

CUTTING DOWN SALARIES

Mayor Bemis Gives a Sample of His Retrenchment Policy.

NO USE FOR HIGH-PRICED PLUMBERS

Much Important Business Transacted by the City Council—Getting Ready to Commence Public Works—Notes of Last Night's Meeting.

President Davis with his usual vigor pushed along the business of the council and at 10 o'clock the deck was cleared.

As soon as the seventeen members who were in attendance had responded to their names Mr. Chaffee moved that the resignation of J. H. Dumont, street commissioner, be taken from the table.

The motion was seconded by another motion by Mr. Chaffee to accept the resignation of Mr. Dumont. Like the former motion this one prevailed and the office was declared vacant.

Mayor Bemis vetoed the reform ordinance relating to the plumbing department. He thought the ordinance was not in the interest of reform and efficiency.

Reports from the old city officers were received and placed on file. Chairman Birkhauser of the Board of Public Works stated that he had requested the Union Pacific to construct a stairway at its crossing over Twentieth street.

The mayor nominated J. H. Winspear for street commissioner. The appointment was seconded by Mr. Chaffee and the bond approved. John H. Butler was appointed license inspector and special agent for the legal department.

P. J. Hoffman of Chicago sprung a sensation in a letter. He had sent a letter to Mayor Bemis in which he stated that the Metropolitan company used fraud in securing the contract for vault fixtures.

Printing Contract Awarded The Bee. The contract and bond of The Bee to do the city printing for the ensuing year was presented and read.

Mr. Hitchcock in a letter stated that if the council would readvertise for the work he would print all notices for the Bee and would print the same in the evening edition free of charge.

It was evident that the council took but little stock in Mr. Hitchcock's proposition, for when the roll was called upon the approval of Mr. Bee's bond only two members voted "no."

The contract with J. W. Furnas & Sons to lay permanent sidewalks of Boren sandstone was referred to the Board of Public Works.

Mr. Specht was satisfied that the work had been performed. He thought the bill should be paid. Mr. Steele said that he understood that the city engineer had never complained to the Board of Public Works of the quality of work.

Mr. Johnson was of the opinion that if Squires was entitled to his money the bill should be paid. The council then voted to pay the bill.

The Board of Education asked for a conference with the Board of Public Works regarding the city hall.

The contract with the Metropolitan Street Lighting company was presented and approved. The contract provides for lighting the streets in the city of Omaha.

The contract with the Metropolitan Street Lighting company was presented and approved. The contract provides for lighting the streets in the city of Omaha.

The contract with the Metropolitan Street Lighting company was presented and approved. The contract provides for lighting the streets in the city of Omaha.

THERE WILL BE NO STRIKE

Union Pacific Grievance Committee Chairman Says So Very Positively.

WILL CONSIDER THEIR PROPOSITION

General Manager Dickinson Sends His Reply to the Committee's Request—No General Advance in Wages Will Be Made.

The Union Pacific grievance committee has received a letter from Assistant General Manager Dickinson in reply to their proposition of last week.

Mr. Dickinson says in that communication that the new schedule of wages submitted by the committee proposes an aggregate increase of many thousands of dollars.

The inference is that Mr. Dickinson is willing to take up the various divisions and consider each on its own merits.

There is no danger whatever of a strike, if there is such an impression it should be corrected, because it may unjustly injure the Union Pacific and it is liable to prejudice our cause.

There is no danger whatever of a strike, if there is such an impression it should be corrected, because it may unjustly injure the Union Pacific and it is liable to prejudice our cause.

There is no danger whatever of a strike, if there is such an impression it should be corrected, because it may unjustly injure the Union Pacific and it is liable to prejudice our cause.

LITTLE HOPE FOR THE EIDER

The Big Atlantic Liner Will Probably Go to the Bottom.

EVERYBODY TAKEN OFF IN SAFETY

A Hard Gale Blowing and the Rocks Found a Big Hole in the Vessel—Filling Her Full of Water.

London, Feb. 2.—A gale set in last night causing a heavy sea in the Channel, which added to the dangerous position of the steamer Eider on the Atherfield ledge.

The pumps on the Eider were kept working at full capacity and the sea kept slowly gaining, the water pouring through a hole in her side where the rocks had torn the iron plates.

The pumps on the Eider were kept working at full capacity and the sea kept slowly gaining, the water pouring through a hole in her side where the rocks had torn the iron plates.
