THE SPECULATIVE MARKETS

Closed at Bottom Figures. LONGS WERE INCLINED TO LET GO

Cables Also Brought Lower Quotations and Foreigners Were Said to be Selling Generously at the Scaboard-Stocks and Bonds.

CHICAGO, Ill., Feb. 2 -- Wheat declined nearly all day and closed easy at bottom figures with a loss of 1%c on May, the active future compared with yesterday's last prices. Be-sides being weak the market was duil. About all of the news was unfavorable to holders. Longs were generally inclined to let go Cables also brought lower quotations and foreigners were said to be selling generously at the se aboard. The receipts in the northwest were liberal and the weather in the southwest was moderating. There was a good deal of buying at the start around 93c but it did not take- long to satisfy the demand and as the offering continued liberal, weakness soon ruled. The ou-passage were sellers showing a decrease of only 80,000 bu. in wheat and flour during the week where 630,030 to 800,000 bu, had been expected and export clearances were left light. Pardridge who had been a good buyer at 90c soon found that bad been a good buyer at 90c soon found that he was getting it too easily and oulckly drew out, hurried cround among his brokers and canceled all buying orders; he then put his earlier purchases aloon the market and fol-lowed it up with liberal selling. The tallers soon got in his wake and as the market went off stop loss orders and liquidation helped the down turn and May, which opened at 90½ agains; 190½c at the close yesterday, soon de-clined to 80½c. There was rather free cover-ing by shorts at the decline and some invest-ment buying with a reaction to 89½c. The market weakened again on free selling dur-ing the last hour and closed easier at 89½c. Late cables showed some advance in Berlin

market weakened again on free selling during the last hour and closed easier at 89½c. Late cables showed some advance in Berlin but Parls was lower.

Corn was fairly active and showed a good deal of strength. The liberal export movement, the brisk eastern and New England demand and the continued poor grading were all strong factors. Short sellers were showing a good deal of concern and a general inclination to cover. One of the notable features of the market was the strength displayed in the near futures which are very close to May. This is because of the continued poor grading, causing fears of a searcity of grain to fill nearby contracts, in fact there are fears of a natural corner. Of the 372 cars of corn inspected in store today not one graded contract; out of 2.110 cars during the last ten days, and only ten have been contract. As a result of this condition of affairs. February shows an advance of ic over yesterday's, closing within %c of the top figures; while May closed unchanged, after having been %c higher. The advance was steady with very little reaction. Oats were quiet, steady and without feature. The rather smaller stocks of provisions than

were looked for gave hog products temporary strength this morning, but free offerings caused the market to weaken afterwards. There were sever: I narrow fluctuations later, leaving pork unchanged. Lard is 5c lower and ribs. in which the stocks showed the greatest diminution, 7% c higher.
Estimated receipts for tomorrow: Wheat, 150 cars; corn, 200 cars; oats, 132 cars; hogs, 33,000 head. The leading futures ranged as follows:

CRICAGO, Iil., Feb. 2.—Counselman & Day to Cockreil Bros.: Wheat was very heavy all day and, in fact, dragged surrounding markets down with it. Several millions bought locally for both long and short account were thrown overboard on disappointment in the decrease affoat. Further depression in foreign markets kept off buvers, and opening prices were at the top and closing figures at about the low point, with the feeling still weak. Corn was strong and no contract graces among the receipts. Free buying by shippers would probably have closed it higher except for the heavy tone in the wheat market. Outs and inrd were dull, narrowin range and neglected by operators for more active articles. Pork and ribs were in sharp demand from packers who preferred buying manufactured product to paying the fee to lise advance asked for poor hogs on sale today. The closing downturn was on room traders selling asympathy with wheat. The stocks of park closing downturn was on room traders selling in sympathy with wheat. The stocks of pork and lard were about as anticipated, but ribs were about 10,000,009 pounds under the esti-

CHICAGO, Ill., Feb. 2.-Logan & Co. to J. Sands Commission Co: Cables showing only small decrease of wheat on passage, notwith

Chicago, Ill., Feb. 2.—Logan & Co. to J. Sands Commission Co: Cables showing only small decrease of wheat on passage, notwithstanding small amount put affoat was the first disappointment for the buils. Light clearings, light demand for cash, with drooping cables, added another burden, and when the price declined below 9:c without any special buying at that figure many gave up and there was considerable liquidation which closed the market at the bottom. The fact that so fixed a price should be reached and passed without finding many orders and the further fact that wheat now is in new ground, so to speak, on its bearish travels makes more of the trade favorable to the view that a further decline is imminent. Nearby futures in corn were firm early on soft weather, which caused some cornering. Provisions were soid by packers and closed at the lowest price for the day.

Chicago, Ill., Feb. 2.—Kennett, Hopkins & Co. to S. A. McWhorter. Longs in wheat were badly disappointed over the "on passage" figures. There were good grounds for expecting a large decrease, but as on many previous occasion the figures were wide of the exportations. Cables were lower than expected. Clearances light, receipts of primary markets rather more liberal and longs ready to sell out if the price should break below that figure the crop seemed to be for saic and the price went instantly to 89½ on stop loss orders, the wheat generally going to fill short contracts. The short interest must have been materially reduced, which adds to the weakness of the situation. The market closed heavy, the lowest prices on the crop having been made. An effort to buy February and March corn resulted in advancing those months about &c. Owing to the fact that receipts contain little or no contract grain, restricting sales for nearmonts. May sympathized moderately with the advance. There is less disposition to pound corn and oats and more confidence in prices. Provisions have raised firm most of the day. The published stocks were quite as large as anticipated, bu

STOCKS AND BONDS.

There Was a Decrease in the Volume of Business Yesterday.

NEW YORK, Feb. 2.- Dealings in the stock market continue to show a decrease in the volume and the activity tends to restrict itself for the present to spots which are paid special attention to by the shorts and the bears. London was a factor in the market during the morning hours and the seiling was free in the specialties in which that center is interested, and while there was a suspicion that the lower figures sent from London before the opening here were received this side of the water, it seemed to have no immediate influence on the speculation. Later in the

day the covering of the sborts became more pronounced, but all through the day the buying was seen to be of a much better character than the selling, and with the professionals ranged on the side of the lower flures and investors on the other, alded by the scare of the shorts though a decidedly strong temperature developed in the final trading. The feature of the late rise was Western Union which continued its advance with a constantly increasing business and at the close it was the most active stock on the list. The buying was believed to be stimulated by the insiders. The selling of Louis ville in the forence was not in large proportions and the impression made on the stock was no greater than that in any other part of the market, the concessions under the free covering being alike in all cases after the opening losses, which amounted to 1% per cent in New York Central and large fractions in Union Pacific and Erie.

The demand in the loan crowd was very marked and the selling at the opening was soon seen to be for the purpose of buying stocks in different portions of the list so that the temper of the market soon changed for the better while the advances in the forence were light in all cases, except Distillers which was suddenly advanced to per cent in the

were light in all cases, except Distillers which was suddenly advanced 2 per cent and as quickly let off over 1 per cent. The movements in this stock, however, falled to affect the rest of the market and the old industrials ments in this stock, however, failed to affect the rest of the market and the old industrials were stronz, Sugar rising 2 per cent on small transactions. As the afternoon were along the seiling became less and less and the market drifted into positive duliness which at one time became quite oppressive. The hour, however, was marked by the awakening of a new demand, the shorts becoming especially eager in view of the strength in Western Union, while the built points affect were of the most discouraging nature to the bears. The fear evidently was that the Gould interests had entered upon a campaign for higher prices, and the shorts ran to cover in all parts of the list. The demand saw no abatement up to the final sales, and the market closed fairly active and strong at the best figures. Western Union shows a gain of 2 per cent, Distillers 1% per cent and Sugar 1% per cent, while other changes are in most cases fractional gains.

Financial Review

New York. Feb 2.—The Post says: The most noteworthy movement in any standard stock during the forenoon was in Louisville, which the bears are handling in a very gingerly fashion and which advanced materially on the appearance of a few buying orders. The caution of the bear leaders in this and other quarters arose from their absolute failure to catch stop orders in the course of their experimental attacks on prices. In the afternoon they gave up the attempt and left the market to raily. A demonstration of great strength in Western Union late in the afternoon stirred the general market into increased activity. There were various special explanations for this sudden advance in Western Union, but the chief cause was easily found in the prompt support given to any dividend paying stock the moment it shows activity. Outside of Western Union the recovery in the general market was New York. Feb 2.-The Post says: The most Union the recovery in the general market was

* bld. + nsked. London Stock Market.

[Copyrighted 1892 by James Gordon Bennett.]

London, Feb. 2.--[New York Herald Cable—Special to The Bez.]—The stock markets were again gloomy and depressed today. There was no speculation and little doing. Even sharp investment business realizations continue to be made partly on account of the estates of deceased owners. Calls on securities were not fully paid up, largely owing to vague fears which help dishearten disappointed speculators for a rise. The last prices, however, were not the worst. Americans have been on the verge of a panic, the heavy seiling in some quarters, which, however, has since been explained, causing a rush of frightened holders to close out and bringing about a serious general fall in prices. During the latter part of the afternoon, however, a complete change for the better came over the market, it closing distinctly firm, but prices had not fully recovered the fall so that the general decline established ranged from 4 per cent to 114 per cent. [Copyrighted 1893 by James Gordon Bennett.] recovered the fall so that the general decline established ranged from \(^4\) per cent to 1\(^4\) per cent. The lead was taken by Union Pacific and Grand Trunk. Mexican railways receded on respective traffic returns. Rupes paper declined from \(^4\) per cent to \(^4\) per cent, silver closing flat at \(^4\).9-\(^6\)d, which is the lowest price ever touched. Consols left off unaltered. Money was in fair demand, this being pay day in consols settlement. Call loans were quoted at from 1 per cent to 1\(^4\) per cent. Bills were again very scarce, but the rate on three months bank paper was maintained at from 1\(^6\) per cent.

Omaha's Trade in Cattle Weak-Hogs Ac

Omaha's Trade in Cattle Weak—Hogs Active and Higher.

OMAHA, Feb. 2.—Two days' receipts foot up 3,973 cattle, 12,452 hogs and 1,147 sheep, against 3,714 cattle, 13,291 hogs and 2,202 sheep for the same two days last week.

The general cattle market was dull and weak with sales very uneven. Of the entire offerings a very small proportion could be called really good, at least good enough for shippers. On these, there being some competition, prices showed no particular change and were quotably steady. On all ordinary grades, however, prices were weak to a dime lower than Monday, Good 1,200 to 1,350-lb steers sold for \$3.65 to \$4.05. Fair to good 250 to 1,151-lb steers from \$3.25 to \$4.60 and common light and rough stuff around \$3.00 to \$4.25. The dullness prevailing here is but a reflex of the conditions existing at castern market centers, the shipping demand being curtailed and local killers having practically a clear field.

The better grades of butcher stock sold at strong prices but there was no quotable improvement in the medium and common class of stuff. Prices were substantially the same as yesterday and the trade was moderately brisk. Good to choice cows and helfere sold from \$2.65 to \$1.10, fair to good stuff from \$2.25 to \$2.00. Common and inferior lots sold largely at from \$1.25 to \$2.00. Bulls, oxen and stags were steady at from \$1.50 to \$1.00 for poor to choice veals.

Stocker and feeder prices were strong although the volume of trade was imited. Fair to good stuff weighing from \$0.00 to 1,080 lbs, sold from \$2.92 to \$2.00. Representative sales:

Hogs—The run was not too liberal, but with only a moderate shipping demand the opening was not very lively and bids were barely steady at Monoay's decline. Shipping orders were light and it looked for a time as if local buyers would take advantage of this fact and and pound prices. Early trading was very slow, but as more favorable reports began to arrive from other places and it became apparent that receipts would not be excessive there was a stronger tone to the trade and buyers all raised their hands and business from this on was brisk at prices fully 5c higher than the opening. The best heavy hogs, and there were more good heavy hogs here than for many a day, sold at from \$4.25 to \$4.30, with one load of "peaches" at \$4.35. Common heavy and mixed packers sold at from \$4.15 to \$4.20, with light and light mixed loads from \$4.15 to \$4.25. Some very common light lots went at from \$4.25 to \$4.03. Trading was active at the advance, and the pens were cleared at a tolerably early hour, the bulk of the sales being at from \$4.15 to \$4.30, against from \$4.15 to \$4.25. Monday. The average cost was \$4.215, against \$1.854 Monday and \$1.25 last Tnesday. Representative sales:

DENVER, Colo., Feb. 2.—The following list is the closing quotations on the Mining exchange today. Sales 32,200. Receipts and Disposition of Stock, Official receipts and disposition of stock as shown by the books of the Union Stock Yards company for the twenty-four hours, ending at 5 o'clock p. m. February 2, 1892.

RECEIPTS. CATTLE | ROGS. | SHEEP. | RORSES & M'LS SAN FRANCISCO, Cal., Feb. 2.—The official closing quotations for mining stocks today were as follows:

Chicago Live Stock Market,

Chicago Live Stock Market.

Chicago Live Stock Market.

Chicago, Ill., Feb. 2.—[Special Telegram to The Bee.]—Sellers of cattle today experienced a slow and unsatisfactory market. The light receipts served to prevent any further sagging of prices, but there was not enough vitality in the demand to give the market even the appearance of firmness. Local butchers and commissioners bought with some liberality while the eastern demand was weak. The somewhat limited proportions of the supply made it bossible for sellers to make a good clearance, and the close was steady at from \$1.25 to \$1.00 for infarior to choice cows. \$1.50 to \$1.50 for poor to extra bulls. \$1.73 to \$1.65 for stockers and feeders and at from \$3.00 to \$5.50 for common to extra dressed beef and shipping steers. Extra cows sold at from \$3.15 to \$5.50 and a 1.000 bull fetched \$4.00.

There were about 43,000 hogs received yesterday while today scarcely 27,000 arrived, consequently there was a reaction in the tone of the market. The fact that the weather was wet and mild did not check the ardor of buy-ters. Bnyers were into the pens early and by the middle of the forenoon had about all the hogs bought up. They paid from \$4.30 to \$4.55 for poor to extra assorted heavy weights and from \$4.10 to \$4.50 for poor to prime light, an advance on vesterday's quotations of from 5c to 10c per 100 lbs. The offerings averaged much better than for Monday and there were few transactions below \$4.35. The range at which most of the stock was weighed was from \$4.35 to \$4.55 to 11ght and from \$4.50 to \$4.05.

The sheep market was not a whit more active than before, but owing to the big drop in the receipts (and about 4,000 arrived today) holders were not required to make any further important price concessions. The fresh and stale lots were closely hought up on a specie of free \$1.50 to \$4.05. quired to make

aired to make any further important ere closely bought up on a basis of from o \$5.30 for poor to choice sheep and from \$4.00 o \$6.25 for lambs. Receipts were: Cattle, 7,000; hogs, 27,000; sheep. 4.000.

The Evening Journal reports: CATTLE -Receipts. 7.000; shipments. 2.500; market steady; good to choice Steers. \$4.5025.00; others. \$3.00@1.15; stockers. \$1.85@1.85; cows sheep. 4.00

WANT AN OMAHA CONTRACT. Denver Stone Men Want a Share of the Post-

office Work. There was a delegation of Denver contractors in Omaha yesterday. They came down out of the rare air of the Rockies for the pose of inspecting the plans and specifications for the new government building here so that they could but in bids for the work They will probably bid on the granite work The Denver men were J. D. McGiloray, Robert Finiay, James Carson, David Scelie and R. W. Ross, representing four of the heavy contracting firms of Denver. They visited the office of the disbursing agent, Collector Peters, at the postoffice building and examined the plans carefully, getting an estimate of the amount of stone that will be required for the new structure. Mr. McGiloray is a supervisor and Mr. Fin-lay a councilman of Denver, and they are in-

terested in gathering data concerning muni cipal expenses of Omaha.

The party visited The Bee building with Councilmen Lowry and Elsasser and Richard

When anything stands a test of sixty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady, increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of Brandreth's Pills, which, after a trial of sixty years, are conceded to be the safest and most effective purgative and blood purifier introduced to the public.

That this is the result of merit, and that Brandreth's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar
