Mysterious Disappearance of Pritty Miss Tit a Blaxs m.

SOME VERY UNCOMPLIMENTARY RUMORS.

She Was Quite Old Enough to Know Better, But Her Uncle Could Do Nothing with

tier.

Some excitement has been caused by the disuppearance of Miss Titia Blaysies, a piece of George Blaxeim, who has fived with him for the past seventeen years. She left home last Monday, saying she would be gone only a short time, but night came and she did not return. Her friends anxiously began search for her, and the search has gone on ever since, but although traces have been found of her which lead them to believe that she

is still in the city, her exact whereabouts

cannot be learned.

The young lady in question is 22 years of age, and was adopted by Mr. Blaxsim when she was 5 years old, her parents dying in Davenport at that time. She has lived here ever since, but her fickle disposition and her necipation to wander away from home have ed herinto difficulties before. About six nonths ago it is claimed that she went to South Omaha in company with Charles Con-ey, an ex-member of the fire department, with whom she had associated somewhat, and Mr. Blaxsim was compelled to put in considerable time finding her and inducing her to return with nim. Conley has a wife with whom he has had some trouble, and it is claimed he promised Miss Bloxsim that he would get a ivorce from his wife and marry her. Blaxsim thinks it is Conicy who has entired his niece away from home, aithough Conicy denies it. The two had some words Wed-

nesday night which came near ending A night or two after the girl's departure, Mr. Blaxsim made a search for her at a house on Mill street, which he had been informed was a rendevouz for her and her lover. The house does not bear a very good reputation with the police, and Mr. Blaxsim was accompanied by an officer when he visited it. When the officer rapped at the back door a commotion was heard inside, and an instant later a half dressed man rushed almost into the arms of Mr. Blaxsim, who stood at the front door. He immediately rushed in again, however, and when the offi cer raided the house the couple, if they had been there at all, had disappeared. Since then no effort has been made to find her.

Mr. Blaxsim states that he has no further use for his mees. "She has had all the ad-vantages any girl could want," he said vesterday, "and now she turns out to be un-worthy of them. She shall never enter my house again. I should like to have her send someone, however, to get her clothing, which she left at the house when she took her de parture.

Mrs. Fink of Sioux City arrived in th city jast evening with her two children enroute to St. Louis. She stopped at the Revere house, where she told a pitiful tale of her misfortunes. She said her husband fell dead on the streets of Sloux City n few days ago, leaving her al-most penniless, and she was on her way to her mother's home. She ran out of money when she reached the Bluffs, and did not know where she was to get the money to take her the rest of the distance. Row on the Row. Social circles on Pierce street were ren dered somewhat lively at a late hour Thursday night by the advent of a number of gay pieds from Omsha and this city. The house of Lizzie Ott was first visited, the young mer composing the party throwing the furniture out of the house into the street. No ob-stacte was met with until the house of Ella Lee next door was reached. Here the invaders struck a snag in the shape of Cliff Hugh, a burly fellow who had been spending the evening there. He at once prepared to show fight, and did so with such a vengeance

that the remains of the fray were found yesterday morning to consist mainly of pools of blood scattered at intervals about the premises. A somewhat similar program was followed out at Ida Gordon's house not far away. Where the blood came house not far away. Where the blood came from was the question that agitated the police yesterday morning, and a special detective was directed to look the matter up. He failed to find any of the parties who were willing to own up that the blood belonged to them, so he was unable to make much of a report at police headquarters. He succeeded a report at the property whom in arresting Lee Foreman, however, whom he charged with being an ismate of a house of prostitution. The trial will come up this morning. To Make a New Ward. The plan of dividing the Second ward is being agitated with considerable zeal by some of the councilmen, and it is probable that a move in this direction will be made in a short time. The Second ward now embraces all the territory north of Broadway between First street and the river, and is by far the largest in the city, as well as one of the most populous. Every election, it is claimed, has shown the advisability of cutting it in half, so as to make voting more convenient, and to prevent the counting of the ballots from taking up so much time. An ordinance is now being drawn up providing for the increase in the number of the wards, and if the change is made there will be a cor-responding increase in the size of the city council next spring.

While playing about its home, 2610 South Tenth street it into a pail of boiling water, fell but was rescued by its mother be-fore it had been in its hot bath more than a few seconds. Dr. Cleaver was symmoned to attend it, and the injuries were cared for as well as possible.

It is feared that the child may die, and it is certain that it will be a long time before it is ble to walk again.

But two of the family of five are tikely to recover. The injured are Jasper Maus, fatally burned all over the body; Mrs. Maus, burned about the hands, face and body, recovery doubtful; Carl Maus, aged 7, hands and face badly burned, will recover: Walter Maus, aged 3, dving and Bessie Maus, aged 2 years, dead Particulars of the casualty are difficult to obtain, as the older members of the family are unconscious. It is known, however, that a can of gasoline had been placed in the oven of a cook stove some time since and forgotten A fire had been kindled in the stove yester day for the first time in several days, and it is supposed that all members of the family were sitting about the stove at the time of the explosion. The doors of the house were till locked and neighbors who were attracted by the explosion and cries of the injured that followed it were compelled to break in the doors to rescue them. The fire department was on the scene of the disaster in a very short time and soon had the fire extinguished. Jasper Maus and his wife, Jennie, died last ight from the effects of their injuries. Carl Maus, the eldest one, is the sole survivor of the family of five, the other children having died within the past few hours, and it is now feared that he may die from the effects of in-

DUN'S REVIEW OF THE WEEK. Gradual Improvement in Trade No-

ticeable in Most Sections. New York, Dec. 4.-R. G. Dun & Co.'s Weekly Review of Trade will say: The only change observable in the condition of business is a gradual improvement. Many branches of trade are a little more lively aud in some the improvement is quite satisfactory. The one sign of unfavorable character is that the collections at some points are slower and harder than usum, particularly where the low price of cotton leads holders to defer seiling as longs as possible. But at the principal western points, Ckicago, St. Louis, Cincinnati and St. Paul, collections are very satisfactory. The larger trade centers report most favorable in that respect, and there is less a fliculty in eastern cities, though at the south some embarrassment continues. Money is not particularly strin-gent anywhere, though rather close at Nash-ville and Montgomery.

The official report shows that the volume

000 a year ago. The increase both for the month and for the year has been mainly in the form of gold certificates and new treasury notes.

The speculative markets have tended down ward on the whole, although wheat is un-changed in price, with sales of 20,000,000 bushels here during the last week and the receipts continue at the rate of over 7,000,000 bushels for the week, with exports unabated and at the rate of nearly 3,000,000 bushels for the week from Atlantic ports alone.

The business failures during the last seven days numbered 330, as compared with 297 last week. For the corresponding week of last year the figures were 312. Bradstreet's Review.

Bradstreet's, in its review of the New York stock market, says: While the market has not been active during the past week, it was firm under the disturbing influence of the Field-Lindley failure and the complications incident thereto, and later on responded to the favorable sentiment at London by a moderate but decided advancing tendency. While there is doubtless some exaggeration in regard to the immediate effects of the plan which Mr. Goschen outlined on Wednesday last for increasing the English bank reserves and circulation, it is significant that the proposition was accepted on the London market as an encouragement for bullish speculation. Singularly though it would seem, the chancellor of the exchequer's utterances in regard to silver were thus construed into some thing more positive than was intended, and it was noticed that foreign noises took a leading part as buyers in the sharp upward movement in silver certificates on Wednes-day and Thursday. Foreign purchases of stocks were in fact on a more extensive scale than has been seen for some time past, and though the public has not appeared in the street, leading operators appear to be once more giving their support to their specialties, while increasing railroad earnings and a tendency to augment dividends on the trunk line and granger stocks encourage speculative buying of a more or less professional kind. Advances were accord-ingly recorded in a considerable number of stocks, although there are some noteworthy exceptions. The Gould group, led by the Missouri Pacific, showed weakness, while Richmond Terminal broke on the prospect of litigation over the prospective readjustment of its affairs.

Omaha's Fire Chiefa Little Irritated by a Senseless Story. In regard to a statement in a local paper last evening that the Omaha fire department

I also asked if we could be of any use by reaching there at that time. In about a half hour I received an answer from Blair which stated that the fire was under control and that there was no need of our help. There was no statement sent out that we had a big fire here, and could not spare any ap-paratus. The Blair man who wrote that deliberately lied."

As was stated in THE BEE Friday morn ing, Chief Galligan was ready with two companies to go to Blair on a minute's notice, and only ordered his men back to bed after the final message from Blair had been re-

PATENTS for INVENTIONS

Bee Bureau of Claims

OMAHA, NEB. Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inatiention of the atterners employed to obtain their patents. Too much care cannot be exercised in employing computent an reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attories.

with the view of protecting inventors from worth less or careless attorneys, and of seeing that inventors are well protected by valid patents, Title BEF BUREAU has retained counsel expert in patent practice; and are therefore preparal to Obtain patents, Make special examinations,

Proscente rejected cases.

Register trade marks and copyrights. Render opinions as to scope and ratid. ity of patents. Prosecute and defend infringence suits, etc., etc. BIHES, crc., crc.

If you have an invention on band send THE HEE
BUHEAU a sketch or photograph thereof, together
with a brief description of the important features,
and you will be once advised as to the best correst to
pursue. Models are not necessary unless the invention is of a complicated nature. If others are idfringing on your rights, or if you are charged with
infringement by others, submit the matter to THE
BUREAU for a reliable OPINION before acting on
