Looks Like Repeal.

General E. F. Test has just returned from Des Moines, where he went to attend to some business which is before the legislature and in which ho is considerably interested. He was asked by a Bee man yesterday what the prospects were for the repealing of the present prohibitory law.
"Things look very favorable for the repeal

just now," was his reply. "The Gatch bill which differs from the defeated Schmidt bill in a number of important particulars, has been before the democrats in caucus assembled, and they have decided to vote for it solidly. I have it from very good authority that there will be at least four republican: and one independent in the serate, and five republicans in the house, who will vote in favor of the law, and if this is so the doom of prohibition as a state law is sealed.

"The provisions of the law are familiar to

the readers of THE BEE, and the main dif-ference between the Gatch bill and that of Schmidt is that the former is very much more strict. The question will probably be brought up for decision next Wednesday and then we shall know something more about

Mr. Test also states that he has interviewed a number of the members of the republican state committee with reference to the chances of Council Bluffs being selected as the place to hold the next state convention, and finds that a majority of them are favorably inclined to the claims of this city.

Rev. Mr. Hall Prepared to Abandon His Present Pastorate.

HE MAY FORM A NEW ORGANIZATION

Final Sermon of the Minister in the First Baptist Church-Some of the Facts in the Recent Trouble Briefly Recalled.

Crape on the church.

It was a stringy black streamer, about four feet long, which decorated the door knob of the First Baptist church yesterday morning. Whether malice or mischief placed it there matters little. It was evidently intended for a dark allusion to the love feast held the night before.

The black was removed early, and the sexton's broom brushing the snow from the church steps, duly announced that services were expected as usual.

There was only a fair-sized congregation. None of the threatened interruptions or restraints were manifest, and a stranger would have gleaned little from the service concerning the harvest of dragon's teeth which has sprung up of late.

Rev. Mr. Hail made but few remarks con-cerning the church troubles, but he made cerning the church troubles, but he made many allusions. He has been preaching a series of sermons on "Christ's Messages to the Seven Churches of Asia." By a strange coincidence, the one for this Sunday—the last probably of his pastorate—was the last of these messages. It was the one to the church of the Laodiceans, and opens with: "These things saith the amen." The particular passages on which the sermon was ticular passages on which the sermon was based were: "I know thy works, that thou art neither cold nor hot; so then I will spew thee out of my mouth; be zealous there fore and repent." The speaker dweit upon the dangers of in

difference, it being the chief cause of all the failures in life. In business, in politics, and especially in church life, indifference was most disastrous. In making the point more apparent he took an illustration for the history of the church, of which he has been the pastor, until now the cord is so uncere moniously snapped. The prayer meetings the mission bands, the various philanthropies of the church, has been treated with indifference by the members, but when, as on Satur day evening, some little issue was raised, amounting to nothing as compared with the great work of the church, there was a prowd, and each one was working with might and main to win his little point. If half this enthusiasm had point. If haif this enthusiasm had been shown in the prayer meeting and other forms of church worship and work, they would have crowded several such buildings before this, and been a power felt throughout the city. "You hauled in everybody you could get hold of just for the sake of Hailing out one poor man. You succeeded, and it's all right."

The only other direct reference to the storm was the simple aunouncement that he had handed his resignation to the advisory committee, and that the date of its consider ation would be made public later. "It will probably be made quick work of. This may be my last Sunday as pastor, though perhaps I may preach aext Sabbath. Then I shall turn the work over to that higher, purer part of the church, who are so much better qualified spiritually than I to conduct the services."

The tone and smile with which these words were uttered caused the bit of sar-casm to have almost a hissing sound as it went zipping through the pews.

all right.

After the services Mr. Hall was asked by the reporter for a copy of his resignation. He could not furnish it, as it was simply a verbal one, which was to be reduced to writing at some future time.
"Is the advisory committee friendly to you,

Mr. Hall?"
"Oh, yes, they're all my friends—so are all the officers of the church." "May they not report against the acceptance of the resignation?

"Well, I suppose they might. I have resigned, though, in no good faith, expecting that the pastoral relationship will be severed unless some new circumstances arise to change the situation." "What about the report that you intend starting a new church?"
"Well, if there are enough of the real true Baptists who want to unite in forming a church out of first-class material—not such a thing as this church, but a real, enthusiastic,

working church-why, then, I'm with them, heart and soul. I don't know whether such a church will be started or not. There's some talk of it, but nothing definite yet."
"When you formulate your resignation will you state in it the history of the trouble and your reasons for resigning? "I think not. It is more than likely that next Sunday morning I will make some pub-

lic statements which may be interesting. If I do I shall have them carefully written out, so that the press may have exactly what have to say.' Reiter, the tailor, 310 Broadway, has

FOUND HER CHILD.

Happy End of a Poor Mother's Search for a Missing Baby.

Several weeks ago a repulsive looking woman called at the Christian home and left a small child, saying that it belonged to a friend of hers who could not take care of it. and asking the manager of the home to see that it was looked after. Who the woman was or how she came by the child no one knew, and there seemed to be no way of finding out, but as the little one sho wed signs of terrible neglect and there did not seem to be any reason for turning it away, it was given a home and has been

here over since. Last Saturday a young woman who could speak but little English called at the home, saying she had lost her child and some one had told her it might be there. She wanted permission to look through the place in the hope of finding it. She told a pitiable story of the loss of the little one. She claimed to live in Albright, and said that the child was out playing in front of the house about six weeks ago, when a woman drove up in a carriage and asked to be allowed to take him in her arms. The girl who was taking care of him lifted up into the carriage and the woman him for a few minutes, finally suggesting that he ought to have something more around him to keep the cold out. At her suggestion the girl went into the house and got a shawl, but when she returned the car riage had disappeared, and with it the little fellow. The mother of the child was nearly frantic with fear, but she had not the slightest idea what to do until some one suggested that she come to Council Bluffs and go

through the Home

Accompanied by Rev. Lemen she made the rounds of all the rooms in the house, and when she reached a room where there were several little children lying in cribs, she gave a sudden shriek and leaped forward, grasping one of the babes in her arms and falling over almost instantly upon the floor in a dead faint. She was finally revived, but when she found that her child had been taken away from her and placed upon a bed she seemed to be filled with an unutterable dread that she was not going to be allowed to keep him. She was finally convinced that the people in the home were her friends, but it was not for a long time that she would allow the child to stay anywhere excepting in her arms. It was the same one that had been brought to the home six weeks before, but how the woman who brought it there got possession of it is still a mystery. The mother and father of the child have separated, however, and it is supposed that the father stole the boy in order to torment The woman left for her bome in Albright Saturday evening, taking the boy

THESE BE SERIOUS CHARGES.

Conduct of United States Troops on the Mexican Border Complained Of,

NEW ORLEANS, La., Feb. 28.-The Pica yune's San Antonio special says: The Garza episode now appears to have become an issue between the people and the United States troops, with the search for the revolutionist chief merely as a side issue.

Since the arrest of Gonzales, Garza's father-in-law, yesterday and the counter charges made by him against the troops Gonzales' grievance has been backed up by a still more serious affidavit made by J. H. Broeter, justice of the peace of precinct No. Neuces county.

Broeter alleges that "various complaints are being made by many of the best law abiding citizens in this portion of the stat regarding the conduct of troops of the United States army, and certain persons who claim to be scouts and guides; that one Captain J. G. Bourke, the commanding officer, has been especially complained of as having made promiscuous arrests of good citizens without apparent cause or reason, following such arrests with acts of cruelty and st such arrests with acts of cruelty and at imes practicing and permitting acts of indignities toward such persons while held as prisoners; that houses have been entered at the dead of night without exhibition of war rants or authority for the same, and troops stationed on private property within inclos-ures of the owners without consent or authority; that should I attempt to mention all the complaints it would cover many pages, as wrongs have been done almost as numerous as there are citizens living in this portion of my precinct, to say nothing of adjoining counties; and that unless such outrages and wrongs are put an end to promptly so great is the fear and anxiety of the people that many of them will be forced to leave their growing crops and

starving herds.
"I further certify that many threats of a most serious character are being made and have been made by the commanding officers and others with expectation, no doubt, of extorting self-criminating evidence from good citizens whom I believe to be innocent; that in this section of the state, and especially in this county, the civil authorities are in every way ample to preserve peace and protect law-abiding citizens. Much feeling exists among the people and some excitement has been occasioned in

army circles and an official investigation will probably be ordered. FIRE AT HOT SPRINGS.

Postoffice Block and Fourteen Business Houses Destroyed Yesterday. Hor Springs, S. D., Feb. 28,- | Special Telegram to THE BEE.]-The postoffice block and fourteen business houses burned this morning between 2 and 4. It is supposed to have caught from a burning chimney. There were no facilities for quelling the flames, which caused a loss of about \$30,000. The insur-

ance is about \$17,000. Rapid City's New Industries. RAPID CITY, S. D., Feb. 28.- Special to THE BEE. J-Yesterday THE BEE correspondent visited the new chlorination works in the eastern part of the city. The buildings. which cover about two acres of ground, were commenced ninety days ago and are now completed. They are located in a perfect natural site for chlorination works, smeiters and similar institutions, being built on the side of a high bluff sloping down to the Rapid river. Severrl carloads of machinery have already been received and placed in position, and the superintendent expects to have all the machinery in place and to be ready to treat ore in less than sixty days. The grading of a railroad spur has been completed and the tracklaying gang is now

at work and expect to have all track laid within ten days.

The two main buildings of the works seen from the north or east are apparently five stories in height, but in fact only the northern parts of them are, the successive stories being built into the bluff. The railroad track is built to the south end of the buildings and from the cars the ore will go through immense bins on tram cars to the crushers and then to the rollers where it will be pulverized. Then follows the chlorination process, treatment to a chlorine gas bath and reasting, and in this connection the Rapid City Chlorination Works will have a paricular advantage over like works situated elsewhere. After experiments and thorough investigation it was found that the Rapid City gas works, arected a year ago after the latest and most approved methods, could supply the necessary heat at a less cost than he company could by using coal. Aside from this the gas will furnish a more intense, steady and easily regulated heat. The works will employ fifty men and at the first will not treat over 100 tons of ore per day. are so built, however, that the capacity car be increased to 200 tons per day and it is thought that the change will oe made within

CONDEMN THE KAISER. Chicago Germans Say Strong Things and Adopt a Memorial of Sympathy.

CHICAGO, Iil., Feb. 28.-Twelfth street Turner ball was filled to overflowing this evening with a demonstrative crown of Germans, who had assembled to listen to speeches upon the recent riots in Berlin. Addresses were made by Henry C. Bechtol, editor of the Fackel, Morris Schuttz, editor of the Fackel, Morris Schuttz, editor of the Arbeiter Zeitung, and others. All spoke in the same strain. Emperor William was denounced in the strongest terms, and every time he was scored a tremendous shout of approval went up from the audience Frequent reference was made to the French revolution of 1789, and it was declared that the Germans were ripe for a repitition of that event in their own country. What did at matter if blood were spilled in the cause of iberty and right! The hope was expressed hat the fight strendy begun would be con-

that the aget airceasy began would be con-tinued until the workingmen of Germany would obtain their rights.

Mr. Schultz said the riots in Berlin were not an uprising for bread merely, but for entire freedom. The attitude of the ou-peror had opened the eyes of the people and with well directed effort they would be able to defy his authority.

A memorial to the Germans of Berlin was

adopted. It extended to them the sympathy and moral support of the assembled work-ingmen and citizens of Chicago and urged them to keep up the fight against the op-pressors. Cheer upon cheer followed the adoption of the memorial and the meeting soon after adjourned.

was one of the worst of my symptoms, and sharp, shooting pains in the chest extending back to the shoulder blades. This was my condition when I called upon Drs. Copeland. Shepard & Mansfield. They gave me a thorough scientific and systematic course of treatment which was pleasant and. I must admit, very effective, for I am now feeling like a new man. I cannot say too much in praise of Drs. Copeland, Shepard & Mansfield for what they have done for me.

Mr. Clark resides, as stated above, at 4619 Douglas street, where he can be seen and will readily verify his statement.

FOUND AT LAST

After Years of Unsuccessful Search for a Cure, Martin Anderson Gets Relief from the Chinese Doctor-A Volum tary Test monial.

OMAHA, Neb., Jan. 18, 1892. To whom It May Concern; This is to certify that I have been a constant sufferer for many years with catarrh, asthma and bronchial affections of the throat, and tried all the patent medicines and remedies I ever heard of, but with no success. I treated with doctors in various parts of the country, but none of them could do me any good further than giving me shor temporary relief. I suffered night an day, and continued to grow worse not-withstanding all the medicine I had taken. I had almost given up my case as hopeless when I was informed by a friend of Dr. C. Gee Wo, the Chinese doctor, and advised to go and see him in the nope of getting relief at least, if not a permanent cure for my trouble. I was slow in making up my mind to make such a radical change in my treatment, as I knew a trial with the Chinese doctor would bring me, but I finally cen-cluded to give him a trial, so I called at his office with that intention. I tound the doctor a clever, entertaining gentieman, thoroughly posted on my condi-tion, and it took only a very short time to convince me that he was the party I was so long in search of. He told me my case was curable, and that he could cure me, and prepared me a special treatment to suit my condition, and in two weeks I was so much better that I had the fullest confidence in the doctor's ability and committed my case to his treatment. I continued to grow batter rapidly and am now entirely well. I owe my cure to Dr. C. Gee Wo, and am not ashamed to admit it. I advise all who want relief from their troubles to call on Dr. C. Gee Wo, and they will be cured. For all particulars apply or
