THE SPECULATIVE MARKETS

Fair Volume of Business Was Done in Wheat Yesterday.

FOREIGNERS WERE ACTIVE BUYERS

As a Result of the Disposition of Outside Operators to Take Grain at Present Prices Everything Firmed Up Considerably,

CHICAGO, Ill., Jan. 28.—A fair volume of business was done in wheat today. The opening was lower, but that proved to be about the bottom price of the day. Thereafter, with one or two breaks, the market was strong and the close was near the top and at an advance of 16c compared with that of yesterday. The lower opening was due to the receipts of weaker cables, a bearish summary of the winter wheat situation by the Cincinnati Price Current, which said that the condition of the plant had not deteriorated during the past week, and to the parific tone of the Chillar dispatches in the morning papers. May opened Mc lower at 90c, but Cutler, Logan, Schwartz and other large operators began to pick the offerings and the market hardened Cutler's purchases were thought to be for Pardridge, and as he had quite a following his Snying caused others to fall in and there was slow but gradual improvement. The news of the liberal export business at New York, where \$13,000 bu. of wheat was cleared yester day, with reported engagements for 600,000 bu., put a little more life into the market, as It began to look as though foreigners were willing to take the wheat at present figures. About the same time unexpected but very decided strength began to show itself in the corn, oats and provision pits, which imparted some additional strength to wheat. Early short sellers began to take back their wheat and there was a good deal of firmess displayed. May finally touched from pic to plyc. At this point a good deal of the wheat Pardridge had taken early at 90% and under began to come out and prices were forced off some. May reaching Pike. Rather active buying of cash wheat by foreigners was then reported at the seaboard, thou in they were said to be selling for future delivery. The strength in corn caused a sudden raily. The price went to 91% and cosed at 91% c.

Corn was more active and decidedly higher. May started at about the closing price yesterday, but there was very little for sale, and with good covering by shorts and improved shipping demand and the free export movement, there was a gradual upward movement. On the advance a good many operators from the wheat pit, who were heavily short, came in again. Boyden & Co., Bartlett-Frazier and other well known friends of corn did a good deal of buying and helped along the advance. It is said there has been very little corn cribbed this year, and as this is usually the chief source of supply for May, shorts began to feel uneasy. The facts, too, that it is being exported at the rate of 3,000,000 bu. to 4,000,000 bu. per week, and the stocks are steadily decreasing, and that scarcely 2 per cent of the weekly arrivals are contract, were all strong factors. For some days it has been noticed that the Cudahy Pack ng company have been stendy and liberal buyers; their purchases for the week have been estimated all the way from 3,000,000 to 4,000,000 bu. May opened at 40c, advanced to from 40% to 40% c. receded to 40% con wheat shorts rushing in to cover and put the price up to 41% c. closing at 41% c, an advance of 1% c.
Oats were strong in sympathy with corn, the increasing demands from shippers and free covering by shorts. An advance of 1% c.
Oats were strong in sympathy with corn, the increasing demands from shippers and free covering by corn, oats and provision pits, which imparted some additional strength to wheat. Early

leored.

Hog products were advanced and higher:

Hog products were advanced and higher; the receipts of logs were fully up to the expectations and prices at the yards were from be to 10c lower. But Armour, the Anglo-American company and packers generally were good tuyers and the shorts made a rush to cover. There were spells of temporary weakness, but the general tendency was upward and the close shows an advance of 274c in pork, 174c in lard and from 15c to 174c in fibs.

Estimated receipts for tomorrow: Wheat, 125 cars; corn, 231 cars; oats, 171 cars; hogs, 31,000 head.

The leading futures ranged as follows:

Northwestern Miller Review. Minneapolis, Minn. Jan. 28.—The North-western Miller says: The mills last week ground the smallest amount of flour that they have made in any week since September

western Miller says: The mills last week ground the smallest amount of flour that they have made in any week since September. There was a decrease of 45,455 bbls, as compared with the week before, most of it resulting from the idieness of three mills of one company. The week's production was 137,690 bbls. For the corresponding time in 1891 141,300 bbls. For the corresponding time in 1891 141,300 bbls, were made, and in 1893, 117,749 bbls. The mills have done much heavier work this winter than a year ago.

In the manufacturing, situation there is very little change from last week. One company, as noted, still says, three of its five mills are idle, while the output of the other heavy concerns is much restricted by the lack of water power. There were thirteen mills running Wednesday, grinding at the rate of about 25,000 barrels per twenty-four hours. Fut the average daily run is likely to be less, wo of the smaller mills are expected to shu down toward Saturday, and they will remain idle three or four weeks to permit improvement to the retail trade.

There seems to have been some improvement to the retail trade.

There seems to have been some improvement in the flour trade for the week back, and the restricted production has, perhaps, been sold. At the same time there is a good dai of complaint by most of the millers about duit trade and also that flour bought a while back is not ordered out promptly. The best demand still comes from domestic markets, though in some quarters it is alleged that sales are effected at very low prices. There appears to be increasing inquiry from abroad, but prices in the main are below the view of millers.

Traders' Talk.

CHICAGO, Ill., Jan. 29.—Counselman & Day to Cockreil Bros.: Wheat opened lower on almost panicky private caules which brought some selling orders. These appeared to be stop loss orders on speculative traders as several shipping houses were good buyers at the decline, Local shorts became alarmed when various advices reported as high as 115,000 bu, wheat taken for export during the past three days in Minneapolis and Duluth, while 700,000 bu, were rumored taken at New York today and 125,000 bu, worked here. Shippers are very reticent and nothing like the amounts rumored could be confirmed, but the market was oversold, and the attempts to cover caused the closing bulge. Corn led the whole market in strength. It is generally conceded that very little corn has been cribbed, as the price was too high early in the season, and farmers have been unwilling to self at the decline. During the freight blockade shippers were compelled to sell futures to hedge cash holdings. Recent saies have been practically all by short speculators. The decline in ocean freights and the reduced stocks at eastern points have revived the shipping demand and the purchases by shippers to cover hedges have caused a stampede among the shorts. Oats were also in good shipping demand and advanced ie. Provisions were bid up sharply by packers early but this element turned steady sellers after the advance. Speculative buying from the other pits came later and gave the market, a strong closing. It looks higher for ton-orrow.

Chicago, Ili. Jan. 28.—F. G. Logan & Co. to J. Sands Commission Company: The wheat market is on the demand for cash wheat and the small receipts at all interior points. We are liable to have weather scares, and if we do we will have a lively market upwards. Corn very active, good local and outside buying. The selling has been principally by our local traders. We look for a further advance. Hogs products strong. They should be purchased on all weak sport.

Chicago, Ili., Jan. 28.—Kenneth, Hopkins & Co. to S.A. McWhor

ness show an increased demand for abroad. Near the close there was a sharp raily of about it on rumors that 70,000 bushels had been worked in New York for export. We are advised that the report is unfounded. Corn and oats without any apparent change in condit ons have suidenly developed great strength. These markets have been over sold and this is responsible for the sharp advance. As heretofore we believe corn and oats to be good property and strongly advise their purchase. They are relatively cheap and there is every indication that the outlook is that they will show a good advance soon. The strength which we have been predicting for weeks in provisions seems to have come to stay. Bears hammer prices down from time to time but they generally pay more money to get their stuff back. If traders will avoid buying on the sharp bulges they will probably find it profitable scalping on the long side.

STOCKS AND BONDS. Marked Advances Shown in a Few Lead-

ing Interests, NEW YORK. Jan 28.-Although the stock mar ket still continues broad, its activity and strength today was in spots, and while in the few shares which received special attention there were marked advances scored, the general list was held within narrow limits, and

during the greater portion of the day dis-played no tendency in either direction. though developing a strong temper toward the close. The bears made frequent raids on the list, and the stocks which were subject to their attacks were the most active as a rule.

the close. The bears made frequent raids on the list, and the stocks which were subject to their attacks were the most active as a rule. The attempts to get prices down, however, met with very little success, and that of a temporary character only, prices railying at once from any pressure. On the whole there was a strong market. Special attention was cailed to Manhattan, which continued its rapid upward movement and touched 119, and though it was not held at that figure, it established a gain of about 12 per cent from its price before the rendering of the last decision in favor of the company.

The coal stocks were much more quiet than usual of late and Lackawanna became a shinling mark for the bears and after the most successful raid of the day it showed a loss from last night's price of 13; per cent but railied rapidly and effectively showing only a very slight loss at the close. The others were strong with comparatively narrow limits, The fentures of the day in addition to these shares were the granzers and Gould stocks, together with the Northern Pacific preferred. In all of these there was a marked increase in activity toward the end of the session and handsome gains were made at the time, giving for the first time a pos tive stronz temper to the speculation and bringing prices all along the line up beyond the level on the opening figures. Among the low priced shares Louisville. New Albany & Chicago continues to be the most prominent for both strength and activity, the large order for new equipment being interpreted as evidence that the deals by which it is to make very advantage-busiville. New Albany & Chicago continues to be the most prominent for both strength and activity, the large order for new equipment being interpreted as evidence that the deals by which it is to make very advantage-stocks were specially strong during the day.

The opening was quiet at fractional advances and while there was some uneasiness among the shorts the bears were inclined to hummer the list in spots, causing a slight rec

lected.

Financial Review. Financial Review.

New York, Jan. 28.—The Post says; Nothing is more satisfactory in the prezent market than the disposition to ignore those purely speculative stocks whose wild advanced discredited, three weeks ago, the entire upward movement. On a smaller or large scale operations in these securities will doubtless seem to be revived, for they possess, in the eyes of petty Stock exchange gamblers, procisely the same fascination as a roulette table or a dice box. Conservative investors and operators, however, have lately had abundant opportunity to take the measure of these specialities.

New York Money Market. New York, Jan. 28.—Money on Call.—Easy, ranging from 15/62 per cent; last loan, 15/2 per cent; closed offered at 15/2 per cent.
PRIME MERCANTILE PAPER—4605/2 per cent.
STERLING EXCHANGE—Quiet and firm at 4.84 for sixty day bills and \$4.85 for demand.

LIVE STOCK MARKETS.

Rather Better.

OMAHA, Jan 28 — Receipts for four days 6,908 cattle, 19,062 hogs and 3, 83 sheep, against 9,338 cattle, 21,982 hogs and 2,001 sheep the same four days last week.— The light run of cathle was somewhat in the four days last week.—

The light run of cathle was somewhat in the nature of a surprise to dealers who were looking for at least 2500 cattle. There has been a falling off so far this week compared with last of about 2,500 head. Eastern markets were firmer, this fact giving shippers confidence and logother with the light receipts producing a decidedly better tone to the market. The advance on beef steers was hardly quotable, but the two days' advance amounts to from he to the on all useful grades. The market was active, both local and shipping buyers showing a disposition to take desirable stuff at slightly improved figures compared with Wednesday. Good 1,200 to 1,301-1b. steers sold mostly at from \$3.65 to \$3.80, with one good sized bunch of very good 1,280-1b. beeves at \$4.05. Light 900 to 1,151-1b. steers sold largely at from \$3.00 to \$1.30. But little really useful stuff was left unsoid at the close, and, in fact, the forenoon's business practically cleared the yards.

Butcher stuff was only in moderate supply, and prices were decidedly stronger. There was a good active local demand and shippers were also wanting a few cattle. Prices were from 10c to 20c higher than Tuesday the advance being principally on the fair to good stock. Really choice stock has been in poor supply for two or three days, although there is comparatively little butcher stuff coming now that could be called poor. Good cows and helfers sold largely at from \$2.35 to \$2.50, fair to good grades at from \$2.00 to \$2.35, common and cauning lots at from \$1.00 to \$2.00. Bulls, oxen and stars were in fair supply and active demand at atrong prices, at from \$1.25

common and cauning lots at from \$1.00 to \$2.00.

Bulls, oxen and stags were in fair supply and active demand at strong prices, at from \$1.25 to \$2.50. Caives were steady. Stockers and feeders were steady at Wednesday's sharp advance. The supply was light and trading somewhat limited, largely at from \$2.70 to \$5.15.

Chicago Live Stock Market.

Chicago, Ill., Jan. 28.—[Special Telegram to The Bee.]—Prices for cattle today did not vary great'y from those ruling on Wednesday. They were firm for all descriptions of cattle and a shade higher for some. Cows and bulls sold to the best advantage. Canners and butchers were eager buyers, and for the more desirable of the offerings they were not averse to paying a small advance. The strength of the market is due to the continued light receipts. The arrivals since Saturday have been 21,000 head less than for the same time last week, so that in spite of the fact that the demand has not developed more than the usual activity, sellers have been able to push prices slowly upward. Today's trading was largely at from \$4.00 to \$2.75 for cows and bulls and at from \$4.40 to \$4.50 for steers, though the extreme range of quotations was from \$1.25 to \$5.65. A few old cows were closed out at from \$1.25 to \$4.50, and a few lots of choice steers found buyers around \$5.00. The general market had a firm finish.

Trading in hogs was on a basis of vester-Chicago Live Stock Market.

\$1.50, and a few lots of choice steers found buyers around \$2.00. The general market had a firm finish.

Trading in hogs was on a basis of yesterday's closing quetations, or at from \$4.25 to \$4.50 for poor to prime light and at from \$4.35 to \$4.50 for poor to prime light and at from \$4.35 to \$4.60 for poor to prime light and at from \$4.35 to \$4.60 for poor to prime light. The market was steady at that range, and was active both for local and eastern accounts. In view of the increased receipts for the last three days prices are holding up surprisingly well. They have declined 10c since Tuesday, but are still nearly that much higher than at the close of last week. Although today's receipts averaged very common, the greater part of the sales were at better than \$4.40. The extreme range was from \$2.50 to \$4.60, cuits selling at from \$2.25 to \$4.00, and a load or two of fine heavy hors going at \$4.60.

There was continued fair activity in the sheep and lamb market but former prices were not supported. Good to choice sheep were quoted at from \$4.75 to \$5.50. The poor to fair sorts were neglected, at from \$5.50 to \$4.50, and cuits at from \$2.50 to \$3.25. Lambs were in moderate supply and were easy at from \$4.50 to \$5.50.

moderate supply and were easy at from \$4.50 to \$6.50.

Receipts were: Cattle, 10,000; hogs, 40,000;

Receipts were: Cattle, 10,000; hogs, 40,000; sheep, 8,000.

WEALTH OF THE GOULDS.

A Roll of Many Millions-A Great Catch.

Miss Helen Gould, who made her first entrance in New York society recently. says the Press, will hereafter preside over her widowed father's table and represent him socially. She is one of the greatest heiresses in the world. Nine years ago, when rumors were current in Wall street that Mr. Gould was in need of money, he invited a number of well known financiers to lunch with him one day, and, incidentally, after the meal opened his private safe and revealed to his friends' gaze gilt edged stocks and bonds of the value of \$52,000,000. They were, of course, quick to tell what they had seen, and gossip soon restored Gould's credit. He did not reveal all his securities that day. Russell Sage, his most intimate friend, said a few months ago that Mr. Gould's income from his investments was larger than any other man's in the Union Pacific Railroad Co...... Iron Mountain Railroad Co...... 13,000,000

Texas Pacific Railroad Co...... 5,000,000 10,000,000 Miscellaneous mortgages, cash, etc 12,000,000 Total \$125,000,000 George Gould, who is his father's right-hand man in everything, will some day naturally control this colossal wealth accumulated by Mr. Gould's sim-

and selling everything dear. The other members of the family might enjoy liberal shares as follows: 10,000,000 1,000,000 5,000,000

ple principle of buying everything cheap

Those who have the best opportunities of knowing Mr. Gould do not consider it likely that he will ever endow or create any great public charity.

The Spring of Eternal Youth. Carlsbad may be truly termed the Spring of Eternal Youth, For centuries the famous Sprudel has been used as the test natural re-m:dv, for constipation, catarrh of the stom-ach, dyspepsia and liver and kidney com-pinints. He sure to buy the genuine imported article only, which must have the signa-ture of "Elsner & Mendelson Co., Sole Agents, New York," on every package.
