ENGLAND TRYING TO PRESERVE PEACE

#### Indications That the Matterings of Diplomacy Will Be Droward in the Clash of Arms-Developments of the Last Day in the Chilian Imbroglio.

WASHINGTON, D. C., Jan. 24.-[Special Telegram to THE BEE. |-An exciting impetus was given to the Chilian situation by the publication this morning of double leaded statements to the effect that the United States steamer Philadelphia had been ordered to the straits of Gibraltar to intercept the Chilian war ship, Captain Prat, now in course of construction at a French ship yard, and which was to be hurried off to Chili for its finishing touches, lest the French republic be requested to hold her as an enemy of the United States; that an ultimatum had been sent Chili which meant war; that Chili had demanded the withdrawal of Minister Egan, and that Minister Montt would be given his passports if the demand for Egan's recall was acceded to, and that the changed condition of affairs might result in the with holding of the correspondence which is ready for transmission to congress tomorrow. These statements are all made in a vein most positive and created a decided sensation in some quarters, but did not appear to agitate officials, although the presence at the white house this morning for some time of two cabinet officers in consultation with the president operated to give them credence.

## Will Go to Congress Today. It is stated upon authority tonight that the

situation has not materially changed during the past week and that the Chilian matter will all go to congress tomorrow. The much talked of "ultimatum" which

was sent to Chili a day or two ago was a reiteration of the domand made last October for reparation of the wrongs committed against our sailors in Valparaiso. The president notified Chili last week that he would send the correspondence had between this and that country to congress on Monday and that she would have time to make any further statement she might have to make and which she might want to appear in his document to congress.

Then the matter would be out of the hands of the diplomatic officers of the government and in charge and under the firection of congress. He desired that Chili should have full knowledge of the situation. In this no-

SITUATION IN CHILL. England's Kind Offer-They Will Reply Tomorrow to Our Ultimatum. SANTIAGO DE CHILI, Jan. 24 .- The excitenent over the imbrogilo with the United States is growing rapidly. The Valparaiso incident is the all-prevailing topic of conversation, and the probable results of a war between Chili and the United States are eagerly discussed. While it cannot be said that the excitement has reached the stage that is commonly known as a "war fever" yet the natural martial instincts of the Chilian people are without doubt greatly To used. It was definitely ascortained today that Senor Percira, the Chilian minister of for-eign affairs, has sont to United States Minis-ter Egan a formal notification that the Chilian government will reply tomorrow to the note containing the ultimatum of the United States government to the effect that diplomatic relations of the two countries must cause unless the offensive note sent out by Senor Matta regarding the Baltimore affair be immediately withdrawn and repara-tion be made for the attack upon-American aroused.

tion be made for the attack upon. American sailors in Valparaiso. It is also learned that the British minister to Chili has received in structions from his government to offer his services as a mediator to prevent a war between Chill and the United States.

Coal for the Fleet. SAN FRANCISCO, Cal., Jan. 24,-The United States government has chartered the big Southern Pacific steamer San Benito and will dispatch her to Uhill with a cargo of coal. Friday afternoon agents of the gov-ernment purchased the eatire cargo of the British ship Bowdoin, which recently arrived here from Cardiff. A large force of men was put to work transferring coal from the ship to the steamer. The work will be prosecuted day and night until the San Benito's holds are fulled to the hatches. The San Benito will carry a cargo of over 4,500 tons and is expected to make the run to Chili in less than a month. She is the largest carrier on this coast and can steam fully twelve knots an hour.

## Vessels at Mare Island,

VALEIO, Cal., Jan. 24 .- The single turreted monitor Comancho was taken from the buoy n mid-stream and towed alongside the wharf this afternoon. More work will be required on her than was thought at first. Her deck is in bad condition. The work of preparing her for active sea service has already begun. The Charleston is in the large stone dry lock, and her bottom is being scraped. The Baltimore was brought alongside the quay wall today, her repairs being almost

complete.

Getting Out Powder.

CRUZ, Cal., Jan. 24.-The powder vorks of this city received a dispatch yesterday from Washington to rush the work of manufacturing government powder to the full capacity of its works. The probability is that an increased force will be put on next

## WHISKY TRUST MATTERS.

## Questions Which Interest the Stockholders

in the Concern. Chickgo, Ill., Jan. 24 .- It is learned here that one of the most important matters considered at the late meeting at this city of the directors of the Distillers and Cattle Feeders company was the releasing of the real estate on which many of the company's distilleries are located. The company owns eighty-five distilleries and is operating only eighteen or twenty of that number. When the purchase of the plants was made by the company the land on which the distilleries were located in many instances was leased and not purchased. The Distillers company was given the privilege of purchasing such real estate before January 1, 1993. If the purchases are not made before that cate the real estate must be again leased for another period of five years at a revaluation. It is estimated that between \$3,000,000 and \$4,000,000 will be required to purchase the leaseholds of the company, and the question considered by the directors was whether new securities to that amount should be issued or dividends should be suspended until the purchases had been made out of the earnings of the company. The matter was not definitely settled at the last meeting, but it is understood that it will come up for the consideration of the board at the Peoria meeting, Feburary 16. There are a number of "trust" distillers in this city,

Alliance Measures Have Not Developed In Congress as Expected. INTERESTS OF FARMERS NEGLECTED

PROMISED

With the Exception of a Few Subtreasury, Warehouse and Farm-Loun Schemes All of the Threatened Ridiculous Legislation Has Failed.

RELIEF

LITTLE

...... WASHINGTON BUREAU OF THE BEE, ] 513 FOURTEENTH STREET, WASHINGTON, D. C., Jan. 24. To the surprise of everybody and the disappointment of many, very few "flighty" measures have been introduced into the lower house of congress so far in this session. It was expected that the conglomerate mass of politicians and statesmen and demagogues in the house would bring about many curious propositions in the way of legislation. Those who were elected upon independent tickets were especially expected to present many ridiculous propositions, but so far they have been confined almost exclusively to a few

measures looking toward the subtreasury, warehouse and farm-loan schemes. It has been remarked on every hand that the farmers alliance advocates have been

very modest in their demands for legislation up to this time. The scheme presented from Madison county, Indiana, by Senator Peffer, proposing a loan of \$100,000,000 upon real estate security in the Hoosier state, was probably the most glaring, wild-oyed scheme which has come from the alliance so far. It was expected that the Stanford 2 per cent project would bob up in various forms, and that there would be many propositions for the abolishing of national banks, and the ex-cessive issue of greenbacks and the creation of flat money, but altogether an examination of the thousands of bills which have so far been introduced into the two houses fails to reveal any considerable excess of unreasonable demands.

It Promises Little Relief Now.

Considerable disappointment is shown in both of the old parties over the dearth of legitimate propositions from the alliance members to relieve the situation among farmers. It was sincerely expected and very much hoped that this new blood in the legis lative halls would suggest some steps which would really assist the farmers, for it must be admitted that the great majority of men in congress would gladly pass bills to help the farmers, if they could do so without taking any unfair attitude toward other inter-

men have remained in congress so long that they have drifted away from their particular affairs at home and have been unable to suggest measures outside of the usual line. The alliance and independent parties railed greatly at the republicans especially during the last campaign, and claimed that the party which has been so long in power had ne-glected its duties in failing to take care of the farmers. Enough men were elected on the farmers' ticket to make a wise counsel

the farmers ticket to make a wise counset in congress, for over forty occupy seats in the house and claim to be the special representatives of the farmers. The men, it was believed, would put their heads together and present some measures which would be so reasonable and his as to command the greatest respect and just as to command the greatest respect from both of the old parties. There is sincere disappointment in the absolute failure to present any measure which would be consti-tutional or just, or which would in the least degree aid the rural classes. The

Postmaster Helbrook Endorsed. The Falls City postoffice case, which has been a bone of contestion for long and weary months, is maily settled by the retention of Postmaster Helbrook. His name will go into the senate and be promptly confirmed. In all the mass of protests and objections, there were none which affected his integrity or his efficiency. The whole trouble seems to have been that Judge Reavis and a few oth-ers breferred someone else. As Mr. Hoi-brook had already osen appointed, the re-fusal of the president to send his name in to the senate would have been equivalent to a refusal. Senator Padlock, when requested to intervene, wrote to Falls City that he must insist upon a strong case being made out against Postmaster Hoibrook, and on unquestioned testimony if a demand were made for his absolute removal; and, in the absence of such testimony, he should inst upon Holbrook's nomination and confirma-tion. The great mass of the papers in the Holbrook case andorsa his stondung to his Postmaster Halbrook Endorsed. tion. The great mass of the papers in the Holbrook cases endorse his standing in his party and his efficiency as a public official.

## Miscellaneous,

Ex-Mayor R. C. Cushing of Omaha is in the city and hrings tidings of the great pros-perity in Nebrarka. "I think that Cleveland is the choice of the masses of democratic voters of Nebrarka," he said, "though there voters of Acorasia, "ho said, "though there is some opposition to him among the poli-ticians. The only way the democrats could carry Nebraska would be by a combination with the farmers alliance. If its members should vote as they did prior to the adoption of the Australian ballot system they could carry Nebraska easily as available the carry Nebraska casily as against both the old parties. How the new system will alter things remains to be seen." The lowa Republican association of this city will hold a meeting in the Grand Army of the Beauthin and the distance of the second

of the Republic hall tomorrow night which promises to be a lively gathering. There will be some talk about the secretary's annual report, which was read at a meeting on the 25th of December. This document was very spicy reading for the ultra civil service reforms and inugwumps, and was not lacking in interest for the public in general. But the most striking circumstance in connection therewith was its wide circulation among office holders who claim the sheltering wing of the civil service commission as a protec tion from the advances of worldy politicians. The association, by a special resolution unanimously adopted, directed the socretary

to send a copy of the report to every person in Washington who is from Iowa or claims that state as his home. The idea is to lop off of the department lists the names of all office holders who do not belong to Iowa who claim to be residents of the state in order to maintain official status. Names of those who should be dropped may be read. Judge John H. Drake of Sioux Falls, S. D.

here. Mr. Dunning, a prominent druggist of Sioux Falts, S. D., is here, the guest of Senator Pettigrew, his brother-in-law. P. S. H.

# ACTIVITY AT BROOKLYN.

Work Being Done at that Navy Yard-Arma ment of the Fleet.

NEW YORK, Jan. 23 .- The atmosphere at the navy yard today was almost as hazy as if a bank of war fog had swept over it.

Some of the officers ridicule the idea that there will be any conflict between the United States and Chili, while, on the other hand, some are less sanguine that there will be a peaceful termination of the present controversy. Preparations are going on at the navy yard here to put the vessels in condition to meet an emergency. The little torpedo boat Cushing is having

some of her torpeda tubes put in place. She lies at a convenient place and is likely to lie

there for several weeks. The work of fitting the monitor Mian-tonomah is being pushed ahead at present and it is said the ship was ordered to be The single turreted monitor Nantucket

over the respect which has been paid to his CONGRESSFOR THE NEXT WEEK ure to do so he shall be compelled to la upon some government work long enough satisfy said line and costs at the rate of Forecast of the Business that Will Be Transacted by Both Houses. CONGRESSMAN STUMP'S CHINESE BILL It Absolutely Prohibits the Coming of Chi-

> nese Laborers Into the Country for Twenty Years-Washington News and Gossip for a Day,

WASHINGTON, D. C., Jan. 24 .- The cource of proceedings in congress during the ninth week of the session depends largely upon the manner in which the president's melsage and the Chilian correspondence are received. The probabilities, however, are strongly against the matter being precipitately taken up for consideration by either branch of the na-

tional legislature or any discussion of the subject immediately on receipt of the president's message, The usual informal course doubtless will be followed in each house of congress by refering the message and the accompanying correspondence to the appropriate committee. Pending consideration in committee the message and correspondence will be printed. After members have thus had an opportunity to inform themselves from the official history of the trouble some may desire to be heard on the floor; but the disposition of the most influential men in the senate and in the house is adverse to any unusual baste in the consideration of the subject. It is expected that the promised message of the president and all the correspondence relating to our trouble with Chill will be sent to congress tomorrow. Such is the intention of the ex cutive this evening, and unless the cases should suddenly assume some new phase reuiring an addition to the message, it will be ald before both houses and read in both of them tomorrow afternoon.

In the senate the bill reported by the joint committee on printing, proposing an exten-sive revision of the present system of printing and distributing public documents, is the special order for tomorrom. In view of the fact that the bill was killed in the house during the past week, the senate will prob-ably take up the well known Weil and La Abra claims, which were under consideration when the senate last adjourned. It i the purpose of the friends of these claims t keep thom stendily before the senate until a vote is reached upon the bill of which they are the subject matter. The printing bill, it is thought, will be taken up later in the week, and some time may be devoted to public building bills and other measures of a ocal character, and to the consideration presidential nominations in executive session The newly reported code of rules for the house of representatives during the Fifty econd congress will be the principal topic o discussion in the house during the week, un-less a debate on the Chilian controversy should be unexpectedly precipitated. Owing to the political issues which may be reviewed on this subject, and the lively debate over the rules, it cannot be predicted how long a time will intervene between the taking up and the adoption of the new code.

The appropriations committee is preparing an urgency deficiency bill to continue the work of the consus bureau, and it will probably be ready for consideration in the house during the week. The military affairs committee is in session

almost every day on the army appropriation bill or the military academy appropriation bill, and within the next ten days one of these measures is expected to be on the cal-endar ready for consideration at the will of the house.

satisfy said fine and costs at the tart of per day and costs. "The penalty for the commission of erim against the United States by Chinese pe sons (except those of a capital nature of the first degree) shall be deportation to China. "Any Chinese person entering the Unite "Any Chinese person entering the Unite States by way of contiguous foreign territor shall be deemed as having come direct from China and shall be deported to China, unless he claims to be, or produces reasonable proof, that he is a citizen of such contiguous foreign territory. territory. "No state or United States court is hereafter to admit Chinese to citizenship. JUSTICE BRADLEY. Friends Pay the Last Sad Tribute of Respect -- Funeral Ceremonies, WASHINGTON, D. C., Jan. 24,-In accordance with the very distinctly expressed wish of the late Justice Joseph P. Bradley, the

funeral services held here today over his body were plain and simple in the extreme, greater altitude than Gilray's kite ever and this will also be the character of the final reached, by the enthusiastic gathering of services in Newark, N. J., tomorrow. The Saturday night. When Mayor Bayden called that needing he started the ball of progress services were held at his late residence, Third and I streets, in this city. Save for the number of distinguished people present there was nothing to indicate that it was the funeral of one of the highest officers of the government or that there was anything more remarkable in the achievements of the man to whose memory those present were gathered to pay respect than may be said of every man who has quietly and modestly in pri-vate life carned the respect and esteem of his associates. There were only a very few flowers. The casket, covered with black cloth, with nickel trimmings, and bearing a small silver plate, was laid in the library, and here were assembled the wife, children and relatives of the dead justice, children and relatives of the dead justice, this late associates on the bench of the su-preme coart, who acted as honorary pall-bearers, and a quarter from one of the churches. The double parlors of the family residence connected with the library, and in these two large rooms were gathered the officiating ministers and as many friends as they could hold. Among these friends were Vice President Morton, Mrs, Harrison and Secretary Halford, Senators Dawes, Hoar, Higgins, McPnerson and Allen, Attorney General and Mrs, Miller, Secretary Rusk, Solicitor General Taft, Assistant Attorney General Maury and other well known per-

Stevenson, proprietor of the Colum bus creamers, intends soon to commence the publication of a monthly journal devoted to the interests of the creamery and dairy business. The irrepressible Doc Bixby, editor of the Sentinel of this city, has a place on the pro-gram of the Nebraska Press association meeting at Fremont next week, and will Mrs. James Hanuon, who has resided in this city for more than twenty-five years, died Wednesday night from an aggravated case of the grip.

is a member. Mrs. John Stenneman, aged 26, died Thursthan twenty years was the judge's mes-senger, has at the request of the family, been excused temporarily from duty at the The northern storm has moved into Canada, causing a general rise in temperature over

sion rolling with a greater rapidity than ever. The resolutions regarding the Paddock bill for a \$30,000 building have already been mentioned in THE BEE, as also the steps taken to secure eastern mail at an earlier hour by a new St. Joe & Grand Island train and tg have an understanding with the Rock Island, This city wants the Rock Island and will offer good inducements. Since this was such an excellent opport tunity the matter of the next reunion was also brought before the meting. Resolu-tions were unanimously adopted maintain in S. P. Mailey as chairson of the reunion S. P. Mouley as chairman of the reunion committee for the ensuing year and thanking him and the members of the committee for the excellent work performed during the last year, acknowledging the grand success with which their efforts have been crowned. Thus the quict steps which may have been taken in other cities to remove the boilding of the Grand Army of the Republic remnin at some other point have been promptly met. Grand Island has fubilled her contract in the past,

and under the management that new prevails she will continue to do so in the future. 2021 World's Fair Commissioner Mobiey then introduced the matter of a local World's fair commission and the mayor was appointed to elect a committee which is to go ahead with the work of organizing the same. This com-mittee will be announced in a few days. Several such organizations have already been formed by the local commissioner in the northwestern part of the state and Mr.

act the western part of the state and Mr. Mobley is spending a great deal of time in planning his work. The Bell Telephone company's wire joining this city with the circuit it now has was dis-cussed, the mayor reporting that the company would submit a proposition in a few weeks. The city means business in this matter. She wants to be connected with Omaha and Lin-coln and if the company will not do what is coln and if the company will not do what is right steps will likely be taken to put them off the main streets. Such at least is the

revailing sontiment. The advisory committee on the Beptist college matter submitted an informal report. Steps will be taken at once to clear the col-lege of incumbrance and put it on its feet. The meeting adjourned until Saturday night, February 6. It was clearly the debut of a new spirit of

progression which has taken hold of the loval citizens.

Columbus News Notes.

COLUMN 4. Sob., Jan. 24.-[Special to Tun BEE. |-The funeral of Mrs. David McDuffee, which took place Tuesday, was conducted by Baker post No. 9, Grand Army of the Republic, of which organization Mr. McDuffee

tice he restated the demand made for repara tion in October. This last message is now referred to as an "uitimatum." Suggested Egan's Recall.

The other day Minister Montt stated t Secretary Blaine, officially, that Minister Egan was non persona grata, and suggested that he be recalled as a means of securing a proper apologetical message from the Chilian government,

The reply made by the president was that It did not become Chili to object to our diplomatic representative until she had made amends for her wrongs. He said that it would be the proper thing for Chill to first repair the injury she had done and then make her objections to Minister Egan. Thus far, and no farther, have there been steps taken during the past week, and they do not alter the well known status of the case.

It is officially denied that the United States Philadelphia has been ordered to proceed to Gibraltar to intercept the Captain Prat, although it is not unlikely to be true that such a move is being made. If the Captain Prat was allowed to be completed in or taken away from France while our affairs with Chili are in statu quo, it might prove a very unfortunate circumstance to this government.

#### Apologies or War.

Apologies or war should be recommended to congress by our government it once. Later there was a rumor here that Chili had sent a conciliatory message to the State de partment, which amounted to a satisfactory apology. No official confirmation had been obtained. At the State department the rumor of an apology was denied.

It is known, and has been known for sev eral weeks, that Mr. Egan's presence at the Chilian capital is a source of irritation to the Unilians. If he were absent, it is said by the Chilians, negotiations toward a peaceful settiement of the controversy might progress more rapidly and satisfactorily.

The president has practically given Chili a last opportunity to yield to the demands of the United States and give satisfaction for the Baltimore affair without appearing to be forced to act. He has instructed Minister Egan to ask the Chilian government what is going to be done, and whether it proposed to do anything at all. in answer to Mr. Egan's request, any expressions of regret or promises of reparation are received the United States will give a reasonable time for the fulfillment of the promise, and much less will be taken in satisfaction for the outrage than if this country is put to the necessity of resorting to a show of force to obtain justice.

#### Will Urge an Immediate Answer,

Minister Egan is expected to urg e an im mediate answer to the inquiry, and if it is not forthcoming in a few days the president will assume that Chili will not do anything until pressure is brought to bear.

Secretary Tracy is firmly convinced that at last a show of force will be necessary to bring the Chilians to terms. He seems to agree thus far with the prevailing opinion among naval officers that the Chilians can understand no arguments unless backed up by force, and his present plan contemplates a naval demonstration in the immediate vicinity of Valparaiso, participated in by twelve ships. Upon the arrival of Admiral Gherardi at Montevideo with all these ships it will be made with great promptness, and it is beheved that the presence of these ships in Chilian waters and the knowledge that more are on their way will have a very sobering effect on the Chilian diplomats

Every preparation is being made for this demonstration and for the vessels' reception. Great quantities of coal are being purchased and stored where the vessels can get at it whenever it is wanted, and the department is giving special attention to the problem of

nost of they on leased land and the owner of the land are anxiously awaiting a settlement of the matter. HOPE FOR DR. GRAFES.

## Grounds on Which His Attorney Bases His

Claims for a New Trial. DENVER, Colo., Jan. 24 .- Quite a sensation was caused here to-day by the unfounded re port that Deputy Sheriff James Wilson, who had escorted Dr. Graves from the courthouse to the county jani, and to whom the toctor is said to have acknowledged his guilt in poisoning Mrs. Barnaby, had retracted his statement, and said that the doctor had not confessed anything. Mr. Wilson emphatic-ally denies that he has made this retraction, although he says he has been asked to do so. Judge Furman, attorney for Dr. Graves, ays he is confident of a new trial for his SAUS client, for he has discovered a point on which to urge a rehearing. He says Judge Rusing erred in his instructions to the jury in that he instructed it to return a verdict of guilty if they thought the doctor bad committed the crime, notwithstanding the circumstantial evidence was not complete. Judge Furman has uncarthed a similar set of instructions in an old case here in which the defendant was convicted, but was granted a new tria the supreme court on account of the error

in the judge's instructions. It is a Work of Art.

PHILADELPHIA, Pa., Jan. 24.-The memorial window placed in St. James Episcopal church Twenty-second and Walout streets, by George W. Childs to the memory of the late Dr. J. Henry Morton was unveiled yesterday afternoon in the presence of many of the relatives and friends of the former rector. After a short prayer by Rev. Dr. Blanchard. Mr. Childs pulled off the screen of the beautiful piece of art. The window is twenty-five feet high and twelve feet wide and is a mag nificent illustration of the "Te deum." On the right of the window is a figure represent ing the church triumphant, and on the left the church militant. In the ceuter are the church militant. In the center are groups of figures, while above is a beautiful picture of Christ. At the bottom is this in-scription: "To the Glory of God and in Memory of Henry Jackson Morton, D.D., Rector of this Church for More Than Fifty-six Years, this Window is Dedicated by George W. Childs." The window is made of American opalescent glass and is the work of Maitland Armstrong of this city. Maitland Armstrong of this city.

#### It Was a Great Show,

CHICAGO, III., Jan. 24 -- Last night at Hooley's theater all similar records were broken by Riehard Mansfield's closing house. The advance sales for the occasion were the largest ever known at the theater, surpassing even the phenomenal "takes" for Augustin Daiy's company and Mr. and Mrs. Kendal last season. As for the final per-formance, the engagement of four nights, which last evening terminated, was by far the most successful the famous actor ever had in Chicago. To show his appreciation and to publicly mark what becomes a historic engagement in this city, Mansfield presented Manager Powers with a magnificent ring, set with rubles and diamonds.

#### Stockmen Killed.

TRUCKEE, Cal., Jan. 24.-Two stockmen. named C. A. Nelson and P. V. Sanders, were walking on top of a cattle train today when the train entered a snowshed and the men were knocked from the train. Nelson was killed and Sanders fatally injured.

trouble seems to have been that the special representatives misrepresented the condition of affairs in congress and the efforts of the republicans in the past when they were upon

the hustings in the last campaign. Very many misstatements were made. Demagogical lecturers and agents went among the farmers and represented that the ropublicans had done this thing and the other thing and left undoue this and that, all in opposition to the true interests of the farmer. When the farming classes were misled and elected their representatives the leaders got together here and, after looking the field over arefully, practically came to the conclusion that they had misjudged. Interests of Farmers Neglected.

At this time there is nothing before either house in the interest of the farmers which has any commendable feature in it, and which has the least show of final adoption, Among all the bills which have been presented not a single one is practical. Those that have faint suggestions of practicability and justice are completely submerged in im-

practicable and unjust and unconstitutional projects, which take the measures out of the line of possible adoption. It seems to have occurred to the farmer representatives that it would be wise for them to act together and agree upon a line of measures and then to submit them to expert legislators, and constitutional lawyers in the

two houses for revision. If this process was carried out there might be some measures which would command respect and support from both parties, for it must be admitted that any respectable measure in the interest of the farming class will pass without material opposition in either house. It is the extreme and ridiculous feature of a bill that kills the good qualities in it, and it seems that the butchers have been occupying the watchmakers' seats whenever an effort has been made to prepare legislation for the farmers in any part of the country: for there is not the least trace of skill or intelligence as to legislative process in any of the bills which have been presented by the special repre-sentatives of the farmers.

Some Wild Financial Schemes,

It has been left to some of the older members of the house to present the most illogical, not the most ridiculous, propositions, and after all, the alliance and inexperienced members have shown greater wiscom in not presenting atything, if they are not able to present something plausible. An Ohio member who has had great experience in legislation proposes to loan the surplus of the government to national banks at the highest rate of interest possible by advertis-ing for competitive bids. The complaint against United States deposits in national banks has been upon the principle of resting public funds in the hands of private parties, and the proposition of the Ohio member meets with greater opposition from the anti-national bank element than the present polley of the government in keeping live ac-counts with the national banas for the con-venience of federal officers.

A North Carolina niember would erect in the two armies as fast as they disappear from the active ranks of life; while Senator George wants the interstate commerce law

amended so that a basket of provisions may be sent by freight from one section of the country to the other at the same rates which the railroad companies may be permitted to charge for a whole train load. Representative Harter evidently believes that the old law authorizing state banks to issue circulating notes is in effect, for he wants to give the states authority to collect one per cent tax. upon the circulating notes of banks, the same as is collected by the Federal government upon the circulation of national bank notes.

A favorable report is to be made this week from the house committee on ways and means upen the bill of Mr. Bryan of Lincoln, plac-ing lumber on the free list. The measure makes all grades of rough lumber free, but retains a duty upon lumber upon which there has been invested labor of consequence. has been invested labor of consequence. Planed or finished lumber is to pay a duty of "jo cents a 1,000 feet, board measure. If finished on one side and tongued it is to pay 50 cents per 1,000 feet, and 75 cents if finished on two sides sud tongued. Paving posts. railroad ties, telegraph poles of cedar and sawed boards, and all forms of sawed cedar which protects the southern interests alone, will pay a duty of 15 per cent a 1000

Lumber on the Free List.

will pay a duty of 15 per cent a 1,000. Veneering is to pay 20 per cent, and the present duty is to be retained on furniture.

still lies in the granite dry dock, where sh s being made ready for sea. The orders to Rear Admiral Gherardi, the

commandant of the north Atlantic s jusdron to go with the flagship Philadelphia and the gunboat Concord to Montevideo, is looked dent's message to congress, and the probable action upon it. The two vessels have sailed rom Barbadoes and are now on their way to South America. The orders to these vessels may be interpreted as meaning that they shall continue on to Chili.

Acting Rear Admiral Walker has also been ordered from Montevideo to Valoaraiso with the Chicago, Atlanta aud Bennington. When the Chicage, Atlanta and Bennington. When Admiral Gherardi reaches Chili he will be the senior officer present, hence he will be in command of all the forces present. The fleet will then consist of the Philadelphia, Chicago, Charleston, Baltimore, San Francisco, Boston, Atlanta, Yorktown, Concord and Bennington, a fleet of a total tonage of 33,025 and mounting ninety large preschicading rifles as a main hattery and in the subject. Its principal provisions are breech-loading rifles as a main battery and 124 rapid firing Hotchkiss and Gatling guns as follows: as a secondary battery. If the Newark should be ordered to Valparaiso she would add twelve large breech loading rifles and seventeen guns in the secondary battery, and all of these vessels of the new navy would make a formidable fleet against the Chilians.

In a talk with Secretary Tracy a few days ago on the Chillan matter he remarked that should there no actual hostilities there would be needed at least 20,000 men for the ships but he questioned whether so many mer could readily be obtained for active service. He remarked that the enlist-ments were so slow that it was necessary to adopt something more systematic than the present method of recruiting. He expressed himself in favor of the plan suggested by Captain Henry Erben, commandant of the navy yard, in a report to Secretary Tracy in October, 1889. On Tuesday the president submitted to

congress a communication from Secretary Tracy accompanied by the report of the board of navy officers appointed under the provisions of the naval appropriation dock at some point on the shore of the Guif of Mexico. Secretary Tracy says that he approves the selection on the right bank of the Mississippi river in view of the conditions found by the commission to exis there. This reservation has now 384 feet front on the river and a depth of 2,880 feet. As for a navy yard, additional ground would have to be purchased and could be done at a

## AT ITS DESTINATION. Safe Arrival of the Monterey's Big Gan at

reasonable price.

San Francisco. -SAN FRANCISCO, Cal., Jan. 23 .- The twelveinch ritle, the first gun of its kind turned out by the government for the new navy, and designed for the coast defense vessel Monterey, the coast defense vessel Monterey, the construction of which is rapidly approaching completion, arrived in this city this morning, having left Washing-ton January 13, J. C. Hardy, of department quartermaster's office, who was detailed to take charge of the transportation of the big gun, turned the have weapon over to Captain Clark, inspector of ordnance from Mare island navy wast who after carefully exisland navy yard, who, after carefully ex-amining the gun, turned it over to the Union iron works where the Monterey is building. The examination of Captain Clark demon-strated that the big gun stood the joirney well, not a flaw being visible in any part of it. The ear will be returned immediately to Washington for mother twelve inch gun also destined for the Monterey.

## Grand Concessions to England.

TANGIER, Jan. 24.-The sultan of Morocco has granted permission to Great Britain to erect a semaphora on Cape Espartel, on the northwest coast of his dominions, at the entrance to the straits of Gibraltar. This con cession is made on the condition that in the event of war the semaphore must be closed at the demand of any Europeau power.

### About Extinguished.

TAMAQUA, Pa., Jan. 24 .- The west Lehigh mine fire, which has been raging for some time past and which has threatened to destroy the entire mammeth vein, is now under control and if no fresh outbreak of fires The Nebraskan feels very much gratified occur within the next two weeks it will be extinguised, wors resumed. ## Robbed by Negroes.

States, provided he establishes satisfactor VICESBURG, Miss., Jan. 24.-The store of enidence of the above facts before his de Arenz & Taylor, prominent merchants at "Nothing contained in the act is to preven Warrenton, was entered last night about the coming into the country of Chinese per o'clock by three negroes, who, after making sons who may buly accredited to the United same purchases, drew pistols and robbed the States government as ministers plenipoten proprietors of money and valuables to the amount of \$3%). The highwaymen are sup posed to be members of a gang operating in tiary, ambassadors or other diplomatic representatives, consul general, consular and com-mercial agents and other officers of the Chinese or other governments, traveling this vicinity for some months past.

#### Gave Him an Ovation.

BERLIN, Jan. 24.-William II, the new king of Wurtemburg, arrived here today. The emperor mot the king at the station and cordial greetings were exchanged between the two monarchs. The king was the recip-tent of a popular ovation.

#### ANNOUNCEMENTS.

The novelty of Mr. Robson's engagemen at Boyd's new theater the latter part of this week will be his production of Oliver Goldsmith's elegant comedy, "She Stoops t Conquer." The first performances of this comedy aver given in Omaha will be on Thursday and Friday evenings next, Mr. Robson specaring as Tony Lumpin. "The School for Scandal," "Heir at Law" and "Old Hearts and Young Faces," which were so successfully revived hast season at Index Balweed, and the Law. Daly's, Palmer's and the Lyceum theaters showed conclusively that not only has the public tasts for these fine old comedies held

firm, but that it is very much on the increase in view of these facts, Mr. Stuart Robso this season is giving a fine production of that sterling and intensely humorous old comedy, "She Stoops to Conquer." On Saturday Afternoon and evening Mr. Robson and his excellent company will appear in "The Henricita." The sale of scats for the ontime average and the sale of scats for the entire engagement will open Wednesday morning.

#### Osceola's Grand Army Post.

OSCEOLA, Neb., Jan. 24.- (Special to THE BEE.]-The mombers of J. F. Reynolds post, Grand Army of the Republic, have had a heavy debt hanging over their hall for a long time, but are now rejoicing that they have paid the last dollar and it is free from debt. They intend to fix it up in the spring, take out the old stage and scenery, partition off into two rooms so that the Woman's Re-

lief Corps and Sons of Veterans can each have a nice home to meet in. There will be a large attendance of the Veterans and Woman's Relief Corps, and in fact all of the old boys and girls, at the department encampment at Columbus next

'ine farmers of this county are so elated over the success of the farmers insurance company of Graud Island that they are going o get up a farmers insurance company of their own. They had the proliminary meet-ing last Saturday, elected officers and expect to open their books and write insurance at once.

#### Death's Harvest at Strang.

STRANG, Neb., Jan. 24.- [Special to Tus BEE. |-Strang has lost by death two of her oldest citizens within a week, the first being Mrs. Miller, the mother of F. J. Miller, excashier of the First National bank of Geneva. She was born in Indiana seventyour years ago and came to Nebraska when it was in its infancy. The other was George Flaister. He was born in England in De-cember, 1822, emigrated to the United States at an early age, settling in Michigan. He was married in 1852 and came to Nebraska in 1872. He was located three miles northeast of the present townsite of Strang, where he resided until his death. Mr. Finister served three years in the late war as private in company K. Nineteenth Michigan infantry, being actively engaged in several of the most sangunary battles of the robellion. The deceased was a charter member of Vicksburg post No. 252, Grand Army of the Republic, and was one of the few who worked faithfully for a long time to get it organized here

#### Bluir Personals.

BLAIR, Neb., Jan. 21.-|Special to Tue BEE.1-The Women's Ald and Relief society will hold its annual mooting at the residence of A. Castetter, Friday, January 29, at 3 'clock, p. m.

The Bluir Daughters of Rebeach will give a dime sociable at the residence of Perry Seldens Thursday evening, January 28. They lost their paraphernalia in a recent fire and are taking this means to raise money to re-

plenish the stock. Roy John Power attended the banquet given by the Modern Woodmen cauno of Ken-nard, Neb., Friday evening and delivered an address

J. H. Waldo of this place racelved the first premium on Wyandotte chickens last week

at the annual Omaha poultry show. The Germans of this vicinity give their Bayverein annual masquerade ball next Thurday evening, January 25. A big time is expected.

#### Sportsmen at Juniata.

JUNIATA, Neb. Jan. 24.- Special to THE BEE.]-Wednesday the sportsmon held a shooting tournament here. The trap shoot-ing consisted of blue rocas and live pigeons. Thad Hants and Charles Holtzworth tied, in a match of live birds. S. I. Brass went down to Lincolo Monday, Mrs. M. M. Frew and daughter, Mrs. 10

sons in violation of law will be liable to pun-isbment, and every vessel whose master knowingly violates any of the provisions of the act will be deemed forfeited to the United States.
