THE SPECULATIVE MARKETS.

Effect of a Very Pullish Covernment Report Finally Overcome.

AVERAGE OF THE DAY FARLY ACTIVE.

Confidence in Corn Gradually Recovering from the Recent Rumors of a Strong Corner in That Cereal.

CHICAGO, Ill., Dec. 11.-The combined action of several of the largest local hear operators in wheat overcame the effect of a very bullish government report and closed the market at a decline since yesterday of 14c, and about 2c below the highest price of the day. Outside business was senot throughout the session. leaving the market largely in the hands of local operators. In corn the year shorts are rapidly recovering from their fright. Provisfons were overcome by the heavy rece pts of hogs and closed lower.

The rovernment estimate of 85.3 per cent as the condition of fall sown wheat supplied the motive for an advance of Me at the start, compared with the closing price of the previous day. The opening price was just high enough to tempt bears to sell but not too high to keep buils from buying. There was a big trade for half an hour, and with a good many dull intervals during the remainder of the ses sion, there were still enough busy moments to make the average of the day fairly active. From 90%c to 90%c for May, there was a grad-From 90% to 20% of for May, there was a gradual decline to from 98% to 25%. It was succeeded by a considerable interval of builtishness and advance to 90% and that again by another and a heavier decline than the first prices sagging steadily until 97% was reached, the close being at 97% c. The receipts here were 252 cars and the outward inspection only 45.3. Minneapolis and Duluth had 590 against 54 cars last year. The Liverpool cables were only slightly better in tone at the opening and weaker at the close without appreciable change in the quotations, and although the continental markets were higher and the Atlantic clearances heavy, the action of the one heavy trader. Pardridge, on the floor, seemed to be sufficient to overcome all other influences. Pardridge was the heaviest buyer at the lower prices, and the heaviest buyer at the lower prices, and the heaviest seller at the highest. December wheat sold as high as 65% and closed at 91% wheat and flour clearances from the four ports yesterlay were equal to about 900,000 bu. of wheat.

In corn, January was the strongest option.

terilay were equal to about 900,000 bu, of wheat.

In corn, January was the strongest option, the shorts evidently being inclined to take a lesson in produce from what they have seen in November and so far in the present month; it closed at 46½c, compared with 45½c at the end of yesterday's session. The December and year deliveries are gradually losing their terrors for the shorts, the transactions in them during the first hour's trading not exceeding 50,000 bu, although the price even at that triffing amount of business rose to 58c as compared with 55½c at the close of the previous session. The ast sale made today was at 54c. May was strong during the greater part of the session, advancing from 45½c to 45½c. The receipts were 210 cars.

part of the session, advancing from 43% to 44 and closing at from 43% to 43% to. The receipts were 210 cars.

The oats market was firm, the range of prices being only 3c until the last hour. Trade was rather quiet and the market did little but trail after corn. Sample oats met with a good demand for shipments at prices that were 3c higher. The receipts were ii. In at 170 cars. December started at 33% to sold at 33% to, and hung around the latter price most of the session, broke to and closed at 33% to, and closed at 33% to, sold to from 33% to 33% to, and closed at 33% to, sold to from 33% to 33% to, and closed at 3.6 to.

The provision market was fairly steady at the opening, but the receipts of 58,000 hogs at the yards and weakening grain markets told on prices later and everything was at its lowest as the market closed. Pork left off with a decline of 10c in January and 15c in May. Lard, 7% c and ribs 16c lower.

Rye was fairly firm and moderately active. Only twenty-one cars arrived. Salipments were also 16th, No. 2 in store sold at 39%.

Nye was fairly nern and moderately active.
Only twenty-one cars arrived. Shipments
were also light. No. 2 in store sold at 89c;
December at from 88c to 894c; January at
from 99c to 995c, and May at from 99c to 965c.
Estimated receipts for tomorrow: Wheat, 2) cars: corn, 210 cars; oats, 16) cars; hogs

The leading futures ranged as tollows:

Traders' Talk.

Traders' Talk.

Chicago, Ill., Dec. Il.—Swartz, Dupee & McCormick to F. C. Swartz & Co.: Wheat opened firm on the government crop report, prices reaching a full cent over Thursday, but on the advance there was local selling of the best quality. It was soon evident that the builtship inclined were filled up and were unable to maintain prices, the result being a quick drop. It was a surprising result of a crop report, universally admitted to be bad and was probably a case of over-preparation. Uables were a little higher but were considered weak in view of the fact that the foreigners had the government report before their ers had the government report before their market opened. Liberal scaboard clearances were forgotten in the general stampede. Corn

market opened. Liberal seaboard e.earances were forgotten in the general stampede Corn was more active in a legitimate way than it has been far some time. The bulk of the bulk ness was in January and May, year being neglected. There were only 25 contract cars in the receipts, embarrassment from the car blockade being as severe as ever. Oats sympathized with wheat and corn, being firm early and weak at the close. Provisions were very dull, but were firm early in spite of the large receipts of hogs. Local scalpers bought early but threw their loads overboard before the close, when it became weak in sympathy with grain.

Chicago, Ill., Dec. Il.—Counselman & Day to Cockreil Bros.: Wheat opened with local speculators well evened up, but rather expecting a lively bulze on the government crop report. Buying orders to commission houses were well distributed and cables were generally higher. Prices advanced le, with active buying, when a sudden raid was executed by three leading local bears, which brought back upon the market scalpers' wheat. Some lines boughtearly for investment. The market was purely a local one and little attention was paid to outside news. At the extreme close considerable covering was done by the raiders, in anticipation of large weekly clearances to be shown in tomorrow's Bradstreet's. Corn was irregular and most traders inclined raiders, in anticipation of large weekly clearances to be shown in tomorrow's Bradstreet's. Corn was irregular and most traders inclined to diminish their risks. Oats and provisions were dull and traders inclined to sell moderate lines. Markets closed lower and easier. All trade is still suffering from the freight blockade, which prevents shipments and makes the market more subject to raids, like those of today. At such times we believe purchases are in order.

Chicago, Ill., Dec. II.—F. G. Logan & Co., to J. Sands Commission company: Wheat opened firm at about 1994c for May and sold up to 1994c. At this price there was considerable offered, which, with reported lower cables, caused a break to 98c. The covernment is buillsh, but its influence will not be felt until there is more foreign buying. The business in corn has been light. The receipts are light, scarcity of ears preventing the movement. Hog products quiet, Packers continue to meet the demand.

Chicago, Ill., Dec. II.—Kennett, Hopkins & Co., to S. A. McWhorter: The avarance. ances to be shown in tomorrow's Bradstreet's

scarcity of cars preventing the movement. Hog products quiet. Packers continue to meet the demand.

Chicago, Ill., Dec. Il.—Kennett, Hopkins & Co. to S. A. McWhorter: The government report was perhaps rather more builtsh than expected, but traders were prepared for it. Back by stronger cables, light receipts and heavy clearances, the market was worked up to Dige for May. At this point there was heavy business and a general expectation that the dollar mark would be passed and higher prices prevail for a time. A quiet unionding of some long lines, among them. Ream started prices off again, though slowly, and it was not until 95c was reached that the crowd realized what occurred. Then there was selling all along the line, the market declining quickly to 984c, holding there a few minutes and then slumped rapidly to 974c. Shorts were free buyers at the latter figure, causing a moderate raily, but final figures were close to the bottom. The outlook for wheat has been arowing more buillsh for a week or ten days and it looks as if a turning point had been reached. If the receipts continue to fail off and experts increase as they have done recently we may get lower prices for a time. Gradually a more confident feeling will spring up and we shall in due time get a broader and higher market. Trades are now mostly local and fluctuations within marrow limits, but the great speculative public will undoubtedly be feit seener of later. There is one thoughtful sentence in Mr. Dodge's report that sounds almost prophetic. It is this: "The arices of all cereals have been remarkably sustained in view of the advantage of production." This remark applies with special force to corn and oats, since the extraordinary demand for wheat

and its known scarcity abroad will readily explain the strength of that mirket Regarding corn, conditions are now about as thew were in 18:8. A big crop following a snort one, but May corn which is seiting on its merits if any option is, sells more than 6 cents over the average price of May in '85. In the latter month it sid not sell above 38'ic. Why there should be this extraordinary difference when the big crop of '91 is about one hundred million bushels larger than the big crop of '88 and the short crop of '87 was only 31:80,000 bu, shorter than the crop of 1890 is now clear, so far as the near options are concerned. It looks as if it would be comparatively easy to hold precent prices and even advance them sharply at times, both for corn and oats. Farmers are not disposed to merket these grains freely and if the winter should be an open one we are not likely to get much contract corn before Mirch, leaving the short seller practically at the mercy of those owning the cash stuff. In provisions a weaker market was looked for, as receipts were large and prices about as low as they have be an any time this season. Of course it is impossible to know supplies of hogs will be largely reduced, but it is believed the time must soon come.

STOCKS AND BONDS.

New York, Dec. 11.-The stock market today was irregular, with most of the business con-fined to a few specialties. The strongest features were Richmond Terminal and Chicago Gas. Missouri Pacific and Union Pacific were exceptionally weak, the former decilining I per cent and closing at the lowest point. The rest of the list was comparatively neglected. The Vanderbilts' following continue their predictions of higher prices generally, especially for their own line of stocks and working, as a their custom, on one line at a time and predicting an early advance in Nickel Plate securities. The advance in Chicago gas was in buying by brokers in generally handling investment orders, and was accompanied by reports of largely increased earnings. The movement in Richmond Terminal was apparently due to a pending contest for control between factions in the directory and most of the stock was bought by interests identified with the property. Reliroad bonds were comparatively active, the sales amounting to \$2.107,900.

Government and state bonds were dull and steady.

The following are the closing quotations for the leading stocks on the New York Stock exchange voday: exceptionally weak, the former declining I

Financial Review.

New York, Dec. 11.—The Post says: Yesterday's very general closing out of the short interest resulted, as there was good reason to suppose it would, in an immediate decrease of activity. It did not result in weakness for on today's slow stock market prices were surprisingly well held in the face of steady realizing by the recent professional buyers. The molerate outside buying continued, moreover, and furnished some of the support which the board room gossips endeavored to invoke through fairy tales of a stupendous outstanding short interest, under the auspices of Wall street's usual scapegoat. The satisfaction occasioned vesterday by the reduction of the London bank rate was doubtless increased today by the news of a further gold shipment from France. But this transaction was just outside the regular sterling market in which current rates, owing to the large remittances of January interest payments, and posibly also to purchases of bills against sterling loans, are now considerably above the gold importing figure. Financial Review. importing figure.

OMARA. Dec. 11.

Receipts so far this week compared with the corresponding five days last week show an increase of 3,000 cattle and 3,000 sheep. Receipts of hozs are practically the same. corresponding five days last week show an Increase of 5,000 cattle and 3,000 sheep. Receipts of hozs are practically the same.

CATTLE—The fresh receipts included about 500 more cattle than last Friday but feil 8:00 short of yesterday. Compared with the same five days last week there has been an increase so far this week of nearly 3,0:00 head. As to quality there was no nottleeable improvement. In fact the zeneral run of steers were hardly as odd as yesterlay. The best that can possibly be said of the market is that it was worse than yesterday. Buyers have been able to secure an abundance of good cattle very cleap this week and were consequently rather indifferent today. It was a duil, weak, dragging market throuthout with hardly enough trading done to establish quot tilons. Prices are the owest they have been in over a year. Sales were largely around from \$2.75 to \$3,25, and there was considerable unsold stuff in first hands at the close.

Fully two-thirds of the offerings were cows and mixed lots. The demand was only fair and the market. If anything, a shade worse than yesterday, especially on the medium and common stuff. Fair to good cows sold largely at from \$2.75 to \$2.00, Good to choice grages at from \$2.10 to \$2.55; common and canners at from \$2.00 to \$2.50; enives at from \$2.00 to \$3.50.

There is no change worthy of note in the \$2.00 to \$1.50.

There is no change worthy of note in the stocker and feeder trade. Supplies are still limited and considerably short of the demand. Prices continue firm with trading mostly around from \$25 to \$2.75. Representa-

ostly	around	from \$.25	to \$2.7	5. Repres	sentu-

Hogs—Receipts keep up remarkably well considering the celine we have had all week. During the past five days 48.600 head of hogs were received almost exactly the same number that were received during the same period last week. The quality was still very good.

The outlook was rather unpromising at the open ng and early trading was at prices a shade to 5c lower than yesterday. Business was slow and dragging at the start, but the arrival of good shipping orders improved the market considerably and the early decline was fully regained. The best heavy and shipping hogs sold largely at from \$3.50 to \$3.55, with some of the later sales at from \$4.69 to \$3.55, with some of the later sales at from \$4.69 to \$3.55. The market closed active at from \$3.45 to \$3.50. Light and light mixed loads sold from \$3.30 to \$3.55, mostly at from \$4.40 to \$4.45. The market closed active at about Thursday's quotations. Sales were largely at from \$4.45 to \$3.55, against \$3.45 to \$3.60 yesterday. The average cost was \$3.485.

Chicago Live St ck Market.

Chicago, Ill., Dec. 11.—[Special To egram to The Bee.]—The reduction of from 25e to 5-e per 101 pounds secured earlier in the week appeared to be satisfactory to buyers today. At all events they took bold in a fairly ilberal way at yesterday's prices, paying from 75e to \$2.5 for poor to cho ee helfers and buils and \$1.75 to \$5.25 for poor to cho ee helfers and buils and \$1.75 to \$5.25 for poor to cho ee helfers and buils and \$1.75 to \$5.25 for poor to cho ee helfers sold in a few instances at from \$5.5 to \$3.50 and fancy steers were quoted anywhere up to \$7. Only a very small percentage of the receipts were good enough to go above \$4.75 nor were many lots so poor as not to be salcable at over \$1.25. There was some inquiry for stockers and feeders at from \$1.50 to \$3.50 and veal calves were in light supply and firm at from \$2.00 to \$5.51. Range cattle continue to arrive in straggling lots. They were quoted at from \$1.75 to \$4.25 for westerns and \$1.55 to \$3.00 for Texans. The gener 1 market closed steady. The market was without further quotable decilne, but it remained weak, the arrivals being more than ordinarily liberal for a Friday and the weather continuing too mild for the successful prosecution of backing operators. Shippers again bought rather sparingly (they have taken less than 30.000 head during the last five days), but the greater part of the supply was weighed, nevertheless, and the market closed rather steadler than it opened. Trading was at an extreme range of from \$2.25 to \$4.00, cuts selling at from \$2.25 to \$4.00 and three loads of extra assorted heavy hogs fetened \$4.00. The closing quotations were from \$1.30 to \$1.65 for poor to choice light, \$5.50 to \$3.85. Light weights averaged slightly lower than for yesterday.

The Evening Journal reports: Cattle-Receipts, \$0.00; shipments, \$0.00; market lower; prime export and shipping steers, \$4.656.25; Christmas steers, \$4.060.00; market lower; prime export and shipping steers, \$4.600.3.70; stockers, \$2.2002.75; cows, \$1.100 Morse-Oce Shos Company, T, 100 Howard Street.
Factor corner lith and Douglas Street.
We are making close prices to each buyers, and selling a class of goods which is very salcable with merchants. Williams, Van Aernam & Harte

Pensions procured for soldiers of the Rebellion who served 9) days and are now disabled from ANY cause. The pension is payable whether the disability was incur ed before, during or since service. Pensions for widows and children without regard to cause of soldier's death. Pensions for mothers and fathers who are Now dependent, whether they were dependent on soldier when he died or not. Widows, children and parents are regarded as "dependent", in all cases where they have not sufficient property for their support. Soldiers pensioned at less than twelve \$12.00) dollars per month and suffering

from disability in addition to that named in their pension certificate, may obtain increase under the new law. Information and advice given without charge. Best facilities ever offered to claimants to have their claims properly and diligently prosecuted. No charges unless successful. Write for nformation to

The Bee

Bureau of Claims. OMAHA, NEB. PATENTS for INVENTIONS

Bee Bureau of Claims

OMAHA, NEB.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the atterneys employed to obtain their patents. Too much care cannot be exercised in earloying computent an reliable sollectors to procure entents, for the value of a patent depends greatly, if not called upon the care and skill of the atterney, and of separations when the less or careless atterneys, and of seeing that inventions are well protected by valid patents, Till Hell BUREAU has retained coursel expect in patent greatles and are therefore preparalty

Obtain patents, Conduct Interferences, Make special examinations, Prosecute rejected cases. Register trade marks and copyrights.

Render opinions as to scope and valid. ity of patents. Prosecute and defeut infringeness suits, etc., etc.

If you have an invention on hand send THE BER BUREAU asketch or phonograph thereof, together with a brief description of the important features, and you will be once advised as to the best corres to pursue. Models are not necessary unless the inven-tion is of a complicated mature. If others are in-fringing on your rights, or if you are charged with infringement by others, submit the matter to THE BUILEAU for a reliable OPINION before acting of the matter.
