day.

When I behold the festive train Of dancing youth. I'm young again! Memory wakes her magic trance And wings me lightly through the dance. Come. Cybelli, smiling maid? Cuil the flower and twine the braid? Bid the blosh of sutamer's rose Burn upon my brow of snows: And let me, while the wild and young Trip the magy dance along. Trip the mazy dance along. Ting my heap of years away Fling my heap of years away. And be as wild, as young as they. -Moore,

Dancing has been the order of the week in the swell circles of society; the sprightly measures have permitted of hardly a rest and hardly an evening passed but that some merry company caught up the strain and prolonged the blithe echoes. Terpsichore has been the favored high priestess at whose shrine the gay world worshiped and pleasure's song has been set to the music of gayly tripping teet.

I asked the Society Man the other day what became of the dancing men and his reply might be of interest to other social lights as it was to me. "Some years ago," said the Society Man,

"Some years ago," said the Society Man, "no large dance or ball given by any one in the inner circle of the ultrafashionable set was complete if Mr. W. F. McMillan was not there and of every cotillon of five years or more ago he was the accredited leader. In those days if the mero possibility of his sinking into the more se-date but less enviable position of the railroad man of business had been anyrested it would man of business had been suggested it would have been received with cold disbelief; but today this once brilliant and very popular dancing man is wrapped up in business cares and business successes. Of course Mac goes to balls and parties now and then but his

Co balls and parties now and then but his heart is not in it as it used to be; he has other things to think of. "When a man reaches thirty dancing be-gins to pall on him," said the Society Man. "He needs something more serious, more earnest to stimulate his energies and ideas. One cannot dance through one's whole without becoming suprisingly vapid and even graceful dancing cannot make up for a vacuous mind. One's ideas become identified with the ball room and the polished floor. with the different steps of the latest dances, with the white boutenniere and the dress suit and though it is charming and refreshing once in a while it becomes a bore after one has reached twonty-nine."

But in spite of the inevitable season of ennui which makes itself felt by every active minded man the time comes when the dingy offices and the beetle-browed clerks assume cheerless aspect and then it is that the former leader goes into the ball room again for refreshment and relaxation. Then, as the society man says, it becomes a set habit again and he dances sedately on to a ripe old

Of the older men who are truly excellent South of the older men who are truly excellent cotilion leaders Mr. Will McMillan comes first. Many of the younger men lead more spirited dances, but none are more graceful than the figures led by a leader who was

popular five years ago. Mr. Frank Hamilton has also enjoyed the distinction of being a magnificent leader of the german, but he cares little for such a position and would much prefer being found midway down the line where he can have a

midway down the line where he can have a good sociable time without bothering his head with the details of new figures. Mr. Will Wyman has led in bygone days, with much credit to bimself, but the cares of a rapidly growing business have criven cotilion figures from his mind, and he, too, is content to allow the leadership honors to fall to some younger man to some younger man.

Peerless Club's Leap Year Party. A very delightful leap year dancing party

was given by the ladies of the Peerless club Thursday evening at Erfling's hall. A nicely arranged program of twenty numbers was danced, during which shorbert and cake was danced, during which sherbert and cake were served. The beautifully decorated hall was througed with pretty young ladies ele-gantly costumed and brave young men, and in all essential particulars it was one of the very successful parties given this season entirely managed by the fair sex. In Honor of Their Daughter.

Mr. and Mrs. I. Brown entertained a number of their friends at their beautiful residence, 2612 Douglas street, Wednesday evening, the occasion being the 17th birthday of their daughter, Miss Anna. The event will long be remembered by those present as an evening charmingly spent. The first part of the evening was taken up by card playing, after which the guests repaired to the dining room, where a delicious lunch was served. Dancing followed to the enjoyment of the young people present. Among those in attendance the following were noticed: Mr. and Mrs. J. Merritt, Mr. and Mrs. C. Mr. and Mrs. J. Merritt, Mr. and Mrs. C. "A prophet is not without honor, save in

his own country" is a "wise saw" which has done duty for ages, since the days when King James gave the English-speaking world an insight into the divine teachings of Christ-nor lacks it "modern instances." It is almost epigrammatic in its terseness, and in a word comprehends the situation regard-ing many taen. It is only after a man has got out from among those with whom he has associated for years and attained a reputation that he, at least, finds that his associates are willing to accord to him the honor which has come from other sources. For several years there has appeared now and then in the columns of Puck stories and sketches, illustrative of life in the west (that scretches, infustrative of the in the west (that preat section of the country which is fast losing its name through the forces of educa-tion, industry and art), over the signature of H. L. Wilson. To a very fow the name has been suggestive of a toiler from this remote been suggestive of a toller from this remove section of the country; to the thousands who have read and enjoyed the bits of west-ern life and color the name has been simply a potentiality. His abiding place has been kept from the reading world, for he has buried his location in his name. To the newspaper workers of Omaha, how-ever, H. L. Wilson has been known for some time. His work has been known for some time. His work has been commended as being "out of the ordinary," and his ad-vancement watched with interest, for, after all, there is less of the "green-eyed monster" among newspaper people than in any other profession. They have their quarrels, it is true, but they rarely fail to give credit when credit is deserved. It was, therefore, not at all inappropriate for Mrs. J. R. Nicholas, who is a member of the Browning society of Philadelphia, and who has done some liter-ary work herself, having arranged for publication the works of the late Gilbert M. Monell and who is interested in all that per-Monell and who is interested in all that per-tains to literature, to invite a number of newspaper people to meet and say farewell to Mr. H. L. Wilson prior to his departure for New York to take the associate editorship of Puck. The dinner was given at the Murray, but it was very evident shortly after the guests had taken their places around the banquet board, Mrs. Nich-olas occupying the head, with Mr. Peattle on her left and Mr. Wilson on her right, that her left and Mr. Wilson on her right, that the dinner per se, notwithstanding the admirable cocking and the altogether perfect was rather the minging of bright minds, and the quips and bon mots, which Carl Smith persisted in spelling, because he was not a Frenchman, but a Missourian, and therefore not expected to know the language in which a Hugo, a Balzac or a Maupassant wrote, were like Burns' snowflake in the river, "A

moment white, then melts forever." It would be pleasant to spread over the whole city, like little childran spread molasses over their bread, the enjoyment of the occasion. But it would require a stenographic report to adequately set forth the pleasure of the event. After the menu was completed the board. After the menu was completed the party adjourned to Mrs. Nicholas' rooms, the gentle-men foregathering in the smoking apartment below, while the ladies listened to Mrs. Peat-

A Tulip Luncheon,

Truly luncheons are becoming elaborate; even big dinners commençe to pose alongside these afternoon functions, where women alone are expected and theap over the cup that cheers but does not inebriate they tell each other the gossip of the week and indulge in the small talk so requisite in the social world. It was thought last week that Mrs. Lee's butterfly card party was an elaborate and very beautiful affair, and so it was, but Mrs. John S. Brady on Thursday introduced additional features which made the afternoon historic almost in the fashionable world. It was a tullp luncheon with cards as an aftermath that brought out the smart set in big numbers, and thay were quite compensated for the effort made, for notmore perfect ensemble has been seen in Omaha. Throughout ingenuity was the ruling feature of a charming afternoon and the effort made by the clever hostess to bring a effort made by the clever hostess to bring a springlike freshness to the house and surroundings was successful in every particular. Upstairs, downstairs, in every available nook and corner jardimieres were placed filled with jonguils and ferns that gave one instantly the impression of "spring in winter." And the tulips! They were almost as natural as the jonguils, al-though tissue paper entered into their make-up. But they were deftly fashioned, the skillful fingers of the hostess showing in every line in every curve.

every line in every curve. It was amazing how effective the house was under these decorations, and then over all floated the scent of the jongulls, making spring seem a living, breathing presence. Eighteen tables were occupied by the players, partners being selected by tulips of duplicate color. The menu was elaborate,

Washington and Lafayette at Newport. A rehearsal at the Hotel Dellone last evening by the ladies, who will be dressed in the rich court costumes of the seventeenth century, in brocades and silks, in ince friils and trains; gentlemen with rufiles at their necks and in their sleeves, flat caps adorned with plumes, velvet caps enriched with gold lace, knee breeches, white stockings and silver buckles on their slippers, monstrous powdered wigs and many a ribbon; music in slow tempo, stately, almost funereal, like the studied, solemn notes in shrill keys from Lulli's violin, such as these, with the sur-roundings of splendor and magnificence, will make up the scene of the minuet as a tableau in the coming National Pageaut. The scene Chicago. is that of a reception to Washington and La fayette, whose historic faces will appear in the beautiful old dance, old even in their time, yet popular in circles where symmetry and perfect grace and poetry of motion were of friends. most cultivated. The dance arose of course in France, and it is told that Louis XIV first danced it at Versailles in 1653. He "set the fashion" of the minuet and it straightway became popular among all classes, much to the disgust of the great Louis who despised ungraceful dancers. No departure from the prescribed movement is allowed and nothing is left to the performer's option. The motions are beautiful and accordingly difficult. In these days it is exhumed from the past, where it lies as a half-effaced recollection of graceful ness, not for its revival. but only from a curious and admiring interest in its own curious and admiring interest in its own exquisite grace and in the courtly associa-tions that cluster about it. The courtesy and the voltas of the fair dancers beneath their partners' curved arms, the baughty air and proud bearing of the head and shoulder, the grave bowing and stately kneeling call to mind a chivalrous age when studied contrasy and formality were the cances of courtesy and formality were the canons of genteel society. An integral element of minuet was the soft harmony of the spinet or business. the harpsichord played by some such master as Boccherini or Exaudet and the studied aim in this modern presentation of the dance is to make it conform to historical truth, both in costuming and in musical accompaniment.
