## THE SPECULATIVE MARKETS

Wheat Was Lower and Dull in the Early Trading.

NEWS WAS MOSTLY OF A BEARISH TONE

There Was Free Selling by the Tirea Longs With Only a Moderate Demand-Export Business at the Scaboard Improved.

CHICAGO, Ill., Jan. 29.-Wheat was lower and very dull in the early trading this morning. The news was mostly of a bearish charneter. British cables were unchanged, but continental markets were lower, followed by British markets later. The receipts in the northwest and here indicated a little freer movement. The estimate of the Agricultural department of North Dakota made last season's wheat crop of that state amount to 64,700,000 bu., or about 12,500,000 bu. more than the government estimate. Pardridge added his mite by free selling during most of the session. All of these things gave the market heavy look around the opening and there was free selling by the tired longs with only a moderate demand. Schwartz-Dupee sold generously on their weak continental cables. Private New York advices reported exports doing very little and the acceptances on cable offers ex-tremely light. Logan, Milmine-Bodman and Kennett-Hopkins were good buyers. After a

little and the acceptances on cable offers extremely light. Logan, Milmine-Bodman and Kennett-Hopkins were good buyers. After a period of duliness and weakness the market legan to show some nervous strength. It was reported that the export business at the seaboard was showing evidences of revival, that nearly 50,000 bu. of wheat and flour was cieared yesterday and that thirty-line boat londs had been taken at New York and other ports today. This started early sellers to covering and there was a quick raily but the advance brought out free selling again and another period of weakness followed. Then the crowd grew nervous and bought again, sending prices up to outside figures, but the advance did not hold and there was another lapse and weakness which continued to the end of the session and the market closed easy nearly at bottom figures.

The late cables were all lower and a dispatch from New York said there was absolutely no demand for freight room and that several vessels had bought wheat to make up cargoes. It looked as if news was being manufactured for the purpose of see-sawing the market. May opened at 91%c against 91%c at the close yesterday, held for some time within a rance of from 9c to 91%c, broke again during the last hour to 90%c, and closed easy at 91%c.

Corn was fairly active again and the influences which led to yesterday. At the start there was some disposition to sell but the advance reported in New York, the fact that out of the xis cars inspected to store not a car graded contract, and the nervous feeling in wheat, scon turned the market and there was some disposition to sell but the advance reported in New York, the fact that out of the xis cars inspected to store not a car graded contract, and the nervous feeling in wheat, soon turned the market and there was a slight further advance which held for a time after the wheat market weakened. New York was said to nave been a liberal buyer of corn today; the purchase on this account, it was thought, would aggregate over 1,000,000 bu. During the

Chicago, Ili., Jan 22.—Counselman & Day to Cockrell Bros.: The rumors of large purchases of wheat for export yesterday falled of confirmation this morning. Early cables were heavy and this market opened weas on resolling by the long element. Several spots of streamth appeared causing railies to yesterday's high point, While a good business was reported in cash wheat for interior mills, export sales were alow.

This caused a weak feeling and enough realizing during the last half hour of the session to have ordinarily broken May wheat to 190e, but the market appeared to be negged at 91e and closed with that price asked. Corn and oats were bought freely by shippers until wheat and pork weakened, when the markets were left to themselves and sold off on selling by room traders. We expect a lively corn market next month and a large movement eastward. An advance of facilin hogs caused an excited opening in provisions, but brokers generally abjear to be liberal sellers on good rallies, and we believe in following them at present.

CHICAGO, His. Jan. 29.—F. G. Logan & Co. to J. Sands Commission Company: Wheat opened week. The amount of business is light and

on good railies, and we believe in following them at present.

CHICAGO, His. Jan. 22.—F. G. Lozan & Co. to J. Sands Commission Company: Wheat opened weak. The amount of business is light and largely local. Cables continue duil and depressed. The weather all over this continent is springlike and rather tends to belp the weakness. Any change to winter weather would cause a change of sentiment and higher prices. Receipts of winter and spring wheat are light. Corn opened up strong but heavy; realizing by the buyers around 41c supplied the demand. The movement is light and without an increase we will have higher prices. The demand for shipment is good. Provisions were quiet. There was heavy selling by holders; the buying was scattered. Receipts of hogs are light. On all weak markets buy.

CHICAGO, Ill. Jan. 22.—Kennett, Hopkins & Co. to S. A. McWhorter. The opening in wheat was weak on easier cables and fine weather, but room traders appeared to be short, and after hammering the market for a time and loosing more wheat, they were forced to cover by the heavy buying of a prominent commission house advancing the market to 91% for May. Longs suppled the demand and closing cables coming in materially lower there was a break to 90%. On the rumor that Pardridge would take enough wheat to prevent puts from being good the market righted itself and settled down to extreme duliness. It hardly seems possible to hold prices with foreign markets so duil. It is true that clearances are fair and the export demands moderately good but receipts at primary markets appear to be increasing foreign stocks as well as our own don't fall off enough to attract good investment buying. The market railies easily from time to time, but conditions are present in favor of lower prices. In corn, and oats the sharp advance brought out free offerings from longs and prices subsided somewhat under these realizing sales, but the sellers will doubtless be good buyers on weak spots, and we look for higher prices in the near future. In provisions there we

STOCKS AND BONDS.

Firm Temper Was Maintained During the Greater Portion of the Day. New York, Jan 29.—The stock market again showed the effects of continued hammering by the bears and their ailies, the traders, but a firm temper was maintained during the greater portion of the day and notwithstanding the pressure of the professional element, prices yielded only slightly and even in the specialties, which were marked as particularly ulnerable, few show losses of moment. The foreigners were both buyers and sellers in the market, Louisville & Nashville being specially pressed for sale by foreign houses and that

market, Louisville & Nashville being specially pressed for sale by foreign houses and that stock is the only one of the usually active failroad shares which scored any material loss for the day. The selling, however, had more of the appearance of professional pressure for effect upon the rest of the market than of genuine liquidation of long accounts and the slight influence which it had on the rest of the list indicated the temper of holders in general. As usual of late, a few stocks monopolized the marked moves, and while a few were very strong others were equally as weak. The feature of the forenoon's trading was the unusual activity and strength in Denver & Rio Grande preferred, which scored a handsome advance and held it throughout the day.

Rumors were affoat to account for the movement that the road was about to become a part of a new through line, but it is understood that the affairs of the company are now in better shape than for years and the time has come for a movement in the securities of the road. Luckawanna was also a strong point, but its prominence in the market has been heavily deminished during the last two days. The movement in Manhattan seems to have reached its limit and that stock further retired during the day, while among the specialities Edison Electric came to the front with a large advance on light trading. The weakest stock, however, was Distillers, which steadily lost ground all day long and showed increased animation on the decline. The rest of the market was quiet all day and traded in within narrow limits. The close was quiet and steady to firm at losses in most stocks. Distillers, however, is off 2% per cent; Louisville & Nashville, 1% per cent, and Lackawanna, 1% per cent.

Government bonds have been duil and firm. State bonds have been duil and firm.

Pinancial Review.

New York, Jan 20.—The Post says: The remarkable discrimination in favor of dividend paying stocks, which has characterized the whole of this week's market, again controlled the movement of prices today. In one respect the market contrasted singularly with that of last week and the week before. It was so far from being a professional market, in the usual acceptation of the term that the appearance of a room trader as the leading bidder up of prices, which happened at the start in Manhattan, was the signal for an immediate suspension of other people's purchases. Indeed, it cannot be doubted that at least a large proportion of the room traders are enlisted against the present market; a fact which will not greatly disturb those who have worthles. London, Jan. 22.—[New York Herald Cable
—Special to Thir Ber]—In the stock markets
there is now no special feature. Today's
dealings were restricted, as usual on the last
day of the settlement. Prices opened firm,
but did not keep up. Americans closed unsettled. Denver common preferred has been
largely bid for and has risen is to 34 per
cent. The advance is marked in Northera Pacific preferred. Lake Shore, New

LIVE STOCK MARKETS

Omaha Experiences Another Light Run of Cattle and Hogs.

OMAHA, Jan. 29.—Receipts for five days foot up 8,207 cattle, 33,497 hogs and 3,852 sheep against 12,198 cattle, 32,047 hogs and 2,241 sheep the same five days last week.

The general cattla market showed little or no change, although with only a moderato run and favorable eastern advices there was a decidedly better tone to the trade. So far this week there has been a falling off compared with the same time last week of about 4,000 head, attli the supply, light as it is does not seem to fail very much short of the demand. While both shipping and local buyers wanted a few cattle they did not want them bad enough to pay more than steady prices. The killers wanted light steers and the shippers wanted heavy cattle, while the offerings were largely on the medium weight order from 1,150 lbs. to 1,250 lbs. Trading was moderately active and a fair clearance was effected. Good 1,230 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to \$4,10 and 900 to 1,200-lb. stock from \$1,70 to Cattle and Hogs.

run of pretty good cattle sold from \$1.30 83.70.

Butcher stuff was in good demand and sold substantially stronger than yesterday; that is, the fair to good grades sold stronger. On anything good enough for the dressed beef buyers prices were 15c to 25c better than Tuesday. Common and inferior grades were rather slow sale and often, if not generally, at shaded pricet. Bulls, oxen and stags were stronger at from \$1.25 to \$1.50 and caives were firm at from \$2.00 to \$3.00.

The stocker and feedor trade was light as usual and prices, while strong, were not noticeably stronger than yesterday. Fair to good stock is selling from \$2.70 to \$3.15. Representative sales:

The sheep trade was dull today and prices weak and variable. Shippers remained idle and local slaughterers meeting with little or no competition from that quarter supplied their wants at reduced prices. The market was from 10c to 15c lower than Wednesday at \$3.45 to \$4.50 for poor to medium and at \$4.05 to \$5.30 for good to choice. There was a corresponding weakness in lambs which are now quoted at from \$4.25 to \$5.35.

Heated Water in a Powder Can. NEWTON, N. J., Jan. 29 .- As George Ham ler and Frank Grover, employes at Allen's granite quarry on the Waterloo mountain, were heating some water yesterday in an old powder can it exploded with great force. Both men were blown a distance of several feet. Hamler was not really seriously hurt, although a piece of flesh was cut from his breast by a piece of the can, which cut through a thick overcoat besides the man's clothing. Grover, however, was more ser lously injured. He will lose his right eve. In addition his left arm and side were badly
