DR. C. GEE WO.

The Great Chinese Panaceist

Wishes to give a few reasons why he is working such wonderful cures where other doctors fail.

China has about half the population of the globe. They have been practicing and perfecting medicine over 4,000 YEARS. Chung Nung (see Ency. Brit.) discovered seventy-two poisons and their antidotes 2,45; years before Christ, and Marco Pola, who brought the compass.

Campini, one of the first Europeans who en-tered China, says: "Their physicians have a thorough knowledge of the nature of herbs and an admirable skill in diagnosing by the pulse." (See Willard's Middle Empire.)

It is well known that gunpowder, steam and electricity are old in China, and that the Chi-nese were printing their defleate books 900 years before Guttenberg was born. Hut it was to medicing the Chinese gave their attention, and when the emperor Chin Wong ordered all the books to be burned he excepted the medical works, and it was only by the merest accident that the great works of Confucius himself were saved, he having placed a set of his works in the corner-stone of his residence, which was found 2,000 years after.

The celebrated Dr. Hobson states that one of the Chinese dispensatories gives 142 HERBAL REMEDIES alone. Can you wonder The celebrated Dr. Hobson states that one of the Chinese dispensitories gives 142 HERRAL REMEDIES alors. Can you wonder then at the doctor's success?

The Caucasian physicians all use the very same Remedies and when you change doctors, in your disappointment and dispast, you merely chance f ces and assertions but not medicines. When an American doctor discovers a new remedy all the other doctor know about it immediately. Now, you know the Chinese Doctor comes from an almost unknown country, containing nearly half of the people of the world, where all the medicines are entirely different, and Dr. C. Gee Wooffers a reward of \$504.00 to any one who can duplicate any one of his Chinese Medicines. Do you now comprehend that after giving up all hope of being cured by your doctors, that in taking the Chinese Doctor's Remedies, 4,000 in number and absolutely unknown outside of China, that he has a wonderful advantage over all other physicians. His new remedies have never before entered your blood and set on it as if by magic, curing the disease and rendering the complexion clear as a child's.

A MOTHER'S STORY.

I am 62 years of are and have suffered indescribable agony from asthma for many years. I could not sleep and had to sit up all night in a chair. I tried doctor after doctor but without help, and thought some night I would choke to death. As a last hope I tried Dr. C. Gee Wo. the Chinese doctor, and was relieved instantly. In a short time I was acred and have never since been troubled. I have reason to bless-Dr. C. Gee Wo.—MRS. P. D. Link's H. 2th St., bet. J. & R. South Omaha. In order to convince the public that Dr. C. Gee Wo can cure any disease, he makes the following eight remedies: Blood. Female Weakness. Rheumatism, Indigestion, Lost Manhood, Sick Hendache, Catarrh, and Klanev and Liver Medicine. Price \$1.00.

CHILIAN OFFICIALS MAD AT US.

They Talked of Withdrawing Their Legation, but Didn't Do It LONDON, Dec. 9 .- The Times today publishes a dispatch from its Santiago de Chili correspondent, stating that the insuiting notes written to the government by United States Minister Egan, and his own telegrams to his government, have caused a proposition to be made that Chili suppress her legation at Washington. This proposition was dis-cussed at a meeting of the financial committee of the house of representatives last night, but the government declined to support the proposal.

STATE WORLD'S FAIR BOARDS

Manner of Presenting Various Measures Thoroughly Discussed.

DECISIONS OF THE DIRECTOR GENERAL

All Competitive Exhibits Must Be Placed in the Departmental Building in Which They Properly Belong.

CHICAGO BURBAU OF THE BER.

CHICAGO, ILL., Dec. 9. The convention of delegates from various state World's fair boards met at noon today in the directors' room at headquarters with the board of reference and control, the director general and different department chiefs. It is to be a sort of a World's fair prayer meeting, at which all will receive light and help. There has been some talk of the renewal of the discussion had some six months ago in regard to state exhibits, but it was decided at that time that while every state might make what exhibit it chose, exhibits entered in competition must be placed in the buildings specially devoted to that class of matter. It is therefore improbable

that the subject will again receive any extensive consideration One of the first things discussed this afternoon after the formalities of organization were disposed of was the manner of present-ing state exhibits. Some of the commis-sioners wanted to know if all the products of their various states, manufactured as well as natural, could be made in the state buildings. The board of control became involved in an old discussion and the director general had to be called in to straighten the difficulty. He explained that competitive ex-hibits must be placed in the departmental building in which they properly belong, but that collective educational exhibits might be made in the different state buildings at the

discretion of the director general. Not Known in Ch cago.

"This is the first time I ever heard of him. It may be he has been in Chicago but I don't think he is at all known here, moreover I doubt whether he has been identified as the bomb thrower. The right man will be found though before Inspector Byrnes gets through with the

case." Will Fight the Railroads.

War will be inaugurated on railroads by the National Transportation association in congress because of the present shortage of freight cars. This association is composed of delegates from all boards of trade, cham-bers of commerce and other leading commercial exchanges in the country. The bodies in Chicago belonging to it are Board of Trade and the freight bureaus, the members of the latter being the heaviest shippers in Chicago. Representatives of the National association will appear before congress and ask it to frame a law compelling all railway compan-ies to give a uniform bill of lading and to

abide by reciprocal car service.

Said an officer of the association: "A few railroad men in New York are creating a blockade in freight cars which may make a coal famine in Chicago. Our association will go to congress and ask for a law to comwill go to congress and ask for a law to compel railway companies to deal squarely with

General Miles for President. In the crystal dining room of the Hotel Richelieu last evening General Nelson A. Miles entertained fourteen friends at dinner. At the same time and place there was born, according to a morning paper, a presidential boom, which, if it flourishes as prosperously as its progenitors anticipate, will result in the nomination and election of the general as president of the United States. In speaking of the general's prospects, one of the gentle-men present said: "All the world loves military, and in addition to General Miles being a great soldier he has many other things to make him available. His wife is a Snorman, make him available. His wife is a Sherman, and you can be sure that he can use the Sherman family's machinery for putting in his presidential crop in Ohio and elsewhere. He is a New Yorker by birth and is well known and liked among people whose influence counts from New York city to Albany and from Albany to Buffalo. When you get across the Mississippi, General Miles is at home and in the west where he has quelled uearly all of the Indian outbreaks that have uearly all of the Indian outbreaks that have occurred for ten or lifteen years, he is the most popular man that could be nominated." When his attention was called to the statement that he has presidential ambitions, the general said: "It is absurd. I am not in

nomination at the hands of any party. I have no buzzing in my hat, have no connection with politics and wish none."
"Would you accept the nomination if tendered vou!" dered you?"
"There's not much danger of that," was the general's diplomatic reply. The point in the story that seemed to go deepest in the general's sensibilities is, that he is 58 years."
"There's made made made anough surely." old, "They've made me old enough, surely," he said. "They've got it here that I am 58.

Result of Poor Health. George H. Lane, senior member of the firm of Lane & Lane, shot and killed himself in his private office in the Stock Exchange office this morning. It is difficult to assign a cause of the suicide. The firm seems to be quite prosperous in its business affairs. Mr. Lane lived in a pretty stone front house in Kenwood, 4311 Berkeley and was apparently in no way avenue, and was apparently in no way troubled about money matters. At the same time he was not at case mentally and his perturbation was attributed by his friends to sickness. The malady affected his lungs and he was known to have hemorrhages often. His despondency was doubtless due

to this cause. Odds and Ends.

At the meeting of the state grange at Springfield today, resolutions were adopted denouncing Governor Fifer in vigorous terms for his failure to appoint a farmer to a position on the board of railroad and warehouse commissioners, after being asked to do so by the farmers of the state.
