

IT IS A VERITABLE BONANZA

Gold Hill, Wyo., Rapidly Coming to the Front as a Mining Camp.

IT MAKES ITS FIRST BULLION SHIPMENT

Surprising and Exceedingly Satisfactory Result of the First Run on Ore from the Mines—Bright Prospects for the Future—Rich Mines.

GOLD HILL, Wyo. (via Messenger to Fort St. Vrain), Feb. 26.—[Special Telegram to THE REGISTER.]—Gold Hill has made its first bullion shipment. There will pass through the bank of Saratoga tomorrow a gold bullion bar that is broken down in the night. It will be taken by special messenger to the Denver mint.

Although several hundred tons of stuff from two of the best known claims of Gold Hill have been run through the 10-stamp mill, the Gold Hill brick is probably the output of not to exceed fifty tons of quartz.

Such success has been achieved in the past few days that the prospectors are confident that they will have to be developed until a solid ore body is exposed.

It has also been demonstrated by a run of the 10-stamp mill that Gold Hill ores can be worked for \$3 a ton. No estimate can yet be made for the ore from the Wyoming and Little Giant claims on which the clean up was made yesterday.

FREE COINAGE MEN ELATED

They Claim to Have More Than the Necessary Majority in the House.

TEN REPUBLICANS WILL VOTE WITH THEM

Commissioner Raum's Investigation Before the Special Committee—Free Trade Measures Will Have Precedence in the House—Washington Notes.

WASHINGTON, D. C., Feb. 26.—The free coinage men of the house feel quite elated today over the action of last night's caucus to consider the proposition for the delay of free coinage legislation.

URGENT DEFICIENCY BILL PASSED

Aquila Jones Voted Relief by the House—Claggett of Idaho Takes Up the Time of the Senate in an Address in His Own Behalf.

WASHINGTON, D. C., Feb. 26.—The democrats increased their majority in the house of representatives today. The addition to the already overwhelming democratic majority was by no means necessary to insure a free working of the party organization.

Such success has been achieved in the past few days that the prospectors are confident that they will have to be developed until a solid ore body is exposed.
