

THE SPECULATIVE MARKETS.

Trading in All the Grain Pits Dull and Weak.

EARLY CABLES DECIDEDLY LOWER. Seaboard Clearances Believed the Outlook for the Bulls—Corn Was Higher for December—Stocks and Bonds.

Chicago, Ill., Dec. 2.—Trading in all of the grain pits was dull and weak during most of the day, with fluctuations confined to moderate limits. The early cables showed wheat and corn decidedly lower in Liverpool and continental reports were not encouraging. Domestic markets were also weak. Around the opening it was reported that Bradstreet's report would show an increase in the available supply of wheat during the week of nearly 4,000,000 bu., while the weather was as favorable for the winter wheat crop as could well be expected. There was a report that Bradstreet's estimation of the world's wheat crop showed an excess of 33,000,000 bu. over the crop of 1890, which is not especially a small crop for that year. The high prices. About the only items which relieved the outlook for the bulls was the fact that clearances at the seaboard were reported at nearly 1,000,000 bu., and the fact that clearances for the week for all ports of the continent and the United Kingdom were nearly 4,000,000 bu., less than the week previous.

December opened at 90c and in the early part of the day it was generally steady to 10c on covering by shorts who had a profit. When they had covered their debts and began to sell again weakness followed and the price sagged off, assisted by further weak cables to London, covering to secure profits near the close caused a reaction of 1c, and the close was steady at 91c. Friday and Saturday were the completion of operators.

Corn opened 1c higher for December and unchanged as to the other months. The market was firm for a time, but later in the day followed wheat, and the close was 1c higher for the session, but reacting slightly near the close. December opened and closed at an advance of 1/2c over the previous day. The market was steady and well maintained. The market was very quiet, but a demand from shorts who fear a corner similar to that in November.
