PREPARATIONS WERE CAREFULLY MADE

Beautiful Floral Decorations—Full Description of the Menu—List of Those Present—Other Local News

Notes of Interest.

The event of the week socially was the return party last evening at the Grand hotel under the auspices of the young men who were so handsomely entertained at the leap year party given by the young ladies of the city at the opening of the year. For the last three weeks preparations have been going on, and no pains have been spared by the members of the committee which was appointed to take charge of the preliminaries. How well they succeeded in their undertaking is shown by the fact that those who were present need to be told.

The dining room on the sixth floor was beautifully decorated with flowers. In the corners stood huge pots containing palms, ferns and calla lilies. The chandeliers were festooned with smilax intertwining roses, while mantels arranged about the room were covered with roses and carnations. The floor was canvased and from 9 o'clock, when the first note was heard, until the clocks were striking 2, the merry feet kept time with the music of the orchestra.

At 11 o'clock an intermission was had for supper, and the following menu was set before his guests by Manager Clark of the Grand:

Oyster Patties. Sweet Bread Croquettes. Olives. Cold Turkey, Wine Jelly. Neapolitan Ice Cream. Chicken Salad. Cakes.

Coffee. Frozen Fruit Punch. The following is a list of those present:

Mr. and Mrs. W. A. Maurer, N. C. Phillips, E. W. Hart, W. E. Sapp, A. E. Brock, C. E. Keeling, E. M. Starnett, E. A. Troutman, H. L. A SPLENDID INSTITUTION.

The National Fraternal Insurance Association of Council Bluffs.

Two years ago the National Fraternal Life Insurance association was organized in this city. The plan upon which it was carried with all the usual attributes of reliability and safety, and as a natural consequence the association has grown rapidly from the start. Another important step was taken a few days ago that will further strengthen and popularize it.

At the annual meeting of the directors, some of the active working members of the United States Masonic Benevolent association were elected officers and the headquarters removed to the Masonic temple.

The officers elected were: President, Judge J. K. Reed; first vice president, Fred H. Brown of Chillicothe; second vice president, J. C. Mitchell; secretary, W. J. Jameson; medical director, Dr. T. B. Lacey.

These men are too well known to require introduction, and their selection in which they are held in high esteem outside of their homes is well indicated by a statement of State Auditor J. A. Lyons, when speaking of the officers of the Masonic Benevolent association:

"The men in charge of the affairs of this institution are of the highest caliber and place implicit confidence. With Judge J. K. Reed as president, W. J. Jameson secretary, Fred H. Brown and Dr. T. B. Lacey, medical director, the association is in the hands of men who in a business capacity and in their private lives are of high estimation of all throughout the entire country."

The knowledge that these active and responsible men are at the head and a profitable director of the plan of the association will be sufficient to convince any person that it cannot be less than absolutely safe, and the means of affording protection to our families at less cost than any other similar institution in the world, and that this cost is at least possible consistent with strict business management. The guaranty reserve fund is a fund to which every member contributes and which permanently remains to grow and earn for the persistent members. By the allocation of \$10 for each year for the next five years, the member receives the amount due him on his certificates, and the association gets the benefit of his contribution to the guaranty fund. Consequently we repeat that every member joining this association makes it so much the more powerful and increases the adequacy of membership on account of leaving the guaranty fund for the protection of persistent members. Neither does a moderate death rate, such as may be expected in a carefully selected risks, weaken the association, because the member receives the amount due him on his certificates, and the association gets the benefit of his contribution to the guaranty fund.
