OMAHA'S PUBLIC PARK PLANS City Council Meets the Park Commission in a Joint Conference.

DR. MILLER EXPLAINS THE SYSTEM

He Shows What the Board Has Been Doing Toward Providing the City with Pleasure Grounds-Action Endorsed by the Councilmen.

The city council and the Board of Park Commissioners held a joint session in Dr. George L. Miller's office yesterday afternoon to discuss park lards and the levy for park funds.

President Davis of the council was elected to preside at the meeting. There were thirteen members of the council present and all the members of the Board of Pars Commissioners but Mr. Millard.

Dr. Miller was called upon to open up the subject for discussion. He gave a brief history of the park commission and of the work that had been done toward providing the city with a system of public parks. He spoke of the limited grounds devoted to park purposes owned by the city at the time the Board of Park Commissioners was appointed three years ago. The doctor referred to the deliberations of the board in selecting lands

deliberations of the board in selectic lands to be recommended to the council for pur-chase as suitable park lands. The Parker tract, the lands aujoining Bemis park, the Distin tract and the lands adjoining Elimwood park were all described by the doctor.

Got Back at Mr. Harbaugh.

The statement made by Mr. Harbaugh to the effect that the lands adjacent to Elmwood park could be purchased at \$200 per acre, while the Board of Park Commissioners acre, while the Board of Park Commission were were buying land there at \$700 to \$000 per acre, was vigorously combated by Dr. Miller. He read a letter from John N. Hicks, which positively contradicted the statement attributed to Mr. Harosugh. Mr. Hicks declared that the land in the vicinity of Elmwood park had not sold for less than \$500 per acre for many years, and that the park commissioners had purchased the lands

there very cheap. Ur. Miller supplemented the letter written

Dr. Miller supplemented the letter written by Mr. Hicks by saying that the park com-mission had endeavored to purchase lands just as cheap as possible, and that the lands adjacent to Elmwood park were cheap at the price agreed upon by the board. "Elmwood park has trees that are worth thousands of dollars," said the doctor, "abundant springs, grand spreading trees and land that has been shaped by the hand of nature for a public pleasure resort has there been secured."

The doctor grew very earnest and said he whated to repell and denounce any statement made in the newspapers or by anybody else casting any reflections upon the members of the Park commission.

"I know these men," said the doctor, "and I know that there is not a man on the board who would be guilty of a dishonest act in connection with the matter of purchasing park lands. I don't propose to sit here and permit any such talk to go without throwing it back into the teeth of the man who is mean enough to say anything against the good intentions of the members of the

board.' Looked Over the Maps.

Dr. Miller's remarks were heartily applauded. Then the members of the council and the park commissioners gathered about and consulted a map showing the a table various tracts recommended by the board. The councilmen appeared to be well pleased with the tructs of land recommended by the board.

The proposed boulevards were outlined on the map by the commissioners, and all agreed that the plans of the board were ex-

callers at the governor's office and it may be reasonably supposed that the conversation drifted to matters of a military turn. Gen-eral Vifquain was Governor Boyd's adjutant general and he will probably be reinstated in that important office very soon after Gov-ernor Boyd enters anew upon the duties of Mr. F. E. Mr. F. E. Holvey, postimator at Neoraska City, was among the politicians from out of town about the hotels. "I am not so much interested in politics as I am in business," said Mr. Holvey to a BEE reporter. "We are talking a good deal now about electric street railways in Nebraska City and a big manufacturing anterming that will give street railways in veoraska City and a big manufacturing enterprise that will give employment to not less than 250 men. Out-side capitalists are already figuring on the electric railway and it is practically accurate. assured.

Mr. Majors' Denial.

There was a rumor afloat yesterday to the affect that Lieutenant Thomas J. Majors was seen at the office of John

cations and nothing more." When the reporter asked Mr. Webster about the situation and whether or not Gen-eral Thayer intended to vacate prior to the arrival of the mandate, he said: "All rumors as to what General Thayer is going to do or as to what General Thayer is going to do or what I have advised him to do are more visionary fabrications, because neither of us have made any public announcement as to what would be our course."

Judge Miller Talks.

Judge Mat Miller of David City was in the city yesterday. The judge is a leading Butler county democrat and is jubilant, of course, over the termination of the Boyd-Thayer contest. He says the decision meets with approbation among democrats and republicans alike in his district, save a small faction of republicans whose party affilia-tions are stronger than their sense of jus-tice. Judge Miller says that the farmers out his way are holding their crops for higher prices, and consequently money is close and business a trifle dull. But there close and business a trine duit. But there is a most active demand for farm lands both from would be purchasers and pros-pective tenants. The outlook is full of promise and a feeling of confidence pervades all business enterprises

The total net or invested as-sets stand at \$3,384,437.05, against \$2,930,-178.90 last year, and \$2,200,108.80 was paid out in death claims. This makes the total

out in death claims. This makes the total death claim payments to December 31 over \$12,000,000. The cash income during 1891 from all sources was \$3,704,120.41, while for the year 1890 it was \$3,385,848.50, making a net increase for the year of \$315,277.55. The investment table shows that the asso-ciation holds \$2,287,900 worth of first mort-crease on New York properties, and Chair-

gages on New York properties, and Chair-man C. R. Bissel of the investment com-mittee says: "The \$2,287,900 of the reserve or amergency fund invested on bond and vour committee has es mortgage, and which your committee has one pecially to deal with, is on first class im-proved and paying real estate in the city of New York, and represents first mortgages at less than 60 per cent of its appraised value by the Hon. Michael Coleman." The report of the death claim department shows that during the year there were audited and raid 700 benefits, amounting to \$2,290,108,80, an excess of \$143,610.80 over 1800. This mortality showing compares 1890. favorably with previous years, when the enormous increase of business, about \$40,000, 000, is considered. The report of the auditor shows total net receipts, \$15,210,702,20; total amount of death claims paid, \$12,030,141.59; total cash reserve surplus, \$3,170,720.04. The business of the Mutual Reserve Fund Life association has extended into foreign counries, and this is one of the recent proofs of the success of the idea on which the asso-ciation is established. The gross assets increased during the year 1891 from \$3,850,178,90 to \$4,349,202.09, being an increase for the year within a fraction of The reserve emergency or surplus fund was increased during the year from \$2,772, was increased during the year from e. This amount will be still further increased by the apportionment of the December bi-monthly call, which is not included in the report. President Harper in his report said: "The work of another year is complete, and we enter upon the second decade of our history under even more favorable auspices than has over before existed. City Clerk Groves explains the situation by saying that the Hoffman company simply failed to bid in accordance with the adver-tisement. The bid was received in due form, but as it contained no check it was not considered.

Comptroiler Oisen, who was a member of Comptroiler Olsen, who was a member of the council at the time, stated that no check accompanied the Hoffman bid and for that reason it was rejected. The bids considered were as follows: The Specialty Manfactur-ing company, \$9,448.78, and the Fenton Metalic company, \$7,007.31. There was no collusion between the agents says the comp-troiler. The councilmen saw all of the samples and the Hoffman people were not in troller. The councilmen saw all of the samples and the Hoffman people were not in it, either on prices or quality of goods. AFTER THE GRIPPE.

The Grippe Responsible for More Deaths after Recovery than During its Course .- How to Avoid the Danger.

Grippe, in itself, is bad enough, debilitating enough, but it is the after effects, the slowness of recovery that give it its great danger. In most cases, the person did not have sufficient vitality to rally after the disease itself had passed. The forces of nature were too weak o contend with the debility which the Grippe had left.

It is sad to think how many people have died who might have been saved if nature had been properly assisted and fortified after the Grippe had been driven from the system Many physicians realized this fact, and assisted their patients over the dangerous after effects by bracing up and stimulating their systems. This was, and can be done in but one way, and that is by the steady and n od erate use of some pure yet powerful stimu-lant. There is but one absolutely pure and medicinal stimulant known to the profession and to the public, and that is Duffy's Pure Malt Whiskey. The most prominent scientists and physicians of the land endorse its purity and value. It is not a new whiskey, it has been before the public for years. It is not a been before the public for years. It is not a cheap decoction, but a pure distillation. It imparts a tone to the system possible in no other manner and sends the blood coursing through the voins with renewed vigor. Odd Suit Pants.

This week we hold our regular semi-annual sale of all the odd suit pants that have accumulated during the past season. This announcement will be read with pleasure by hundreds of our customers, many of whom have allowed the fringe at the bottom of their pants to form itself into a graceful pair of lambrequins while waiting for it. This sale is as different from the ordinary pant sale as black is from white. We buy no pants for it. We put no pants in it from regular stock at regular; marked up or marked down prices. We simply lay aside all the pants that accumulate from suits to match, where only the coats and vests have been sold, for a whole season, when we sort them into different lots, mark a price on them and put them on sale. At the prices we make on them they go with a rush. We are never compelled to mark them down a second time to dispose of them. The sale this time comprises something like two thousand pairs of pants, mostly from fine suits, as it is seldom we have to break a cheap suit.

At \$1.50 Hundreds of pairs of pants, in all wool and silk and wool cassimeres, cheviots, etc., worth from \$2.50 to \$3.

At \$3.50 Pants in beautiful goods, meltons, cheviots, tweeds, all wool, cassimeres, silk and wool cassimeres, homespuns, find worsteds, etc. Many a pair in this lot worth seven dollars.

At \$4.50 The very finest kinds of pants. Pants left from suits at \$20, \$22 and \$25. Pants that in a regular way would cost you up to \$8.

In these four lots you can find almost any color, style or pattern you happen to want.

Hall Vault Fixture Contract. The council committee on public property and buildings will now invostigate the charge of fraud preferred by H. J. Hoffman, secretary of the Hoffman Keiffe Office File company of Chicago in reference to the letting of the contract for vault fittings.

The old council asked for bids last August and after some delay the contract was let to the Fenton Metalic company, the bid being \$7.097.31.

Last night the mayor transmitted to the council the following lotter, which was accompanied by a communication from the Hoffman-Keeffe company: I herewith submit for your consideration and for such action as you may deem proper, a communication from P.
