FOUND AT LAST

After Years of Unsucerssful Search for a Cure, Martin Anderson Gets Relief from the Chinese Doctor-A Volantury Testi

OMAHA, Neb., Jan. 18, 1892. To whom It May Concern:

This is to certify that I have been a constant sufferer for many years with catarrh, asthma and bronchial affections of the throat, and tried all the patent medicines and remedies I ever neard of, but with no success. I treated with doctors in various parts of the country, but none of them could do me any good further than giving me short temporary relief. I suffered night and day, and continued to grow worse not-withstanding all the medicine I had taken. I had almost given up my case as hopeless when 1 was informed by a friend of Dr. C. Gee Wo, the Chinese doctor, and advised to go and see him in the hope of getting relief at least, if not a permanent cure for my trouble. I was slow in making up my mind to make such a radical change in my treatment, as I knew a trial with the Chinese docor would bring me, but I finally con-luded to give him a trial, so I called at his office with that intention. I found the doctor a clever, entertaining gentleman, thoroughly posted on my condition, and it took only a vary short time to convince me that he was the party I was so long in search of. He told me my case was curable, and that he could cure me, and prepared me a special treatment to suit my condition, and in two weeks I was so much better that I had the fullest confidence in the doctor's ability and committed iny case to his treatment. I continued to grow betten rapidly and am now entirely well. owe my cure to Dr. C Gee Wo, and am not ashamed to admit it. I advise all who want relief from their troubles to all on Dr. C. Gee Wo, and they will be cured. For all particulars apply on write to MARTIN L. ANDERSON, 3121 Cuming St., Omaha, Neb.

No Bluff About It.

City Attorney Connell yesterday morning, injspeaking of the ordinance, said that it was not in in the nature of a bluff. It was intro-duced to protect the interests of the city and was for no other purpose. In regard to re-claiming the lands described in an article published in Tug Ber on Sunday, January 31, Mr. Connell thought the city had a good case. He had given the matter considerable attention and would bring suit for the purpose of setting aside the deeds given to the Union Pacific Railroad company as soon as he could secure some data, which he expected to obtain during the next few days.

Had Not Heard of It.

Among Union Pacific officials yesterday there was a pretty general ignorance of the fact that the city council had met the night before. At least they pleaded ignorance of the council's action in the matter of tracks occupying streets and alleys. Vice President Kimball inquired in his

suave manner what that action was, and then ventured the opinion that it was very doubtful it the council could revoke th rights heretofore granted. The tracks in question had been laid in response to the po titions of the owners of abutting prop-orty. Ordinances had been passed giving the nocessary right to use the streets, and in no ordinance has such occupancy been lim-ited in duration. He presumed the city had the power to grant such privileges or it would have been challenged long before this, and he, doubted the authority of the counci o deprive the railroad company of rights ac-

uired under those ordinances Superintendent Nichols had not heard of Superintendent Nichols had not nearly of the council's resolution, but he was quite sure that the right to use streets for switches, once granted, could not be revoked. He thought the agitation about switching charges had been stirred up by parties not directly interested, persons who have to make a noise in order to make their presence in the city interest. in the city known

'reach Spectacles Mighty Good Things to Use in Looking at America. M. Blouet gave his lecture, "America Seen Through a Frenchman's Eyes," at the Grand opera house last night. It is called a lecture for want of a more accurately descrip tive term. It might with equal propriety have been called a comedy in monologue and, robbed of its pantomimic element, it would have lost its choicest flavor. We have

read much of the French habit of gesturing, but "Max O'Rell" has developed and cuiti vated those tricks until he has become a elever actor.

M. Blouet is not the American ideal of a Frenchman. He is not dapper, but has an aldermanic rotundity. He doesn't wear black and curly locks, perhaps because Lis head has pushed its way into the ascendant. His mustache is too short to be waxed, and the imperial is not obtrusively apparent. A slight accent betrays the owner's nationality, but it is rather agreeable. The lecturer's chief charm is in his man
