Congress Will Investigate the "Sweating" System.

FOR THE CONTROL OF NATIONAL BANKS

Their Management Will be Looked Into Closer in the Future-Tom Reed Again Interrupts Proceedings-Work of Congress Yesterday.

WASHINGTON, D. C., Feb. 13.-The "sweat Ing" system so much in vogue in the large cities, and about which so much has been written by the leading journals of the land, is to be thoroughly investigated by the committee on manufacturers of the house of representatives. Hon. Sherman Hoar, the young member from Massachusetts, has been the chief agitator in the matter, and it is understood he will head the subcommittee which will be required to visit several of the leading cities of the country. There is a great difference of opinion in the minds of members as to whether, after all the abuses have been unvelled, congress will not have power to abate the sweating system, as many hold that its regulation is exclusively within the power of the legislators of the respective states and entirely without the jurisdiction of federal legislation. Be that as it may, there is no doubt but what the committee on manufactures will exercise to its fullest extent the authority of investigation today conferred upon it by the house, to the end that whatever relief may be found necessary will come from the legislative powers having jurisdiction over the subject.

Several executive communications were laid before the house and appropriately referred.

The speaker announced the appointment of the following committee to investigate the pension office: Messrs. Wheelock of Michi-gan, Little of New York, Dungan of Ohio, Lind of Minnesota and Brosius of Pennsyl-

Will Investigate the Sweating System

A resolution was taken up directing the committee on manufacturers to investigate the socalled sweating system of tenement house labor, and the committee given authority to send a subcommittee to the various cities to carry on the inquiry. It was also directed to inquire how much increase the McKinley act caused in the wages of work-men employed in the industries protected by that act. The resolution was adopted.

In the morning hour the house resumed consideration of the bill for the better con-trol of and to promote the safety of national

Mr. Lockwood of New York objected to the bill because he believed it to be detri-mental to the banking interests and to the general interests of the country to be constantly chauging and modifying the laws re-lating to national banks. The law on that question today had become well settled. He believed that the pending measure would work detrimentally to the national banks. There had not been a failure of a national bank in this country where the officers had not violated the law as it existed today and where they could not have be punished under that law.

Mr. Reed Asks for Information,

Mr. Reed wished to ask Mr. Bacon (in charge of the bill) a question, and upon being accorded permission asked the meaning of the words in the bill "accepted and approved by a majority of those present constituting a quorum." [Laughter.]

"The gentleman from Maine," replied Mr. Bacon, "is so much better qualified than I to answer the inquiry that I will not occupy the time to reply." [Laughter.] "The point I wish to make," resumed Mr.

"The point I wish to make," resumed Mr. Reed, "is that I seem better qualified not only than the gentleman, but than all his political colleagues collected together." "I don't know," replied Mr. Bacon, "of anybody on this side of the house who de-sires to dispute the qualifications of the gen-tleman from Maine in discovering quorums." Mr. Lockwood moved to refer the bill to the committee on judiciary.

intelligent reasoning on the part of the farmers. **RECIPROCITY WITH CANADA** 'I am inclined to believe that the majority "I am inclined to believe that the majority of the farmers will settle down to a careful consideration of all the leading problems to be considered and there will be a great deal of reading done in the homes of the rural classes. I have enough faith in the people of this great state to believe that they will fin-ally settle the questions at issue in the next campaign about right if they have the truth fairly presented to them." Turning the subject upon the industries at Kearney, Dr. Martin said: "Kearney is a marvelous young city. In a few weeks the great cotton mill, which where under full headway will employ 1,000 people, is to be opened and the advantages of our water

power will then begin to assert themselves, Everything is on the upward tendency at Kearney today. The future is very bright for the young giant of the plains."

STILL ON EARTH.

Fifth Ward Kickers Make Their Presence Plainly Known.

The Fifth ward nickers made their usual weekly kick last night at a meeting held at 1158 Sherman avenue. Some of them were absent because Joe Redman and his mulish hind legs changed the place of gathering from Sixteenth and Crosby streets to the number mentioned, and as a consequence the kickers who wenth to Sixteenth and Crosby could not find the assemblage.

J. H. Kyner acted as chairman and A. R. sauer was his second. Not unlike many other suburban meetings THE BEE was the bone of contention, and there were resolves and resolves about its editorial utterances. But these were care fully blue-penciled by a conservative kicker, and as finally adopted consisted chiefly of a kick against the mayor for not having all things to suit the varied and uncertain tastes of the resolvers. After accomplishing this the viaduct question was assailed, and after reciting the dangerous condition of the Sixconth street structure this was passed :

Resolved. That we protest, in behalf of the taxpayers of Omaha, against the further use of the said viaduet by the motor trains, be-cause in case of an accident the taxpayers of the city had to pay heavy damages. Another resolution was passed in regard to employing laborers. It is here appended: Resolved, That while we denead

Resolved, That while we demand an econom-ical administration, we deprecate any move-ment looking to any reduction in the pay of workingmen in the employ of the city.

Messrs. Sauer and Jenkins were appointed is a committee to investigate the matter of the so-called inequitable assessment and those owning property who escape the pay-ment of taxes in both the Fourth and Fifth wards. They will make a report at the next meeting of the Fifth ward citizens, which will be held next Saturday night. The county assessor will be requested to at tend it.

AMUSEMENTS.

The Paris Gaiety Girls opened at the Frand last night in an ordinary variety perormance. Several turns were extra good of heir kind. Carita gave the closest imitation of Carmencita seen here. Difficult as it is, Pickett and Primose presented some new acts on the horizontal bar, Campbell and Shopp did a Dutch and Irish team act that caught the audience.

Knights of Reciprocity.

TOPERA, Kan., Feb. 13.-The Knights of Reciprocity have issued a circular to its membership with instructions to "read in open lodge and hand copies to each member.' According to this circular every state in the union is to be organized within ninety days. The circular then goes on to say that the perfect organization of every state in the union has been made possible "by reason of union has been made possible "by reason of having recently received great as-sistance from many prominent men in the east." The circular an-nounces that the Knights of Reciprocity now have grand lodges with hundreds of subordinate lodges in Kansas, Missouri, Louisiana, District of Columbia and Mary-land. The republicans are warned that the democrata and altinnee "bave practically democrats and altiance "have practically concluded a plan of fusion for the states of Nebraska, South Dakota, Minnesota, Wisconsin and Kansas, under which the demo crats are to have the presidential electors and members of congress, while the people's party is to have the state officers and mem-bers of the legislature."

Surrounded With Mystery,

ASHLAND, Wis., Feb. 13.-Charles Krouse of Butternut, a small town near Ashland, was found dead in bed at 10 o'clock last night. It was about 10 o'clock last night, according to the story of Mrs. Krouse, that her husband went into the bedroom and laid down. Mrs. Krouse heard an unusual noise and went into the bedroom and found her husband in his death agony. Krouse is the man who complained about a week ago that Julius Lipka, a hunchback, had tried to builds highly a complaint was sworn out and Lipka was arrested and tried before a municipal court. On the day set for trial Krouse failed to appear and the case was dismissed. Krouse complained that Lipka had furnished his wife with strychnine to much is in order to get bits out of the way give him in order to get him out of the way and that his wife afterwards corfessed the whole thing. WASHINGTON, D. C., Feb. 13.-The Canadian reciprocity commissioners, accompanied by Secretaries Blaine and Elkins and Sir Julian Pauncefote, called at the white house today and were formally presented to the president. The visit was merely for the pur-

pose of paying their respects. At the close of yesterday's meeting it was decided to hold the next session Monday, when the negotiations will be continued. There is no means of ascertaining at oresent how much longer the conference will be continued. It is understood Secretary Blaine elicited the fact that the commissioners from Canada have in reality no power to conclude a reciprocal trade arrangement at present, and on that basis be intimated that a further prolongation of the discussion of the question at this time would be useless, as the ground that may be covered in preliminary discussions would have to be gone over again should Canada ever send a commission empowered to bind the government to a treaty.

It is rumored that the adjournment until Monday was taken in order that the cables might be utilized toward obtaining from the government at London some official expreson giving the present negotiations the color of authority.

Improvements of the Missisisppi

After hearing from the engineer officers of the government and the delegation appointed the poveriment and the deligation appointed to lay the matter before congress, the senate committee on commerce has decided to rec-ommend the adoption of the most liberal policy for the improvement of the great in-ternal waterway furnished by the Mississ-ion always After a thorough consideration of the sub-ject it was decided that the bill recently in-

troduced by Senator Gibson of Louisiara was better adapted to secure satisfactory results than any other. As it will be reported to the senate the bill makes an appropriation of \$15,000,000 for the improvement of the Mississippi river,

the improvement of the mississippi river, whereof \$10,000,000 shall be expended under direction of the secretary of war, in accord-ance with such plans of the Mississippi river commission as may be approved by the chief commission as may be approved by the chief engineers to build, repair and extend levees, dykes and other works on the river from the passes to the mouth of the Obio. There is a provision that no more than \$2,000,000 of this appropriation shall be expended in any

one year. The bill commits congress to the levee system of river improvements. It was adopted by an unanimous vote of the committee and reported to the senate,

Silver Men Working.

The silver men have secured about 120 names to their petition asking that the silver bill be made a special order in the house. There are a number of members absent from the house, and for this reason there are many members to whom it has not yet been presented. None but democrats who it is believed will vote for 'ree coinage are being asked to sign. About fifteen of those to whom the petition has been handed have declined to sign on one ground or another clined to sign on one ground or another. Some have said that they thought it was giving too much prominence to the silver issue and making it paramount to the tariff question, and others that they thought it might embarrass the speaker. The silver men say that, notwithstanding statements to the contrary, they are confident of their abil-ity to secure consideration for the bill. They are determined to put every man in the bause are determined to put every man in the house on record on the question. With this object in view, if any disposition should be made apparent to prevent a vote on the bill, they will move its passage under a suspension of the rules when an opportunity offers. This, however, will not be attempted except as a last resort. There is a sentiment among many members of the house, including some

unquestioned free comage men, in favor of an early report of the tariff bills from the ways and means committee, and of keeping them before the country so as to prevent giv-ing undue prominence to the silver question.

IT WAS SWEDISH NIGHT.

Songs and Stories of the Northland at the Y. M. C. A. The Dutch never took Holland more com

pletely or enthusiastically than the Swedes took possession of the Omaha Young Men's Christian association building last night.

It was Swedish night in the series of national nights and it looked as though about haif of the Swedish people of Omaha were there. Before S o'clock nearly every seat in the large lecture hall was taken and the stream of people kept coming until the aisles were filled with chairs and occupied and every foot of standing room was filled. Light hair and blue eyes predominated throughout the house and the serious, thoughtful faces of the sons and daughters of that dear old land, the birthplace of Ericeson, Gustavus Adolphus, Jenny Lind and scores of men and women who have made their names im-

mortal, met the eye on every hand. Dr. G. Holmquist presided and opened the program of the evening with a few approprite remarks.

Secretary Oper then delivered a brief, but very fitting, address of welcome. He said be was very glad, for several reasons, that he had the privilege of welcoming so many Swedish people to the Young Men's Chris-tian association to enjoy a night of song and speechmaking with special reference to Speech and a special reference to sweden. He had enjoyed the pleasure of meeting King Oscar a few years ago while attending a meeting of the World's Young Men's Christian association at Stockholm. He remembered the kind weicome that the sing and all the Swedish bed astronded to the delegates who people had extended to the delegates who attended that meeting, and this eccasion

gave him an opportunity to extend to the Swedish people of Omaha a welcome that would, in a measure, help to return the kind-ness shown the delegates to Stockholm. Mr. Ober's remarks were greeted by ap plause.

The Swedish Evangelical choir then sang a very mejodious selection, after which Mr. Herman Swanberg caught the audience very happily by playing a guitar solo that called for a hearty encore.

Mr. Carl M. Helgren then recited a parody Mr. Carl M. Heigren then recited a parody on the well known piece called "Sparticus to the Gladiators." The recitation was all right so far as the delivery was concerned but a large part of the audience were evi-dently not acquainted with the original, and the clever sailles in the parody were not fully appreciated. Miss Hanna Flodman then appeared and

sang in the Swedish language a very beauti-ful song which the audience applauded rapturousiv

Then Prof. M. Osterholm delivered an ad-dress upon the sons of Sweden. The address was about thirty minutes in length and was full of good things from beginning to end. The speaker spoke tenderly of the fatherland. describing its clear, musical streams, it flowery dales and its charming scenery. He spoke eloquently of the many illustrious pecple that Sweden had produced, and in clos-ing he exhorted the people before him to be-come deeply attached to the land of their adoption as they had been to the land of their birth and to cherish and defend the stars and stripes as their fathers had the national banner across the sea.

The address was received with breathless attention and followed by a hearty round of

It will be seen that Nebraska has fared well in the distribution of officers under the civil service law, and that the appointments have been made very soon after examination in almost every instance. There have been as many more appointments to the federal service from the state outside of the civil service classification, during the period named. It will be seen also that the per cent of excellence was high in most instances.

It Makes Mr. Wanamaker Tired.

The story of Postmaster General Wana maker's resignation is the same as was first put out over a year ago. It bore the old familiar marks and was a reiteration of state naminar marks and was a referation of state-ments which Mr. Wanamaker is tired of de-nying. There is no more truth in it than there was when it was first published. It is claimed by the gossips, who have nothing to do but tear the cabinet to pieces on paper, that the relations between the president and the postmaster general are very much strained, and in order to get Mr. Wanamaker out of the cabinet the president has tendered him the mission to France which Minister Whitelaw Reid is said to be on the point of resigning. ORGANIZE LOCALLY.

Every Town Should Have a Working World's Fair Committee.

GRAND ISLAND, Neb., Feb. 12.-To the Editor of THE BEE: Every county in Nebraska, and in fact every town of any considerable size, should have an' active, energetic local World's Fair organization to look especially after the interest of the location in the way of encouraging the preparation and collection of the best possible exhibit, also suitable printed circulars, pamphlets, etc., setting forth the special advantages of the locality and the inducements offered for settlement and new industries. These or-ganizations should be composed of a presi-dent, secretary and at least five other mem-bers to constitute an eventure comconstitute an executive com mittee, and if county organization should also include a vice president from each township or voling preciact. Records of such organi-zation should be forwarded to J. H. Powers, secretary of the Nebraska Columbian com-mission, Cornell, Neb., and to Seth P. Mob-ley, press committee, Grand Island, Neb., where permanent records of such organization will be kept and attention given to for-warding to the officers and members of such organization copies of all circulars of information and instruction issued by the commission relative to the Nebraska exhibit and the great exposition generally. Any locality de-siring the presence of a commis-ioner at time of organization can secure attention by applying to the nearest commissioner or to the commissioner general. NEBRASKA COLUMBIAN COMMISSION. By SETH P. MOBLEY, Press Committee.

Nebraska Farmers All Right.

Dr. Martin of Kearney, president of the State Relief association, was in the city today. Speaking of the condition of the people throughout the state, Dr. Martin said :

"I have never seen the people of Nebraska in a more hopeful mood than at present. They have plenty of grain, plenty of food and the spring is going to open finding the farm-ers in the western part of the state in better shape than ever before in the history of Ne-braska. I have had occasion to become ac-quainted with the Nebraska farmers and I have found them a very intelligent class of quainted with the Neoraska larger class of have found them a very intelligent class of people. In their homes I found good standard literature and I am convinced good standard interatory and r and to be, in that the coming campaign is going to be, in the west, a campaign of solid arguments and

What Suggested the Appointment. NEW YORK, Feb. 13 .- According to a Washington dispatch to the World, there is an echo of the Cleveland-Blaine campaign of 1884 in the story behind the nomination of Roland B. Mahany of New York as minister to Ecuador. The mugwump fever which was opidemic in Massachusotts during the exciting canvass, was contracted by not a few of the students of Harvard college. President Eliot, too, bolted the nomination of the Maine statesman. Young Mahany defended Mr. Blaine's career and stopped the stam-pede that had started. The light in the college was fully reported at the time and came under Mr. Blaine's notice. After the electhouse Mr. Blaine's notice. After the elec-tion Mr. Blaine wrote a letter to the young man thanking him for his action. Subse-quently young Mabany was introduced to the secretary, when Mr. Blaine took a strong liking to him. His appointment was un-doubtedly suggested by the secretary.

New Specifications.

Chairman Birkhauser of the Board of Pubic Works states that the new specifications for paving, curbing and sewers will be in the hands of the printers within ten days and will be ready for the contractors by March I. If the council creates the various improve ment districts the chairman states that the advertisements will be published, the contracts let and everything will be ready for active operations in the way of pushing pub-lic work as soon as the streets thaw up and settle.

Sons of Omaha Officers.

The Sons of Omaha met last night in the office of Robert W. Patrick in THE BEE building and proceeded to elect officers for the ensuing year. Following are the officers elected: President, W. S. Poppleton: vice president, Charles Sutphen: sccretary, Augustus Kountze: treasurer, W. H. Koenig; hibrarian, L. M. Kuhns. The meeting was largely attended and the young men spent a very pleasant evening together.

Manages the Bureau.

Mr. John Wedderburn and wife of Washington, D. C., are in the city. Mr. Wedderburn is the manager of the San Francisco Examiner and OMAHA BEE Bureau of Claims at Washington. He has met with great suc-cess in pushing the work undertaken. He will spend a few days in Omaha consulting with Mr. Roggen, manager of Tus Ber de-partment of the bureau, and then continue has continued by the second partment of the bureau, and his journey to San Francisco.

It is not their purpose, they state, to antag-onize silver, but to have the tariff bills on the calendar, so that they can also be made a special order about the same time as the silver bill, the latter, of course, to have right of way as the prior measure in the order of the report to the house.

Oklahoma and Indian Territory. The house committee on territories today

heard an argument by Horace Speed, district attorrey of Oklahoma, in favor of the Harvey bill for the admission of Oklahoma and Indian Territory as one state. He contended that there was in the territory an open recog-nized hostility to the United States which manifested itself in several ways, and he

started to read from a newspaper extracts on the subject. Mr. Kilgore of Texas asked if he would

Mr. Kngore of least asked if he would read from the new testament or a newspaper, Mr. Speed-A newspaper; which politi-class read more than the new testament and with which they are much more familiar. He then read the extract which gave a charge by Judge Parker at Fort Snith to a jury, to the effect that hostility to the United States deputy marshals in Indian Territory was notorious and should be taken judicial cognizance of in a trial for the mur-der of one of them. There was in Indian Territory more crime and more murder than in any other agricultural section of the than in any other agricultural section of the United States of equal size and population. For the protection of life and property it was necessary to provide a system of govern-ment, and of courts, by which trials could be secured in the districts in which crimes were committed and by local juries. He delared that in Oklahoma crime had been repressed as soon as they secured this right. He said there was nothing in our treaties with the Indians to prevent the territory from becoming a state.

from becoming a state. Springer's Free Wool Bill.

Democratic members of the ways and means committee held another prolonged conference on the Springer wool bill today. The result was an agreement on the rates of duty to be invested on juty to be imposed on manufactured wool The result of the conferences was favorable to the low tariff members of the committee, reducing all duties below 40 per cent under the present law, as well as those above 42 per cent. The agreement reached has yet to be voted on as a whole, the action of today to be voted on as a whole, the action of today being on each paragraph of the wool and woolen schedules separately. The greatest rate of duty provided for is 45 per cent on ready made clothing, on which, under the present law, 60 per cent duty is imposed. The greatest reduction is made from the 40 per cent duty under the Mills bill, is in the cheap blankets, woolen hats and flannels for under-wear, duty on which is cut b26 per cent wear, duty on which is cut to 25 per cent. The only section of the Springer bill not con-sidered is that relating to shoddles. The conference committee will meet again on Mon day to perfect the bill and reach an agree-

ment on it as a whole. Shively and Whiting were not present.

Mexico and the World's Fair. The World's Columbian exposition has es-tablished an office in the City of Mexico for the promotion of the work of interesting the people of that republic in the fair, and Mr. H. C. Payne, the special commissioner in charge of it, reports a growing interest in the subject the subject.

The commission has organized and will rigorously push the work of preparation. The government will also issue a culletin from time to time in the interest of the fair of which the first number has been sent out, A large edition will be distributed all over Mexico.

Washington Notes,

The treasury balance today is stated at \$25,490,047, the lowest point reached for many years. This amount includes \$13,374, 211 on deposit with national banks, \$14, 073,673 of subsidiary coin, and \$402,443 of minor coin. The reduced balance is due to minor coin. The reduced balance is due to recent heavy disbursements, including \$7,-000,000 on account of pensions and \$1,000,000 on account of refunding the direct tax col-lected from Kentucky and Maryland. PAID BY PRIVATE SUBSCRIPTION.

Congressmen Visiting Chicago Will Not Be Unduly Influenced. CHICAGO, Ill., Feb. 13.—The committee of

citizens, having in charge the reception of the members of congress who will visit this city, wish it understood that the invitation is extended by the citizens of Chicago, who have no official connection with the World's fair: that the necessary funds have been raised entirely by private subscription, none of the fair funds being drawn on, nor any subscription accepted from any officer or director thereof; that the visiting legislators will be subjected to no unpleasant influence or attempts at lobbying-the sole desire of their entertainers being that their guests may have an opportunity to inform them selves freely and fully in regard to the scope of the work and its progress as a national undertaking, in which they are alike inter-ested with Chicago, in order that upon their return they may vote conscientiously and ntelligently upon any proposition affect ing it.

Suing for a Large Sam.

CHICAGO, Ill., Fob. 13 .- Suit for \$500,000 was begun in the circuit court today by James J. Welcher. The latter is the patentee of a machine for extracting fibers from various plants, which complainant alleges he disposed of for Weicher for a large sum to the American Fiber company, and he sues for his commissions on the sale. Mr. Owenby will be remembered as the man who was arrested here a year ago at the instance of the speaker of the national house of representa-tives for refusing to appear and testify in the silver pool investigation. He now lives in New York.

New But False Story.

A variation of the story with regard to the postmaster general's resignation was published today, to the effect that his private in cabinet to give attentica to his business interests. Mr. Wanamaker is authority for the statement that when he accepted his cabinet position he did to with the full purpose of conducting his department on busi-ness principles and of carrying out ideas which he considered would be for the improvement of the service. He is still en-gaged in prosecuting that work, which has become very popular, and he has no idea of giving it up. It is safe to say that Mr. Wanamaker will continue to be postmaster general until the 4th of March, 1893, at least

Pointer for Pension Claimants.

A pension claumant at Stockville, Neb., has written a protest against the allowance of his persion under the act of June 27, 1800, saying that he has applied under the old law, which he thinks will give a larger latitude and possibly a more liberal pension. The an-nouncoment comes as a surprise to the pension office, as pension claimants are in the habit of accepting a pension under the law most easily complied with and then seeking an increase under other laws having a larger limit of possibility. The new law limits the pension to \$13 a month, while it may be graded higher, according to disability, under the old law. This may serve as a "pointer" to a number of BEE readers who are seeking original or increases of pensions.

To Reorganize the Army,

Early in the week Senator Manderson. from the committee on military affairs, will report a bill for the reorganization of the artillery and infantry branch of the army. The bill was prepared by a subcommittee of the senate committee on military affairs consist. ing of Senator Manderson, chairman, and Senators Proctor and Cockrell. It will be in the nature of a substitute for four bills which have been pending before the committee anmely, Manderson's three-battalion bill Proctor's bill to reorganize the infantry, his Proctor's bill to reorganize the infantry, his bill to reorganize the artillery and Sherman's to reorganize the line. All these bills will be reported adversely. The new bill makes many radical changes. It provides for an enlarge-ment of the artillery organization of the in-fantry without any increase in the cost of maintenance; it adds two regiments to the entillery arm of the service but by decrease artillery arm of the service, but by decreas-ing the number of lieutenants gives seven less officers than now to that arm; it gives less officers than now to that arm; it gives two majors to every infantry regiment, but cuts down the first heitenants to ten in each regiment, and the second lieutenants eight. It also cuts off fifty regimental quartermas-ters and adjutants. It thus decreases the number of infantry officers by twenty-five. It provides for examination for promotion and makes regimental adjutants and quarter masters selected from the ine first lieutenants to serve without extra pay. The thit is in o serve without extra pay. The bill is in the nature of a compromise, adjusted to the cheeseparing policy of the house. It is not the best possible, but the best attainable.

The Rock Island proposes to go ahead, therefore, and secure right of way into the city from their northern line south on Ninoteenth street. It was the original intention to go as far as O street, but the domands of some of the property owners on the proposed rout-were beyond consideration, and for the present R street will be the southern terminus. A tract of land which was in dispute for sev-crai years and therefore never settled up. lying between Seventeenth and Nineteenth lying between Seventeenth and Ameteenth and R and Vine streets, has been secured for a freight depot and yards. The read will ultimately cross O street at Nineteenth, and will thence run to a connection with their Beatrice line southwest of the penitentiary.
