THE SPECULATIVE MARKETS

Everything on the Board was Weak and Lower Yesterday.

WHEAT TOUCHED THE LOWEST POINT

Estimates of the Government Crop Report Showing Large Supplies of Cereals in the Hands of Farmers Had a Bearish Effect.

Curcago III. March II - Everything on the board was weak and lower today and wheat southed the lowest point yet recorded to last year's crop. A couple of days ago the May future went down to \$750, the lowest figure up to that time, Tuesday it struck 884c. The government estimate issued yesterday after-noon, after the close of the board, showing extremely heavy reserves of wheat and corn still in farmers' hands, had a bearish effect on these cereals and hog products were affected sympathetically; but the chief bearish feature was a report that the anti-option bill in congress would come up for action on Monday. In addition to this the weather gave promise of decided improvement, thereby rendering the situation in the winter wheat country less perilous and cables were weaker, showing that foreigners put bearish interpretation on the government estimate. More-

on the government estimate. Moreover New York had heavy selling orders at the start and Lester sold fully 1,000,0 o bu, for that account within the first hour. With the break there was some free covering by shorts and all the hard spots short sellers were getting out all they could and the longs were unloaded. Pardridge drove a good deal of short wheat around 88c but was a generous seller at 884c and above. May opened at 1se lower at 884c, fluctuated for a time but went to 884c, when the selling became more urgent during the last hour and the price touched 874c, was nervous and irregular near the close but closed steady at 574c.

Corn was very weak. In addition to the depressing influence of the government estimate futures in Liverpool were 14d lower and holders sold vigorously. It opened 14c off but the market was sick from the 8t art, declining throughout the session till near the close, when it reacted a point and closed with a loss of 15c.

Oats were active, but were in sympathy with the break in wheat and corn and closed with a loss of %c.

Hog products opened rather strong on account of the light receipts of and higher prices for hozs, but the weakness in grains and some heavy selling by longs caused a decline till near the close, when there was a slight reaction. Pork shows a loss of 17%c comp red with yesterday. Lard is 5c lower and ribs are off a like amount.

Estimated receipts for tomorrow: Wheat, 142 cars; corn, 223 cars; oats, 135 cars; hogs, 11,000 head.

CHICAGO, Ill., March II.—F. G. Lozan & Co. to J. Sands Commission company: The action of today's wheat market has demonstrated the actual reading of the government report by the grain trade. Last night and this morning the general sentiment was that it was a builish report, but expressions have proved that the parties were evidently trying to lead themselves by their bootstraps. The selling has been largely long wheat and some of it by large influential holders. A moderate number of short contracts have been put out and tonight it looks live the tirea, scattered ion; interest would be more apt to liquidate than the sellers who have profits. Export demand moderate, showing a decided falling off from yesterday's range in price. Corn heavy from start to inish, receiving houses good sellers as well as tired iongs. A moderate export demand. Oats active around 39e. There was considerable buying done on old outside orders. The local crowd were the best sellers. Provisions rule weak, declining under moderate selling by a prominent local operator and liquidation by longs. Shorts were the principal buyers. The market closes at about inside prices and the government report. It was noticeable that the closing pinces of vesterialy were depressed by liquidation by longs, influenced by improved weather, lower cables and the government report. It was noticeable that the closing pinces of vesterialy were the high figures made on the momentary opening raily in May wheat. In corn and oats intic attention was paid to outside news, other than to English cables. That these were depressed seemed to be sufficient cause for general selling. There was but little raily in anything and wheat and corn finally closed to lower. Oats closed 5c lower and duil at the decline, indicating that liquidation is not quite complete. Provisions suffered with the rest of the market under sales by tired longs. Pork declined 35c, railied 74c and closed steady. Lard and rise eased off 74c and closed firm at 5c ectine. The shipping demand was good but there

STOCKS AND BONDS.

Transactions in St. Paul Gave Way to Excitement in the Conters. New York, March 11. - The St. Paul matter in the stock market gave way to the re-newal of the excitement in the coal stocks today, and while the general list was still

very quiet, even to du ines, the amount of bus,ness done during the d y by Robson in the shares was very material. The interest in the St. Paul dividend scenaed to have been exhausted by the time the board opened this morning, and while St. Paul opened down 's per cent at 77, it railled partially and showed a stendily dubading volume of business at practically unchanged prices. The passage of the bill in the New Jersey legis ature to legalize the compact between the coal comp nies, however, became the cause of a new movement among those stocks, and their old activity was renewed and their prices mounted quite in the old style. The only other feature of note in the market, and one which is not regarded with quite as much favor by those who look for a new upward movement based on real values, was the renewed animation in the industrials, which were both prominent in the dealings and almost as strong as the coalers.

Surar and Distillers, however, monopolized this new movement, while Cordage. Chicago Gas and others were kept quiet with the general railroad ist. Among the low priced shares only Buffalo. Rochester & Pitttburg showed signs of iffe, and they soon subsided in the face of more attractive metal mention. There was some buying of and apparently for the London account and New England displayed some activity and strength, but none of the other railroad stocks showed any animation throughout the day. The opening of the general market was at lower figures and St. Paul was down 's per cent and afterward: reached even better prices. The rest of the market soon developed strength, though it was not until toward the close that the meaning of the action of the New Jersey legislature was seen and then there was a scramble for the coalers. Reading rose to 56, Luckawanna to 163, Jersey Central to 1435 and Delaware & Hudson to 1415. Thore were rumors later of negotiations between the Sugar trust and other outside refineries and these created a demand for that stock which sent the common the pupure of sarged prices were steady.

State bonds have been entirely neglected.

Financial Review.

New York. March 11.—The Post says: The furious bidding in the coal stocks encouraged a few sympathetic advances in Lake Shore & New England, while Distilling trust at a respectable distance followed. But the transactions even in these were insignificant and the majority of the stocks on the market barely stirred. The sharp advance in Richmond Terminal preferred was made, it will be observed, on purchases of the most insignificant volume. Quite naturally the supineness of the general list provoked realizing in the acrobatic stocks of the day and there were several reactions in the last hour. But the trading ended as it began, purely professional. Financial Review.

London, March II.—[New York Herald Cable—Special to The Bee.]—The settlement has been satisfactorily concluded. In the Stock exchange today no difficulties were reported. New business has been on a very small scale. A slightly firmer tenden y in money caused consols toglye way 1-16 per cent. Home ratiways, after showing considerable depression owing to the impending co il strike, closed with a better tendency. Brighton left off 4 per cent higher and a small rise is marked in Great Eastern. Great Western. Metropolitan and North British. American rallways leave off strong, after having been dull and unsettled. Canadian lines are strong in sympathy, especially Grand Trunk Issues, which are from ½ to 4 per cent higher. Foreign railways met with moderate attention. Mexican fluctuated a good deal, ordinary and first preference are 4 per cent higher, while second preference are 4 per cent higher, while second preference are 4 per cent market has also been firm, two and three months' bills being quoted at 14 per cent.

LIVE STOCK MARKETS.

Extremely Light Receipts Find Eager
Buyers at Advanced Prices.

OMAHA. March II.—Receipts for the past five days, 10.121 cattle. II.345 hozs and 4.30 sheep, against 10.288 cattle. 18.12) hogs and 4.948 sheep the corresponding live days of last week.

Receipts of cattle were the lightest in nearly three months, or since Christmas. While there were hardly cattle en uigh here to make a market, the sudden falling off in supplies has had a very beneficial effect on prices in general, a good share of Wednesday's sharp decline being regained. The market was active and stronger, and if there had been three times as many cattle here business would probably have been more lively and the advance more marked. As it was, on account of the limited supply and generally indifferent quality of the offerings shipping and export myers were handleapped and bought only a few londs of 1.200 to '.400-ib, steers at from \$3.55 to \$4.05. Dressed beef buyers had good orders and took handy 1.100 to 1.200-ib steers at from \$1.35 to \$4.05. Dressed beef buyers had good orders and took handy 1.100 to thigher than Wednesday, the low day of the cattle selling all the way from strong to 10c higher than Wednesday, the low day of the week. Nearly everything had changed hands by closing time.

There were not over ten loads of butchers' and canners' stock in the yards. In fact for a week past the supply of cows and mixed stock has been comparatively small and for this reason prices have been fairly well maintained notwithstanding a decrease in outside orders. Trading was active and prices 10c to 15c higher than Wednesday, Good to choice cows and helfers sold from \$2.25 to \$2.65 and a few canners from \$1.50 to \$2.00. A few odd bulls and stags sold at fully steady prices from \$2.40 to \$4.00. Veal calives were in active demand and strong on the basis of \$2.25 to \$2.65 and a few canners from \$1.50 to \$2.00. A few odd bulls and stags sold at fully steady prices from \$2.40 to \$4.00. A per series were not noticeably changed, sales being largely from \$2.40 Extremely Light Receipts Find Eager Buyers at Advanced Prices.

HOGS—Light receipts, favorable eastern advices and a fair local and shipping demand gave us a strong, active market from start to finish. Prices were about 10s higher than Wednesday on all grades. Shipping and fresh meat buyers paid \$4.70 to \$4.89 for good light and butcher weight hogs and common. heavy and mixed packers sold at from \$4.65 to \$4.72\footnote{4}. The pens were cleared early, the meager receipts changing hands by 10 o'clock, the buik selling at from \$4.75 to \$4.75 aga nst \$4.65 to \$4.65 Thursday, the average of prices p 1d being \$4.72 against \$4.62\footnote{4} Thursday and \$4.54\footnote{4} Friday of last week. The market is now at the highest point touched since October 6, 1891. Representative sales:

Chicago Live Stock Market.

Chicago, lii. Maréhi II.—[Special Telegram to The Bee.]—There was a biz decrease today in the arrivals of cattle. As a consequence the market took on different tone. It did not advance to any norable extent. Local dressed beef firms, eastern shippers and operators all bought more or icsseffeely on a basis of from \$1.00 to \$4.50 for very common to good steers and from \$4.50 to \$4.50 for very common to good steers and from \$4.50 to \$4.50 for very common to good steers and from \$4.50 to \$4.50 for year common to good steers and from \$4.50 to \$4.50 to \$4.50. Cows and helfers were in demand at from \$4.50 to \$3.50 for poor to extra qualities and sales of bulls were reported at from \$4.50 to \$4.75. Stockers and feeders continued in active demand at from \$4.25 to \$4.75.

There was continued it mness in the hog market. Prices now show an advance on Wednesday's quotations of fully loc. There were sales of light bogs as high as \$5.00 and from \$6.00 to \$6.07% was paid for medium and heavy weights. Foor lots changed hands at from \$4.50 to \$4.55 and there was trading in culls at from \$2.50 to \$4.25. But while the range of values was thus wide there was little business outside of the limits of from \$4.85 to \$4.00. Closing quotations were from \$4.85 to \$5.00. The sheep and lamb market there was little change. The tone of the market appeared to be less firm than earlier in the week but nominally values were steady. There was an active deman! and a liberal supply at from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and at from \$4.50 to \$6.00 for poor to choice sheep and l Chicago Live Stock Market.
