THE SPECULATIVE MARKETS

Little Activity in Wheat But a Strong Feeling Prevailed.

OFFERINGS WERE MORE GENEROUS

Summary of Crop Conditions Abroad Indicated a Poor Outlook-Cables Were Less Assuring-Corn Was Stronger and More Active.

CHICAGO, Ill., Feb. 25 -While there was not nuch animation in the wheat market today the general feeling was one of strength. The early cables to the board from Liverpool quoted that market higher, but private dis patches said that it was weak. There was, however, rather a good local buying, and offerings were more generous than yesterday. Offerings were very readily absorped, and the feeling for a time was quite strong and higher prices ruled. Some of the bull news which came in yesterday seemed to be having more effect than it did then. Especially was this the case with Beerbohm's statement that the wheat and flour shipments to Europe for the past eleven weeks were nearly 117,000,000 bu., the lowest estimate requirements for the same time. This led to the reflection that it would not take long at that rate to exhaust all the surplus and bring Europe into the mar-ket as an active buyer. In addition to this

would not take long at that rate to exhaust all the surplus and bring Europe into the market as an active buyer. In addition to this was the summary of crop conditions abroad sent out by high English authority showing that a poor outlook was the rule, with favorable reported active inquiry for cash wheat, the steady decrease in the visible supply, the moderate receipts at primary points and the reports of a coming cold wave.

All of these combined to make the market rather nervous, and shorts were generally disposed to cover. Lozan, Kennett-Hopkins and Milmine-Bodman bought some wheat early, but on the hard spots Schwartz-Dupee and Pardridge had plenty for sale. At one time there was a considerable builze when private cables quoted Paris 2c higher, with Berlin also advancing. It was also helped some by a dispatch from Washington saying that the senate committee would probably report against the anti-option bill. Later, however, trade became dull. Cables were less assuring and the selling more liberal and prices fell off from the top figures. In the afternoon, however, the market strengthened materially but this was mot by heavy selling and the price dropped again. There was some talk about France extending the period of reduced duty on wheat because of the unfavorable outlook of the crop and this had a strengthening effect during a part of the session. While Pardridge soid freely on the rally he covered his I ness on the breaks. May wheat opened unchanged at 33c, advanced to 934c, reacted to 934c, advanced to 934c, reacted to 934c, advanced to 934c, reacted to 935c, advanced to 935c, and lossed steady at 925c.

Corn was stronger and more active in the early trading, one horse taking 250,000 bu. The strength was due to poor grading, an active shipping demand, firm cables, damp weather, tending to lower the grading and reports that foreigners were buying freely at the genome. These things led to covering with a loss of \$\frac{1}{3}c\$c\$, and wheat turning weak, there was a reaction. May opened \$\frac{1}{3}c\$ highe

Traders' Talk.

Chicago, Ill, Feb. 25.—Counselman & Day to Cockrell Bros.: After the generally unexpected advance of yesterday speculators were bearlsh today and succeeded in closing May wheat %c lower. The market made an upward bound of %c on a rumor that the Hatch bill had been reported upon adversely, but collapsed when the rumor was denied. This evil influence was more potent than higher cable quotations and futures failed to recover, although cash wheat continued in good demand. At the extreme close New York reported the latter more freely offered. Corn and oats were firmer, shipping grades selling generally \(\frac{1}{2}\) to \(\frac{1}{2}\) to \(\frac{1}{2}\) the her. When wheat broke shippers sold futures freely against cash lots bought and prices gradually weakened, closing steady at about \(\frac{1}{2}\) cdeed deed to higher product bought yesterday. Owing to the light shipping and speculative demand the outlook is dull for the present.

Chitago, Ill., Feb. 25.—F. G. Logan & Co. to J. Sands Commission comoany: Early English cables quoted higher prices, and in sympathy our market opened firm, with very moderate offerings. The report from the Cincinnati Price Current says of the wheat plant: "It is holding its own. It must be borne in mind that the condition when it went into winter quarters was low, and unless there is a marked improvement the prospects are for a small crop." The general conditions are in favor of advances, and we recomment purchases on all weak markets. The receipts of whiter wheat are light and the premium over spring must have some influence on the latter. The husiness in corn has been better today than for some time. The principal cause of the decline was the selicing by a prominent commission house which sought largely yesterday. Receipts are light all over, with no lamediate prospect of any material increase. Until there is we look for some further improvement. Hog product is weak on good selling by brokers, supposed to be in the interests of packers.

Chicago, Ill., Feb. 25. Traders' Talk.

brokers, supposed to be in the interests of packers.

Chicago, Ill., Feb. 25.—Kennett, Hopkins & Co. to S.A.McWhorter: Instead of the stronger wheat cables expected they were rather easy and the market sold off early on them. At the decline there were good buying orders and the resulting bulge forced in the shorts. Closing cables were still more disappointing, clearances only moderate, receipts in the northwest large and new export business slack. The weather was fine for the growing crop. All this received a bearish construction and long wheat came out freely, the market closing at the bottom, with indications of still lower prices tomorrow. Corn and out were pretty stiff early, but eased off near the close in sympathy with wheat. The Liverpool corn market did not respond to our advance yesterday. There has been considerable bullish talk on hog product, with Armour a good buyer of cash stuff, but the market closed woak, probably in sympathy with other markets.

STOCKS AND BONDS.

STOCKS AND BONDS.

Minneapolis Wheat Market.

MINNEAPOLIS. Minn. Feb. 25.—Wheat was disposed to weakness today. May opened on the local board at from 88c to 88½c. There was a small decline, then a report was received that there was likely to be an unfavorable report on the anti-option bill. This checked the decline promptly and turned it into an advance of nearly 1c. May went to 88½c, but as soon as the denial was received there was a cither way, the list as a rule was dull and

listless, with small fluctuations and periods of staznation. The traders were more builtainly inclined, but no buying of importance appeared, and while arbitrage brokers were azain buyers, it is well understood that their purchases of sales at present have no simificance. The traders paid special attention to Distillers for a time and it advanced rapidly. Lackawanna in very limited offerings following. Among the specialites Lake Eric & Western was active, but only firm, while lowa Central preferred sparted up also per cent on very limited dealings. The stock of the Baltimore & Ohio, just admitted to dealings on the board, was traded in for the first time today and, after a sharp rise of 1½ per cent to 67½, lost a large portion of the improvement.

Among the Industria's Chicago Gas was still under the hammer this morning and its prices are now no shaily lower than a weed ago. New England proved to be the one weak point in the market, declining stendily throughout the foreneon and a portion of the afternoon, and scoring a loss of over 1 per cent. The Vanderbilts stocks were remarkable as of late for their dullness, which was specially marked in Lake Snore. The general list opened with small gains and during the greater part of the day advanced slowly without material change, and late in the day after the announcement of another engagement of gold for export the bears succeeded in radding some stocks to below the opening prices. In this decline New England, Northern Pacine preferred and Reading were the most promilient but no material concessions were made, and long stocks coming, the raid came to a sudden end and the feeling induced by it quickly subsided, the barket resuming its firm temper. The market closed quiet to duil and firm, generally at small fractional advances over last nights prices. The only changes of note were advances of 1½ per cent in Edison and 1 per cent in Lake Erie & Western, while New England lost 1 per cent. Government bonds have been dull and steady.

Financial Review.

New York, Feb. 25.—The Post says: Another \$500.000 of gold was ordered today for export, somewhat earlier than had been expected. This may represent merely the completion of a single large order placed last week, but the fact is that actual exchange rates stiffened again today before the close. It is useres, however, to speak confidently on this point. The interesting fact on the situation is that the demetion in exchange, according to conservative bankers, was due largely to the purchases of American securities by London in the last few days. That these purchases have about balanced current saies for the same account will not readily be believed and the later movement of the steriling exchange indicated the contrary. Yet the turn must come some time. London liquidation in Americans cannot go on forever. Perlaps a crumb of comfort may be derived from the fact that foreigners have slown a disposition to sell chiefly on exaggerated advances on prices and hence they suspend their unloading when the market reaches a normal level. Financial Review.

New York Money Market. NEW YORK, Feb. 23.—MONZY ON CALL—Easy at 14:692 per cent; last loan at 2 per cent; closed offered at 2 per cent. PRIME MERICANTILE PAPER—12:65 per cent. STERLING EXCHANGE—Quict and easier at 4.844 for sixty day bills and \$4.874 for de-ment.

London Stock Market. LONDON, Feb. 25 .- [New York Herald Cabie

—Special to The Reci-No change was made in the bank rate which, remains at 3 per cent, business for the new account has been quiet in the stock exchange today, the progress of the settlement has necessarily engaged a certifin amount of attention. Easier tendency for money has caused consols to advance is per ceat. Home railways met with more attention during the latter part of the afternoon, the close was very firm. Brighton deferred han fluctuated considerably, after having been at 1905 advanced to 12, being an advance of 14 on the day. Great Western and Metropolitan are if per cent higher. Northeastern is per cent and several others is to a per cent. American railroads have been more or less depresed the greater part of the day. Capadian Pacific recovered its early decities. Misceliancous securities have been quiet. Money was wanted in Lombard street in the early part of the day and 14 to 3 per cent was paid for short loans during the afternoon. It has been almost unleasable since the rate has fallen to 2 per cent. Not many bills have been funded at 2% to 24 per cent.

London, Feb. 25.—The following were the LONDON, Feb. 25 .- The following were the

The builton in the Bank of England increased £642 in the past week. The proportion of the Bank of England resources to liabilities last week was 45.16 per cent, is now 44.95 per cent.

LIVE STOCK MARKETS.

Cattle Dull and Weak-Hogs Active and Higher-Both Scarce.
OMAHA, Feb. 23.—Receipts for four days 9,673 cattle, 18,334 hogs and 2,566 sheep, com-pared with 12,418 cattle, 20,394 hogs and 1,237 sheep, the first four days of last week, a decrease of about 3,500 cattle and 2,200 hogs, and

in increase of 1,630 sheep. The general cattle market was weak and exceedingly dull. Prices were not a great deal if any lower than Wednesday, but the activity was lacking and the strength was entirely lost. Offerings were comparatively limited, the fresh receipts being about 1,000 limited, the fresh receipts being about 1,000 head snort of last Thursday, the week so far showing a falling off of nearly 2,500 head compared with last week. Buyers all complained of the generally aferior quality of the cattle. There were not over half a dozen loads of steers in the yards that would weigh over 1,00 lbs. and this fact barred shippers and exporters to a great extent, although they bought a few loads. Dressed beef men-were rather indifferent buyers, their bids being generally a shade lower; in fact, the feeder buyers overbid them lot to be on 200 to 1,00 to, steers. Outside of a bunch of 1,535-ib, steers that sold for 5.88, the fair to pretty good 1,0 0 to 2,20-10 steers sold Outside of a bunch of 1,035-b, steers. Outside of a bunch of 1,035-b, steers that sold for \$5.85, the fair to pretty good 1,0 0 to .20-b steers sold at from \$3.25 to \$4.55, 11 was a duli, mean market throughout, but there were comparatively few decent cattle unsold at the close. In butchers and canners stock there was more activity but no appreciable improvement in prices. The demand was fair and while prices were no stron or there was no apparent weakness and the stuff moved freely. A bunch of fat 1,331-ib, cows, the best that have been in the yards in a long time, sold for \$4.50, but nothing else sold near it. Sales above \$4.09 were scarce, good stuff sellin: largely at from \$4.30 to \$4.85. Fair to good cows sold from \$2.00 to \$2.50, common from \$4.41 to \$2.00. Bulls, owen and stags were in fair demand and firm at from \$1.25 to \$5.50. Caives steady at from \$4.00 to \$5.00.

Trading was fairly active in the stocker and feeder line and prizes well maintained. It was mostly rather common light stock that had to self below \$4.05, sales being mostly at from \$3.05 to \$3.25. Kepresentative sales:

Chicago Live Stock Market.

Chicago Live Stock Market.

Chicago, Ill., Fob. 25.—ISpecial Telegram to THE BEE. I—Prices for citile underwent a very slight change today. Some grides were rather strong while others leaned to veramoss, though by quotations remain as before, ranging at from \$1.90 to \$1.50 for inferior to extra cows and heifers. From \$1.51 to \$1.75 for bolis, from \$1.25 to \$1.75 for stockers and feeders and from \$2.20 to \$1.50 for very common to fancy shipping steers. As exporters were again liberal buyers, good to choice heavy cattle remained firm. Fat cows and heifers and export buils also readily commanded Wednesday's prices, while common light and medium weight steers and canners' stock were slow and weak. The supply was moderate and averaged pretty good as to quality, there being a liberal sprinkling of well-fatted 1.400 to 1.00-10 steers. However, the major part of the sales were at prices ranging downward from \$4.50.

The advance of 10c which seilers secured today carried the hog market from \$3.01 to \$5.10 for choice heavy and medium weights of prime quality. The weather was as unfavorable as it well could be, but with the fresh receipts being confined to about 18,000 head and tomorrow's run promising to be still lighter, the advances was most decidedly with sellers. The total receipts scarcely exceeded the number taken yesterday by eastern buyers alone and the pens were emptied

and tomorrow's ran promising to be still lighter, the advantage was most decidedly with selicirs. The total receipts searcely exceeded the number taken yesterday by eastern buyers alone and the pens were emptied in a lifty. Quotations were at from \$4.6 to \$5.05 for heavy and medium weights and at from \$1.50 to \$4.05 for heavy and medium weights and at from \$1.50 to \$4.05 for heavy and medium weights and thin pigs se ling at from \$2.00 to \$4.25. Extreme heavy hogs were not wanted.

The sheep market was active and firm for good to choice qualities. Local and eastern buyers were willing to may Wednesday's prices for such grades as suited them, but they demanded concessions where quality was lacking. Quotations were from \$1.75 to \$6.00 for common to choice. Culls and poor stuff were not sought at from \$2.50 to \$4.50. There was a steady range of prices for lambs, sales making on a basis of from \$5.00 to \$4.50. There was a steady range of prices for lambs, sales making on a basis of from \$5.00 to \$4.50. There was a steady range of prices for lambs, sales making on a basis of from \$5.00 to \$4.50. There was a steady range of prices for lambs, sales making on a basis of from \$5.00 to \$4.50. Claims It Was Spite Work. OMARA. Feb. 24.-To the Editor of THE BEE: The article in your paper today entitled, "A Brutal Father," is altogether a malicious persecution by irresponsible partics, one of whom was living in a house of mine and the other party rented the flat above the store, and I had trouble with each one-the one I refused further credit, the other I demanded an increase of rent from, worth far more than I asked. It is merely a way of injuring me. If I created a dis-turbance of the peace, as they allege, by slightly correcting my own child, why do they wait over two months before they make any accusation? The report in The Bee states she works too hard in the Louse. works for me at anything and everything and wants me to get him a horse and wagor to get a little more work. Why am I no

treating him inhumanly! We have a good home and we are not lack-ing for the comforts of life. I am responsi-ble and my accusers are not. It is all spite, with the idea that they can injure me. Certainly we all have to work. Some of the kicking women wanted to hire my daughter They were angry at not optnining her services.

John Hempleman, 1834 North Twenty-sixth street.

Hempleman refers with pride to his record

in Columbus, Neb. As a companion piece the chief of police has a letter signed by Frank Shram of Columbus, who says he is 16 years of age, and volunteers his testimony to show that Mr. Hempleman is the most brutal man in his

treatment of his children he ever saw. Another Artist Wanted. Thomas Hunt, for whom the Omaha police are diligently searching, is a very interesting individual to banks and bankers. He is wanted in Cincinnati and other cities for a series of the cleverest forgeries known

to the police.

Hunt is about 50 years of age, with the appearance of an interesting invalid, has a gray and sandy mixed beard and hair, has a sallow complexion and is about five feet eight mehes in height. His modus operandi eight inches in height. His modus operandisto purchase a draft for a small amount, requesting the cashier to identify his signature on the back. He then fills the punched holes with pulp so cleverly that only with the aid of a microscope can the change be detected. With a suitable change be detected. With a suitable apparatus the draft may then be punched to any amount desired.

Fought for the Kindling. Constable Jacobs sent down to the police station a detachment of four at noon yesterday. They were Mr. and Mrs Holstein, whose place of business is on Fifteenth street, between Farnam and Harney, A. Logan and Sam Johnson.

The difficulty was all over a hundle of kindling wood, and before it was settled Mrs. Holstein had her scalp laid open, and the others were variously battered and bruised.

Postponed the Contest, The regular monthly contest that was to have taken place at the Young Men's Christian association gymnasium last evening was postponed because of the unavoidable absence of several of the amateur athletes who

were to have participated. An exhibition of skill, agility and muscle was given by sev-crai of the members for the edification of the spectators present. The regular contest will take place next week. Too Handy With a Pop. Paul Branch was fined \$60 and costs in police court yesterday for flourishing a revolver. He was rooming with a dry goods

street, and when the latter locked him out for failure to pay rent Branch attempted to gain admission by threatening with a re-volver. 'No perf ction is so absolute

Russell Sage, the well-known financier, writes:

1404 Doulas St.

"506 FIFTH AVENUE, NEW YORK CITY, Dec. 20, 1890.

"For the last twenty years I have been using Allcock's Porous Plasters. They have repeatedly cured me of rheumatic pains, and pains in my side and back, and, whenever I have a cold, one on my chest and one on my back speedily relieve me. My family are never without them."

Rassicisage

Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLCOCK'S, and let no solicitation or explanation induce you to accept a substitute.

Dr.DOWNS

The eminent specialist in nervous chronic private, blood, akin and urmary diseases.
