EX-CONFEDS WANT TO FIGHT.

If There is War With Chili They Propose to Be in It.

THAT'S WHAT HERBERT'S BILL MEANS.

In Case of Hostilities Congress Will Probably Remove Their Disabilities -Cabinet Meeting to be Held Next Sunday-Tracy's Plans.

NEW YORK, Jan. 15 .- The Herald's Washington special says: It would be 2" ttle singular if the existing Chilian complication should result in the annulment of some of the past war legislation now on our statute books. A little more than a year after the intended doing respecting the use of his name in the Minneapoils convention and that surrender at Appommatox, congress enacted a law which provided that no person who had served in the military, navy or civil service of the confederate states should be appointed to any position in the army of the United States. It now appears that a number of men who served with distinction with confederate army have volunteered their services to the government in the event of war with Chill.

Mr. Herbert of Alabama, himself an ex-confederate officer, yesterday offered a bill in the house removing this prohibitive section. It is hardly probable that it will be favor-atly acted upon unless actual hostilities result. In that case congress would probably pass the bill with little if any delay, in order that all classes of American citizens might that all classes of American cluzens might be permitted to enroll themselves in defense of the national honor. Secretary Trucy is gradually developing our naval resources. The latest move in this direction is to arrange for the co-operation of

two revenue cutters, the Corwin and the Rush, in case their services may be needed for either offensive or defensive purposes. Both vessels are now at San Francisco' where they have gone into winter quarters. They are, however, in excellent condition and might with little difficulty be fitted out with 6-inch rapid firing guns. Their services would be very useful in time of war, for both are speedy light draught vessels which might be utilized in a number of ways.

I also learn that orders went forward ves-terday that work on the dynamite cruiser terday that work on the dynamite cruiser Vesuvius "shall continue without cessation from this time until she shall be fully equipped for offensive purposes. The Vesu-vius is now at the New York yard. She is to be provided as quickly as possible with a torpedo outfit and a full complement of rapid firing guns in addition to her dynamite guns. When this work is finished she will prove to be a dangerous cruft and as such would be a be a dangerous craft, and as such would be a valuable auxiliary to our fleet in the south Pacific.

President Harrison has called a cabinet meeting for next Sunday. It is contrary to his religious principles to perform any but re-ligious duties on the Sabbath, but he finds it in perative at the present time. On that day all the executive departments are closed and he can meet his constitutional advisers in the cabinet room of the white house and consult with them in a formal way without fear of Interruption. This is the only significance that the Sunday cabinet meeting will have. The gun foundry at the navy yard in this city is a place of great activity just at present in the preparation of guns and shells.

GETTING READY TO MOVE.

The President Will Send Chilian Cor-

respondence to Congress Next Week. WASHINGTON, D. C., Jan. 15.-The president today concluded his examination of the diplomatic correspondence in the Chilian controversy and sent the document back to the State department. At the cabinet meeting today he announced this fact and indinow understood in congress and by the pub-lic, President Harrison will not have long to wait in order to receive proper authority to RETRENCHMENT AND REFORM. take what stops may be deemed warranted by the conditions to secure for the govern-ment full reparation from Chili.

Effected an Understanding. Chairman Clarkson of the republican national committee, General Russell A. Alger and Senator W. B. Allison were this morn-

ing locked into the latter's committee room at the capitol for a couple of hours in private consultation and when ended a report was circulated that an understanding had been effected as to the campaign for the republican presidential nomination. It was reported that Senator Aillson and General Alger had agreed to hold their individual states and as much outside support as possible for delivery to one or the other of the two who could command the greater force and thus secure the nomination with the other's strength. It was also reported that General Alger had a long conference with Mr. Blaine and told Messrs Allison and Clarsson that he was unable to get any intimation as to what Mr. Blaine

upon this report the compact of alliance herein recited had been agreed upon.

. Not Incided to Be Communicative,

THE BEE correspondent found Senator Alison in his committee room during the afternoon and told him the stories in circulation and asked bim what truth there was in them. The senator who was cunningly adroit finally replied, "Mr. Clarkson is one of my constituents and a close personal friend, General Alger is also a warm personal friend, of mine. It was but natural, being at the capital, they should come into my committee "oom to talk."

"And invite you into theirs to talk upon social matters of interest to themselves !" "Oh, certainly," replied the senator, good naturedly, and evasively adding, "and at the same time they did not say anything about the presidential nomination." It is said to be General Alger's plan to

secure so many promises for the second choice vote from various aspirants that after he complementary vote in the convention h will be the leading candidate.

Causes Another Smile-Yesterday's Work in Congress.

WASHINGTON, D. C., Jan. 15 .- The house of representatives of the Fifty-second congress has declared its emphatic hostility to subsidies, boundaries and land grants and pronounced in favor of rigid retreachment in the appropriations of the government. The Horman resolution in its entirety was today finally adopted by the nouse, but not until after its author had consented that it should be interpreted in a sense "broad enough to permit any and all appropriate and legitimate legislation." The advocates of the World's fair appropriation are tonight finding great comfort in this interpretation, and even the friends of the mail steamship subsidies and sugar bounty maintain that the

pledge of the government having been exce passed, appropriations to fulfill those obligations are but "appropriate and legitimate legislation." When the resolutions were reached in the

order of unfinished business it was generally expected that Mr. Holman, who had himself vesterday entered a motion for the recousideration of the order for the previous question, would consent to an amendment modifying the sweeping character of the second

resolution. But the chairman of the appropriations committee surprised all but a few of his confidants by refusing to do anything of

English Miners Refused to Pass a Resolution of Condolence.

Arrangements for the Dake of Clarence' Funeral-Sympathy for Princess Mary-Cardinal Manning's Successor-Germany Papers Down on McKinley,

Copyrighted 1892 by New York Associated Press. LONDON, Jan. 15 .- The decorous fiction that the whole nation is overwhelmed with grief at the death of the duke of Clarence received a startling denial today in the proceedings of the greatest workmen's union in England. The delegates to the miners' federation, now holding their annual meeting at Stoke-on-Trent, were apprised before assembling that their representatives in Parliamenl desired that the federation should adopt a resolution of condolence. The strong democratic feeling known to suffuse the body made the proposal hozardous, but it was hoped that the delegates would not venture to deviate from the general custom by declaring that the death in the royal family was no particular business of theirs. This is exactly what they did.

A telegram from their parilamentary leader, Mr. Pickard, himself ill with mfuenza, asked for a vote of sympathy with the royal family, adding, "The queen has always expressed sympathy with us." Cries of "business" groeted the message, and the men.ber who moved the vote of condolence reminded the delegates that the queen in cases of accidents in mines always beloed the distressed. In sullen silence the conference listened to speeches in favor of the motion, and then by a vote of 19 to 13 passed without debate an amendment to proceed to business.

Sympathy for Their Own Class.

The miners' federation has 200,000 mem bers, and it is the best organized and most powerful single union in the country. It has several representatives in the House of Commons and controls the votes of others. No workmen's combination so freely given to the distressed in or outside of its ranks or shown a keener perception of the sufferings of the proletariat. Interfer-ence with the family affairs of royalty being felt to be beyond them, they honestly said so. If all of the trades unions of Great Britain were similarly tested the result would be similar. The delegates immediately pro-ceeded to voted sympathy with and substantial help for the starving nail makers of the Midland districts who have long been on strike.

The upper and middle classes are most keenly touched by the incidents of the duke of Clarence's death. Thousands clad in mourning have flocked to Marlborough house to record their names, and throughout the capital well dressed folks generally are don-ning some badge of grief. The Gazette tonight directs that all per-

sons wear mourning until February 28, while detailed orders are given to the court and to the army. Society's Needless Alarm.

caught fire and two members of the company were burned to death. The second section of No. 9, with the

Andrews opera company on board, left West Superior at midnight for Grand Forks. Near Jonesville the train struck a broken rail and the engine and baggage cars passed over in safety, but the sleeping car was derailed. It toppled over, breaking loose from the train and went down an embankment five feet high, lying on its side.

Consumed by the Flames,

As soon as the windows were broken to iberate those inside, flames shot out and in very short order the car was enveloped.

The trainmon soon liberated those unable to extricate themselves, but none were able to save their clothes, and the night being the coldest of the season, the thermometer reaching 46° below, the suffering of the injured was terrible.

At this time it was discovered that Mrs. Ed Andrews and her daughter, Lillie, were missing, but no human effort could render them assistance, as the car was a mass of flames. They were burned to a cinder.

cated that the next step in the case will no long be delayed. The whole matter was discussed in a general way, but no action was taken, as there is nothing to be done until the correspondence is pub lished.

It is ascertained that the president will accompany the correspondence by a message on the subject, defining the attitude of the ad-ministration. The expectation is that he will have the message ready so it can be sub litted to the cabinet at its meeting day next, and therefore it is thought the earliest time it can be sent to congress will be Tuesday afternoon.

WAR SPIRIT STILL EXISTS.

Members of Congress Auxious to Consider the Subject Immediately.

WASBINGTON BUREAU OF THE BEE, 513 FOURTEENTH STREET, WASBINGTON, D. C., Jan. 15.

A war spirit still prevails at the capital Whenever the word Chill is mentioned to a member of either house of congress it almost invariably elicits an expression in favor o some step to force the Chilian government to repair the wrongs she has committed at the hands of her citizens and officers. It is expected the president will transmit to congress the correspondence had with Chili early in the week, surely by next Wednesday or Thursday, and the leading men in both houses in either party express a readiness to give the correspondence prompt ac tion. So little is officially known in congress of the real status of the controversy that much anxiety is being shown to receive the official correspondence from the president.

He had sat here yester-day and looked upon the remarkable spectacle presented by the gentleman from Indiana, Mr. Holman, who administered to the brethren around him in allopathic doses the medicine of retrenchment and reform. There was something fa-miliar about it and he had tried to rocall what it was. He had at last been able to do so. History was repeating itself. The performance was simply a repetition of the portrait made by Dickens and the caricature of Cruikshank who had depicted the famous of Cruitshank who had depicted the famous of Cruitshank who had depicted the famous event when Mrs. Squeers gathered his pupils about him and administered to them with a long spoon their dose of retrenchment and reform in the shape of primstone and treacle

for the purpose of breaking down their appe-tite and saving provisions. [Laughter,] Now according to the pre-arranged form Mr. Pecksoff arose and with the taffy in ore band and an amount in the taffy in one hand and an amendment in the othe of retrenchment and reform. Then the other friend the Rev. Chadband of Kentucky, referring to Mr. Breckinridge, came in with "Bless you my children," and pronounced his benediction, Laughter,

One Patriotic Democrat.

Mr. Boutelle then proceeded to inveigh against the democratic party for its lack o patriotism, saying that in the last six month

he had heard of only one patriotic remark being made by a democrat, and that was by a woman. He referred to the estimable wife of the present governor of the great state of New York. That lady on visiting the execu-tive mansion, which for two terms had been occupied by democratic bachelose, had be a occupied by democratic bachelors, had in an interview with a newspaper correspondent alluded to the necessity of refurnishing the house. She had said on that occasion that it was not necessary in order to put the governor's mansion in order to go beyond the coutines of the American republic. [Applause

To Investigate the Consus Bureau, Representative Alderson of West Virginia today introduced a resolution in the house to appoint a committee of seven members to in vestigate certain charges prought against th management of the census office. A preamble to the resolution recites that it has been charged through the columns of the public journals of the country that the census bureau has been wrongly conducted under Superintendent Porter in the state of New York and eisewhere in the interest of parti san politics and not with the view of ing correct enumerations and other data, and that the funds appropriated therefor were wantonly wasted and that said bureau has

been grossly mismanaged. A bill introduced in the house today by Representative Newberry of Illinois has for its object the relief of the heirs and legal representatives of certain soldiers. It pro-vides that whenever the records of the War department show that any soldier properly in the service in the late war was captured by the enemy, missing in action or sent to a king. confederate prison or hospital, such record sustained by satisfactory proof that the soldier has not since the record was made been heard from shall be taken as prima facie evidence that the soldier was killed or died during the war in performance of his duty.

Arizona Makes Demands,

Delegate Smith of Arizona today intro-duced a bill providing for the admission of the territory of Arizona into the union in ac-cordance with the constitution heretofore ratified and adopted by the people of the ter-ritory. The act is to take effect on January 1, 1893. The people of the territory are suthorized at the general enciton in Novem-ber to elect state officers and members of the legislature and one representative in con-gress whose terms, except as to the repre-sentative, shall begin at the time the act time the takes effect. At the meeting of the legisla-ture two United States sensiors are to be hosen.

Nothing New from Chill.

A cable message was received at the Navy department today from Commander Evans of the United States steamer Yorktown at Valparaiso, but Secretary Tracy said it con-tained no information of importance. with her daughter. Both are in delicate health and their condition is now the source of increased anxiety to the family. The death of the duke of Ciarence has re-

called the fact that he was born prematurely and that he always lacked the robustness of Prince Georgo. The princess of Wales has not yet recov

ered from her grief and prs tration. The latest announcement from Sandringham tonight is that Dr. Laking is dotained watch-ing the princess of Wales and Princess Mary, fearing that influenza may attack them. Prince George, who is still weak from his attack of typhoid fever, is also the cause of anxiety. The doctors have advised the prince of Wales as soon as possible to remove his family from the scene of affliction.

Sympathy for Princess Mary,

Princess Mary's future is undoubtedly the subject of deep national interest. As a preedent for her marriage to Prince George che incident is recalled of the death of the czarowitch in 1865 after his betrothai to Princess Dagmar, now the wife of his brother, the present czar. So profound and universal is the sympathy over her loss that it would be no surprise if parliament ac-corded her some provision as a "maiden widow." If the report is true that Prince George is attached to a daughter of Prince Christian, his known strong will makes the project of an alliance with Princess Mary improbable.

In the family circle Prince George has long been recognized as the superior of his brother in intellect, force of character and open genialty of disposition. From boyhood he has always held his own against his bro-ther's protensious as the elder. It is on record how quarreling as boys over the pos session of a goat chaise George promptly hit his brother in the eye and then seized and kept the chalse by his superior strength Their mutual affection was undoubtedi great, but Albert Victor was the weake vessel.
