Destructive Fire at the Home of William Maloney.

FAMILY NARROWLY ESCAPED DEATH.

As They Passed Out of the Burning Building the Heat Was Oppressive-Unable to Agree on Coal.

A destructive fire occurred vesterday morning shortly after 3 o'clock. The scene of the fire was William Maloney's residence, 128 Graham avenue, and the building, together with almost all its contents, was a total wreck. Mr. and Mrs. Maloney were awakened by a smell of smoke, and on opening the door of the upstairs room where they were sleeping they at oncesaw that the house was on fire. They nast-

ily scized a few articles of cloth ing and started to go downstairs. The heat was almost stilling, but by dint of hard exertion they managed to get out of doors. They then went to the house of Fred Lamb, which is quite a distance away, and having seen his wife and child safely housed. having seen his wife and child safely housed,
Mr. Maloney went to the nearest alarm box
and sent for the fire department.

When it arrived the flames had secured
such headway that it was with difficulty
that anything was saved. Up to the time
when Mr. and Mrs. Maloney left the house
the fire had been merely smouldering, although it had evidently been burning for a
long time. Shortly after thay left

ong time. Shortly after they left me of the front windows fell out with a crash, and the wind almost instantly fanned the embers into flames that spread with great rapidity. After long and hard work, nowever, the fire was extinguished, but the house and all its contents were almost a total

The damage is estimated at about \$2,000 or ne house and a like amount on the furniture. The furniture was nearly new and of a costly pattern. The house is insured for \$1,500 and the furniture for \$2,000. How the fire originated can not be known posi-tively, although it is supposed to have started in some way from the base nurner downstairs. Shortly after the occupants of the rooms upstairs awoke the stove fell with a crash, the floor beneath it having been burned completely through, Had Mr. and Mrs. Maloney slept much longer they must have perished in the flames, as the hailway, when they left, was so hot they could scarcely pass through it.

CUSSING AND DISCUSSING.

School Board Members Unable to Agree on Coal. The school board held another meeting vesterday afternoon at the office of E. E. Wright to continue their wrangle in regard to the coal supply. All the members were present excepting Waite. President Weils, who was chairman of the committee appointed Monday night to examine the coal question, reported that it had on unable to agree and he therefore on the members to make their individual

roports. Schoentgen reported that he had not changed his opinion since Monday night, and that he still held that W. W. Wallace's Walnut Centerville coal at \$3.65 whe the lowest. He was opposed to taking any risks on any other kind of coal that might be

narked at a lower figure. Hunter stated that he too was of the same opinion as when he stood up for the Carbon Coal company Monday night. The Excello tump, at \$3.40, had been used in the schools for two years and the board ran no risks in taking it again. He also called attention to the fact that a number of the railways centering here are using that kind of coal in large quantities.

Snoentgen retorted that the railways are in the habit of buying almost any Kind of coal that the Carbon Coal company had a notion to furnish, on account of some magic influence someone connected with the com-pany seemed to possess. Wells sided with Hunter, Stacy sided with Schoentgen, while Shubert left it blissfully uncertain as to where he stood until the vote was taken

A motion was made to award the contract o Wallace for his \$3.65 coal, but it was lost, schoentgen, Stacy and Shubert veting in avor of and Wells and Hunter against it. It was evident that both sides had come t stay and that nothing could be gained by cussing and discussing any more for the present. It was accordingly decided to postbone further action until Saturday evening, when another meeting will be held. Scheenigen wanted to put in a lause forbidding Hunter from ordering any nore coal in the meantime than would sup oly the schools for a week, but Hunter ilm he had only been ordering it by the load anyway, so the clause was not inserted. It was mutually understood, however, that Schoentgen should not have to lie awake nights for fear Hunter was coming a sharp trick over him. In the meantime the Carbon Coal company is furnishing the coal.

A historian of the English stage tells as that when "The Rivals" was first produced "The town damned, condoned and finally rowned it" as a work "remarkable for wit, good arrangement of plot and knowledge of men and manners." More than a century has empsed since Sheridan's comedy was written, but its transcendent a crit has made it a classic which will abide permanently in dramatic literature.

It may puzzie the modern play-goer to and derstand why "The Rivals" should have been damned, but it is only necessary to remind him that the moralities of a century ago were not cut on the same pattern as those of this latter day. It is properly due Mr. Joseph Jefferson, too, to say that he has made some considerable changes from the work as written by the brilliant frishman, but the contemporary lover of the drama may rest assured that they are for its betterment.

"The Rivals" was produced at the Boyd last night by Mr. Jefferson and his admirable company of comedians, and a brilliant audience, with sensibilities attuned to catch the slightest play of humor entired as audience, with sensibilities attuned to catch
the slightest play of humor, enjoyed an
intellectual luxury. What can be said of
Mr. Jofferson and his Bob Acres—quaint,
harmless, amusing, good natured poltroon
that he is—that has not been
said a hundred times before and in most
felicitous terms? There are other conceptions of the character, but if any counterfeiter of the part has an art that is nearer perfection than Mr. Jefferson's its superiority is like those sounds which are too subtle for the human understanding to perceive. This genial comedian's characterization is a delight in the present and will be a precious memory in the future.

Mrs. John Drew's Mr.s Malaprop is a

unique and enduring creation. It is one of the notable achievements in recent dramatic art and promises to pass into the traditions of the stage along with Mr. Jefferson's Bob Acres. The place of the lamented Florence as Sir The place of the lamented Florence as Sir Lucius O'Tripger is taken by Mr. Louis James. It were hardly fair to draw a comparison. Mr. James has been doing a widely different line of work for years and has had barely ten days in his present position. He is one of the best all around actors on the American stage, however and considering the twing circumhowever, and considering the trying circumstances under which he has assumed the role he acquitted himself brilliantly. Mr. W. F. Owen as Sir Anthony Absolute

gave a carefully studied impersonation of the despotic, choloric father, with a heart full of affection, that was finished and filled the full measure of expectation.

J. H. Barnes has long been an able leading

man and acted Captain Absolute with grace and dash.
Miss Viola Allen played Lydia with most admirable finesse, and made a charming sweetheart indeed. David is a servant comedy part with fine

opportunities, and Mr. George W. Denham made an artistic bit of dramatic work of it. Mr. Jefferson and his company form the strongest and finest comedy organization on the American stage, whose excellence is too well known to need fulsome flattery.
The Jefferson Comedy company, having

decided not to give a matine at Boyd's opera house today, Mr. Joseph Jefferson, Mrs. Jonn Drew, Mr. Louis James and the members of the company will be guests at the Farnam Street theater management, to witness McNally's latest farce comedy, "Boys and Girls." A box will be prettily decorated for Mr. Jefferson and Mrs. Drew, who have many personal friends in the company new playing at the Farnam Street. Already the indications point that the matinee will be largest in the history of the house.

SHUTTING OFF FREE PASSES, Chicago Roads Make an Effort to

Reduce Expenses. CHICAGO, Ill., Dec. 1 .- A meeting of presidents and vice presidents of western roads was held today in accordance with the announcement of last week to formulate a scheme for doing away with the indiscriminate issuance of free passes. A vote at the meeting established the fact that all present were in favor of the movement, but the attendance was not large enough to admit of any decisive action being taken. Only lifteen roads were represented, although invitations had been extended to more than twice that number. J. C. McMullin of the Chicago & Alton was called to the chair. After a general discussion of the subject a resolution was adopted adjourning the meeting subject to call of the chairman and a committee of five The delay caused by the small attendance is regarded by some as significant. It is freely predicted tonight that the meeting will result in a flasco, just as it did last year when certain roads purposely delayed action

when certain roads purposely delayed action until after they had made their annual passes to suit themselves.

Some time in September the Burlington. Cedar Rapids & Northern soid round trip excursion tickets to a party of thirty persons from Cedar Rapids, Ia., to Barnesville, O., and return at \$20 for the round trip. The tickets were good over the Rock Island road between West Liberty and Chicago and as no such rate had been authorized, Chairman Finley preferred charges against the Rock Island as preferred charges against the Rock Island as being responsible for the use of such rate.

The case was duly heard and today Chairman Finley issued his decision. He holds that the charges are sustained and that the Rock Island must pay over to the association

the full proportion which should have accrued on such tickets at the first-class rate in force at that time.

At the regular meeting of the Western Passenger association it was agreed that, commencing the first Tuesday in January, 1892, the regular meetings of the association 1892, the regular meetings of the association should be held bi-monthly instead of monthly.

On the appeal of the Chicago, St. Paul & Kansas City road from the decision of the chairman in the mileage case, the decision of the chairman was sustained.

The subject of the sale of round trip tickets between transcentinental points and Chicago was talked over and the committee having in enarge the details in respect to the Knights Templar convention at Deaver was granted further time. The consideration of the subject of the establishment of a rate bureau was deferred until next meeting that the matter may be further investigated. The charge that the Chicago, St. Paul & Kausas City gave reduced rates to the purty of Minneapolis becomers who captured the republican national convention for that city is being investigated. Traffic Manager Busenbark says he can get affiduvits from every member of the party that full rates were paid.

CONSIDERING NEBRASKA RATES.

But the Burlington's Action Changed the Stuation. KANSAS CITY, Mo., Dec. I .- A queer situation has been developed in the Transmissouri Freight association. The disturbance is the result of the trouble over the granting of lower freight rates to Beatrice, Neb., to consider which a meeting of the rate committee

of the association was called at Kansas City

for yesterday and today.

The committee got to work yesterday afternoon, but before it could do any work its power to handle the matter was vitiated by the announcement that the B. & M. road had taken independent action and had but into effect the rates that caused the dispute. The Rock Island immediately appealed the case to the board of Western Traffic *ssociation commissioners and when the rate committee met this morning there was nothing to but adjourn.

Reign of Terror in Tennessee. KNOXVILLE, Tenn., Dec. 1 .- The mines at Oliver Springs are now idle because the white miners have struck. The cause of the strike was the issuance of warrants for ten of them for participation in an outrage against colored miners who were driven from their homes by white men. There has been a regular reign of terror for the past few days.

Guards Hired for Convicts. NASHVILLE, Tenn., Dec. 1 .- As a result of a meeting today in the governor's office regarding the convict question, the superintendent of prisons was authorized to employ 100 men at Briceville and 100 men at Coal Creek for guard duty, should that many be required. As soon as the stockades are finished the recaptured convicts will be marched into them.

Guarding Against Incendiaries. RUTLAND, Vt., Dec. 1 .- In Castleton, about twelve miles from here, six incendiary fires occurred within as many days, and in consequence the residents are in a state of terror A vigilance committee has been organized and armed sentinels have patrolled the town since last Wednesday night. Vigorous efforts have been taken to discover the incendiaries.

PATENTS for INVENTIONS Bee Bureau of Claims

OMAHA, NEB. Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions became of the incompetency or instention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing computent an reliable solic turn to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worth less or cureless attorneys, and of seeing that inventions are well protected by valid patents. Talk Base BUREAU has retained counsel expert in patent wractice; and are therefore prepared to

Prosecute rejected cases. Register trade marks and copyrights. Render opinions as to scope and ralidits of patents. Prosecute and defend infringence suits, etc., etc.

Obtain patents,

Conduct Interferences.

Make special examinations,

Hyon have an invention on hand send THE BEER BUREAU a series or photograph thereof, logether with a toric description of the important features and you will be oner advised as to the best corrise to pursue. Models are not necessary unless the laventon is of a complement mature. If others are infringing on your rights, or if you are charged with infringement by others, stomat the matter to This BUREAU for a remained OPINION before acting on the matter.
