THE CONDITION OF TRADE

The Ret. il Trade of Omaha Gradually Improving.

PLENTY OF MONEY FOR INVESTMENT

The Month Closes with the Local Movement of Goods in a Jobbing Way in a Most Satisfactory Coudition.

There is no denying the fact that local trade conditions are improving. Even the retail trade, which it was predicted would be the last to feel the revival of business activity, shows decided signs of improvement, Money is easier, more people are employed and they are spending their money more freely for the necessities and luxuries of life. The feeling of confidence in the future which pervades all classes, working people as well as business men, tends to relax the purse strings and cause money to flow more freely in the channels of trade.

The clearings are showing up well, the total for the week being over five millions, which is an increase of 32.4 per cent. There is plenty of money for all legitimate business enterprises, and the fact that there is idle capital seeking investment is quite likely to set affoat a number of new enterprises the coming spring.

The jobbing trade continues in a most sat-isfactory condition taking it as a whole. The past month will so on record as being an exceptional January as regards the large vol-

In hardware jobbers were reporting for the past six days trade up to the average with a satisfactory increase over the same time a year ago. At the same time it was not in all cases up to what was anticipated, but this might be explained by the fact that jobbers had pretty high notions of what the trade ought to be. Collections in the hard-ware line were a little below the average

during the past week or ten days. No important changes were reported in prices.

In the grocery line the jobbing trade keeps up very well, in fact as well as any one had reason to anticipate. The whole month will show an encrease in the volume of business over language as a very language of the property of the proper show an encrease in the volume of business over January a year ago. Values have been about steady, there being no material change in any line of goods. In New York, accord-ing to the Bulletin, the street market has re-tained most of the recently advised favorable symptoms, and there are few articles upon which holders have lost any important ground, or would not be able to pick up some advantage should the injury assume any force. Buyers, however, are moving with a little care just now, as the end of the month is approaching, and that generally brings with it a curtailment of orders until a new month can be brought upon the date of invoices. The distribution into natural consuming exhausts goes right along fairly and steadily, and at the end of the market there is nothing to suggest curtailment of trade, but there is a little doubt about the probable position of jobbers during the next month or two. Their accumulations are not over abundant, but they cumulations are not over abundant, but they may be compelled to nurse them and abstain from making additions, owing to the seasonable uncertainties about moving forward ad ditions. In the way of coffees in all general particulars it would be called at least a steady market, and enthusiastic holders express a stronger feeling over the situation on Brazil grades. The distribution in hands of actual consumers is somewhat irregular, first one bouse and then another getting a day or two of good trade, to be followed by a shrinkage, but the supply seems to be in good hands and generally very well carried. Jobbers buying simply for natural trade wants probadly would not make much of a demonstration, but the turn over of invoices or expectative deels has kent considerable. on especulative deals has kept considerable stock in motion of late, and given the mar-ket an appearance of more or less animation.

There is not much to say about the local jobbing trade in dry goods. The demand is fair for the season and the volume of goods moving is large. The jobbers are looking forward to a most prosperous year in Ne-braska. In New York City at this time last year, says the Bulletin, artificial influences aided cons. "crably in stimulating purchases, yet when comparison is made with any corresponding period of legitimate trading any differences will be found in favor of this season. The absence of the average demand from the south is very noticeable in this mar-ket at first and second hands, but at interior and western trade centers and those most distant from that section the volume of busi-ness completed is ahead of that for corresponding months. This and other markets that have done most largely with the south feel the effects of the burden which that lafor the largest crop of cotton ever raised. In short, the south is not in the swim, as has been demonstrated by the moderate supply of goods that has been prepared and the absence of many qualities that in past seasons have been manufactured par-ticularly for that section. Whether any re-cuperation of the demand will be developed later is not material, as the present is what we have to do with; yet it is impossible to realize from what source any rejuvenating force is likely to spring before the maturing and marketing of the growing and to be planted crops. With interior and western sections opposite conditions have prevailed from the outset of the season, and the volume of business affected has been on a larger scale than ever, and promises to be main-tained on a like magnitude. The local produce markets have been rather quiet during the past week and prices on some lines weak.

LIVE STOCK MARKETS.

Omaha's Week Closes with a Little Better

Demand for Cattle-Hogs Dull.

Omaha's Week Closes with a Little Better Demand for Cattle—Hogs Dull.

OMAHA, Jan. 30.—Receipts for the past week were 10,356 cattle, 39,479 hogs and 3,475 heep against 13,716 cattle, 40,964 hogs and 3,475 heep the week previous, and 9,596 cattle. 30,536 hogs and 2,252 sheep for the last week of January, 1891. The month's receipts foot up 58,128 cattle, 230,536 hogs and 10,409 sheep for December, and 53,972 cattle. 162,105 hogs and 11,334 sheep for January last year.

Considering the fact that compared with the week previous cattle receipts show a decrease of 3,300 head, an advance in prices of both beef steers and butcher stock of something like 15c to 25c is a rather unsatisfactory showing. The demand all week has only been fair, neither local houses nor shippers exhibiting any great anxiety for the cattle. In fact with the rather indifferent inquiry, it is remarkable that prices have been maintained so well. The stocker and feeder trade is somewhat livelier and prices 10c to 15c stronger than a week ago. The country is full of cheap corn and consequently everyone wants feeders. Compared with beef cattle prices feeders are solling at very strong figures. Hogs have shown some fluctuation, but the general tendency has been higher than January 1. There has been no material change in sheep values. Everything desirable that has been offered for sale has found a ready purchaser at substantially unchanged prices.

The week closed with a fair run of cattle, nearly 190 cars, and taking everything into consideration, the quality was the best of the week. Conditions were pretty much the same as on Friday, both local and shipping buyers having fair orders. Trading was rather active and prices slightly improved. The advance since Tuesday, the low day of the week, has been rather gradual, but the fair to good beef steers are solling from 18c to 25c better than a week ago. Good 1,10-lb, to 1,300-lb, steers sold at from \$1,50 to \$1.75, with one bunch of cholee steers at \$4,22. Fair to good to 35c better than Tuesday, the low

\$1.50, with common to fair stuff around from \$1.00 to \$3.15.

The better grades of butcher stock soid absong to ite higher than Friday and from 20c to 30c better than Tuesday. Offerings were rather liberar including fully half the receipts, but shipping orders were good and local houses were also anxions to get their full quota. Good to choice cows and heifers sold from \$2.40 to \$1.00, fair to good cows from \$2.00 to \$2.40, camers and common stuff from \$1.00 to \$2.40, camers and common stuff from \$1.00 to \$2.40, camers and common stuff from \$1.00 to \$2.40 to \$1.00, fair to good cows from \$2.00 to \$2.40 to \$1.00 fair to good cows from \$2.00 to \$2.40 to \$1.00 fair to good cows from \$1.00 to \$2.00. Buils oven and stags were in good demand and stronger at from \$1.70 to \$3.70. Caives were in poor supply and firm at from \$1.00 to \$3.00 for fair to choice yeal.

Trading was rather limited in the stocker and feeder line. It prices were steady to strong. Poor to prime stock sold from \$1.80 to \$3.20. Representative sales:

Hogs.—The supply was not very heavy, falling fully 3,000 short of last Saturday. The quality of the hogs was about the commonest of the week, although the hogs could not by quality of the hogs was about the commonest of the week, although the hogs could not by any means be called common. Shipping orders were light, the supply was ample for local requirements, and advices from other market centers were decidedly bearish. The trade opened out slow and lower. A few of the best hogs sold about steady right at the opening, but early business was at prices a shade to 5c lower than Friday. Prices rather weakened as provisions opened lower and shippers and fresh men dropped out, leaving a clear field for packers. The close was weak and fully 5c lower than Friday and in occasional instances, especially on good heavy hogs, closing prices were 5c to 10c lower. Good heavy hogs sold at 4.25 to 44.35. Common heavy and mixed packers sold at 4.20 to 84.25, light and light mixed loads from \$4.10 to \$4.30. Some common light stuff sold at \$1.20 to \$4.25 against \$4.25 to \$4.30. Friday. The sverage cost was \$4.24 against \$4.27 friday and \$4.104 log last saturday. The week and month close with prices 1 c to 15c higher than a week ago, 50c to 60c higher than a gao. Chicago Live Stock Market,
Chicago Live Stock Market,
Chicago Live Stock Market,
Chicago Lili. Jan. 30. - [Special Telegram to
The Ber.]—There was but little stock in the
yards today, nor was much wanted. In
values there was no appreciable change,
Holders asked foil prices and got them, the
pens bein: cleared on a basis of from \$1.25 to
\$3.25 for inferior to extra cows, \$1.50 to \$1.75 for
inferior to extra bulls, \$2.00 to \$1.65 for vory commos to extra dressed beef and shipping steers.
As a consequence of the recent advance in
prices, buyers are anticipating a largely increased supply for next week.
Yesterday's advance in hors was not sustained today. There was continued activity
in the eastern demand, but local packers
seemed indifferent, and a slow and unsatisfactory market was experienced. Choice
heavyweights sold off to \$1.60, and the best
light sorts were not wanted at over \$4.50.
From those figures sales ranged downward to
from \$4.00 to \$4.10 for poor light. These quotations
indicate a decline of from 10c to 15c, the close
being very bad. The quality was very poor;
the poorest for any day of the present season.
Only a limited amount of business was
transacted in the sheep market: 1,000 head
comprised the day's supply. In values there
was no perceptible change, the market ruling
steady at from \$1.50 to \$4.50 for poor to fair,
and at from \$4.50 to \$4.50 for poor to fair,
and at from \$4.50 to \$4.4 for good to extra.
Lambs were quoted at from \$4.25 to \$6.49.
Receipts 1,500; shipments, none; best graces
steady others strong; natives, \$2.000,4 30;
sheep, 1,000.

The Evening Journal reports: Cattle,
Receipts 1,500; shipments, none; best graces
steady others strong; natives, \$2.000,4 30;
stockers, \$2.000,6.75; cows, \$1.500,8.50.

Hous-Receipts, 1,000; shipments, none;
market slow and lower; rough and common,
\$4.000,6.00; wethers, \$5.000,3.30; Texans, \$4.250,6.50;

SHEEP-Receipts, 200; shipments, 100; the market was quiet and unchanged.

Dewitt's Little Early Risers, best pills

Smith college graduated last year a class of eighty-three women, and its entering class this year has increased the number of students to nearly 700. An interesting feature of the college life is the substitution of "cottages," or separate houses, for the accommodation of its students. Each cottage accommodates from forty to sixty pupils, and is a most quiet and delightful little home, presided ever by a lady in charge.

DeWitt's Little Marly Misers for the liver.

THE SPECULATIVE MARKETS

Wheat Ruled Dull and Lower, with Much Bearish News.

LOCAL BEARS SOLD QUITE HEAVILY.

Closing Cables Showed No Improvement and it Now Looks as if Europe Had Become Indifferent to Our Grain Crop Movement.

CHICAGO, Ill., Jan. 20.-Wheat ruled duil and lower today. The news was nearly all bearisb; local sentiment was in accord with it, and the offerings were in excess of the demand. Cables were depressed and domestic markets tending downward. The export business for the week was nearly 1,000,000 bu. more than the week previous and the trade was figuring on an increase of 500,000 bu. in the visible supply. New York and St. Louis had liberal selling orders here and some of the largest local longs dropped their holdings through sheer discouragement. Pardridge and other local bears sold heavily for a time the purchases against puts and the covering by shorts who had a satisfactory profit absorbed the property very readily. But finally the continuous stream of offerings began to tell, and buyers drawing out, there began to tell, and buyers drawing out, there was a recession from early figures. Charles Wright was the largest individual buyer, covering a big line on which he has been short for a considerable time while Pargridge was by all odds the heaviest seller. McDougal, Schwartz-Dupee, Lozan and Milmine-Bodman each covered considerable wheat put out at the relatively high prices which ruled early in the week.

each covered considerable wheat put out at the relatively high prices which ruled early in the week.

There was some talk of good buying by strong local cap talists, who, it was reported, were taking wheat on all of the breaks, but it did not appeir that their operations were important. On the break Gifford, liately Bros., Mitchell and some of the private wire houses, were good buyers, largely, it was thought, to cover short sales. Closing cabies showed no improvement, and in the open opinion of some dealers it begins to look as if Europe had become indifferent to our wheat crop movement, as stocks everywhere abroad are said to be unusually large and the average price for the week do lower. The foreign situation, as indicated by late cables, caused renewed sales and increased weakness. May opened by lower at 1912c, which proved to be the highest price of the day, worked slowly off to 904c. firmed up a little, weakened to 905c, strengthened on covering by shorts near the close, but closed easy at 1904c.

Corn shows considerable firmness in the

covering by shorts near the close, but closed easy at 1954c.

Corn shows considerable firmness in the early part of the session in spite of weak cables and selling by Pardridge, but it weakened later in sympathy with the weakeness in wheat and provisions. Shorts were not going much in the way of covering while some of the late buyers were liquidating freely. May started \(\frac{1}{2} \) lower at 4\(\frac{1}{2} \) c.

Onto weakened to 40\(\frac{1}{2} \) cand closed at 4\(\frac{1}{2} \) c.

Onto were quiet and easy, May shows a loss of \(\frac{1}{2} \) c.

Hog products were lower on the larger re-

of 4c.

Hog products were lower on the larger receipts of hogs than expected and a decline of from 5c to 10c at the yards. The weakness in grains was also felt sympathetically, though there were several little railies during the session and the close was at a loss of only 5c in pork, from 5c to 7c in lard and 24c in ribs. Estimated receipts for today: Wheat, 130; corn, 250; oats, 181 cars; hogs, 36,000 head.

New York Dry Goods Market.

New York, Jan. 30.—Business in dry goods dispiayed few new features, being a short day the general movement was relatively quiet. Prints were in fair demand and tone very stronz. The Merrimac shirting prints will be advanced on Monday to 4½c and furniture Merrimac fast black satins will also be advanced ½c. The duplicate request for spring and summer specialties generally tends to more activity and February is looked to as probably bringing out a strong demand. Staple cottons were more quiet, but a good many small orders kept the position materially unchanged. New York Dry Goods Market,

Traders' Talk.

Chicago, Ill., Jan. 30.—Counselman & Day to Cockrell Bros.: Wheat stood up wonderfully well today and closed but \$\frac{1}{2}\$ clower in the face of. not only very disappointing cables and heavy selling, but the singular fact that not an item of news received tended toward staying the declime. The market appears so well pegged at 90c for May wheat that many operators have became suspicious of bull manipulation and hence puts are fully 1.50.00c at from 90%c to 90%c were not used, although the closing price was \$\frac{1}{2}\$ below that figure. Corn and oats averaged \$\frac{1}{2}\$ clower in sympathy with wheat. Speculiators were not inclined to make ventures and the market was left to scalpers. Provisions ruled lower under considerable selling for country account but packers took the cheap lots offered and the market reacted to about opening prices. At present figures opinions are divided and operators generally are scalping the market on quick turns.

Chicago, Ill., Jan. 30.—Kenneth, Hopkins & Co. to S. A. Whichorton: Wheat has been heavy all day and the disposition of traders to even up deais over Sunday. Large purchases by Pardridge absorbed the long stuff that came out on stop loss orders, and prevented marked weakness, but the trade is now too narrow to withstand the bearish influence of the panicky feeling abroad. Today's cable has been rather weak. Receipts at primary markets for the week have increased 300.000 bushels. Exports of corn for the week have been over 4.500.000 bushels, a considerable increase over the previous week. Receipts at primary markets have failon off largely. The visible supply may show a decrease on Monday which may also have its influence. Both grains have been easier in sympathy with other products but they have a healthy look for higher prices eventually. Provisions have not yielded much in consequence of a weaker hog market. The feeling is apparently getting stronger and it is hard to keep prices down. They fall off occasionally but recover easily.

Financial Review.

New York, Jan 30.—The Post says: Despite its duliness the market was not without features of interest. Many of the smaller room traders, under the impression that the movement in the dividend payers was over, spent the forenoon nosing about the garbage of the stock list endeavoring to follow the manipulated declines in distillers trusts and kindred specialties—by courtesy called securities. Yet at this time a standard dividend paying stock was scoring a rapid advance of nearly seven points. The eagerness with which investing capitalists, including at least one well posted financial institution, hurried to get in to this stock at half price when the news of last night's increase in the dividend became known, was a fresh and useful commentary on the character of the forces which and earlie the present market. The speculators made very little out of the advance, for the directors and their associates, who were themselves uncertain about the dividend until it was actually voted, had the market filled with orders at the opening. Financial Review, the opening.

STOCKS AND BONDS.

There Was No Apparent Support to the Stock Market. New York, Jan 30.—The stock market today was nothing but the fag end of the week's speculation and considerable weakness was seen in all portions of the list. There was no apparent support to stocks, even those which are known to be under the care of cliques and a marked dearth of commission house buying, encouraged the bears to again attack the encouraged the bears to again attack the most vital points, which is also aided by the literal selling, apparently for foreign account. The stocks which have an international market, however, were not the largest sufferers, but those which have made the most pronounced gains of late. The banner weak stock still continues to be distillers and today many stop orders in it were uncovered, with the effect of dropping the stock in the early dealings 25 per cent. The bears sold the grangers freely, but only

Omaha showed any material impression, and the selling of Atchison, which was specially marked sufficed only to depress the attock a fraction and largely increase the amount of business done in it. The same may be said of Louisville, which was the next most prominent mark for their drives.

Consolidated Gas made a sharp upward spurt, the action of the directors in raising the rate of dividend from 5 to 6 per cent and making it payable quarterly instead of semi-annually furnishing the moving power. The stock opened up 1 per cent at 105 and rose to 1114, closing at 1115, a sain of 6% per cent. Distiliers railied handsomely in the late dealings, but closed with a material loss. The bank statement with list further large gain in cash and deposits seemed to have no effect whatever, but covering of operations clused a slight railly in the final trading which closed the market firm at a shade better than the lowest prices. The losses of importance were: Distillers, 1% per cent; Atenison, 1% per cent; Omaha and Cotton Oil, 1 per cent each.

London Stock Market. London Stock Market.

[Copyrighted 1832 by James Gorton Bennett.]

London, Jan. 30.—[New York Herald Cabie
—Special to The Brel—This has been an unsatisfactory day on the Stock exchange. The
markets were mostly more or less excited, owing to the liquidation of a large outstanding account in connection with which
ugly relations are expected. Americans continued to be sold in connection with the account above referred to, While this
goes on there is no disposition to support the
market so that prices dropped until a general
decline was established, including 1½ percent
in Lake Shore. ½ per cent in Louisville &
Nashville and a sharp fraction in the others.
Canadian lines were very little dealt in.
Canadian Pacific opened lower, but closed
with a small improvement. Grand Trunk
preferred and guaranteed stocks were a trifle
worse. Mexican ordinary preferred yielded
to a moderate extent. Money was more
wanted. For short loans from 1 to 1½ per
cent was charged. The discount market continued quite, with two and three months' bills
unchanged.

CUTTING DOWN THE SALARIES

County Commissioners Catch the Retrenchment Idea and Act Accordingly.

SUPERNUMERARIES TO BE DEPOSED

Mr. Stenberg Sets the Example by Declining to Receive Pay Which He Never Worked For_Other Routipe Matters.

The county commissioners have caught the idea of retrenchment and reform. With this idea in mind they expect to prune around the edges to an extent by which the county will save several hundred dollars each

Judge Stenberg was the member to take the first step in this direction. He entered upon the discharge of the duties on January 6. The salary of the office is \$150 per month, or \$5 per day. At the meeting held this afternoon the monthly appropriation sheet came up for passage. Auditor Evans had made out the sheet and inserted \$150 as the amount due Commissioner Stenberg in full for his services during the month of January. When the item was read, Mr. Stenberg said that it was not correct. He had served the country but twenty-four days and consequently was not entitled to thirty days' pay. The appro-The salary of the office is \$150 per month, not entitled to thirty days' pay. The appropriation sheet provided for the payment of \$30 to which he could lay no claim.

There being no objection, the sheet was corrected and passed, Mr. Stenberg being

allowed \$120. Following this there was a resolution adopted that will be of more than ordinary interest to the various employes about the

offices in the court house.

The resolution declares that in most of the offices there are more clerks and assistants employed than are necessary for the transaction of the public business. They are paid extravagant salaries for sitting around and looking at each other. In fact many of them have nothing to do except the discuss the weather. to discuss the weather and crack-jokes, one with another.

Judge Stenberg stated that he had had an

idea that the facts were as embodied in the resolution, and therefore could see no reason why it should not be adopted. The other members were of the same opinion, and on Monday at 2 p.m., the board will sit as a committee of the whole, at which time

the heads of the various county departments will be called in to explain the duties of the respective offices. At the same time they will be called upon to state just how many cierks they actually need. At that meeting the salary question will be brought up for discussion, with a view to a reduction in some of the departments.

Bids and Contracts. The bid for ice for the county hospital was at the rate of \$1.50 per ton. It was referred. There were six bids for printing blanks and furnishing stationery supplies. They were from Henry Gibson, the Festner Printing company, the American Job Department company, the Pokrok Zapacu, the Omsha Printing company and the Rees Printing company. They were all referred to the company the on figures. committee on finance. The contract for constructing the pile bridge over an arm of Cut Off lake was awarded to H. B. Mayo at \$4.86 per lineal

The old claim of J. C. Root for grading State street in Florence was settled by allowing Root \$178 and assessing the balance due against the prope; abutting the street.
County Clerk Sackett was authorized to

employ six male clerks at \$75 per month each, and one female clerk at \$75 per month to work upon the tax list for 1892, the work to be completed by April 1, next.

Homer G. Ebe presented his resignation as constable of West Omaha precinct. The

resignation was accepted.

A petition asking the appointment of John C. Dingman to fill the vacancy was presented together with a protest against Ding-man's appointment. The whole matter was referred. Judge Eller filed a petition in which he said that he needed six clerks to keep up the

business of his office. Henry Elbert asked to be appointed con stable of Fiorence precinct. The application

was referred.

The transmississippi congress notified the board that it would be entitled to one member at the meeting to be held in New Or-leans. Chairman Timme was authorized to appoint a delegate.

That Seymour Park Road. Dr. Miller forwarded a communication to the board notifying it that the county was using a road in Seymour park without authority having been obtained.

The report of T. A. Megeath, registrar of deeds, for the year 1891 showed the following: Recoipts, \$18,462.15; expenditures, \$14,321.73; total surplus for the year, \$14,140.42. Credit by amount turned into the county treasury, \$880.45; balance on hand, \$3,259.97.

A resolution was adopted by which in the future all applications to fill vacancies must be accompanied by an afficient showing that the would-be applicant is a resident of the precinct in which he desires to be appointed. The resolution instructing the county clerk to ask for bids for publishing the delinquent tax list for 1892 was referred to the commit tee on finance.

The clerk of the board was declared to be

structed to serve in that capacity. Constipation poisons the plood; DeWitt's Little Early Risers cure constipation. cause removed, the disease is gone.

clerk of the committe of the whole and in-

VICTIM OF RECKLESSNESS.

An Italian Peddler Dangerously Hurt in Collision on the Street. Philip Carioto, an Italian fruit peddler, was very seriously and possibly fatally injured at noon yesterday in consequence of the criminal carelessness of two unknown young

Carioto was driving north on Sherman Carioto was driving north on Sherman avenue, and when near the corner of Grace street the young men drove up behind him in a spring wagon. They were driving at a high rate of speed, and made no attempt to avoid the peddler's wagon, into which they crashed. Carioto was thrown out and run over by the other vehicle.

Both horses were thrown down, and while the spectators were husy straightening out. the spectators were busy straightening out the tangle the reckless drivers fied. Their norse was taken to Snyder's stable, but the

owners soon afterward stole back and took it away when attention was centered on Carioto, who was unsconscious. The young fellows left their wagon behind them, and it is in the hands of the police, who hope to discover its owner, and thus ascer-

tain the identity of the guilty parties.

Carioto was taken to the police station,
Drs. Towns and Somers attended him. He
was very weak and unable to talk, and he
was ordered removed to the Methodist hospital. The nature and extent of his injuries

DeWitt's Little Early Rusers. Best little pill ever made. Cure constitution every time. None equal. Use them now.

JUSTICE'S BUSY WEEK. Seven Courts and a Grand Jury Will Begin

Work on Monday. At the court house everything is in readiness for the February term of the district court, which opens next Monday morning. Clerk Moores has completed his dockets

and now has them in hand, to be distributed

among members of the bar. These dockets furnish any amount of interesting matter for the perusal of the lawyers and their clients. They show that there are 2,480 cases for the consideration of the seven judges. Clerk Moores has added one new feature which he thinks will aid the lawyers to some extent at least. Heretofore the dockets have contained the cases in numerical order, without any reference to the judge before whom they are set for trial. At this term of court each case on the court

docket has a number corresponding with the number of the room in which it will be heard.

The judges and rooms have been assigned as follows: Judge Davis will occupy No. 1 in the court house, where he will look after all criminal matters. Judges Ferguson and Keysor will occupy court rooms two and three, respect-

ively, presiding over the law docket. In The Bee building, Judge Doane will occupy room No. 4, where he will preside over the law docket. Judges Irvine and Hopewell will occupy rooms 1 and 2 respectively, looking after equity matters. Judge Scott will look after the courts in the outside counties of the district, and if he has any spare time, he will relieve the other judges by hearing motions and issuing orders.

Aside from the routine business, the February term promises to be an interesting one

Aside from the routine business, the February term promises to be an interesting one as a grand jury will report for duty upon the convening of the court. Twenty-three names have been drawn, but only eighteen men will be required to serve. Upon receiving their instructions from Judge Davis, the grand jurors will repair to the grand jury room, on the second floor, in the north east corner of the court house, select their foreman and go to work.

to work.

As yet, the matter has not been discussed, but it is thought that either Joseph Barker or Samuel Orchard will be appointed fore-

man.

Just what will be brought to the attention of the grand jury is not positively known, though it is said that the members will be called upon to investigate the question of the grading of South Thirteenth street and how the county funds were used in that connec-tion. After disposing of that matter the eighteen men will bend their energies in looking into some of the deals that were handled by the last city council. The awarding of the contract for furnishing the city hall furniture will not be neglected. Then the members will take up and look into the Ballou electric light deal, in which several councilspectric light deal, in which several councilnen cut quite a figure. The bogus check for
\$500, given to ex-Councilman Madsen, chairman of the committee on gas and electric
lights, by Mr. Ballou, will not be forgotten.
When these matters have been disposed of
the juvors will try and learn if any councilmen have been guilty of either disposite or inmen have been guilty of either directly or in-directly furnishing material or entering into

contracts with the city.

The saloon-keepers within the two-mile limit who have been selling liquors without contributing to the treasury for permission to so do, will probably be touched up to come

De Witt's Little Early Risers; the only pill to cure sick headache and regulate bowels. LINGER LINGERED LONG.

His Watch and Cash Were Appropriated by His Disreputable Friends.

August Linger, a Norwegian farmer, lingered too long in the vicinity of Tenth street and Capitol avenue Thursday night. He was engaged in the pleasurable pastime of flicking the flies from the elephant's ears, and as he had redtop and timothy in his whiskers he failed to come out a winner.

Linger sojourned in a wine room with H.

Bedford, Agnes Donnelly et al, and while he sojourned his watch and \$40 in cash went out into the night. They never came back, and that is why Mr. Linger occupied the witness his brief but eventful acquaintance with Agnes and Mr. Bedford.

Agnes and Mr. Bedford.

The woman finally admitted to the officers that the property had been stolen and by her aid the watch was recovered. Both the defendants were held to the district court in the sum of \$300 each, and in default went to tall.

to jail.

Evidence was introduced to show that Bedford was a procurer from Grand Island, and had sent several girls from this city to that place for immoral purposes. If he escapes conviction on the charge of grand larceny, a complaint of another character will be filed against him.

According to Bedford's own story he has a According to Bedford's own story he has a

very unsavory record. He says that from December, 1830, until a short time ago he was in jail in Grand Island on a charge of incest with his 14-year-old daughter, and that he was finally released because of the disap pearance of the girl. Bedford says that his brother was arrested for being concerned in this spiriting away of the witness, but nothing was proved and he claims to know nothing about his

daughter's present whereabouts. A very small pili, but a very good one. De Witt's little Early Risers.

FELL FOURTEEN FEET. A Workman on the City Hall Seriously In-Jurea This Morning. Phillip Piles, a carpenter employed upon

the city hall, met with a severe and painful accident at noon yesterday. stand yesterday and told Judge Berka of Mr. Piles was in the court for the purpose of securing a piece of timber to dress into a his foot slipped and he fell to the basement, a distance of fourteen feet, striking his right side upon a pile of brick and lumber.

A physician was called, who pronounced the bruises severe. No bones were broken. After the wounds were dressed the sufferer was conveyed to his home at 2924 Charles

street. No gripping, no nausea, no pain when De-Witt's Little Early Risers are taken. Small pill. Safe pill. Best pill.

Poodle Fashions. There is a code of fashion in relation to the garments worn by ladies' pet dogs, says the New York Sun. Its latest edict. in regard to canine fashions set forth that at breakfast only a single garment of blue or white flannel should be worn, and a collar at this hour of the day is considered vulgar. For the morning walk a close-fitting coat of striped or spotted English cheviot with a mantle well covering the chest is correct, with a leather chain and collar of antique silver. For the afternoon drive the costume is of blue or fawn cloth, with collar of velvet hung with tiny medallions. and for evening dress the pet is arrayed in a gown of velvet richly embroidered, and has the family crest embroidered on

his collar. DeWitt's Little Early Risers; best little
