THE SPECULATIVE MARKETS

Wheat Opened Dull and Lower, But Closed Rather Strong.

WAR NEWS HAD CONSIDERABLE EFFECT

Operators Were Inclined to Be Caution About Making Heavy Transactions Until After the Receipt of Official Information on the Subject.

CHICAGO, Ill., Jan. 26.-Wheat was dull and lower today, though a flurry during the last hour brought the price up to the closing figures yesterday, but renewed weakness fol-lowed and the market closed easy at a loss of about 14c compared with last prices yesterday. Operators were inclined to be mutious about making heavy transactions until after the receipt of official confirmation of the news that Chili had assumed a pacific tone. Pending this, however, the Associated Press' Santiago dispatch giving the terms of Chili's reply to the ultimatum of this government proved a bearish factor. In addition to this cables were lower, except Paris. which was higher: the amount on ocean passage showed a small increase whereas a decrease had been looked for, and domestic markets were all tending downward. The situntion was regarded by the longs as quite discourating, and at the start there was free selling with buyers holding off. May opened \$114c, or about \$4c below the close yesterday and for a time it looked very weak, and soon touched 914c. But there was lively covering by shorts who got out good lines yesterday and who were now disposed to take in profits and the offerings were readily absorbed and the feeling grew steadier. Pardridge was a big buyer and it was estimated that his purchases during the session could not fall much below 1,500,000 bu. Senwartz-Dupee, Lester, Logan and Kennett-Hopkins were also good buyers. The seiling was scattered, though, at one time, New York and St. Louis parties putting a good deal on the market. This good buying, together with the reported increase of 360,000 bu, during the week in the English visible supply, caused a resetion, May advancing to 91%c. It held for some time around that figure, but near the close a report was started that Chili had made no overtures for peace and that the situation was again warlike. This created some excitement and the price quickly went to 92%c. The excitement, however, was shortlived, and the market soon weakened again and receded, closing easy at 91%c.

Corn was quiet and easy most of the day. Receipts were rather heavier than were looked for but the grading showed some inby shorts who got out good lines yesterday

Corn was quiet and easy most of the day. Receipts were rather heavier than were looked for, but the grading showed some improvement. Liverpool was ½d lower. May opened ½c lower at 39½c, and closed at 40c.

Oats were quil and easy, clising a shade off. Hog products were less active and easier. Receipts of hogs were about as expected and prices at the yards without quotable change. The absence of any fresh war news and the weakness in other speculative pits were also unfavorable. May pork opened 12½c lower at \$12.10, sold off to \$12.00, fluctuated some and closed firm at \$12.0754, a net loss of 15c. Lard 18 7½c off and ribs 19c.

MINNEAPOLIS Minn. Jan. 26.—The collapse of the Chillan war talk caused a workness in prices today and an exceedingly dull market. May wheat opened at 874c, sold to 87c and then held very steady all the session and with very light trading. Just at the close there was a little stiffening up and May closed on the bid at 874c; January, 844c. The cash market was without feature beyond the usual active bidding for No. I northern. Low grades were not as much desired as a few weeks ago, millers having purchased liberally. Receipts

New York Dry Goods Market. New York, Jan. 26.—There was no change in the dry goods market today.

CHICAGO. Ill., Jan. 26.—Counselman & Day to Cockrell Bros.: Speculative markets ruled duil and uninteresting today. Those who had bought or sold wheat on war prospects evened up as quickly as possible, after reading the morning papers, with the profits in favor of short seliers. The decline permitted the working of fair amounts for export and a good business was done for interior mills. Upon the whole, however, there was little better than a narrow scaiping market and prices at the close showed scarcely any improvement over the weak opening quotations. Corn and oats ruled weak, but railled with wheat on buying by shorts and closed steady. Provisions collapsed at the opening on peace news, but railled slightly in sympathy with firmer prices for hogs. Cables were strong and materially higher. Packers' operations were sparing and the market closed at about the high point for the day. We favor selling on bulges at present. Traders' Talk.

higher. Packers' operations were sparing and the market closed at about the high point for the day. We favor selling on bulges at present.

CHICAGO, Ill., Jan. 20.—F. G. Logan & Co. to J. Sands Commission Company: We had a dull and dragging wheat market for the first two hours of the session. The traders are nervous on all advances and are anxious buyers. The Chill difficulty with our government has some little influence, opinions are divided as to what the result would be. Many believe it would give higher prices, and as many think it would give hower. We look upon our receipts as the most important factor. They are very light, and we believe they will continue so in winter wheat districts. Good authorities say they will be larger in the northwest, but to keep prices down they will require to be much larger. There has been foreign buying in the northwest for immediate shipment. We look for higher prices and believe it should be bought on all weak markets. Corn coutinues weak: we look for lower prices for May. Outs steady. They will go lower with corn.

CHICAGO, Ill., Jan. 56.—Kennett, Hopkins &

Corn continues weak; we look for lower prices for May. Oats steady. They will go lower with corn.

OHICAGO, Ill., Jan. 16.—Kennett, Hopkins & Co. to S. A. McWhorter: With lower cables, an increase on ocean passage, beaceful news from Chill and a snow storm, there was a rush to sell wheat. Offerings were large, but it is said that Pardridge took over 1,000,000 bushels and sustained the market. The buils had evidently lost confidence and were not buying much. Clearances for two days have been rather light and receipts at primary markets give some indications of increasing. The most serious obstacle to an advance is the attitude of foreigners. They do not respond to the strength of American markets though the situation would warrant it. It is said that European stocks decreased 5,750,000 bushels during December and the diminution is still going on. Recent news from India show a discouraging outlook for the next crop which will tend to restrict future offerings from that source. Kansas has sent some bade op reports today, the ground being bare and subjected to alternate freezing and thawing. News of this nature has little influence at the moment but it will tell by-and-by. The trade is very dull. It may linger along this way for weeks but we don't believe that prices can be permanently depressed and the chances seem altogether in favor of short sellers. Persistent attempts to break down the prices of corn and oats have been made today and it looks as if a very considerable short interest had been created without accomplishing its purpose. The demand for cash stuff is not as good as could be wished. It is claimed by some receivers that not less than 20,000,000 bushels of corn were on track during the late blockade. Current receipts at interior points are not large, and it is believed that the apparent supply pressing prices will disappear and a more healthy tone will prevail. In provisions prices touched on the sharp raily with which the market closed yesterday have not been held, but there has been a strong underto

STOCKS AND BONDS.

Influence of the Chilian Matters Was On the Side of the Bulls.

NEW YORK, Jan 26.-The stock market was still under the influence of the Chilian mat-

ters, but its effect was on the side of the builst today and while the transactions continued to show their professional character there was a wide distribution of the business done and the whole list shared in the improvement made. The Associated Press dispatch published this morning indicating a complete backdown by the Chiitan government from its previous position took the wind out of the sails of the war party and they were as eager to buy this morning as they were to sell the last few day. At the same time, as the news was known in London before the opening of this market, prices there were materially higher figures than the close of last nght and among the active stocks those which opened less than I percent were exceptional. Lackawanna and Cleveland, Cincinnati, Chicago & St. Louis were up 1% per cent. The sharp advance naturally brought a large amount of stocks on the market, but the demand was sourgent that all offerings were absorbed and while the first few minutes saw some concessions from the opening prices the unward movement soon made headway and prices all along the line were piaced on a materially higher plane. The stocks which possess un niernational market were naturally the leaders in the early movement, but later the clicque which has Lackawanna in hand, forced it to the front and trading in the stock assumed large proportions and Tts advance is a movement against the shorts were as conspicuous as usual, while the ionning rates later in the day were easier, indicating some reduction in the outstanding short interest. The price, however, was rin up to 131% against 142% last evening, and it closed at close to the best price. Rending was active in sympathy and under the buying by the western operators the grangers were prominent in the market throughout the day. The stern the la Manhattan all like amount: Consolidated Gas, 2 per cent; Rock Island, 1% per cent; Cleveland, Unicinnati, Chicago & St. Louis, Burlington and Missouri Pacific active and firm at or near the best figures. been executed on the late reaction. There is
reason* to believe that an amount of institut'on money, larger than had been
supposed, had been and is being invested in the stock market. This is
conspicuously true of Lackawanna stock,
but must have been true of other dividend
payers as well. If these reports are at all
well founded the purchases are most effectively taken out of the market and furnish a
soild foundation for efforts at further advance
in prices. There was little discrimination in
the support of stocks today, though Lackawanna, Manhattan and Missourl Pacific held
the lead. There was, of course, some reaction
in the market during the later afternoon,
early buyers shown a some disposition to take
profits, but the underlying strength was little
impaired.

London Stock Market, [Copyrighted 1892 by James Gordon Bennett.]

LONDON, Jan 25.-- [New York Herald Cable--Special to The Bee. !-- A good deat of busi ness was transacted on the stock exchange today. There has been much preparation for the sett ement which commences soon. New ensett ement which commences soon. New engagements having been restricted, funds were well maintained. Indian rupee paper has given way from ½ per cent to ½ per cent. Notwithstanding that there was no atteration in the price of silver, foreign government securities have been somewhat pressed owing to the weakness of continental bourst. Home rallways have shown considerable firmness during the afternoon. Buying for the new account has been somewhat more active. Brirhton deferred met with nost attention. The close was ½ per cent higher. Americans, which have been largely deait in, opened flat and materially lower. About noon the market took a complete turn. Decided firmness prevails at the close. In the majority of cases the opening decline was not only recovered, but an advance was established. Canadian lines leave off rather stronger than they onened, though C nadian Pacific and Grand Trunk issues still show a small dec ine on the day. Mexican is lower owing to the poor traffic statement. There was no improvement in the demand for money. Short loans were freely offered at ½ per cent discount. The market is slightly firmer. Two and three months bills are quoted at 1½ to 1½ per cent.

Omaha's Prices Sag Badly Under the Supply and Demand Rule.

Onaha, Jan. 26.—Two days' receipts foot up 3.714 cattie. 13.291 hogs and 2.292 sheep, against 3.187 cattie, 7.017 hogs and 2.292 sheep, against 3.187 cattie, 7.017 hogs and 2.292 sheep, against two days last week.

The general cattle market was a good deal like it was at the close of last week. Yesterday's advance was due entirely to the very limited offerings. With only a fair supply today, 122 cars. that eadvance was completely wiped out. and beef steers soid slowly at Friday and Saturday's mean prices. The offer ags included a very respectable proportion of rather desirable cattle, although as usual there was comparatively little really choice stuff here. Shippers wanted some good cattle, but wanted them fully as low as Saturday. But two local houses were buying anything and they, having practically a clear field, were inclined to be indifferent and bearish Trading of course dragged. Taken all in all it was a very unsatisfactory market. Good 1.130 to 1,339-10, steers soid from \$3.30 to \$3.70, and common to fair stock from \$3.00 to \$3.75. Considerable stock was shipped on to Chicago and there were plenty of decent cattle unsoid in theipeas at the close.

With butcher stuff the case was even worse, buyers having more decidedly the best of it. Business was very slow and prices were generally a good 10c lower than Monday, or about the same as Saturday. There was a moderate shipping demand for good to choice stock, but there was very little of it here. The decline was heaviest and the market meanest on the fair to medium grades. Sales were largely from \$2.00 to \$1.3, with choice stock as high as \$1.00, and common as low as \$1.00. Buils, oxen and stags were weak at from \$1.20 to \$1.00.

Stockers and feeders were in meager supply and fair demand at slightly improved prices. Trading was somewhat limited and largely from \$2.75 to \$3.00. Representative sales:

Hogs—Notwithstanding a liberal supply of 130 cars and an increase for the past two days compared with last week of 6,000 hogs the market scored another advance. There was a marked improvement in the quality of the offerin.s, there being several loads of very choice hogs here and not a great many that could be called common. Everybody wanted hogs at the opening and business was brisk at an advance of about 10c over Monday. The best heavy hogs soid from \$1.30 to \$1.40. Common heavy and mixed packers soid almost entirely at \$1.25 and light and light mixed loads went at from \$4.15 to \$1.27\frac{1}{2}\$. Along toward the middle of the forenoon the weak opening in provisions produced a decidedly easier feeling here, and for a time it looked as if the advance would about all be lost. CHICAGO, Ill., Jan. 26.—[Special Telegram to THE BEE.]—The cattle market was quiet today. Buyers were present in about the usual numbers and there was a fair demand from canners and butchers, but the wants of shippers were somewhat limited. But while the movement was slow, there was an unqualifiedly firm tone to the market, the light receipts for the last few days imparting a confident feeling to all classes of operators. The supply in the yards today was confined to about 6,000 head and was absorted at strong prices, the average being from 10c to 15c higher than for last Friday. Quotations are from \$1.25 to \$3.00 for poor to choice cows, \$1.50 to \$2.50 for buils. \$2.00 to \$3.55 for stockers and feeders and \$3.00 to \$5.50 for common to extra shipping steers.

The low market remained strong. The average

shipping steers.

The hoz market remained strong. The avershipping steers.

The hor market remained strong. The average prices were higher than for yesterday but, taking into consideration the fact that the quality of today's arriva's was better, a change in values can scarcely be noted. There was continued activity in the shipping demand and as local cullers were also eager to get the hogs, the rather liberal supply was easily handled. Light weights showed relutively the greatest strength though there was no signs of weakness anywhere. Quotations were from \$4.25 to \$4.00 for poor to prime light and from \$4.45 to \$4.70 for common to choice heavy. As high as \$4.00 was paid for assorted light and there was one load of fancy heavy for which \$4.72% was obtained. Culls soid at from \$4.50 to \$4.00.

The sheep market was without noteworthy new features. Not much activity was developed, but by virtue of the continued light receipts, sellers were enabled to close out at strong prices. Sales were on a basis of from \$3.50 to \$5.05 for poor to choice qualities. Few lots went above \$5.15 and there was not much trading below \$4.25. The lamb market was steady as last quoted, prices ranging from \$4.50 to \$4.75 for poor lots to from \$4.40 to \$6.50 for choice.

Penchant for Harness. Two or three weeks ago James Wilson. well known vagrant and petty thief, was arrested for having in his possession a bridle and part of a single harness. Judge Berks gave Wilson ten days on the hill because he could not account for the property. He was released yesterday, and last night an officer found him wandering around with a horse blanket under his arm, and the old timer was given a free ride in the waron and assigned to his old cell in the city jail. Wilson is evidently trying to collect a complete rig. is evidently trying to collect a complete rig When he is released next time as will probably get the horse and buggy.

"I have used Allcock's Porous Plasters for some years for myself and family, and, as far as able, for the many sufferers who come to us for assistance, and have found them a genuine relief for most of the aches and pains which flesh is heir to. I have used Allcock's Porous Plasters for all kinds of lameness and acute pain, and by frequent experiments find that they can control many cases not noticed in your circulars.

George Augustus Sala writes to the London Daily Telegraph:

"I especially have a pleasant remembrance of the ship's doctor—a very experienced maritime medico indeed—who tended me most kindly during a horrible spell of bronchitis and spasmodic asthma, provoked by the sea-fog which had swooped down on us just after we left San Francisco. But the doctor's prescriptions, and the increasing warmth of the temperature as we neared the tropics, and, in particular, a couple of All-Cock's Porous Plasters clapped on—one on the chest and another between the shoulder-blades—soon set me right."

"When suffering from a severe cough, which threatened pulmonary difficulties, which I was recommended to go to Florida to relieve, I determined to test ALLCOCK's POROUS PLASTERS. I applied them to my chest and between the shoulder-blades, and in less than a fortnight was entirely cured." Henry A. Mott. Jr., Ph. D., F. C.
