LIVES AND PROPERTY LOST. Flames Destroy a Big Elevator, Warehouse

and Stables in New York. NEW YORK, Jan. 16 .- E. M. Van Tassel's ng grain elevater and warehouse, together with the old stables of the Knickerbocker Ice company, burned this morning, involving a loss of \$200,000. It is known that two workmen perished in the flames. Henry Kopp, a carpenter, was burned to death on the fourth floor. John Kinsley, also a carpenter, is missing and is supposed to have been burned. There were several narrow and thrilling escapes. Van Tassel's warehouse and elevator and new machinery cost \$150,000; insurance only \$40,000. In the elevator there were 30,000 bushel of oats, 10,000 bags of wheat, bran and flax seed on hand.

LEAD CITY, S. D., Jan. 14.—To the Editor of The Bek: Please answer the following questions: In what year was Miss Lotta Crabtree, the actress, born? Is 1892 a leap year? A party here wants to bet it is not, owing to an article that he saw in the Chicago Times that it was not, or it stated that in a certain number of years by the time gained every year every four years was not a leap year.

Charlotte Crabtree (Lotta) was born in Charlotte Crabtree (Lotta) was born in New York in 1847. She made her first appearance on the stage at the age of 6 in a nging part in "The Loan of a Lover."

Yes, 1892 is a leap year. It takes the earth 365 days, 5 hours, 48 minutes and 46 seconds to make the circuit of the sun. A year of 365 days is therefore a little short of the time year, and a day (24 hours) is added every ourth year, but that makes too long a year by 11 minutes and 14 seconds. This gain amounts to about three days in 400 years, and to correct the inaccuracy only those century years are leap years that are divisible by 400. For example, 1900, 2100, 2200 and 2300 will not be leap years, although divisible by four, while 2000 and 2400 will be leap years because divisible by 400.

OMARA, Jan. 13.—To the Editor of THE BEE: Who is the author of the comedy "Little Puck" as presented by Frank Danlels.—F. R. STOCKTON. It is a mosaic to which several persons have contributed. The foundation is said to have been laid by Archibaid Gordon.

Greeley and Vice President Wilson Amos Cummings tells how a faithful body guard of Horace Greeley once kept Vice President Wilson out of his room. The story, after detailing how several New York politicians were disposed of, continues:

"A few minutes later Vice President Wilson came in. He had been traveling a good deal and his form was covered with the grimiest linen duster I ever saw. He slammed down his old carpet bag on the floor and said: 'I want to see Mr. Greeiey.' "Git out!' thundered Ben; 'the old

man's busy. "Well, can't you take my name? asked the vice president.
"I guess I'll have to do it; but you stand right here and don't move or you'll ketch it.'

"Ben went into Greeley's room, and I heard a hot dialogue going on for a little Then the office boy respneared and looked at Wilson with supreme dis-

"Just as I thought; he don't want to see you. declared Ben. "Now, git out."
"I pacified Ben and went in to tell Mr. Greeley who wanted to see him. The great editor listened to what I had to say and then shouted: "Tell the vice president to walk right in That fool of boy said there was an old bum named Wilson loafing around outside who wanted to see me.'

The Irish "O."

The s'atement that Mrs. Marshall O Roberts, some time previous to her re cent marriage to Colonel Vivan, dropped the "O" from her name, because certain English people erroneously construed it as an indication that her auspand was an Irishman, leads the Boston Herald to revive the story told of Frederick O. Price, when he was a candidate for mayor of Boston. That gentleman declared that he esteemed himself fortunate in the possession of this initial. Mr. Prince claimed that a good deal of the strength he had in the Irish wards was due to this cause.

GOULD'S NEW SCHEME,

office.

He Will Give the Missouri Pacific a Thipugh Southern Connection. New York, Jan. 16.-Mr. Gould's attitude toward the Western Traffic association, of which the Missouri Pacific is one of the component roads, has excited much interest in Wall street. Some believe the true reason for his reported action lies in the fact that Mr. Gould has been working for years to develop the Missouri Pacific into a homogenous and independent system, and before another year is out that end will have been accomplished. With the completion of the road which Mr. Gould last summer announced his intention of building he will have a new and almost straight line between St. Louis and New Orleans. The Missouri Pacific lines will then extend from Denver to New Orleans via St. Logis and will in their course tap all of the traffic points of the west and can araw upon the mining, grain and cattle industries by giving them one line to tidewater. The larger part of Mr. Gould's new line from St. Louis to New Orleans is practically finished. The southern half of the line extends from Alexandria, La., where it connects with the Texas Pacific into New Orleans, due north to a point on the Iron Mountain. It is proposed to make the line even more direct by building a cut-off of about 150 miles through eastern Arkansas. This road will make the only direct line from St. Louis to New Orleans to the tidewater extension of the Missouri Pacific system. With the completion of this road Mr. Gould can make a new export

route for grain. Rock Island Won a Victory,

CHICAGO, Ill., Jan. 16,-John Sebastian, general passenger agent of the Rock Isla n road, is feeling particularly good natured in consequence of a victory he has gained over Chairman Finley of the Western Passenger association. A short time ago the chairman handed down a decision finding the Rock Island guilty of doing a brokerage business and assessing a fine of \$300. The facts in the case were that the Rock Island had an advertising contract with a New York firm by which it was to furnish a certain amount of transportation in payment for advertising. The Rock Island issued some transportation under the contract to the agent of the advertising firm and that fell into the hands of detectives employed by Finley. A complaint was accordingly field and in making up his decision the chairman held that the nature of the contract was such as to place the company in the position of doing a brokerage business, which is expressly prohibited by the agreement. The Rock Island appealed from this decision and the arbitrators selected to hear the appeal were K. O. Mc-Cormick of the Cincinnati, Hamilton & Day-ton, George DeHaven of the Chicago & West Michigan, and J. M. Chesebrough of the Vandalia line. They reached a decision which reverses the decision of Chairman

Finley. Nothing in the Story, Boston, Mass., Jan. 16.-Director Ames of the Union Pacific says the report from Chicago of the proposed extension of the Union Pacific from southwestern Utah across Nevada and California to San Francisco, has no basis whatever. The report that the adliance with the Northwestern is to be

broken is the old story and no more true now than in the past.

Great at Figures. Yerah Colburn was the most gifted mathematician ever known. When only years old he raised the number eight successively to the sixteenth power, and n naming the last result, which consisted of fifteen figures, he was right in everyone. On being asked the square root of 106,929 he answered 327 before the old grav-haired philosopher questioner had time to put it down. He was next asked how many minutes there were in forty-eight years and instantly replied 25,228,800, and five seconds later gave the astonished savants the exact number of seconds.

Yankee Intenuity.

One man has at last hit upon the idea of how to move a pig from one point to another, says the Belfast (Me.) Age. He ties a rope about the animal's neck, and also to the rope just far enough away so the pig can't get it he ties a potato. Then all he has to do is to take the end of the rope and walk off, with the pig hustling behind making frantic offerts to reach the potato.

It is intended to place the telegraph and telephone wires in Victoria, New South Wales, under ground. The estimated cost of the work is about \$400,000, and it is expected that it will be begun at an early date

Terrible Experience of a London Woman with a Vicious Clergyman, LONDON, Jan. 16 .- Notwithstanding the terrible injuries sustained by Mrs. Siddals, the woman who on Monday night last jumped from a rapidly moving train near Tamworth, presumably to escape the advances of Rev.

VICTIM OF A REVEREND RASCAL.

Mr. Goodale, is now improving and hopes are entertained that she will recover. Mrs. Siddals regained consciousness today and was at once questioned regarding the circumstances of the affair and her story confirms in substance the theory formed by the

police. Mrs. Siddals says that the minister engaged her in conversation after they had ridgen some distance together, and after a time he attempted liberties which she repulsed. He was made very angry by being foiled in his designs and grasped her by the throat, preventing her from making an outcry. He then forced her down on the seat and attempted to outrage ner. She struggled desperately to prevent dishonor and finally the preacher, whether simply to escape detection or to cause her death is not known, pushed her out of the Fortunately she caught upon the footboard as she was falling and regained her footing She says, however, that she was so terribly

jumping and with only the thought of escap-ing the man who had attempted the crime against her, she leaped from the carriage and remembers nothing further.

Goodale will shortly be arraigned to answer the serious charge against him
