NEWS FROM COUNCIL BLUFFS

Almost Fatal Result of a Quarrel Between Sweethearts. ZED BETHERS DRINKS WHITE VITROL.

His Life is Saved by a Stomach Pump - Mr. Lacy's Character Being Investigated - Society News, Religious Notes and Items of Interest.

Zed Bethers, a young man living in the western part of the city who has had more than his share of notoriety of late, made a large, though ineffectual endeavor to explore the great beyond last Friday, and has not yet succeeded in getting all of the results of his effort out of his system.

For some time past he has been actively engaged in winning the affection of Blanche Mulvaney, a girl 15 years of age, who lives with her father on Franklin avenue. His efforts were crowned with success, and the wedding day was set, although he was only about 17 years of age and without any very visible means of support.

The day before the wedding was to occur he decided to make an addition to his wedding outfit and appropriated a pair of shoes belonging to the janitor of the building, and he put on them the day before the wedding, and the wedding had to be postponed.

He has only been out of jail a few days, and Friday he got out in the morning with his sweetheart at the Mulvaney mansion on Franklin avenue. Some trifling dispute arose between them and Bethers went into the adjoining room, where he was seen to come out holding a bottle in his hand, from which he had drained about half the contents. He coolly informed the girl, who had done a lot of crying, that he had drunk a bottle of white vitrol, which he had bought at a drug store, and about to poison her with it.

Dr. Houghton was called and his stomach pump brought into requisition. After a contest of several hours between the doctor and the patient, the doctor pronounced the victim and Bethers was saved.

When asked whether he intended to kill his sweetheart he said he had no character for him when Blanche would not mind him, and he decided to bring her to a sense of her duty, even if it did cause him an abdominal pain or two. Yesterday, however, he came out holding a bottle in his hand, from which he had drained about half the contents. He coolly informed the girl, who had done a lot of crying, that he had drunk a bottle of white vitrol, which he had bought at a drug store, and about to poison her with it.
