WHEN TWO young men on a Nebraska farm can realize \$4,300 net for a single crop on 360 acres of land, the men who preach the doctrine of discontent have an uphill job.

THE old members of the committee on ways and means are wickedly doling out rope to the young congressman from Nebraska.

OPPOSING THE OPTION BILL.

The Minneapolis Chamber of Commerce has adopted a memorial to congress against the bill introduced in the senate by Senator Washburn of Minnesota looking to the suppression of speculation in grain and hog products.

The memorial of the Minneapolis Chamber of Commerce declares that legislation of this kind would be against the best interests of the producers and dealers in grain in the northwest and other agricultural states.

It is urged that trading in farm products for future months grew from necessity through the incitation of owners to sell, for forward delivery, property they could not get on the market for present delivery.

They are forced either to sell it for future delivery or carry it themselves as speculators. If they attempted to carry it as speculators they would at once destroy their credit, and would find great difficulty in getting money to pay the farmers for their grain.

Another effect of the proposed law, the memorialists say, would be to destroy the competition of the many classes of buyers who are now continually in the market, driving all but the miller and the exporter from the now open and free grain markets.

It must be admitted that there is a great deal of force in these arguments, and farmers who are demanding such legislation as the Washburn bill propose will be wise to consider them carefully.

There are a good many kinds of fools engaged in the management of parties today. One of the most common is the politician who is not content to gain by appearing to halt now in the prosecution of a reform which has already won a notable victory.

It is to be hoped that the members of the Ohio legislature were duly impressed with the wisdom and justice of Governor McKinley's counsel, sufficiently so at least in correcting the demagogue gerrymander which republicans generally stigmatize as a wanton outrage upon the people.
