THREE DEMOCRATS DID IT.

County Employes Chosen by the Commissioners at Yesterday's Session.

NOTHING THERE FOR A REPUBLICAN.

Judge Stenberg Makes a Few Criticisms on the Move, but the Slate Went Through-J. J. Mahoney and Wife Were Re-elected,

The two republican members of the Board of County Commissioners put in their time vesterday afternoon in belping to shake the political fruit trees, while the three members with democratic proclivities stood around and gathered up every one of the plums.

The meeting was opened by County Clerk Sackett reading a petition asking that Dr. R. W. Conneil be appointed county physician. The petition went to the table, there to slumber during the far-reaching

Dan Duiloy was on hand with an applicaprecinct to fill a vacancy.

Judge Stenberg scented game and in speaking upon a question of privilege stated that it had not been the custom to call upon the chairman to vote, unless it was to decide a tie. He wanted the chair to be placed on record in order to share the responsibility equally with the other members.

Major Paddock could find no law to excuse

the chairman from voting, and it was decided that in the future his vote should be recorded for or against each and every proposition.

Some Routine Work, The official bond of John P. Henderson, member of the Soldiers' Relief commission,

was presented and approved.

County Treasurer Irey in a communication informed the board that ex-County Treasurer Snyder had draws 6, but had failed to complete the records to that date. Irey asked the board to investigate the matter and take some steps in the premises. The whole matter was re-ferred to the committee on judiciary, to re-

port at the next regular meeting.

The clerk stated that he had two petitions and Mr. Eerlin asked that they be read for the information of the board.

One was asking for the removal of John J.

Mahoney from the position of superintendent of the county poor farm, and the other was requesting the board to fill the vacancy by appointing Daniel Burr. Each petition was signed by 700 taxpayers of the city and Major Paddock moved that they lay upon

Mr. Berlin wanted them considered, but upon the table they went, assisted there by the votes of Messrs. Paddock, Van Camp and Chairman Timme.
Following the disposition of the motion

was where the three democratic members got in their clever fruit picking, leaving Mr. Berlin and Judge Stenberg to hold the sack. Major Paddock started the political ball to rolling by moving that the board proceed to the election of county employes. Commenced the Circus.

The motion was carried by a strict party vote, and reaching into his pocket Chairman Timme drew forth a paper. He said that the auditor would be the first man to be elected. Mr. Berlin suggested that the chairman read his entire slate, as it would save time The remark not calling for any reply, Mr. Van Camp placed John T. Evans in nomination for the position. Major Paddock took time to second the nomination, after which Mr Berlin stated in emphatic terms that the statutes of the state did not provide for a

"I grant that it is true that we need an auditor," continued Mr. Berlin, "but will you show me the law, or even that opinion which you refer?"
"I demand the reading of that opinion,"

exclaimed Judge Stenberg.

The cierk went on a tour of exploration, but returned without the law or the opinion. Just a Little Bit Personal.

Mr. Berlin offered to eat and digest the hat of any member who would show him either the law which had been referred to or the opinion spoken of.

Major Pandock did not want to take up

the time of the board, but thought the law implied that the board had a right to elect its auditor when the books spoke of employing necessary help. The appointment of an auditor would meet with public approval and no person would raise the question of au-

Major Paddock insisted that the old board had done many things without authority of law. "I nominate J. W. King," said Major

I nominate Dr. Connell," responded Mr. "What has become of the applications of the other doctors?" asked Judge Stenberg. "They are on file," answered the clerk. "You will now vote for your choice," com-

manded the chair.

The vote was called. Berlin and Stenberg voted for Connell, while Paddock, Van Camp

and the chairman voted for King.
"Declare the result," interposed Major
Pacdock, as Chairman Timme hesitated. "King's got it," smiled the chair. Chairman Timme said that assistant

county physician was next upon his slate and Van Camp nominated Dr. Wilcox. Judge Stenberg declared that there was no necessity for the county physician having an assistant. If he did the physician would draw his salary, attend to his private prac-tice and the assistant would look after the county sick. To him it looked like creating an office in order to give some man a job, Times were hard and it was time to retrench instead of adding more tax-caters to the county pay roll.

Chairman Timme insisted that the board did the same thing last year.
"Don't put that up at us," retorted Judge Stenberg. "Last year you had a democratic Stenberg. "Last year you had a deliberated board and you have bankrupted the More discussion followed, after which the

election of Wilcox was carried by the three democratic members voting "yea." Mr. and Mrs. Mahoney Retained. Major Paddock suggested that the remainder of the officers be elected and continue to serve until April 1, 1892. The suggestion

elected Mrs. J. J. Mahoney, who was a can-didate, might not care to remain out there under his administration Judge Stenberg insisted that the petition asking for Mahoney's removal should be con-sidered. Five hundred of the heaviest tax-

payers in the county had asked it and they were entitled to some consideration. Besides this, he was elected upon an issue demand-ing the removal of Mahoney.

The talk counted for naught when the

roll was called. Paddock, Van Camp and Chairman Timme voted to retain Mahoney. The vote to retain Mrs. Mahoney as matron vas the same. Paddock nominated Thomas Mullen as

clerk at the poor farm,
"Do you propose to elect ail of the dishwashers and chambermands out at the hospitat" asked Judge Stenberg. There was no
reply, but when the roll was called Mullen was elected by the same democratic mojority that had existed during the whole after-

Cutting Down Salaries.

That closed the election of employes and then Mr. Berlin offered a resolution reducing salaries in the treasurer's office. It provided for cutting the deputy from \$2,100 to \$1,800 per annum; the bookkeeper from 900 to \$1,500; the first assistant from \$1,500 to \$1,200, with the same cut upon the second assistant. He said the advance of salaries took place on February 21, 1891, under democratic rules, and he simply wanted to place them where they were prior to that date.

The resolution was referred to the commit-Berlin offered another resolution, which was adopted, reducing the salary of the matron of the county hospital from \$40 to \$25 per month. Van Camp was the only man who voted "no."

The resolution to reduce the salary of the deputy county clerk from \$100 to \$83 per month was referred to the committee on finance. The salary of this officer was raised from \$83 to \$100 per month on February 21, 1891, and under democratic rule. Mr. Berlin called up the communication

from the Real Estate Owners association received and placed on file January 5, 1892. It referred to salaries and supernumeraries employed about the court house, and demanded a general weeding out of unnecessary clerks.
The document not being found, its consid-

eration was postponed until this afternoon when the board will hold another meeting.

LIFE INSURANCE.

What It is and Why it Must Be Paid for at a Fair Rate.

In your resolutions marking out different lines of good conduct for the early year, have you included the determination to insure your life-in case you are not already a policy holder? If not, you have overlooked the gravest mistake in your catalogue of errors to be reformed, and should hasten to rectify the wrong at once.

It setting about it do not, because you can recall instances where men's families have had large sums of money paid them in return for a very small outlay, enter upon the matter with an idea of getting something for nothing. Disa-buse your mind of the idea of cheap life insurance. There is, in a certain sense, no such thing. It is a commodity of specific value that must be paid for if possessed. It is a system not based upon chance, but on the unalterable laws of nature and mathematics. Taking the average longevity of men, mathematically demonstrated from youth to extreme age, as a basis, it says that a certain sum is necessary to be deposited against the payment of your own policy, or that there must be an ever increasing rate of premiums, else the total amount agreed upon cannot be paid. It is true it does not deal with individuals as separate integrals, but with each individual as an aggregate of his class, who is always figured to live out the fullest exhis given longevity; there fore the aggregate individuals pay the full sum assured to each integral ber, however brief his term of life may be. In this wise the companies are able to meet the exceptions to the general rule, and sometimes pay large amounts of money for the very small sums re-ceived from the shorter-lived insurants. Depend upon it there can be cheaper trustworthy life insurance than this. If there was, or could be, the

active competition of the regular American life insurance companies would have found it, and their enterprising agents would have been selling it long before

and Personals.

Messrs, J. C. and William Norton, constituting the firm of Norton Bros., contractors, are at the South Omaha city jail under arrest on the complaint of City Clerk Ryan, who charges them with grand larceny. The sum mentioned in the complaint is \$1,741.15.

Norton Bros. admit that they have the money but declare that the wrong way has been taken to secure its return. In fact they do not intend to return it at all, and thereby hangs a tale. It appears from the stories of both sides that Norton Bros., about a month ago, had their last final estimate for \$10,495.70 al-

lowed for grading. It was specified, how-ever, that \$1,'41.15, the amount due for the grading of intersections, should be paid out special fund for that purpose, which comes from the county. This latter fund is now exhausted and will This latter fund is now exhausted and winned be replenished until July or August. Tuesday Norton Bros. presented their final estimate to City Clerk Ryan, and glancing at the total, \$10,495.70, he turned

over that amount, not noticing that it was marked "less \$1.741.15." The Nortons smilingly shoved the bulging rolls of bills into their pockets and said nothing.

Yesterday in looking over the bills allowed yesterday Ryan noticed that he had overpaid the proper amount and throwing on his coat and hat he rushed out breathlessly

o find Norton Bros. He found them, but when he explained the mistake to them and asked for a return o the money they coolly informed him that they knew of the error, that they had the money and proposed to keep it,
"Why I will have to pay this out of my

own pocket," said the city cierk. "No matter. The city cogmeer has cut down our estimates furly that much and that makes us about even."
But you will get your estimate allowed for the intersections all right," continued

Ryan.
"Yes, but the money is several months
"Yes, but the hand is worth two in off and a bird in the hand is worth two in the bush.'

"So you won't return this \$1,741?"

Arguments, entreaties, threats, all availed nothing. Consequently Ryan rushed to the police court and caused the arrest of the two contractors on the charge of grand larceny. They were arraigned and pleaded not guilty. The hearing was set for today and the judge fixed their bonds at \$1,000 each. refused to give any bonds and the jailer es-corted them back to a cell and prepared to unlock the door to incarcerate them. At this juncture Mayor Sloane interfered and declared that the prisoners must not be locked up but must remain in the court room under guard. Consequently Officer Looney

was delegated to keep watch over them.

Friends of the persons concerned declare that the matter can be settled without any trial and recommend that the coun-cil allow the bill and when the money does come from the county to transfer it to the fund overdrawn and thereby protect the clerk from a loss of \$1.741. Other persons oppose this move and say it is unbusinesslike and establishes a bad precedent. That the intent of Norton Bros. was wrong and that they should be punished for it if the money

is not returned. The Baron's Suit. J. D. Reiser, the German baron who is having a suit in Justice Levy's court over the nonpayment of a tailor bill, declared yesterday to the judge that he proposed to fight the bill. He says that he has a counter claim against the tailor for \$25 for tailing to finish the suit on time. Entered according to Act of Congress in the year 1852 by Dr. A. R. Wil WCh. to the Clerk's Office of the Dis-cord Court of the District of Massachuset

Do you ask what this is? No wonder! Any preparaand steadily gained in the estimation of physicians who regularly prescribe it, and the public who endorse its wonderful curative properties. The amount of sales have rapidly increased until Millons of Bottles are now sold annually. This preparation is

Wilhor's Pure Cod Liver Oil and Lime. It is worthy of all confidence. It cures Consumption, Coughs, Colds, Asthma, Pneumonia, Influenza, Bronchitis, Debility, Wasting Diseases, and Scrofulous Humors.

Re sure as you value your health and get the genuine, as base imitations said to be as good as Wilbor's Cod Liver Oil & Phosphates are attempted to be substituted by unprincipled designs. They are not, but lack the peculiar virtues of the preparation. If your Drugsist does not keep it, send direct to A. B. WILBOR. Chemist, Boston, Mass., the only Munufacturer of this Preparation.
