THE CONDITION OF TRADE

The Grain Market Has Been Rather Slow For the Past Week.

A REVIEW OF THE PRODUCE MARKET

Omaha's Jobbing Business Was Never in Better Condition Notwithstanding the Reports of Dullness Sent Out from New York.

The poor condition of country roads has wended to decrease farmers' deliveries of produce at country points and to the same extent has interfered with the trade of retail dealers. Conditions, however, arising from such causes, can be of only a temporary nature and will not have any important bearing on the trace in general.

The jobbing trade of Omaha continues to be unusually good for the season, and in almost every line jobbers are talking about an increase in the volume of business over last year, amounting to all the way from 20 to 50

there was never a time in the history of the city when the feeling was as good among the jobbers in all lines, nor was there ever a time when so few complaints were beard. Not only does trade come up to expectations, but it exceeds what the jobbers anticipated, Many houses have had all that they could do to keep up with orders. At the same time country collections have been reasonably

In view of these facts the reports telegraphed all over the United States by a certain institution, baving its headquarters in New York, that trade is quiet at Omana, seems very peculiar. Jobbers whose atten-tion was called to the matter said that they did not understand how such a report could originate, as it was certainly far from the

The Grain Trade.

The local grain market was rather slow last week. Country deliveries have been interfered with by the heavy country roads, and the offerings of grain have been light. The daily call has been discontinued by the Board of Trace owing to the impossibility of doing business to any extent under the pres-ent railroad rates. Omaha brokers and ele-vator men will continue to buy grain as here-tofore, but the bids will have to be based on Mississippi river points.

Grain men feel that no great grain market can be built up in Omaha until the railroads give stop-over privileges which will admit of the grain being brought to Omaha and in-spected, and either placed in elevators here or diverted to any eastern point desired. At present grain halted in that way has to pay the local rate into Omaha and the local rate out. The grain business is in about the same situation as the live stock business was when the yards were opened at South

The live stock market never amounted to anything until the railroads were forced to give stop-over privileges, and the grain men say that the same thing is true in reference to the grain market. Grain men point to the great benefits which Nebraska has derived great benefits which Nebraska has derived from having a live stock market near at band and claim that a good grain market would be of equal benefit. The grain men of Omaha, however, do not appear to be strong enough to force the railroads to give them

The Produce Market.

In country produce the changes have not been of a very marked character. The best grades of country butter are not pienty and have commanded good prices all the week. nave commanded good prices all the week. Poultry has been very steady with no quotable change in prices. Eggs have not been very strong and the week closes with a feeling among a portion of the trade at least that prices are about to go still lower. In the vegetable the spinach has put in an appearance the state of the spinach has put in an appearance the state of the spinach has put in an appearance the state of the spinach has put in an appearance the state of the spinach has put in an appearance the state of the spinach has put in an appearance the state of the spinach has put in an appearance the spinach spinach has put in an appearance the spinach has put in a spinach has put in pearance during the past few days. Easter-pearance during is not of very good quality, in fact hardly good enough to ship. Some California celery has been received, but there is none on the market just at present.

This month promises to about wind up the pple business. Good stock commands very satisfactory prices. Lemons have been arriv ing at the ports of entry more freely of late and prices are hardly so firm. Cranberries are to be had on the market at all prices owing

LIVE STOCK MARKETS.

Week Closes with Light Receipts and Rather Lower Prices.

Week Closes with Light Receipts and Rather Lower Prices.

Omara. March 5.—Receipts for the week foot up 12,495 cattle, 22,399 hogs and 5,298 sheep, against 13,01 cattle, 28,642 hogs and 8,077 sheep last week and 11,349 cattle, 40,281 hogs, 4,579 sheep the first week of March last year.

On all but heavy fat steers, good enough for shipping or exporting, the market this week has been very dull and unsatisfactory. For the better grades of cattle there has been a very fair outside demand, and as local dressed beef buyers also wanted this class of stock the active competition held prices up to respectable figures. Medlum fleshed and commonish cattle have been hard to sell all week, the inquiry for each being entirely local and rather indifferent at that. Light steers have also been selling badly, especially for the past two or three days, mainly on account of the greatly reduced demand for good feeders. These latter classes of cattle are selling from 10c to 15c lower than last week. Butchers and canneers cattle are selling at from 15c to 25c lower than a week or ten days ago. The supply has been more than ample, while the shutting off of outside butchers' orders has left the market practically to the tender mercles of local buyers. The feeder market has been dull all week and a beavy supply has accumulated. Prices are from 15c to 25c lower on about everything in this line.

Hors have sold ve y uneven'y and the general impression seems to be that we have seen the high mark for some time. Eastern shipping orders are diminishing and local ouyers being relieved in a great measure of outside competition are decidedly bearish. Prices are 5c to 10c lower than last week. Sheep values show no particular change, the supply being rather limited and the demand strong.

The week closes with a very fair run of

Sheep values show no particular change, the supply being rather limited and the demand strong.

The week closes with a very fair run of cattle, including a larger proportion of good heavy beeves than any day this week. Shippers and exporter, were active bidders on the best cattle but local buyers also wanted them. The result was an active, firm market on anything good enough to unite competition. Cudahy bought good cattle weighing around 1.5.0 lbs. at \$4.20 and \$4.50 to 1.500-1b. heeves sold from \$1.70 to \$4.15. On the under grades, however, the market was rather tame and spiritless, if not occasionally lower, fair to good 1,000 to 1,300-1b, steers selling from \$4.40 to \$4.50. Light and common steers sold around \$4.25 to \$4.40. Trading was only moderately active, but a good clearance was effected.

The supply of butcher stock was unusually limited and the fair to good grades naturally developed some little strength. The market was tolerably brisk and prices firm, but not quotably higher. Some very desirable stuff sold as high as \$4.00 to \$4.35, but fair to good cows and heifers went largely from \$4.25 to \$2.75 and canners from \$4.00 to \$2.00. Bulls, oxen and stags were steady at from \$4.55 to \$2.55 calves unchanged at from \$4.50 to \$4.00. It did not take very long to clear up the measure offerings.

There was a very dull trade in the stocker and feeder line. The small inquiry for feeders seems due, in a great degree at least, to the impassable condition of the country roads. At any rate fully 2,000 head of stock and feed-ing condition of the country roads. At any rate fully 2,000 head of stock and feed-ing condition of the country roads. At any rate fully 2,000 head of stock and feed-ing condition of the country roads. At any rate fully 2,000 head of stock and feed-ing condition of the country roads. At any rate fully 2,000 head of stock and feed-ing condition of the country roads.

Chicago Live Stock Market. Chicago Live Stock market.

Chicago, Ill., March 5.—[Special Telegram to The Ber.]—Prices for cattle today were firm at from \$1.25 to \$3.40 for poor to extra cows and heifers, \$1.50 to \$3.75 for bulls, \$2.25 to \$4.75 for stockers and feeders, \$3.15 to \$5.35 for dressed beef and shipping steers, and \$2.00 to \$4.35 for Tayas cattle. The general features dressed beef and shipping steers, and \$2.00 to \$4.15 for Texas cattle. The general features of the market were the same as for other Saturdays, a light supply, an indifferent demand and nominally unchanzed values. Prices are a little higher than they were a week ago for all descriptions of cattle, the market having grown gradually stronger since Tuesday.

With receipts of only about 12,000 head, the hog market was firmer, local packers wanted but few and the shipping demand was not at all urgent, but the meager proportions of the supply helped sellers to an advance, the market averaging 5c higher than at yesterday's close. Although no sales were reported at over \$4.00, there were a number of trades at \$4.95 and the greater part of the offerings changed owners above \$4.75. Closing quotations were from \$4.40 to \$4.95 for poor to prime light, and \$4.50 to \$4.95 for medium and heavy weights. Hogs weighing over \$50 lbs, are quoted from 20t to 40c under the above prices.

Trading in sheep was at about Friday's

over 350 lbs. are quoted from 20c to 40c under the above prices.

Trading in sheep was at about Friday's prices, or at from \$1.50 to \$6.15 for poor to extrasheep, and at \$5.00 to \$6.75 for lambs.

Receipts were: Cattle, 1,200; ho s. 12,000; sheep, 1,500.

The Evening Journal reports: CATTLE—Receipts, 1,500; shipments, 1,000; market steady; native steers, \$1.0068.1.75; stockers, \$1.7563.35; cows, bulls and mixed, \$2.0065.25.

THE SPECULATIVE -MARKETS

There Was a Decidedly Bearish Feeling in Wheat Yesterday.

TRADERS WERE CLEVERLY DECEIVED

Reported Crop Damage Which Caused Such Heavy Buying Friday Proved to Be Entirely False-How the Stories Were Circulated.

Crucado III. March 5 - There was a decid edly bearish feeling in wheat during most of the session and lower prices. The news pre-sented a sharp contrast with that which was given out so freely yesterday. The buils hardly got a single item in their favor, and the suspicion which started saying that trade had been eleverly deceived by manufactured ntelligence was strongly felt. The manufacturers who were represented as buying so vigorously only yesterday, and the damage to crops which they represented as so alarming, were scarcely mentioned today. On the conwere scarcely mentioned today. On the contrary, ducliness and apathy scemed to prevail everywhere. Amid so much that was bearish it is difficult to say what was the most depressing, but the measure exports from the seaboard for the week—only 2.21,801) less than for a long time—was very discouraging. The fact that much wheat was cleared from the seaboard yesterday was another bearish ite a. A published report on the condition of the winter wheat crop, the continued free movement in the northwest and the lower cables were likewise weakening in their tendency with the shorts and it did not take long for the crowd to get on the bear side with unusual animation. Longs saw all their hopes of profits shuttered and made haste to sell and others, takin; new courage, assisted in the decline by selling freely. There was very littly disposition to buy until there had been a decided recession in prices and even then it was mostly in the way of covering by shorts who had good profits in sight. Pardridge was a buyer and covered a big line of wheat. The last two weeks must have brought the great speculator big winnings. New Yorkers led by Cottreil, were heavy sellers from the start. The weakness continued throughout the session with no noticeable reaction and closed weak and only slightly above the bottom agares of the day at a loss of over 1 per cent compared with yesterday. May opened by lower at 19% only the yesterday. May opened by lower at 19% only to yell, went off to 19% of many for the weakness of the estimates and contained to a rance of \$\frac{3}{3}\end{c} and the list was \$\frac{1}{3}\end{c} and the weakness of the cash demand were depressing influences. The transactions were confined to a rance of \$\frac{3}{3}\end{c} and the list was \$\frac{1}{3}\end{c} and the weakness in the weakness in the weakness in the weakness in the sea of the confined to a rance of \$\frac{3}{3}\end{c} and the list was \$\frac{1}{3}\end{c} and the opening was a little firmer on accepts of oats than expected, prices held very well, closing wi trary, dudness and apathy seemed to prevall everywhere. Amid so much that was bearish

city, are spending a few days in the city. Mr. Bolin is the guest of A. T. Discotor, a relative of his.

The Guaymas orange, which is said to be of very superior quality, is grown from seed obtained from the crove belonging to the king of Spain. Although there is a duty of about sie a box on oranges a great many are shipped into this country from Mexico.

Mr. R. P. Serrano, from Guaymas, Mex., is in the city, the guest of E. B. Branch. Mr. Serrano is a heavy importer of oranges grown in the vicinity of Guaymas and does an extensive business through wholesale houses in Denver, Omaha, St. Louis, Minneapolis and other western cities. Guaymas is about 1,500 miles from Junaha and is the terminal polat of the Sauta F2 road on the Guif of California. It is a lively town of about 10,001 inhabitants, among whom are many Americans. Speaking about the difference in business metho is Mr. Serrano remarked that there was not a single bank in uniquas or for that matter in the state of Sonora. Every business house does its own banking busness, and as many of these houses are 100 years old they are regarded as more secure by the people than a bank would be.

Traders' Talk. Chicago, Ill., March 5.—Counselman & Day to Cockrell Bros.: Wheat opened weak under free selling by the crowd on account of lower cables and settled, mild weather. After \$\frac{4}{16}c\$ decline the market ruled dull until past noon, when light clearances and zenerally lower when light clearances and generally lower cables caused a further decine of %c, and the market closed without a rally, although New York and M.nacapolis reported a good export inquiry and a libereral amount worked on foreign orders. Cash stuff here is quiet and about %c lower all around for sample lots. Corn and oats were also about %c lower to shippers and futures, closing at %%de decline. Provisions were more active and a moderate business was done on outside orders. Some new buying was noticeable, based on decreasing hog products. The local crowd continues generally bearish on account of liberal stocks and an absence of speculation, which is attributed to the financial depression in the cotton raising states.

ally bearish on account of liberal stocks and an absence of speculation, which is attributed to the financial depression in the cotton raising states.

Chicago, Ill., March 5.—F. G. Lozan & Co. to J. Sands Commission Company: We have had a duli and dragging wheat market today. May opened at 90% to 10% and closed at 59% c. Cables are duli and a shade lower. The prime report is regarded as favorable for a good crop of winter wheat. In no district is there any winter killing, although the plant in many localities is thin. No clearances from New York and spring weather all over the country caused a week feeing and free liquidationaby holders. It is early in the season to conclude we have passed the danger line and that no serious damage can overtake the growing plant. Unless we have damage on a backward spring we will have lower prices. Present prices here are on a parity with foreign values, cost and freight. Our advices from Minneapolis are that the flour trade for export is good, at fully better prices than yesterday. A moderate business in corn with light fluctuation. May soid as high as 424c, closed at 424c. The shilpping demand containes good. The prospects now are that receipts will be liberal, and with any moderate increase we will sell le to 2c lower. Provisions closed at the highest holit of the day. Estimated hogs: Monday, 27,000 and for the week 130,000.

Chicago, Ill. March 5.—Kennett, Hopkins & Co to S. A. McWhorter: There has been free liquidation of long wheat on weaker cables, fine weather and a bearish crop report by Prime, who is supposed to be able to see rather more damage than any other crop expert. Foreigners take wheat freely, which is an encouraging feature, as it is evidence that they really want it and are trying to buy as cheaply as possible. Some continental cables state that damage by foost in France is serious and will have its effect lator on. The market is in shape to raily on builish news. The movement for the week would indicate little change in the visible supply but a moderate i

STOCKS AND BONDS.

Complete and Demoralizing Changes Occurred in the Whole List.

New YORK. March 5.—The stock market again showed evidence that the moving power behing the fluctuations 48 only manipulation and, while the strength of the whole list was very decided in the first hour, complete and demoralizing changes becurred at 11 o'clock and the most positive weakness marked the trading on the exchange for the last hour of the session. There were two principal causes advanced for this sudden change in temper one being the rumor revived of the death of Mr. Gould and the other was the appointment of a receiver for the Georgia Central raliroad The former, however, was quickly denied the latter was known before the opening of The former, however, was quickly denied, the latter was known before the opening of the session and seemed to have no weight during the first hour. There was beside a bank statement which showed a large decrease in cash, despite a moderate increase n deposits and a heavy expansion of loans, which caused a reduction in the surplus reserve of over \$5,000,000. This undoubtedly had some influence, but the downward movement was in full swing long before the issue of the statement. The market opened with a firm temper, and the who e list, with the exception of the Richmond & West Point securities and New England, scored further improvement in the first hour, there being up to that time no advantage to the Vanderbilits, though they were still strong, and Lake Shore rose rapidly from 1865 to 1475. Michigan Central more than keeping pace with it, with a rise from 117% to 110 on much smaller business. All the other stocks of this group felt the sthulus, and Northwestern and New York Central made material gains, selling up to the highest points for the week.

Up to this time the concessions in everything but the Richmond & West Point were insignificant. But that stock went down 15 per cent and r. tired further, while the preferred, after opening down 35 per cent at 65, further dropped to 64. In the face of the weakness in the rest of the list it rallied to 67,

but closed at 63. The general list quickly ran off in the last hour and heavy short sciling, to rether with the execution of some stop orders, accelerated the decline. Lake Shore dropped from 140% to 135%. Northwestern 121 to 119, Lackawanna from 163% to 150% and Delaware & Hudson 140% to 157% while the entire list was brought down below the list of yesterday. Advances were lost in all cases and in many additional fractions. The onshaught was kept up to the close and the market finished weak at the lowest prices of the day. Michigan Central was the only stock which held on to any portion of its advance, and it is % per cent higher tonight at 118, though the bid for it at the close was materially below that figure. The losses however, inclined Lake Shore and Delaware & Hudson each 3 per cent Richmond & West Point 3% per cent and New England and Missouri Pacific each 1% per cent.

Financial Review.

Financial Review.

New York. March 5.—The Post says:
A pyramid built on its apex may be reasonably expected to topple over when it is pushed. The market for the last few days has been precisely such an architectural monstrosity. In the face of a naturally heavy list, a group of professional operators have been forcing the most extravagant advances in prices. To explain this movement only two abologies for argument have been advanced—a stock dividend on Lake Shore and possible consumption of dividend during the week on St. Paul common. The first was doubted even by the enthusiastic buyers of yesterday; of the second possibility the professional traders have exactly as much knowledge now as the most ignorant outsider. The renewal this morning of the crazy buying in Lake Shore and its companions prepared the way more invitingly for the bear randers. The advances of four poh ts in this stock and of two in Northwestern were made in absolute indifference to the blow received by the Richmond Terminal reorganizers, which sent the stocks of that concern bowling down still from the start. Only one other factor was needed. Half an hour before the close the heavy decrease in the bank reserve was reported and then the market collapsed.

London Stock Market.

[Copyrighted 1892 by James Gordon Bennett.]

London, March 5.—[New York Herald Cabie—Special to The Bee.]—More business has been transacted in the Stock exchange today than has been the case for many Saturdays. Leading markets have presented a decidedly favorable appearance. Argentine government bonds are unaitered, while provincial loans have given away notwithstanding the premium of gold, having declined to 246 per cent. Home railways met with a fair amount of attention. The close was strong, the disposition being to take a more hopeful view of the outlook in connection with the threatened coal strike. In the majority of cases an advance of ½ to ½ per cent was established. American railways have been quite active and huoyant under the lead of Lake Snore, which advanced as much as 6½ per cent, Canadian lines have shown more strength in sympathy. Money has been in only moderate demand in Lombard street today.

Notwithstanding payments and repayments to bank, with an abundant supply of floating [Copyrighted 1892 by James Gordon Bennett.]

Notwithstanding payments and repayments to bank, with an abundant supply of floating capital, short loans nave been easily obtained at from 1 to 1½ per cent. Not many bills were brought forward. Those at two and three months were quoted at from 1½ to 1½ per cent. Cent.

FOR PARK SITES. Tracts Offered the City With Prices Attached to Them.

The Park commissioners held a short meeting yesterday to consider the various offers of park tracts in accordance with the recent resolution of the council. There were fifteen of these which were sent to the coun-

fifteen of these which were sent to the council without recommendation. The tracts offered are as follows:

V. G. Langtry offers 196 acres west and north of Newport, near Florence, including Vernon Heights, for \$41,90;

C. R. Shaw and E. E. French offer a piece of ground, eighty acres, a portion of which was included in the Langtry offer, lying north of Vernon Heights and Newport, at \$400 per acre.

of Vernon Heights and Newport, at 1800 per acre.

F. L. Blumer offers 160 acres, surrounded on the northeast and south by Benson's addition, at \$40,000.

The Omaha Heights syndicate offers eighty acres of land between Omaha Heights on the north and Central Park on the south for \$650 per acre. The Fremont, Eikhorn & Missouri Valley rallroad cuts through this piece diagonally.

Cyrus Morton offers the south half of the northeast quarter of the northwest quarter of

northeast quarter of the northwest quarter of section 23, township 15, range 13, twenty acres in all, at \$1,5.0 per nere; also eighty acres of the south haif of section 33, township 15, range

in all, at \$1.5.0 per nere; also eighty acres of the south haif of section 3., township 15, range 13, at \$47,009 per acre.

D. P. Redman offers sixty acres of ground west, adjoining Omaha Heights and Vernon heights, for \$550 per acre. Also forty acres, including a portion of Bartalow's subdivision, south of the above offer for \$550 per acre. Claus Slevers and Otto Bittorff offer 550 acres lying west of Little Paphilion, in section 22, for \$550 per acre.

Erastus A. Benson and A. P. Tukey offer eighty acres north and east of Benson's addition and west of Mapleton for \$550 per acre.

J. M. Woolworth and A. J. Poppleton offer what is known as Sulphur Springs reserve and block 7 in Sulphur Springs addition in the city of Omaha, about nine acres of ground, for \$55,00,0,00 condition that \$10,000 be expended the first year for improvements, etc.

Charles Turner proposes to soil lots 1 to 10 and 15 to 24 inclusive, in block 2 of Summit place, also lots 1 and 2 in block 3. West End addition, for \$52,000.

M. T. Patrick offers nine acres at the northwest corner Lake and Twenty-fourth streets, at an appraised value.

The O. F. Davis company offers the sw 15 of section 23, town 15, range 12, 163 acres, half a mille west of Elmwood.

A committee consisting of Judge Luko, Messrs, Millard and Lininger was appointed to see Mr. H. G. Clarke and offer \$1,000 per acre for the thirty-three and a fraction acres

acre for the thirty-three and a fraction acre between Sackett street on the north, Ninth street on the west and the B. & M. tracks on the southeast and east.
The board will tomorrow drive over the proposed southwest boulevard.

TAKING THE TOWN.

Felegraph Linemen Capture Farnam Street and Tear Up the Sidewalks.

At an early hour yesterday morning fifty or nore telegraph linemen, with picks, axes and shovels, were on the streets. They stationed themselves in squads at the several stree corners and in the middle of the blocks.

The command was given by the foreman and a few moments later huge blocks of permanent sidewalk were torn up and thrown not the gutter. Property owners along the north side of the street, where the walk was being destroyed, protested, but the protests were of no avail, as the man in charge flashed his authority and urged his men on in their work. The authority came from Jack Galligan

chief of the fire department, and in brief stated that the Postal Telegraph company had received his permission to place pole from its office on Douglas street to Farnau and Thirteenth and thence west to Eighteenth street.
The mayor, the chairman of the Board of Public Works and the city clerk were visited

by the irate property owners, but the only consolation that they could give was that they knew nothing about the matter and that they had given the telegraph company no permission. Dr. Miller, general manager of the New York Life company, stated that it was a shame and a disgrace but he did not know of

any way of stopping the work.
Alfred Millard of the Commercial National bank said that he felt disgusted. He talked injunction, but when Gailigan's permit wa exhibited he subsided. Other property owners felt the same, but they did not succeed in stopping the work. In the meantime the work of clevating the

poles went on until now a long line of addi-tional ugly poles rear their heads fifty feet in the air along the principal street of the city.
The Postal people smiled at the anger ex pressed by the propie along the street and mildly explained that they were acting under authority granted by a city official. Their

intention, they said, was to have the poles for their own use and at the same time they would allow the motor company to attach its None of the city officials seem to know whether or not Chief Galligan had authority

to grant the permit, but they are free to ex-press the opinion that no other company could tear up the pavement and the sidewalk without first obtaining a permit from the Board of Public Works.
To say that the additional poles disfigure the north side of Farnam street goes with-

arms they give that side of the street the appearance of a dead forest. BLASTS FROM RAM'S HORN.

Two Young Men Jailed by Federal Authorities on a Serious Charge.

CLAIMED TO BE SUN REPRESENTATIVES

When they tried to Blackmail a Young Man the Postoffice Officials Took a Hand and Blocked the Game,

The federal authorities at the Omaha postoffice made a very simportant arrest Friday night, and followed it yesterday with two more.

About two weeks ago a well known young man who moves in good society in this city received a letter that brought great drops of

perspiration to his brow and made his "hair stand on end like quills upon the fretful per-cupine." It read after the following fashion

Threatened to Expose the Victim. Dear Sir—I wish to make you the following proposition, and leave it to your judgment as to whether the conditions shail be compiled with or not. I know all about your relations with Mrs.—. Now I wish to say that the entire story will be published in the Kinsas City Sun unless you send me \$100 to have the matter suppressed. If you will send me a letter containing five \$20 bills, neatly fo'ded and wrapped in paper so that no one will detect it, the article will be suppressed. Do not send the money in a registered letter. I will not receive a registered letter. Send it in an ordinary letter addressed to Fred Freeman, Omaha, Nebraska.

P. S.—Attend to this matter at once or you will be exposed and a marked copy of the Sun containing the article will be mailed to your mother in——.

Didn't Send the Stuff. Dear Sir-I wish to make you the following

Didn't Send the Stuff,

The recipient of the above delightful mossage had a prolonged attack of insomnia the night after he perused the contents of the letter. In the morning he awoke fully con-vinced that virtue was its own reward and vinced that virtue was its own reward and that corrupt morals come pretty near furnishing adequate punishment in this world without considering the world to come. He was just about to carry his watch, his best suit and his diamond shirt study to the pawn shop for the purpose of raising \$100 with which to satisfy the demands of the black-mailer, when suddenly the dastardly meanness and unlawful nature of the case flashed upon him. To think in that strain was to act and in just four minutes he was in a law office in just four minutes he was in a law office laying the particulars before a friend of the

legal profession.

That same day the postmaster and Inspector Brown of the postoffice department, were put in possession of the facts in the case and they began preparing the trap which finally caught the perpetrators of the blackmailing scheme.

Caught by a Decoy Letter.

A letter was written and mailed to Fred Freeman according to the directions of the blackmailer and then a watch was put on to arrest the party who called for the letter. It was an easy mark, showing that the parties were either very bold and rash or entirely inexperienced. Between 5 and 6 o'clock last evening a young man walked up to the general delivery window at the post-office and asked if there were any letters for Fred Freeman. The signal was given, and while the clerk was shuffling through the letters a deputy United States marshal walked out in the hall, and just as the young man took the letter addressed to Fred Freeman the deputy tapped him on the shoulder and the sh and made him a prisoner. It was now time for the excessive perspiration to flow from parties acting the other side of the play.

The young man arrested gave the name of J. E. Wallenbaupt and said that he had no connection with the scheme at all. He declared that he simply asked for a letter at the request of a friend and he had no knowledge of the contents. Mr. Wallenhaupt was informed that his story might be perfectly correct, but he would be obliged to divulge the names of the parties interested in the scheme or suffer himself in their stead. He finally gave the names of W. G. Bruce of South Omaha and R. De Joci of Omaha as being the guilty parties.

Two Confederates Captured,

Warrants were issued for their arrest and at 11 o'clock Friday night Mr. Bruce was taken into custody, and yesterday forencon Mr. De Joci was arrested.

When the deputy marshal and Inspector Brown became convinced that Wallent had told the truth about his connection with W. G. Bruce has been for some time employed in the business office of a large pack-ing house at South Omaha. His father is the

European agent for the same concern, and it s said that Bruce comes of a family very nighly respected. De Joci is a young man formerly employed by the Bradley Manufacturing company. He and Bruce have been chums for several

months and Wallenhaupt was simply an acquaintance.
The preliminary examination will probably divulge the fact as to whether or not these young men had any connection with the Kansas City Sun or whether they were sim-

ply using the reputation of that sheet as a club with which to extort money by a blackmailing process. Bruce Also Released.

Mr. Bruce stated to the United States at-torney and Commissioner Dundy that he had nothing to do with the black mailing letters. He stated that he wont to the county jail late Friday night at the urgent request of De Joci and then started out to secure a bonds-man for his friend. He was surprised when he returned to his hotel and found an officer awaiting him with a warrant for his arrest. He thought that De Joei must have furnished the information which caused his arrest, but declared that he had nothing to do with writing the letter. Mr. Bruce was re-leased but De Joci was held.

Fully Exonerated.

District Attorney Baker has written the following letter to the mother of Mr. Wallenhaupt, the young man who figured in the above case:

OMAHA, March 5 .- Your son informs me you are considerably agitated over his sup-posed connection with violation of the postal law by sending improper mailing matter through the mails, wherein W. G. Bruce and R. De Joel were held to appear before the next term of court. Permit me today, as per request of your son, that your son, J. E., is not guilty of any violation of law. He only did an unwise thing to please a friend, that is, he called for a letter, the calling of which told the story of who sent the unmailable matter. Your son calling for the letter led the United States authorities to suspect your son of knowledge of the letter to which the one called for was a reply, but his story of the matter was fully corroborated by all parties and your son is exonerated of any inten-tion of wrong. Trusting the above may be of some comfort to you, I am, madam, re-spectfully yours, B S. BAKER. spectfully yours,

DeWitt's Sarsaparilla cleanses the blood, increases the appetite and tones up the sys-tem. It has benefitted many people who have suffered from blood disorders. It will

Vanderbilt and Gould.

Rumors of a change in Union Pacific affairs from Gould to Vanderbilt management continue to accumulate. A railroad man on the inside says that the New York Central magnates, who have a powerful interest in the Northwestern, have been investigating the cause of an alleged falling off in the trans-continental traffic of the latter road.

Under the compact of 1885 the Union Pacific should turn over its east-bound business to the Northwestern, but it is alleged that Gould is delivering a large slice of this traffic to the Missouri Pacific. Some time ago Tus BEE explained a scheme in operation to send traffic east from Omaha by way of the Mis-souri Pacific and the Santa Fe to Chicago. By that deal the Missouri Pacific gots 40 per cent of the earnings from Omana to Chicago, while the Northwestern gets left. That arrangement does not rob the Union Pacific, but it is now asserted that consider-

able cast hound business is being diverted from the Union Pacific at Cheyenne to the Denver Pacific, which turns it over to the Missouri Pacific at Denver. This is said to one of the discoveries resulting from the

"Late to bed and early to rise will sborten the road to your home in the skies." But early to bed and a "Little Early Riser," the pill that makes life longer and better and wiser.
