#### VIEWS ON

His Iowa Democratic Brothren Favor Him for His Conservatism.

WHAT HE WOULD DO AS PRESIDENT

While a Free Coinage Measure Might Receive His Signature if Presented, He is Not Inclined to Urge Its Passage,

WASHINGTON BUREAU OF THE BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C., Feb. 25.

Representative Butler of West Union, Inwas asked for his ideas on the chances of the lows vote in the Chicago convention, and said that in his opinion Governor Boies is the first, second, third and fourth choice of the Iowa men and that the Iowa delegates will stick to him. Mr. Butler said that what the people of Iowa want is a man in the white house who will be conservative on the silver question, not a silver extremist, but one who will sign a free coinage bill if sent to him. Such a man he thinks is Boles. While he would not get on the steps of the white house and shout for everybody to vote for Tree silver, he would, Mr. Butler said, quickly sign a free silver bill if he had the opportunity to do so as president, and gladly, too.

May Grant Favors to Mormons. The Department of Justice is still investigating the power of the president to grant general amnesty in Utah under the act of 1882. Ex-Solicitor General Taft is making a thorough inquiry into precedents and the statutes and will report the result of his research to the attorney general when the work is done. Both President Harrison and the attorney general are anxious if possible to grant the prayer of the petitioners and would doubtless even strain a point to do so. Benator Paddock's amendment to the act of 1882 is a prudential measure in case the department decides that the general pardoning of the president cannot be extended to include the removal of political disabilities. Will Not Change the Location.

In the matter of the controversy arising from the proposition to remove the location of the postoffice at Hastings, Senator Paddock has made a personal request of the de partment that no action whatever shall be taken looking to such a change until all the parties in interest can be heard. From the case as understood both the senator and the department are disinclined to consider the proposition for the change. Certainly nota-ing whatever will be done about it unless there is an overwhelming demand on the part of the patrons of the office and a con-trolling business necessity, etc. Miscellaneous.

Senator Paddock has hit upon a plan of adjustment of the Otoe land sale controversy which the general land office has accepted and recommended in writing to the public lands committee of the senate. He offered in the senate today an amendment formulated in accordance with this recommendation. He feels very confident of securing the passage of the bills and thinks it will satisfy all the parties in interest. In any event it is the very best that can be done. He will imme diately give. Represer tative Bryan a copy of the same for introduction in the house. Senator Paddock today presented a peti-tion from the old soldiers of Broken Bow protesting of the return by this govern-ment of the Mexican, British and confeder-ate flags captured in battle. He also pre-

ate flags captured in battle. He also pre-sented a petition in favor of the Paddock

food bill from Nebraska.

Real Estate Owners Have Many Schemes or Foot at Present.

At a meeting of the executive committee of the Real Estate Owners association yesterday afternoon the question of securing the ocation of Doane college for this city was discussed. The college is to be removed from Crete because that town is too small and there are insufficient accommodations. President Boggs stated that Omaha could cure the institution if the citizens exer cised any energy in the matter.

A letter from the secretary of the Ne-

braska binding twine factory at Fremon was read, showing the number of factories in the country. Congressman Bryan's binder twine bill then came in for attention, and the association declared strongly in favor of Nebraska industries. Messrs. Boggs, Taylor, Cathers and Dumont were appointed a committee to look into the matter and see what was needed to encourage the growth of homp in this state, the location of numerous small factories and the establishment here

of a big cordage plant to utilize the product. The committee on manufactures asked for more time to look up the tanbark question Mr. Benson said that the Davidge company, the largest tanning concern in the country had looked into the feasibility of establishing a plant in Omaha and had declared against it because of the difficulty of obtaining tanbark. It was stated that several such con cerns were willing to come here if tanbark could be secured.

A. F. Fullriede addressed the meeting on behalf of the farmers in the interest of a sugar beet factory. He said that a responraised this year and guarantee the erection of a factory next year if a certain acreage of beets could be guaranteed by the farmers He thought that this was the proper solution of the question as to what should be don with outlying city property, and wanted a meeting of the owners of acreage property called to discuss the matter. Messrs. Cathers, Balcombe and Boggs were appointed a committee to arrange for such a meeting.

L. R. Branham, editor Christian Index Atlanta, Ga., writes: "I have used Brady-crotine with unfailing, prompt, decided

BECOMING VIOLENT.

Omaha Hostiles Preparing to Take to the Warpath This Summer. There was a meeting of the famous Twenty-eight club Wednesday night at the Millard hotel. A great effort is being made by ex-Mayor Broatch and his friends to recruit something like an effective brigade of followers for the coming campaign.

The Twenty-eight club was increased last spring and summer to nearly 300, but seeing that they had cast their nets into a barren stream more than half of the mem-bership deserted. But the leaders are again beating the tom-tom with great energy and some of the discouraged ones are slipping back into camp.

It is rumored that Walt Seeley has been giving the Twenty-eighters a good deal of at tention lately and the club is about to come to the front with an endorsement of Tom Majors for republican candidate for gov-

A politician who used to be a member of the Twenty-eight club said yesterday: "I was invited to attend the meeting of the Twenty-eighters last night at the Millard, but I did not go. I think this is a very poor time to begin a factional fight among repub-licans in Omaha, and that is all that this Twenty-eight club can possibly accomplish.

# FOUND THE AFFAIRS MIXED

Adjutant General Vifquain Makes an Interesting Report.

INTERESTS OF THE STATE UNGUARDED

No Arrangements Made to Have the Federal Government Refund the Money Expended by Nebraska During the Recent Indian Campaign.

LINCOLY, Neb., Feb. 25 .- Special to THE BEE. ]-Today Adjutant General Vifquain sent the following communication to the governor:

STATE OF NEBRASKA, ADJUTANT GENERAL'S OFFICE, LINCOLN, Neb., Feb. 23.—Hon. James E. Boyd, Governor of Nebraska: Sir-In compliance with your instructions I am enabled, after a careful examination of the financial condition of this department, to report as follows: Indian Campaign—The legislature appro-

priated for the expenses incurred during the campaign of 1890 and 1891 the sum of \$37,200, which amount, by the records of this office, has been fully paid out. Up to the 5th day of May, 1831, the day I relinquished the office to the Thayer administration, I had disbursed some \$12,000, and had good reasons to hope that the amount appropriated would be largely sufficient. The remainder was all paid by my successor. Every bill sent to this office on account of the Indian campaign was submitted by me to the Mili-tary board in accordance with law. This board made several timely reductions, and some bills were altogether rejected. This money is to be reimbursed to the state by the federal government, and steps should have been taken by the Thayer administration to secure the return of that sum; but as I find all the original vouchers still in this office, I must come to the conclusion that no steps at all have been taken to secure from the government at Washington the money that has been expended by the state. This delay, or neglect, may be fatal, so far as securing the money at this session of congress, and I respectfully ask of your excellency instructions n the premises.

Support of the Militia-The legislature also appropriated \$25,000 for the support of the militia during the years 1801 and 1892. It was not much, but enough if carefully handled. It was not handled that way. Up to May 5, 1891, the day on which I re-linquished the office of adjutant general, I had not touched one cent of this money, and the fund was turned over intact to the Thayer administration. During the nine months that it lasted the whole amount has been nearly expended, thus leaving to your administration for the year 1892 virtually nothing in the treasury. It was not only my intention, but it was my duty, to expend just one-half the amount appropriated, during the year 1891, and the other half during 1892. The administra-tion of General Thayer, in utter violation of the law and its intents, expended in nine months what the legislature said should be expended in twenty-four months. Of course it was a mistake on the part of General Thayer to select for the encampment of the Nebraska National Guards the time and place where the Grand Arms of the Re-public of this state met in reunion. The reasons why that time and place were se lected, as well as the reasons why they should not have been, are apparent and need not be recited. In short, my predecessor has drawn from the treasury the sum of \$23,478.76, thus leaving \$1,521.24 to the credit of the militia fund. He has moreover handed over to me a check for \$2,813.59, money in bank, making total of \$4,335.13, when in reality there should remain to the credit of the Nebraska National Guards the sum of \$12,500 for the year 1892. The money drawn from this fund was on six different vouchers, to wit:

Voucher No. 705.9 for \$1,741 55—
For armory rent \$1,539 53
For various bills 102 03 So far as the armory rent portion of the oucher is concerned, there is not one solitary receipt attached to establish the facts. So far as the second item-various bills-is oncerned, several bills are submitted aggregating \$202.03. Some of these are receipted others are not. One of these bills to the amount of \$27 is for blank cartridges used at a celebration at McCook, for which there as not the least provision of law.

Voucher 68,440 is for \$12,867.25, for payrolls and commutation of rations at Camp Snerman, Grand Island. No pay-rolls are attached to this voucher, but I have found them in the office. Strange to say, not one of these pay rolls are signed either by General Thaver or General Cole, as provided by section 35, of chapter 55, of the statutes. Not only this, but a careful compilation of all the amounts paid under this voucher, gives a grand total of \$11,691.84, whiist the voucher is for \$12,867.25, thus leaving the

voucher is for \$13,897.25, thus leaving the sum of \$1,175.41 altogether unaccounted for. Voucher No. 68,499 for \$223.45, is for support of the Nebraska National guard as per bills attached. As in voucher No. 70,539, some of these bills are receipted and some are not. A State Journal bill for \$61.25 is not receipted.

Among the bills is one for \$32.75 reading as COLUMBUS, O., June 17, 4801.—General A. V. Cole, Lincoln. Bought of M. C. Lidy & Co., manufacturers and importers:

Total \$22.75
Dear Sir—Above you have invoice of goods forwarded this day by us.
M. C. LILLY & CO.

This bill was paid by check No. 407, on file here. Section 31 of chapter 56, of the gen-eral statutes, provides that each commissioned officer shall provide himself with a uniform. I cannot find out who this uniform was for, but General Cole, under the direct tions of General Thayer, paid for it out of the state funds. Another funny bill among the lot is one for

\$15 to one Ely Cole for five days labor at \$3 per day; it is not receipted.

per dav; it is not receipted.

Voucher No. 68.410 for \$2.266.50 —
For the support of the Nebraska National guards. \$1.106.50

Armory rent 1.104.00

The first item is for drill days to several companies, and has the pay rolls all properly signed attached. The second item, armory rent, has no receipts or anything else at-tached to establish the facts. 
 Voucher No. 60,281 for \$5,231.05, to-wit:

 Railroad transportation.
 \$3,309.31

 Monthly rolls.
 916.00

 Sundry accounts
 1,795.74

I am unable to verify this voucher so far as it relates to sundries. There are no pay rolls receipted, or anything else to establish

the indeptedness. The railroad and drill items, however, I surmise to be correct. Voucher 68,417, for \$100, for freight, cartage, etc., at Camp Sherman, but not a single paner, bill, receipt or anything attached to stablish the correct amount of the indebted ness nor its payment. And this is the his-tory of the six vouchers as related on their face. Section 20 of the enapter on militia says: "That the military board shall audit all claims and accounts of a military character against the state, and no contract on be-half of this state shall be valid as against the state until the same shall be approved by the poard. In direct violation, these bills were paid regardless of statutes or

Deficiency Fund—The legislature further appropriated \$5,000 to pay the arrears due the militia previous to the list of January, 1831. and in my extination this should have proved largely sufficient. Only one voucher was drawn against this fund, to-wit: Voucher No. 66,804 for \$7,320, for support of the Nebraska National guards out of the defilciency fund. Many bills have been paid out of this fund that were not arrears at all, and consequently in direct violation of law; moreover, they were not passed upon by the military board. There being no receipts or anything else attached to this voucher. I anything else attached to this voucher, I have the records alone to judge from. Thirteen hundred dollars have been paid out to this and that man for things which, if they were due at all, became due after the 1st of January, 1891, and one of the bills paid had been rejected by the Military Board in February, 1891. One of the bills paid is notoriously out of piace, and amounts to \$564.51; it was paid to one S. D. Childs & Co. in payment for the commemorative medals given to the Ne braska National guards on account of the Indian cam-

tional guards on account of the Indian cam Paign.
To charge this amount against any fund for the support of the militia is virtually to make every member of the Nebraska Na-tional guards pay for his medal. It is not only in violation of all law—since the legis-lature made no provision for the contingency—but it is also in violation of those proprieties which forbid to make a man pay for a favor of recognition like this. The investi-

### ture of this medal was hinde by your excellency upon my suggestion in general order No. 3, under date of Japuary 17, 1891, when I told you that the medals would cost in the

vicinity of \$500; you asked me: "But who is going to pay for this!" I answered: "I desire you pay one-half of it and I will raise First Trouble Among the Workmen on the World's Fair Grounds.

# The Sham and the Real.

Every good thing has its imitators, every genuine article its counterfeits. The Ammonia and Alum Baking Powders sold over the counters are no more like Dr. Price's Cream Baking Powder, than the paste is like the real diamond, or a counterfeit is like one of the old master's genuine paintings.

When greedy and merciless manufacturers claim their adulterated and harmful baking powders are as good as Dr. Price's, they know they are not telling the truth. These people know they are destroying the stomachs and the complanion of the consumers, and there are many grocers recommending such powders over their counters-knowing same to be injurious and worthless-simply to make a large profit. Dr. Price, a concientious physician, has spent a lifetime

in perfecting and popularizing his Cream Baking Powder, the only Pure Cream Tartar Powder now to be obtained. Multitudes of imitators all over the land have sprung up,

not to imitate the purity of Price's Cream Baking Powder, but to see how cheap they could make their counterfeits and hoodwink the public. Some use Ammonia and others Alum, but all these shams

cry in chorus, "Buy this, its just as good as Dr. Price's and much cheaper. Price's Cream Baking Powder is the standard for purity

and perfection the world over, and is beyond comparison Dr. Price stands for Pure Food and a foe to all shams.

## TO STRIKE FOR MORE WAGES

CHICAGO BUREAU OF THE BEE, CHICAGO, Lit., Feb. 25. All the staffmakers employed at the World's fair grounds met in secret session last night and decided to demand an lucrease of 5 cents an hour. About 300 men attended the meeting. They notified the contractors today of their demand, and unless a new scale of wages is at once issued they threaten to go out on a strike immediately. The contractors have announced in advance that they will not grant the increase. This is the first trouble that any of the contractors at the World's fair have experienced with laborers. Among the notable attractions from Wis-

Rio Janeiro, writes that a bill has been passed by the Brazilian congress and approved by the vice president appropriating \$500,000 for the purpose of making a Brazilian exhibit at the fair. The commissioners have not yet

much excited over the order which the Centrai Traffic association contemplates issuing regulating the manner in which that popular and toothsome fruit shall be transported, The cases in which the eggs are shipped are made of very light, well seasoned dry wood. The Central Traffic association is considering the feasibility of an effort to have all egg cases made of heavier material. according to a specified standard. Eggs are now charged for as second-class freight and it is proposed to assess them as first-class unless packed in cases as prescribed. If this rule is carried into effect it will increase the weight of each case about ten pounds, or 17 per cent, making a corresponding increase in the freight charges, which will come out of the consumer. There are 59,000,000 dozen Proficient Juvenile Thieves.

Odds and Ends.

Two weeks ago a wealthy Kendall county farmer named James Smith, about 60 years old, married Lizzie Kreidler, a girl of 18. Now he is in search of his reason, but

WILL WAIT FOR TESTIMONY.

Grand Jurors Will Take a Rest and Watch

for Developments. Ever since the convening of the February

term of court the grand jurors have been

holding daily sessions for the purpose of in-

vestigating the commission of crimes. That

they have discovered some things is best evi-

denced by the number of indictments that

When this grand jury will adjourn no per-

son can tell, but it is almost certain that the

members of the body will soon enjoy a vaca-

a fact that during the next few days the grand jury will appear before Judge Davis with another batch of Indictments, at which

time the foreman will inform the court that there are a number of things on the string that need attention. This foreman will in-

form the court that he and his fellow workers

go upon the plan that "everything comes to him who waits,"

The reason for the adjournment is this;

Any number of witnesses have testified in the municipal and Board of Education cases, but each witness who has been called has testified to what he has heard. Where there

is such a large amount of smoke the grand jurers think there ought to be some fire, and

adopting the theory in the case of their in-vestigations they have concluded that if they adjourn for two or three weeks they can

run down the rumors and secure some evi

ience that will warrant the return of indict-

A South Omaha Suit.

The suit of Henry Laufenberg and George

Clarge against the city of South Omaha is on

rial before Judge Ferguson. The plaintiffs

allege that they are the owners of a lot situ-

ated on N street. Some time ago when the change of the grade of the street was ordered their property was placed far above the street line. For this reason they feel that

they are entitled to recover \$5,000 damages
