

THE DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION...

OFFICES. Omaha, The Bee Building, 25th Street, South Omaha, corner N and 25th Streets...

CORRESPONDENCE. All communications relating to news and editorial matter should be addressed to the Editorial Department.

BUSINESS LETTERS. All business letters and remittances should be addressed to the Bee Publishing Company...

The Bee Publishing Company, Proprietor.

Table with 2 columns: Date, Circulation. Rows for various dates from Feb 18 to Feb 24, 1892.

Average Circulation for January 24,334.

AND now it is little Uruguay which threatens a volcanic political eruption.

A WORKHOUSE properly conducted would be a great restraint upon vagrancy.

WITH two milk inspectors and a rigid milk ordinance maybe some of the children of Omaha will not need the pure food bill.

THE anti-snap convention committee from Hill's Albany convocation has returned to New York in a most cheerful mood.

THE delegation from Georgia to the industrial conference at St. Louis are genuine "crackers." It took the sergeant-at-arms and a large posse comitatus to keep them from cracking each other heads.

THE Board of Public Works and the street commissioner owe it to the taxpayers and citizens upon paved residence streets, which have been ruined by dirt wagons, to give them immediate relief.

THE panics of 1837, 1857 and 1873 have not yet passed from memory. So long as they remain vivid it is safe to conclude that conservative business men will not favor experiments which will disturb the financial conditions now so promising.

THE sixteenth street viaduct is most essential for public convenience and should be given precedence over every other viaduct ordinance.

THE "experienced Council Bluffs bridge builder" who pronounced the subsoil of block 86 perfect as a foundation for the stone federal building after driving one pile may be successful in bridging streams but his judgment is hardly sound enough to base conclusions upon.

A SUBCONTRACTOR is reported to have cheated workmen out of the 77 cents per day he agreed to pay them.

THE directors of the Manufacturers and Consumers association, although a majority of them reside in Omaha, voted unanimously to give outside manufacturers the preference in soliciting space for the June Industrial exposition.

DAN LAMONT knows well enough that Cleveland as a presidential candidate without the New York delegation would cut a sorry spectacle in the Chicago convention, but he appreciates the possibilities of disaster to Hill which will come of using Cleveland as a club with which to beat out his brains.

TWENTY-TWO years have gone by since the French republic was formed. In twenty-two years the French people have learned to respect popular government.

THE republicans of Mississippi agreed upon but one thing in their double under convention and that was the renomination of President Harrison.

POST, the Georgia delegate in the industrial conference, was very angry, but he told the solemn truth when he charged that Moses and Livingston of his state were bent upon leading the alliance party into the arms of the southern democracy.

THE Sulphur Springs track should by all means be reserved for the city. It is not only a beautiful spot with the finest natural growth of giant oaks and elms in this section, but its sulphur spring ought to be protected and made useful for the public.

HISTORY SHOULD BE TRUTHFUL.

The Nebraska Historical society proposes to celebrate the twenty-fifth anniversary of the admission of Nebraska into the union on the 25th day of May.

Nebraska was admitted into the union on the 1st day of March, 1867, hence the twenty-fifth anniversary of Nebraska's statehood will occur next Tuesday.

Why the historical society should attempt to mislead people by celebrating the birthday anniversary of the state two months and twenty-five days after the true date is incomprehensible, unless, indeed, it is the purpose to follow the precedent established by the World's fair commemorating the quadricentennial discovery of America one year after the 400th anniversary.

If this method of arbitrarily misdating great historic events is to continue the time is not distant when we will celebrate the anniversary of American independence on the 4th of September instead of the 4th of July and the second centennial of our republic will be celebrated in 1977 or 1978, just as may be convenient or as caprice may dictate.

If it is proper to have these anniversaries put off to accommodate the procession why not also apply this mode of transplanting anniversaries to our family relations.

The same idea, carried out to its natural and legitimate conclusion, would enable us to arrange our wedding anniversaries for the most agreeable season of the year, and it would be perfectly in keeping for families who are short of silver plate to celebrate their silver wedding anniversaries six or seven years after they had begun housekeeping.

For our part we believe that history should be truthful and historic events and epochs should be commemorated at the proper date of their recurring anniversaries.

At intervals the subject of an emergency hospital comes up for discussion, but thus far nothing but talk has been developed. Within a week an unfortunate man without money and without friends lost his life in all probability because the city of Omaha has no hospital in which to treat emergency cases.

Here is the pitiful story which may be repeated upon our streets at any time: A man was picked up in an insensible condition and although it was clear that he was very ill he was taken to jail because he could be taken nowhere else.

It is the belief of persons familiar with the circumstances that this man's life might have been saved if he could have been taken in the first instance to a hospital where medical attendance and proper attention could have been accorded to him.

It is the belief of persons familiar with the circumstances that this man's life might have been saved if he could have been taken in the first instance to a hospital where medical attendance and proper attention could have been accorded to him.

THE PURPOSE TO PREVENT GOLD COMING BACK TO THIS COUNTRY.

It is not difficult to accomplish this so long as Europeans hold so large an amount of American securities as they do at present.

The United States undoubtedly can spare a further moderate loss of gold without serious effect upon its financial or commercial interests.

NOTE A HOLIDAY CONTEST. The New York Sun does not feel absolute confidence that the democratic party can carry the Empire state this year.

THE London Way. London theaters are now fumigated after every performance.

THE Minnesota convention would be permitted to bestow its elective kiss on the virginal lips of Hon. J. M. Thurston if it begged hard.

THE divorce secured by Mrs. James G. Blaine, jr., ends one of the saddest romances which the public has known.

THE ship Indiana has sailed from Philadelphia with 3,000 tons of food for the relief of the famine in China.

THE BEB complains that Omaha gets nothing from the railroads unless she fights for it.

VANILLA. The finest Vanilla comes from Mexico; the beans are from 7 to 9 inches long. This high price induces the makers of flavoring extracts to substitute the rank, bitter, poisonous tonka or snuff bean.
