William Bodley, a well known stockman. was terriply burned at the stock exchange about Il o'clock while attempting to save the stock exchange building from catching fire. He was near the front door of the office when the gasoline stove in the bar room adjoining began to blaze up from the effects of

John Kelly, the bartender, commerced to Rick the biazing stove out to save the building. When the contrivance reached the front entrance Mr. Bodley held the door open and attempted to kick the stove out. At this juncture the thing exploded, scat tering blazing oil all over Mr. Bodley was frightfully disfigured. His left Bodley, H was torn open to the bone in two places, a diamond ring broken in several deces, and his hand burned until flesh fell off. The right hand was also badly

His entire head was enveloped in the blaze and his face was painfully scorched from ear to ear, and forehead to chin. His hair was burned to the scalp, and his evebrows, eyelashes and mustache almost completely nihilated. Fortunately by some instinct he closed his eyes and saved his sight. Mr. Bodley is suffering great agony but bears up under it manfully.

Bluffed the Robbers Mr. Dolezol of the firm of Hill & Dolezol, of the Motor saloon, had an interesting experience with supposed thieves Wednesday evening. There were four fellows in the saloon and Dolezol was alone behind the bar. Two of the fellows went out the back way and returned several minutes later through the front door. Dolezol says that the actions of the four were very suspicious, and when he heard one of then say in an undertone, "Get or he'll tumble. looked into a back room and discovered that a five-gallon cask of blackberry brandy was missing. Seeing that the quartette were on the point of going out he seized hi revolver and tersely invited the fellows to remain. He "had the drop on them" and they complied He then backed to the rear of the store and locked both doors there, meanwhile maintaining his advantage. He hen went to the front door and gave the alarm for police. Captain O'Hara was across the street at the time and responded. The two fellows who had gone out the back way and come in later through the front door, were arrested. At the police station they gave the names of Tom Milford and Pat Con-

About the Board's Appointments. Dr. Keogh, the ex-county physician, called on Superintendent Mahoney on private business vesterday and in response to an in quiry, stated that he had no intention of attempting to hold the office of county physician until February 7, as had been reported

He produced a communication from the ounty clerk, notifying him that his term of office had been terminated by the appointment of a successor. The missive was dated January 13, but the postmark showed that it had been mailed on the 19th. The doctor stated that he received the notice yesterday stated that he received the notice yesterday morning and at once telephoned Dr. King

ifter replying to Judge Stenberg's shot about trying to hold on. Dr. Keogh took the com-missioners to task for making political pap out of the office of assistant county physician "I am out of it now." remarked the dector arbitrary injustice for the board to dictate who a man shall have for an assistant. I do not say that the appointment of Dr. Wilcox is distasteful to Dr. King, for I do not know anything about it and have never speken to Dr. King in regard to the matter, but I insist that the board has no right to dictate to a read of any department who he shall have for an assistant. They hold the man in charge of a department responsable for its management and then assume the right of forcing him to have as an assistant a man who may be an arch enemy to him. It doesn't natter who is county physician, the principl s wrong.

NO FEARS OF WATER FAMINE.

Block 86 is Underlaid With an Apparently Inexhaustible Supply. If anything should happen to the water works plant at Fiorence the city of Omaha could probably establish a very convenient pumping station on block 86, the site for the new government building and postoffice. The workmen engaged in sinking holes n

the bottom of the excavation have struck water every time they have put the auger lown to the depth of about eight feet. Three holes have been bored, two at the outheast corner and one at the southwes corner of the excavated site. At the southeast corner the holes

sunk to a depth of thirty feet. The auger plunged through mud and water al the way after it had gone down about eight At thirty feet the workmen struck what

they believe to be a stratum of bard pan. The auger took hold of it so carnestly that the horse could not pull the lever around. The architect ordered the boring to go no leeper at that point, oon the auger had gone about twenty feet deep at the southwest corner and was still churning about in the mud.

ANOTHER SCHEME OF THE OIL TRUST

Lambertson Thinks the Prosecution of Interstate Commerce Law Violators by the Commission Will Have a Good Effect-Chicago Gossip.

CHICAGO BUREAU OF THE BEE, CHICAGO, LLL., Jan. 21. For the first time in its history the city of Chicago is today without a drop of water, the entire system of supply being paralyzed. The cause of this alarming condition of affairs is the fact that the three sources from which the city at present receives its supply were last night frozen up, and not a pint of water reached the various pumping stations throughout the city at 7 o'clock this morning. The result of this is that the department of public works and the city engineer's department are both in a condition of panic, and most starming possibilities stare the city the face. Should fire break

out anywhere outside the central business portion, not a drop of water ould at present be secured, and even the owntown pressure is extremely light. This alarming condition of affairs remained :30 o'clock this afternoon at which four tues sent out by the public water de partment succeeded in breaking the ice jam and what threatened to be a most serious calamity was averted.

Cruel Joke Perpetrated Upon a Passenger Agent-Notes and Personals,

The joke is now on J. R. Griffiths, traveling passenger agent of the B. & M. He dropped in at Des Moines the other day to confidentially assure the lowa Knights Templar that the Burlington was the best route to the conclave at Denver.

While passing one of the chief business blocks he noticed a box being let down from an upper story. About that time a janitor rushed out and excitedly remarked something about the body of a man being disposed of. He said the head was in the box and the body was being burned in the furnace,

When the box reached the ground Griffiths and the janitor pounced upon it, and there, sure enough, was a human head mutilated beyond recognition. The Omaha man, with thoughts of murder uppermost in mind, rushed around to the police station and then notified the newspaper boys of a mysterious and horrible crime to be exposed.

A crowd soon assembled, when it was dis

covered that the disfigured head was the remnant of a "subject" which the stidents of a medical college in the block had operated on. The incident was considered of too little importance to need official attention, and the other railroad men are "jollying Griffiths (as Jack Dowling would say) on the janitor's neat trick. HIGH PRICE FOR PLEASURE.

Speculative Transportation Schemes for the World's Fair Denounced.

IT WILL SAVE INDIVIDUALS NO MONEY.

Superior Accommodations May Be Secured for Considerably Less Than is Required by the Plan Contemplated-Home Banks Should Be Patronized.

Curcaso, Ill., Jan. 21:-- In its issue of this week the Railway Age will make a vigorous attack on the speculative transportation schemes for the World's fair. It will say A favorite and promising device for begul ing persons of moderate means is that o organizing companies with high sounding names which invite people to make weekly or monthly payments of a special amount up to the time of the fair in return for which the company promises to furnish transportation to and from Chicago, with meals on the way, board for a certain number of days in the city and admission to the fair. Inquiries have been received from California in regard to one of these concerns, the letters being accompanied with circulars, the tone of which is sufficient to throw doubts upon the

After quoting from the circulars to show that the cost of each subscriber will be \$15 to say nothing of the loss of interest for twenty mouths, the Age proves by figures that any individual can avail himself o everything offered by the association at cost not to exceed \$121, and this includes ex ellent accommodations at a hotel at a muci higher rate than the economical travele need pay. It also calls attention to the fac that the circulars say nothing about the item of sleeping car fare, and then ends by suggesting that a better way to save mone for a visit to the World's fair is to de in the home savings banks where it will draw interest and be at their command in case through misfortune, they are compelled to

use the money for other purposes.

General Passenger Agent Chariton of the Chicago & Alton advocates a plan for the maintenance of rates which, if it were adopted, would, it is claimed, do away with all the present traffic organizations. Speal ing of the Western association today he said 'Let the presidents or general managers get together, do away with all these annoying effectual clap-traps and employ an able fearless lawyer to enforce the interstate commerce law. COMMITTED SUICIDE.

William Ellensick Puts the Cap Sheaf on an Omaha Tragedy. A sensational criminal case that was tried in the courts of Douglas county about three years ago is recalled by the suicide in Chicago a few days ago of William Ellensick,

a former saloonkeeper of this city. The case was that of Lena Marsh, Ellen sick's sister-in-law, who was charged with murdering her illegitimate child by giving it carpolic acid. The girl lived with her mar ried sister over her brother-in law's saloon at Twenty fourth and Charles streets, and he was charged with the paternity of the hapless infant, but this was denied until after the trial, at which the girl was ap-quitted, the defense claiming that the poison vas administered accidentally.

Ellensick never recovered his spirits after trial, and it is supposed that the occurrence so affected his mind that in a fit of insanity ne blew out his brains. All of the other interested parties are now living in Chicago. Beecham's Pills are faithfulfriends.

other. The "cut ting" of prices leads to the substitution of worth less goods—fraud-ulent imitation of the genuine medicine, diffe

stitutes to make a larger profit. That's the reason the makers of Dr. Pierce's medicine object to the cutting of prices—and that's the reason they pretent it, on their medicines. To protect the public from fraud and imposition, the genuine quaranteed medicines of Dr. R. V. Pierce are now sold only through druggists regularly authorized as agents, and always at these long-established prices:

"I have used Allcock's Porous Plasters for me years for myself and family, and, as far as able, for the many sufferers who come to us for stance, and have found them a genuine relief for most of the aches and pains which flesh is heir to. I have used ALLCOCK'S POROUS PLASTERS for all kinds of lameness and acute pain, and by fre-quent experiments find that they can control many

cases not noticed in your circulars, 'The above is the only testimonial I have ever given in favor of any plaster, and if my een used to recommend any other it is without my authority or sanction."

George Augustus Sala writes to the London Daily Telegraph: "I especially have a pleasant remembrance of the ship's doctor—a very experienced maritime medico indeed—who tended me most kindly dur ing a horrible spell of bronchitis and spa asthma, provoked by the sea-fog which had swooped down on us just after we left San Fran-cisco. But the doctor's prescriptions, and the increasing warmth of the temperature as we neared the tropics, and, in particular, a couple of ALL-COCK'S POROUS PLASTERS clapped on one on the chest and another between the shoulder-blades-soon set me right."

Russell Sage, the well-known financier, writes: "506 FIFTH AVENUE,
