CRICAGO, Ill., Dec. 10 .- The corn plt again attracted the attention of operators today. and the feeling was very feverish and decidedly unsettled, but with prices averaging considerably above yesterday's close. The business was quite spasmodle with occasional rushes to cover which would send prices up 2c or 3c in short order, and when the spasm was over, duliness would rule for a time and sharp declines follow. Conservative shorts were anxious to cover, and outside operators In particular were disposed to even up. The selling was restricted, as in the face of such evidences of manipulation as last two days have furnished there is not much disposition to sell year short and the offerings were mostly of long corn to secure profits. Nothing more definite

short and the offerings were mostly of long corn to secure profits. Nothing more definite is yet known as to whom the clique is composed of but there is no longer much dispute as to its existence or as to its ability to make prices. The trading was attended with less excitement than that of yesterday, partly because the fluctations were somewhat less wide and violent and partly because the prices of the scereal.

The proportion of the receipts grading contract remains very small. Of 225 car loads inspected during the past twenty-four hours, only seventeen passed muster. December opened at 55c, against 535 can the close yesterday, and with little business passing and a number of fluctuations within a pretty wide range above that figure, finally touched 55c, which proved the highest price of the day, against 55c at the close yesterdown to 55c occurred. During the remainder of the session the market was slow and the close was steady at 55c. January was bought rather freely and advanced from 45c to 46c, closing 5c lower. May was less affected and closed unchanged.

Wheat opened dull but quiet in sympathy with cables which lent no encouragement to investors and because there was a tendency to awalt the appearance of the government crop report during the day. May held for a time at 385c and 385c, but when it was known that New York had cleared 562,000 bushels of wheat and 58,000 packages of flour the trade revived a little and with good buying there was a raily to 905c. During the last hour, however, Ream and other shorts began to sell, breaking the price to 385c, and the close was steady at 385c.

Oats were quiet but firm during the morn-

Oats were quiet but firm during the morn ing, but were slow and easy during the last hour, closing steady without material change from yesterday, except December which was Hog products opened lower on an estimate

Hog products opened lower on an estimate that the receipts of hogs at the yards would reach 50,000 head, while prices there were 10c lower. Later in the day, however, the market firmed up and the close was at a moderate advance. Estimated receipts for tomorrom: Wheat, 235 cars; corn, 270 cars; oats, 180 cars; hogs, 44,000 head.

corn and oats the practical suspension of grain shipments owing to the scarcity of cars may prove a serious matter and interrupt traffic for a long time. As the corn roads have their freight cars comployed in shipping from Lake Eric ports and are unable to send any considerable number west to receive consignments at Chicago. The western roads being short of rolling stock themselves cannot help eastern roads and as country shippers object to having their grain go into store here they are holding it back until the blockade shall have been removed. This may result in keeping stocks of contract grain here so small as to invite manipulation, restrict legitimate trade and keep the markets unduly excited. There was another flurry in year corn but trades in this are being closed and activity may not long continue. January was strong and rather active, but May showed no strength. In oats there was a big run of hogs and prices were the lower at the yards, but provis ons held up weil and closed quite firm.

Burlington, which the bears have been seiling imprudently in the face of heavy dally shipments of the stock to Boston, at once proved the truth of these surm ses an I something like an old fashioned squeeze of shorts was effected in the first hour. From this the higher prices promptly turned to the coal stocks which, in the absence of recent covering operations, surgested a similar state of affairs. The resuit of the bidding up of prices was equally satisfactory. The rest of the list sympathized, but with less activity, realizing sales being naturally an important factor. Traders' Talk. A bearish Cinaccount of the time cables. A bearish Cincinnati Price Current crop report, and Bradstreet's showing of European stocks and the stocks affoat, the posting of California stocks and the rather low conditions of growing wheat and the winter wheat crop as shown by the state agricultural departments caused some apprehension of a buillsh government report today and shorts pretty generally reduced their lines, giving the market a 4c raily. Late cables were lifeiess and lower, acceptances almost nothing and buying limits below a workable basis. The keneral disposition among speculators was to even up trades and wait for the Washington report which was expected to show a condition of about 90c. Very little doing in cash lots owing to the freight blockade. Corn and oats were in cash demand and such lots as could be moved commanded a premium from shippers. Loxnon, Dec. 10.—[New York Herald Cable—Special to The Her.]—Business on the Stock Exchange has been nearly at a standstill, with the exception of some investment in stocks which were again demanded. The directors of the Bank of England reduced the cute of discount from 10 %; directors of the Bank of England reduced the rate of discount from 4 to 3½ per cent. This gave a better tone to the home railway department; American and Canadian descriptions were also firm, but the foreign market was weak. Spanish and Portuguese being especially flat, Brazilian opened distinctly down, but recovered considerably. The benk return for the week ended December 9 was £ 13,680,000, against £116,563,000 for the corresponding week last year. No buillon operations. The reported reduction in the bank rate had no effect upon the discount markets, the alteration being fully expected. Three months bills, 2½ per cent; call loans, ceipts of hogs, but advanced steadily all day on packers buying and ceased with pork loc, lard 5c, and ribs 24c higher. We expect a liberal run of hozs next week and considerable falling off afterward and advise investment buying of hog product on soft spots. CHICAGO, Ill., Dec. 19.—F. G. Logan & Co. to J. Sands Commission company: The market has been quiet throughout the session. The business has been light and largely local. European advices are duil and generally lower. The government report due this afternoon has restricted business. The guesses on it have been for a condition about ten points under a year ago. Should it come nuch over this the trade here will regard it as not in favor of higher prices. We look on present prices as safe. Weather conditions will be an important factor, with a sekly plant, as the winter wheat is now said to be. The excitement in corn has subsided for the present. tained no signs of strength, but were not as weak as expected. Room traders who were short thought best to cover in anticipation of builtish government report in the afternoon. There was some buying on good cicarances and the moderately builtish sentiment this created resulted in an advance to 1995c bid for May. Around this point the market haited for some time, but closing cables came in easier and the price dropped to 1985c bid, railied to 285c and closed offered at that price. There has been a good deal of speculation as to what Mr. Dodge will say about the condition of winter wheat. Some sanguine buils expect it to be as low as 80, while equally pronounced buils think it may be as high as 9. Of course the first would be considered builtsh and the latter decidedly bearish. CATTLE—Taken all in all the cattle market was alout the slowest, lowest and meanest it has been this year. Offerings included the usual miseclianeous assortment but were made up largely of fair to good shortfed natives weighing from 1,100 to 1,200 pounds. The market was flat and about as thoroughly demoralized as it gets. Dressed beef buyers had everything in their own nands, the condition of the trade in Chicago being an effective bar to any speculative movement. Bids were 15c to 25c lower than yesterday on fair to good beef steers and buyers were not overly analous for the cattle at the decline. Trading dragged, but seeing nothing to gain holding on seliers generally accepted the inevitable and rejuctionly let zo at from \$2.5c to \$3.5c to \$4.25. Prices have declined all of half a dollar in the past four days. There was a considerable amount of unsold stuff in the peast four days. There was a considerable amount of unsold stuff in the peast four days. There was a considerable amount of unsold stuff in the peast four facts. The market was fully as bader even worse on butcher stock. In most cases bids were a flat quarter lower than yesterday and the general run of cows did not sell within from 4 e to 50c of last week. Good to choice cows soid slowly at from \$2.05 to \$1.25; fair to good stock from \$1.75 to \$2.00, common and canning lots from \$1.00 to \$1.75. Bulls, oven and stags were in moderate demand at from \$1.60 to \$2.60. There was comparatively little doing in the stocker and feeder line. Although the demand continues active and prices are quotably strong the fresh receipts are extremely meager. Sales were largely at from \$2.30 to \$2.80. Representative sales:

Hoss—The liberal run continues, receipts so far this week not failing over 5,000 short of the big run the earsy part of last week. There was a considerab e amount of rather common light and mixed stuff among the offerings but plenty of good heavy hogs. In fact the general quality of the offerings was good.

Business opened with prices from 5c to 10c lower than yesterday and showed very little change all day. There was nothing in the dircumstances and conditions surrounding the trage to encourage salesmen to look for

circumstances and conditions surrounding the trace to encourage salesmen to look for better prices, and as buyers were willing to take the hogs at the decline the market was, fairly active, about everything being cleaned up before the closed. The best heavy hogs sold at from \$3.55 to \$105, common heavy and mixed packers at from \$3.50 to \$3.55, light and light mixed loads mostly at from \$4.40 to \$3.50. Chicago, Ill., Dec. 10.—[Special Telegram to The Bee.]—Not far from 3.0.0 cattle were packed into the yards today. There was a legitimate demand for perhaps 15,000. The usual number of buyers was present and a large business was transacted, but prices are ruinously low. They are only a trifle above those ruilng in December last year, and they

so one of them went to Mr. Yaughn and intimated that he knew a thing or two if he could be assured that his identity would be concealed. This was readily promised and the detective was promised and the detective was given a "dead straight tip," to the effect that a county and city official, who for the present snall be nameless, had engineered the train robbery and had received their share of the plunder from the rang they had employed to do the work. These two officials, who by the way were soon to go out of office, had just acranged for future occupation by purchas ing a saloon, and the veteran Hawkshaw ai once declared that he saw through the whole thing. The men had planned the train rob-bery in order to get money to buy the saloon Why, of course they had—the case was just as clear as mud, and away went Mr. Vaughn to get a little more evidence and claim the reward. The designing thief had told him that one John Johnson had led the gang employed by the instigators of the robbery, and Mr. Johnson was promptly arrested and landed in jail, charged with being a suspicious character. The story of his wonderful catch was too great for the detective to keep locked within his own bosom, so a credulous reporter was taken into his confidence and the details of Detective Vaughn's "clever capture" were heralded to an admiring

Johnson was put in the "sweat box" sedutously pumped, but of course he told nothing, simply because he had nothing to tell. The man hadn't nerve enough to put his hand in a sugar bowl, to say nothing of robbing a train, and the court discharged him, while Mr. Vaugha looked regretfully after him as he faded out of the door. Still the detective was not discouraged He was satisfied that the aforesaid officials were guilty, and for days he haunted the vicinity of their saioon watching every one who went in. He tucked his whisaers inside his shirt, buttoned his collar up around his ears, and passed the regular patrolinen on their beats without giving a sign as to his identity. And this he has kept up to the present time, while the two thieves, Shelby and Garlich, were given opportunity to do their work unwatched.

One night a peddler was held up at Fif-teenth and Mason streets, add these two men were arrested on the following morning for doing the job. The victim refused to indentify them, but after they were released said that they were the men, but that he was afraid they would kill him if he said so. Shortly afterward, a room on South Thir teenth street was entered by thieves who took \$114 worth of clothes, and the same two men were again arrested and the clothes found in their possession. They are now in juil awaiting trial and Detective Vaughn is still at work with the information he ob-tained from them endeavoring to run down And the city pays Mr. Vaughn \$70 a month.

were the lowest ever known. Good shipping steers went begging at from \$1.75 to \$1.90, and choice qualities were not wanted at over \$5.00 to \$5.25, while as to poor and common truck it was difficult to move at any price. Cows and buils are now quoted at from 75c to \$1.50 for poor to choice dressed beef and shipping steers at from \$2.75 to \$5.75 and stockers and feeders at from \$2.75 to \$5.75 and stockers and feeders at from \$2.75 to \$5.75. These quotations indicate a decline since last Friday of from 25c to 50c per 100 tbs. Thonsands of cattle still lie in the yards and it is not easy to see how they are to be gotten out except at a further decline. Sales were at the remarkably wide range of from 75c to \$7.15. A few fancy holiday beeves changed hands at from \$6.50 to \$7.15.

The hog trade was more than usually qu'et toing, Shipping orders continued light and the mild weather interfered to some extent with operations of ocal packers. The supply, therefore, proved too large and the market drepped another notch. Compared with yesterday's closing quotations there was a decline of De, my king a reduction of 20c for the two days.
