water any more. My nose does not stop up near so much any more, while the drip-ping my throat is almost califed with the chest. IMPORTANT TO MUNICIPALITY.

Decision by the Illinois Supreme Court That Will Be of Interest.

CHICAGO, Ill., Nov. 28.-One of the most important decisions of the Illinois supreme court in several years, affecting not only issues directly involved, but laying down the broad principle that public streets and thoroughfares belong to the pub-he and no exclusive use of any portion thereof can be granted to private individuals by municipal corporations. The case is that of George Lagare against the city o Chicago, involving the legality of two ordi part of Archer avenue for the use of the Chicago, Madison fli Northern railway, which portion is now covered with tracks. They also ordered the condemnation of a strip of land west of that vacated to be used as part of the street. The court holds both ordi-nances illegal, holding that "it never has been held that legislative authority authoriz-ing tracks to be laid in streets allows a municipality to grant the exclusive use of such streets."
